

# Family – Community – Peace

## Peace with ourselves, with others and with our environment

Bergamo, Italy, 23. January 2016

*By Franco Ravaglioli*

In the afternoon of Saturday, January 23, 2016 and the morning of Saturday February 6, UPF in collaboration with WFWP-

Federation of Women for Peace and FFPMU- Family Federation for Peace organized at Hotel Donizetti in Lallio Bergamo, the second and third meeting with ambassadors of peace and contacts of the three respective federations.

With reference to the above subject the aim was to convey a study on the spiritual values that underpin the common vision and joint initiatives of peace of the three federations.

In addition to an introduction that summarized the topics under discussion at the previous meeting were discussed: the theme of good and evil in the individual and in the history of the conflict and its possible overcoming on the basis of freedom and human responsibility - the sense of the human story behind the scenes to find out if and how God has worked so that all humanity can recover its original value - a broad presentation of the life and works of the Moon couple to complete their mission to lay the foundations for the peace- meaning and value of the Blessing in marriage in this special time as a way to make a personal and family rebirth according to the desire of the

original design of God as common Parent of all.

The meetings have confirmed the keen interest of those present, who participated in the discussion with a number of questions on the various topics covered.

An important and significant testing which indicated how the collaboration of the three federations together has affected the active participation of the participants who have given significant evidence of their appreciation and understanding about the providential value of our time.
