We have created a YouTube Channel for Arabic Divine Principle Lectures, based on an Islamic Perspective. ([Click to visit the channel](#))

These videos are founded on my book "United Visions", a book took me more than 20 years to prepare and publish. I have found that the interfaith and unity call, among believers in the Koran, is strong and clear. On that spirit I wrote "United Visions" as an Islamic Perspective on the Divine Principle.

United Visions is an Islamic reading for the Divine Principle (The main teaching of Dr. Sun Myung Moon) the founder of "Universal Peace Federation" (UPF), and "Family Federation for World Peace and Unification" (FFWPU). "The Divine Principle" will soon be published in Arabic.

"United Visions" is an approach for building a common platform for Muslims, Christians and Jews. "United Visions" says that God has one plan and one goal for all religions. It is to prepare man for a final restoration or salvation through the coming of the New Adam and New Eve. United Visions is available in [Arabic](#) and [English](#) in Amazon. Soon it will be available in French.

[Please subscribe](#) and share it with the Arabic speaking people you know.
