# 1. True Mother's Words

‘ Universal Peace Academy will teach every subject that is teachable and necessary in all aspects centered on the Principle. It will also educate in substantial leadership practice and activities. The cadets who graduate from this course must do a 1-year internship activity. I will train them hard and make it a famous academy that offers all kinds of cultural arts. It will be a graduate school for leader education. I am going to give them such tough training and make many future leaders. Have hope, everyone.’
