

4 Day Divine Principle Workshop in Albania

Tirana, Albania, 20. -23. March 2014

Gi Young Shin

Dear brothers and sisters!

We would like to share with you a report about the last activity the Family Federation for World Peace & Unification in Albania organized at the training center in Mullet - Tirana.

It was since two months ago when we had the last Divine Principle workshop, thus the weekend of March 20th – 23rd harvested the investment of brothers and sisters in each community by bring many guests to the 4 day Divine Principle Workshop.

There were around 75 participants in total and 26 of them were new guests attending such national level WS for the first time. Also we had 24 members of STF attending the WS together with their guests.

The spiritual atmosphere of the WS was constantly growing. When young people come to our workshops they think that it will be just them individually or their close social group, but they get surprised when they find themselves in different groups and try to offer their best to make their group the best. This also helps them to focus more and understand the lectures on a deeper level and any message the MC and staff wants to convey to them.

The WS was coordinated very carefully Gentjan Qarri who was strongly supported by all members. The heart and mind of all staff members was focused on fulfilling their important responsibility of supporting the sons and daughters of Heavenly Parent to be reborn and become true people.

It's just amazing to see the WS participants following the WS schedule so precisely until the end, even though few of them had come to just attend one part of it. However miracles happen, we just need to go deeper and see their most inner part to understand them.

This was the first national level Divine Principle Workshop on the second year of CIG. Have such a great experience, makes us feel confident that this second year of CIG will be a successful one.

Let us make Albania a place where Heavenly Parent and True Parents will want to come and joyfully live here and never let them go from here!

During these 4 days I believe I have found myself, my internal world. These days have been filled with information that I didn't ever hear or think before. It's the first time I listen and I am absolutely shocked, surprised and cannot find words to express my feelings about this unforgettable experience. How life is organized, what is our purpose in life and role cosmos, the principle of life – everything was just amazing. At the beginning it looks like a 'makeup' story based on real foundation. However, when you go deeper and deeper into the content of lectures, you start understanding yourself, your purpose in life and much more than that. Simply put, I feel surprised and infinitely grateful...!

What can I say besides feeling so privileged to be able to participate in this 4 day workshop where I could learn about being patient, but most importantly I got to know who True Parents are. I learned how much True Father has suffered. I am a person that doesn't talk much, but I feel very much the words and I testify that everything I learned here I felt them in my heart. And to feel everything True Father has done is amazing because he has done so much.

It is just unbelievable, it is like you are in a dream, but it is not a dream. It is real. It is the first time I attend such 4 day workshop and do you know how did I feel? I felt empty (no bad feelings at all in my heart) in the best meaning of this word, because these four days liberated me from bad feelings, made me understand that God created us to be happy and true...

Durrës Community

It's something wonderful, to learn about God. It's a feeling that cannot be described in words. It was a wonderful workshop and clear lectures. Even though we were little bit tired being sitting for 90 minutes

during one lecture, but I can tell from my heart that it was worthy. If I didn't listen to these lectures I would never know that somebody had fulfilled 3 Great Blessings, that Messiah has come to this world. I would be able to know these things if I didn't attend this WS. I feel so great and am full of emotion. I just want to share about what I learned during these days here. I was very moved when I got to know that Messiah has come. It really was a great workshop...

What impressed me the most was the path Rev. Moon had to go through, unimaginable trials and difficulties with a self-sacrificing heart in order to convey God's Will to humanity. Because of Him, the world today is a better place!!
