## Letter from FFWPU USA President Demian Dunkley

Dear brothers and sisters,

**Thank you for your continued faith and commitment to Heaven's providence.**

Some of you may have seen reports in the Korean media that True Mother is currently under a temporary travel restriction. Due to her high profile, it is likely that this news will soon begin circulating in Western media as well.

Let me reassure you from the outset: True Mother is healthy, strong in spirit, and continuing her providential work with absolute clarity and determination.

This development is linked to an ongoing investigation in Korea involving former public officials, including former South Korean President Yoon Suk-Yeol. One of the individuals under scrutiny is Dr. Yun Young Ho, who previously served in a leadership role within our movement. Although this situation does not involve any wrongdoing by True Mother, there is a possibility she may be called as a witness—not as someone accused, but as part of the investigation into **Dr. Yun's activities. This is why the travel restriction has been imposed. In Korea, it's not unusual for authorities to** restrict travel even for people who may simply be called as witnesses.

This is all taking place amid a season of political turbulence in Korea, with ongoing investigations and a national election on the horizon.

We have a very capable team monitoring the situation and working in

coordination with our counterparts in Korea. Our movement has always sought **to walk a path of faith, integrity, and unwavering commitment to Heaven's** dream of peace and unity for all people. That legacy remains firm and unchanged.
