#25 Urgello Street in Cebu City was the first Church Property Rev. John and Nanette Doroski together with the early Unification Church Members bought in the Philippines. This is also the place where I attended my first Divine Principle lecture 40 years ago. Would you believe? I finished the lecture of the whole Divine Principle Level 4 green book within a day.

After finishing the lecture I was serenaded by a song "Oh My Child Come Home Again" as the Lecture was praying in tears as a closing session of that One Day Lecture. Since I was captured by the way the back- up singers serenaded me, I was moved to tears and felt God's longing heart who lost His children based on the tearful prayer of the lecturer.

Without any second thoughts I moved in with only a pair of shirt and pants. I felt safe inside that I don't want to leave the center and go outside anymore. So, I slept in the center that night together with brothers in brother's room. There were about 4 double decks in that room and they prepared the upper deck for me.

During that night True Parents appeared to me. They were smiling at me while waving their hands. After a while they were gone, and it was followed by a lightning and a loud sound of a thunder that woke me

up.

When I woke up I noticed that I was already on the floor. So I thought oh my gosh! that the loud sound of a thunder was due to my falling down from the upper deck to the floor.. So, then I realized that I was just dreaming. It was a just, dream, just a dream, just a dream!
