## "We want more!" say Chosen viewers

4,000 people tuned in live for True Parents docuseries

6pm is fast becoming prime time viewing for thousands during this COVID quarantine. The response has been incredible to the first two episodes of "Chosen: Discovering the Life of True Parents". Despite the physical distance and social isolation we are all experiencing, viewers are expressing their gratitude and feeling of deep connection with each other and True Parents in the live chat room each night.

"This is so deep. You are giving us a glimpse into events we all know about – but we are now understanding the people, the places, the members who have been making and pioneering this providential history," said viewer Nadine Andre during last night's episode on Africa. "I can't wait until this is the history that is taught in schools!"

**Forever Access** to the series is available for purchase, including all 21 episodes

once they air and special bonus features. Early Bird price is **75% off!** Get it now, enjoy forever. You can also tune in live 6pm every day at [chosen.familyfed.org](https://chosen.familyfed.org)

## We Are Universal

*Dr. Ki Hoon Kim's words at the weekly leaders meeting on May 26, 2020.*

People are looking for the Second Coming of the Messiah, for figures like True Parents. I truly feel this is what they are longing for. When I speak during the National Family Service, I intentionally try to testify to True Parents and Heavenly Parent more than anything else. Our Sunday service is universal, not just for guests or blessed central families. Our service is centered on True Parents and Heavenly Parent. It is universal.

Yesterday, after the first day of this series, a young participant asked if this series was for guests or for Family Federation families. Please don't think this way anymore. We shouldn't think about who the workshops are for anymore. This is universal, for everyone. As disciples, we have to share the universal language. These are God-centered and True Parents-centered life course series. We need to be proud of and testify to True Parents. This is the purpose of the Divine Principle lectures and this global 21-day series – discovering the Life of True Parents.

Thank you so much for your support. When we unite, we can do anything and we can see miracles. We are the kingdom builders. We can even build God's kingdom. This is a miracle and we can make it.

Thank you and God bless you all.
