

Steinar Murud speaks at "North Korea – the present situation" in Oslo, Norway

O. Toresen

June 16, 2013

UPF Evening Seminar

The theme of our meeting was “North Korea – the present situation”. Kristin Storaker from the “Stefanus-Alliance” (a Christian organization working for human rights and freedom of religion) gave a very interesting presentation. She had visited North Korea together with two other members of her organization in March this year, and had first-hand experience of this closed society. She received many questions from the audience after her presentation.

Steinar Murud, from UPF, gave an excellent presentation on the work of Dr. Moon in North Korea and his strategy to bring about unification. Entertainment was provided by our very talented second generation. Discussion and socializing was accompanied by a delicious buffet supper made by our members.
