

## Responsibility as Parents to Sec. Gen: How Physical Mind Misleads Us?

Yulian Marianov

April 4, 2011

What's our main responsibility as Parents of Blessed Children?

Why I constantly observe Humanistic parents, misled by their Physical Mind to protect their Second Gen. from learning and following the Principle?

Blessed Families are responsible to educate their children in DP, not protect them from hearing DP. But why it is so easy for us, parents, to stand in the position of Satan for our own kids? Do you know that statistically majority of our second gen. didn't read DP more than once? How can they inherit our faith in this case? How could we as parents end up with such responsible end result?

### **Are we led by our Physical Mind?**

Our physical mind does not understand the meaning of studying DP, because physical mind cannot feel the spiritual growth and the connection to God that this spiritual food gives us. And of course, how can our second gen. inherit our faith if not through reading the truth?

It's inevitable - Our physical mind does not understand the meaning of studying DP. So Physical Mind protests and goes against studying DP. Physical Mind finds hundreds of excuses and accusations against this spiritual need.

### **Excuses to not teach 2 Gen DP**

Excuses can vary from "they are still small", "oh, they don't want, so pushing them will turn them against," "but they had so many Workshops already". These are all Satan-serving excuses. TF insists that they have to listen the truth since their are small, to get costumed to it's logic and terminology, otherwise later they will reject it as something foreign. In addition, many times WS educators also compromised and did not really teach DP in depth for the very same Humanistic (Ph.M.) arguments.

Physical Mind always resists the desires of the Spiritual Mind; So naturally parents who's Ph.Mind

is Subject, do the same. Instead of supporting the sp.mind of their children to grow - their physical mind is pushing them to Humanistically protect their children from hearing the Principle. Thus, they play the role of Satan for their own children!

### **TO CUT OFF SUCH HUMANISTIC (SATANIC) TENDENCIES**

Stick to TF's guidance as instrument to cut off all such humanistic deviations.  
SECOND GEN. has to study in depth:

1. DP
2. SP.W.
3. TF's Life
4. Our History and Achievements

### **THUS THEY WILL GROW STRONG AND PROUD OF OUR TRADITION**

Faith comes by reading the Word. But how many times I hear "oh, they have to find their own faith"... But how can they find it if they don't listen, read and study the Truth? Impossible. How can they be proud of our teachings, achievements and tradition if they don't know them? Impossible!

### **They need Vitality and Life Elements to Grow**

DP explains that growth is gradual and requires (1) to learn the truth and (2) to practice it. If trying to practice without knowing it, they end up embodying wrong habits, concepts and practices. Study the Word with prayer and meditation about it will provide the needed "Life Elements" to grow.

- they need to not just study humanistically how to be good, but to learn and embody our vision for a new world

- to embody, they need practice... Therefore, not just fun WS, but Service WS, Challenge WS, Spiritual Practices WS, Sport WSs.

So always study and practice should be combined, not separated. Such correct system of education is to lead them to substantial spiritual growth - practical achievement of mind and body unity (Meaning, to put their Spiritual Mind over their Physical Mind). In that state they automatically experience God and His guidance.

### **If we failed we push our failure to our children**

Humanistic parents resist that. They did not succeed to put their own spirit mind as subject, so they naturally protect and nourish their own children to be dominated by their physical mind. If we failed we push our failure to our children - we become evil spirits for them.

- But how can Second Gen be separated and protected from the bad influence of such parents. Very difficult. Their physical mind will lead them to use all their power, arguments and energy, only to drug their own children to their own Hell and spiritual stagnation. As their Ph.M. believes it is correct in judging the Sp.M. as wrong, parents dominated by their physical mind will judge people led by their spiritual mind as wrong. This leads to internal wars in our own movement. But which side is right; the Ph.M. side or the Sp.M. side??!!!! DP is clear about that!
