

Workshop for Tribal Messiahs

Colle Mattia, Italy, 2. – 3. August 2014

With a participation of 40 brothers and sisters, including 15 2nd generation, we held a 2 full days WS for Tribal Messiahs, in our training center of Colle Mattia, Rome.

The program included:

- God and True Parents after the Foundation Day
- The Blessed Family after the FD
- The role of the father in a Blessed Family
- The Role of the mother in a Blessed Family
- Children of Filial piety
- The ceremonies in the Unification Tradition: how to perform each of them
- The Family Pledge: an in depth explanation of the life centered on it.
- Absolute sex and confrontation with the society: Scientific, Christian and Unification view.
- Witnessing and home groups

Following each lecture, we had quite long group discussions. The groups were divided time by time according to the topic: mixed, 1st gen. male, 1st gen. female, 2nd gen male, 2nd gen, female. At the end of each day we had a session reporting the outcome of the discussions.

We shared moments of intense commotion and deep feelings, but also moments of cheerfulness and joy, while sharing our life experiences. We really felt as one family, in which we could overcome and even heal any difficulty and suffering, thanks to the wonderful inheritance received from True Parents and through a culture of sharing.

Inspired by the success of this WS, we will organize it again for the brothers and sisters of the north Italy, very soon in September.
