On December 13th we departed to south for Fier community. After meeting with community leader and an elder blessed family living there, afternoon we met with around 15 brothers and sisters in the center. Fier center was opened just about 2 years ago and Dr. Pak and Dr. Moon were very happy to see very young brothers and sisters joining True Parents. They expressed their love by offering pizza to all members there.

Thank you Dr. Pak and Dr. Moon for your continuous and unconditional love for our nation and brothers and sisters in Albania. Through you we are reminded about True Parents love for all of us and for each and every human being and that makes us re-determine to pass the greatest news that True parents have appeared on earth and let everybody know True Parents.
