Through this lecture I have received some education and I think by doing so we can create more awareness and therefore bring lasting solutions to all humanity's problems. Good citizens can be built up from this teaching.'

The Pastor: "This lecture has touched the core of the truth, nobody can say no to this teaching, as the lectures were going on, I kept meditating and the spirit kept on telling me it's the truth. So I would like to know more, understand and work together with you."

For the Vice-principal: "I am so grateful attending such a conference well elaborated and lectured. I regret for my wife not being present to listen to such a truth.
