#### **Spiritual Experience in the Ancestors Liberation Ceremony**

**Natália Lima:** First of all I thank Heavenly Parents and True Parents for having this unique opportunity in this age, the first day I was normal when the chanyang yeoksa session began, I felt there were many people around me at that moment and I felt a chill and Lavender smell, one of the staff put his hand on my head and I felt such a great love and I heard "daughter I am taking care of you". At that time my headache and my worry is gone. I just thought, "I want to feel this love forever". Thanking the Heavenly Parents and True Parents for all that they have been doing in my life. Father and Mother I love you.

**Mariluz:** While I was singing, I felt and that there are millions of people screaming, who seek our help to become children of True Parents (with the 430 tribal messiahs) in a moment I changed of chair to a place that always sit and suddenly I saw a light arise, the image looked like a ladder, and moments later it became black and white and then disappeared, I felt very good

**Anonymous:** At the moment of clapping in chanyang session, I saw a large cracks opening as if the ground were opening like a fissure, and I saw several spirits hanging, as if they were falling. Suddenly I saw angels pulling them and those spirits that the ancestors had not rescued ended up falling on the

precipice screaming. It was very sad to see but the angels formed a chain and removed the spirits of the precipice I saw a lot of then shouting and crying. I also saw many ancestors making the same ceremony that we were doing here really just watching to believe we often act as deaf and blind we talk and we see everything but in reality, we do not see anything.

**Iorrana Priscilla dos Santos:** My experience was feel my body very weak and my ancestors very close to me, my head was hurting a lot and after the beginning of the ceremony the headache stopped suddenly, I can not explain why, but I cried a lot, and constantly felt chills. After hitting my body strongly I felt as if my body was healing and I felt that the sins that my family has been carrying for a long time was disappearing. I felt my spiritual sensitivity increase and I could hear many cries from women saying that they did not want to leave my body, so I started praying for True Parents to take care of me and protect me, I felt a very strong connection with my ancestors, I write this letter with great gratitude to Heavenly Parents and the True Parents for providing me with this unique moment in my life, Aju!
