

## CARP and HARP Spring Workshop in Lisbon, Portugal, April 12 - 15, 2019

Sergio Neto  
April 15, 2019

There were 18 young people who gathered at our headquarters in Lisbon from 12 noon to 15 April to hold a family reunion together to revitalize and align with our True Parents and all of Providence. Some of them were at the Cheong Pyeong branch event in Spain so they were very inspired and created a good atmosphere and bond between all the young people of the second generation and Jacob children. Our motto was "God Works with Me".

We explored topics such as purity, not only sexual purity, but purity of mind, attitudes and purity of our actions in our daily day so that God has full participation through us and with us, our relationship with God and how we can become a reflection of the whole work of God. All this in the midst of much joy, music, games, group activities and reflections. As usual, we have also had the help of parents, mostly blessed couples who support the physical and spiritual nourishment of our young people.

Thank you to True Parents and a good Easter to all of you.
