

Is There Life After Death?

Leon, Spain, 24. February 2017

By Maryvonne Jamois

In Spain, we have three communities. This year 2017, we have been thinking to go to other cities in Spain, especially the cities where our members come from. So, we went Miguel, me, Mario and Jose Manuel.

We choose the city of Leon which is three hours and half from Madrid, where families of our members are living.

We decided to organize a lecture about life after death, and we rented a room in a hotel. The days before, we distributed leaflets in the city to announce the lecture, and we also advertised in a local newspaper.

It was a big surprise that at the time of the conference, the room was totally full. Most of them listened very attentively, only a few left at the beginning.

At the time for questions and answers a few of them spoke about their own

spiritual experiences. All of them were very happy and saying it's very interesting, when are you coming again? We are very surprised by the very positive response in this city.

Our brother Jose Manuel who was born in this area could invite his own sister. She came with some of her friends. We could also give them some materials about Divine Principle and True Parent's Speeches.

The surroundings of the hotel where we had the conference.
