

# Japanese Cultural Event Held in Moldova

*Mihai Calestru - April 17, 2019*

An audience of nearly 30 in the Moldovan town of Ialoveni came to a demonstration of Japanese culture organized by our members. The event was held on April 17 in the public library of the town, which is located near the national capital of Chisinau.

Several young Japanese volunteers gave a beginner's course in origami, the Japanese art of paper folding. The young ladies also introduced Japanese culture to the audience, which represented three generations.

At the end an agreement of cooperation was signed between the Family Federation and the public library. Our members presented a copy of True Father's autobiography to the library as a gift.
