

## FFWPU Brazil: Blessing Preparation Seminar for Second Generation Candidates

Maria Dolor Barbosa das Gracas  
March 27, 2022

We organized a Blessing Preparation Seminar for second generation candidates on March 25 to 27, 2022 at our headquarters. This program was to help the candidates revitalized their knowledge of the Divine Principle, to understand better the meaning and significance of the Blessing to prepare them better internally to receive the Blessing. There were 100 participants but around 70-80 were Blessing Candidates, some leaders, matching supporters, parents, blessed family department Leaders and staff were there, too.

The lecturers gave deep and wonderful lectures that truly inspired the participants. The atmosphere of the seminar was so internal. 47 Second generation candidates will participate this time for the Hyojeong Cosmic Blessing 2022.

### Reflections

"First of all, I thank Heavenly Parents and True Parents for the opportunity to be able to participate in this amazing Blessing preparation seminar. The contents of all the lectures given were very good. I had several points of improvement and clarification about the value of keeping the pure lineage inherited from the True Parents, that the Blessing is not a simple marriage and the motivation I should seek to receive the blessing and eternal love that Heavenly Parents and True Parents are preparing for my future. The seminar period was very significant for me. Thanks again for the opportunity!"

"... I am very grateful to Hanulponim for the opportunity to participate in this seminar. I thank the blessed family department for preparing this seminar and all the dedication and love they put into making it happen. I was able to better understand the responsibility that we have as children of True Parents at the moment of receiving the blessing, since it is not like any marriage in the secular world..."

"First, I would like to mention that I am very grateful for this workshop. I did not expect to be able to get so much out of these 3 days, because I had already participated in the same seminar other times, so I thought that I was not entering for the knowledge but to receive the certificate. But I ended up getting a lot of answers to inner conflicts that I didn't even know I had. But I can say with great certainty that I am very happy to be able to receive everything I received and even to be able to offer my help with the translation. Thank you very much."
