

## WFWP and UPF Italy Webinar: Interdependence and Shared Prosperity

Elisabetta Nistri  
July 2, 2020

In this webinar, the speakers were: Dr. Marco Ricceri, Secretary General EURISPES; Elisabetta Palmisano, Head of Press Office and Institutional Reports TECNOPOLO; Emanuela Reale, Director IRCRES-CNR Research Institute on Economic/Sustainable Growth; Prof. Stefano Bartolini, Professor of Political Economy and Social Economics University of Siena.

Carlo Zonato, UPF Italy President, explained the meaning and purpose of the IAEP, founded by Mrs. Moon.

Elisabetta Nistri, WFWP Italy President, introduced the topic, stressing the important role of a healthy economy for sustainable peace in each country, because it is very difficult to speak or think about peace if not all men and women have access to work with a decent wage for their family.

In our common fight against COVID-19 we realized that we can win against it only if we fight together, and the same is for the economy. We cannot solve our problems thinking only about the here and now; we need to think with a global vision to include the future. All the experts touched on deep aspects, suggesting very interesting solutions.
