June 24, 2019

The Hyojeong CheonBo Special Event was among several activities held during the 2019 Peace Starts With Me Unity Festival in Las Vegas. More than 200 people came together on June 23 to 24 at the International Peace Education Center (IPEC) to participate in chanyang sessions, special lectures, an ancestor liberation, and a Blessing Ceremony. The two-day event was hosted by staff from Chung Pyung Heaven and Earth Training Center in Korea and Family Federation for a Heavenly USA Headquarters' staff.

"The energy in the room was really infectious," said Kody Morris, a participant from New York. "You feel lighter, like a weight has been lifted." The CheonBo event was a calming experience that many participants felt was similar to visiting Chung Pyung. One Unificationist said she was healed from a leg injury after her first visit to Chung Pyung, so she believes in the power of spiritual healing and the benefits of the CheonBo event. "I went to see my orthopedist, and I went there wearing high heels, and he

looked at me and went, 'It's a miracle,'" said participant Rita Baldwin from Minnesota.

Many also expressed gratitude for the Ancestor Liberation. "We're freeing those that came before us and it's their chance to truly live the lives in spirit world that God always intended for them to do," said Mari Curry, a participant from New York. "I feel so blessed for the life I lead and all the opportunities God has provided based on my ancestors' foundation."

Another element of the event that created an uplifting atmosphere was the Blessing Ceremony for couples. "I was really inspired by the different spirit in the atmosphere," said Daniel Hallal, a participant from California. "This experience really showed me how the ceremony can connect multi generations." President of Family Federation for a Heavenly USA, Rev. Demian Dunkley, also shared his personal testimony on the value and importance of the Marriage Blessing.

The CheonBo event offered something for everyone, whether it was more peace of mind, body and spirit, better physical health, or liberating and Blessing ancestors. "I always feel like it's a very refreshing experience that helps me clear my own personal thoughts and create a peaceful state for a place to listen to God," said Dallas participant Marina Stana. Everyone shared how excited and grateful they felt toward True Mother for providing this special grace and sending the team from Chung Pyung. The CheonBo event will continue to tour around the USA throughout 2019.
