

5th International Blessed Family Parents' Convocation

Kizashi Takemura
October 6, 2015

2nd gen are invited to attend our Seminar – mini workshop

If your children are still young or already adults, we have much to share together about how to prepare for the Blessing and live a Blessed life. The time to consider our children's future families is really now, no matter their present age!

The 2nd Gen. Blessing is the precious desire of Heaven in the age of Cheon Il Guk. Especially, international Blessing is Heaven's hope to abolish national borders and realize the ideal of One Family under God. This gift is due to the love and tireless efforts of Our True Parents and Blessed families.

We have engaged in fervent prayer everyday and have been looking forward to an opportunity to find a spouse for our children.

Mr. Toshiaki Sasada and Mr. Kentaro Hatakeyama (Japan BFD reps) and Mrs. Nishi and Mrs. Lee will share guidelines to prepare our children for Blessing and about the matching process. Testimonies will also be given.

Translation into English and Japanese is available so bring a radio.

Part 1: The Seminar (the morning session) is for all Blessed parents and 2nd gen (18 and up) who would like insight into the international blessing and to prepare for finding a marriage partner.

Part 2: (after 14:00) break into 3 groups

The Convocation is only for Blessed parents, Group "A" who have children over 20 years old who are interested in an international blessing and would like to exchange with other parents. 2nd floor

The group Discussion, Group "B", is for parents who are interested in international blessing for their child but the child is not yet ready for matching. Meet in B1, downstairs.

2nd Gen mini workshop For 2nd gen over 18 years old, interested in international matching, we will introduce Blessing beyond national borders and fun. Meet 6th floor

All Blessed parents are invited to participate in our seminar, no matter the age of their children.

This time, we have a seminar for the children (18 and up) as well, at the same time.

In our past seminars, many parents and children have found clarity and deep inspiration as to Heaven's guidance. We hope you seriously consider attending!
