A message from WFWP President in Bergamo/Italy - Bergamo is currently the hardest-hit city in Italy, by Covid-19. Their Board of Directors decided to donate € 1000 in support of a project to relieve the hospitals and host the patients who have been discharged from the hospital and who have to make a period of convalescence without being able to be hosted by their families:

"Dear friends of the WFWP - Bergamo, last December, as you will remember, we organized a charity lunch in favor of the projects for women and children followed by WFWP Nepal which allowed us to collect € 1,000.00.

Given the situation in Bergamo at this time, with above all health difficulties, the Board, after having also informed the WFWP NEPAL of the situation, decided to modify the recipient of our collection and to donate the sum in favor of the solidarity chain for hospitals "ABITARE LA CURA" to raise health facilities and families in some of the most delicate phases of the treatment of coronavirus patients with bank transfer in favor of ASS. DIAKONIA ONLUS - CORONAVIRUS EMERGENCY (IBAN IT53I0311111104000000002721).

A small proposed and shared gesture that came from the bottom of the heart to show solidarity with all the people who in various capacities are working tirelessly to treat those who at this moment have the misfortune of being hit by the spread of the coronavirus.

We are sure that those who contributed to the fundraising share our choice and wish everyone a good health and a good day !!!

Giannina
President of WFWP - Bergamo
