

Henry Masters Ascended

The Masters are really the spiritual grandparents of Great Britain. Henry spent a lot of time in America with Master Marine, following True Parents' call to action in 1978. Prior to that, the Masters donated their entire family fortune to True Parents in 1974. In this photo, Henry can be seen just over True Father's shoulder during a 1978 visit to the farm. A second photo shows Henry with True Father in the boat-building days.
