

Awareness Activity in Support of Orphan Children

September 29th, Tirana - Albania

Giving makes you happier than receiving! We were not the first to use this quote, and for sure we will not be the last. Experiencing happiness in important days, guided by the teachings of True Parents, is a pleasure that does not have limits.

In a joyful atmosphere and having heartfelt messages from those present, and mainly from the youngsters that offered and dedicated their time and energies, was organized the whole meeting on the occasion of the International Day of Peace. This day, we decided to commemorate by distributing school supplies for 70 orphan children. Those supplies were provided as a result of the investment of the brothers and sisters during the 40 days fundraising campaign.

This is actually the 8th year that the contribution of the brothers of sisters goes to provide those supplies to orphan children, and this cooperation is ensured from the National Institute for the Integration of Albanian Orphans.

The activity was organized on September 29th in "Aleks Buda" Hall at the National Academy of Sciences.

There was a wide participation. The children, alike previous years, have a chance to ensure a few of the tools and supplies they need for their education.

Even though most of those present were children and some of their relatives, present also were brothers and sisters, members of FFWPU and Ambassadors for Peace that came along with their message for the day. Sincere, hopeful and full of hope were the messages from the bottom of the hearts that came from the Chairman of UPF, Gaqo Apostoli, the Chairman of National Institute for the Integration of Albanian Orphans, Ilir Chumani, vice-president of FFWPU, Manjola Vasmatic, and also from Sanja Bako, leader of the fundraising team that provided the gifts for the children.

Of course, in this activity, entertainment should have been part of it as well. The joy in the eyes of those present was visible while they enjoyed the two songs prepared with a lot of love from the students of UPA, Mica Camara and Riza Santarin, and also from the Japanese Missionaries. The Japanese Missionaries, besides singing for all of us, also performed a dance that brought enthusiasm to everyone.
