## **The Future is Bright as We Unite!**

Dear Brothers and Sisters,

On Friday we celebrated with 308 CheonBo couples and their families from North America, and on Saturday evening we participated in a wonderful Victory Celebration with True Mother and leaders from around the world, which essentially brings our 40-Days of Hope commemorating the 8th Anniversary of True Father's Holy Ascension to a victorious close. Congratulations brothers and sisters!!! Thank you so much for your participation, support, prayers and attendance to our beloved True Parents.

Our wonderful CheonBo couples are currently offering a special 21-day prayer of gratitude to Heavenly Parent and True Parents. We are proud of them, and deeply grateful for their loyal dedication.

It is amazing what we have been able to accomplish over the last 7 years in America under Dr. Kim's leadership. Even as recently as three or four years ago, we were aware of only three or four families that were active in Tribal Messiahship, and now we have over 300 families inducted into the CheonBo Won with many more following suit!!! This is truly a miracle.

So what next?

The first step, like Dr. Kim mentioned again on Sunday, is to totally unite with True Mother. Always. Our Heavenly Parent's plan goes so far beyond our imagination and way beyond our personal sphere of awareness, so thank God that True Mother is guiding us. What we can do is help one another.

Our community, and therefore our influence in America must grow. We must have confidence that we can grow our community and influence. Every family is destined for the CheonBo Won, so let us support others along their way. Imagine if every CheonBo family determined to help 12 other families to complete their CheonBo conditions. Do you think that would make True Parents happy? Yes, we think so.

True Mother is expecting America to lead and influence the world to unite with our True Parents. That is because it is God's Will. If it is God's Will, it is purposed, and it is possible. It will always be our blessed central families at the heart of that

victory. Please know how precious you are and how much impact Heaven can have through your activities centered on True Mother.

Do you feel urgent? True Mother completely feels the pressure of time, and is absolutely determined to amass a movement of faithful people equal to at least one third of the world population by 2027. Do you think it's possible? It may not end up looking like what we expect, and is probably not possible according to our ideas, but it is most definitely possible if True Mother has stated it as a goal. No matter what, I can say with 100% confidence that all we have to do is our responsibility, which is what True Mother is guiding us to do. So let us do it with the confidence of a heavenly army. Yeah!

We are truly blessed, more than we realize. So let us share the blessing and education with all of America, starting with those closest to us, and going all the way to the president. No one is out of reach with God's hand.

God Bless you congratulations on completing the past 40-Days of Hope!

With love,

Demian and Yumiko Dunkley

From across the U.S. and Canada, hundreds of Unificationist families virtually joined [Mother of Peace](#) Dr. Hak Ja Han Moon during the 2020 CheonBo Festival on October 9 celebrating the centenary and 60th Holy Wedding Anniversary of her late

husband Rev. Dr. Sun Myung Moon. The festival, broadcasted through PeaceLink, also honored 308 extraordinary North American couples who were inducted into the [CheonBo Won](#) Hall of Honor for their achievements in public outreach.

The festival featured a profusion of lovely Korean performances; distinguished guest speakers, including a special message from the Mother of Peace herself; and a beautiful video montage commemorating Rev. Moon as well as honoring CheonBo Won inductees.

Multiple communities hosted local ceremonies coinciding with the festival, while other families celebrated from their homes.

Here is a snapshot of reflections from couples who were recently honored as well as other festival participants:

*“Knowing that we could be a part of this beautiful celebration with Mother Moon deeply inspires us to do more. During the ceremony we felt that we wanted to share this great blessing with our ancestors and our descendants. We also feel that from this time on we want to continue to share the incredible, historical blessings we have received with the rest of God’s children so that we may firmly stand together as God’s filial son and daughter. We are eternally grateful.”* — Richard & Keiko Van Loon, California

*"Knowing that we could be a part of this beautiful celebration with Mother Moon deeply inspires us to do more. During the ceremony we felt that we wanted to share this great blessing with our ancestors and our descendants. We also feel that from this time on we want to continue to share the incredible, historical blessings we have received with the rest of God's children so that we may firmly stand together as God's filial son and daughter. We are eternally grateful." — Richard & Keiko Van Loon, California*

*“Our hearts were deeply moved as we took part in the Cheonbo induction ceremony and observed the beautiful program in our home with our family. We were truly blessed to hear Mother Moon’s precious words along with our worldwide brothers and sisters. As we donned the beautiful Cheonbo holy robes we thought of the painful course so many have gone before us. First and foremost, we thought of our beloved True Parents. We will continue on and do our best for Heaven.” — Edwin & Marie Ang, New Jersey*

*“It was such a humbling experience to be in the Cheonbo ceremony. I looked at the holy robes everyone wore and thought I can’t wear this; my standard has to be much higher to wear this. So I am determined to work on that. Father Moon advised pastors to ‘be like Jesus’ and have his depth of heart. Now for me to wear this robe I realize I have to ‘be like Jesus’ as well. Thank you Mother Moon for continuing to push us to be better, to grow and fulfill our potential as God’s children.” — David & Shigeko Kasbow, Michigan*

*“We are grateful for the opportunity to serve our local Cheonbo couples. We were proud to create an environment of honor and respect for 10 couples, many of them seniors who have served God’s providence for the greater part of their lives. You are wonderful, Mother Moon, in honoring these first fruits of victors and accomplishes. Please forgive our shortcomings and continue in good health as you guide God’s providence to its full completion.” — Revs. Edner & Juanita Pierre-Louis, New York*

*“The beautiful Korean attire, the indescribably attractive Cheonbo award plaque, and the atmosphere of the entire ceremony certainly captured the essence and importance of the entrance into the Cheonbo Won. And yet, the light of this grace emanating from the heart of Mother Moon outshines all external details and illuminates the heavenly treasure we so gratefully receive. Thank you Mother Moon, we love you.” — Richard & Kazuyo Wiltermood, Nevada*

*“My wife and I are extremely grateful, humble, and honored to have participated in this long-awaited historical ceremony. We knew from the early part of the ceremony that this was not the last stop, but a giant leap to continue building the Kingdom of Heaven on Earth. We will continue attending God and our True Parents for the rest of our lives. Thank you so much Mother Moon for your loving, parental heart.” — Ken & Meeyung Owens, New Jersey*

*“I am grateful from the bottom of my heart for the amazing Cheonbo festival. Mother Moon shared in her speech that she had waited for this day for a long time. The program inspired me to do as much as I can for God’s providence. I made a celebration cake for the families participating in the Cheonbo event in Honolulu because I wanted to do something for the sake of others. God’s wish is for unity and for families to become one under God. Thank you so much Mother Moon for your incredible heart.” — Akiko Kwak, Hawaii*

*“I was deeply touched by God’s love while experiencing the blessing of the Cheonbo Festival and Mother Moon’s grace and generosity. The Cheonbo ceremony program was beautifully planned and carried out from beginning to end – through visual images, music, entertainment, testimonies, Mother Moon’s words, and congratulatory remarks from world leaders. Mother Moon’s love, grace, and tears assured me that we can liberate God’s heart. I am grateful for True Parents and their gracious love and encouragement and absolute shining example. This is just the beginning of a whole new era!” — Christine Froehlich, California*
