Fully realized the purposes of the conference , which were to highlight

the importance of ethics, social utility and the educational and training value of sport for young people ; the conference was attended by several speakers from the world of sport and three MPS . Many testimonies of "best practices " have been offered .

Silvano Appiani introduced the conference , he is Managing Director at the City of Monza Sport followed by institutional greetings of the European MP Hon. Lara Comi , and by two other deputies: Hon .Roberto Rampi and Laura Coccia who hit listeners with their testimony .

Particularly interesting is the report of Fulvio Fiorin , a former professional soccer player and coach of AC Milan

youth , focused on " training and performance : winning through values " , then followed by the presentation of the work that UPF of Monza celebrates the theme , carried on for over ten years, the Peace Trophy , with interethnic tournaments men's soccer and women's volleyball .

The 2016 edition of the Trophy of Peace was attended by 150 young people of several different nationalities , cultures and religions , making really concrete the idea of integration , thanks to the sport , just as stated by the founders of the International UPF Rev. Sun Myung Moon and his wife Hak Ja Han

" The Trophy of Peace " , as stated by Charles Cleric , President of the Universal Peace Federation UPF of Monza which has promoted the events , "arrived this year to its eleventh edition , and its growing success shows that it is possible to combine the game football with values such as friendship and integration between people of different nationalities and cultures ,living in the same territory " . In the interethnic tournament there has been the cooperation of the Monza Committee UISP and the Municipality of Monza , with the support of the Company Sportiva Juvenilia and with the participation of many other municipalities and the Province Monza Brianza
