

Kenya's Cheonbo Workshop and Ancestor Liberation and Blessing Ceremony

Emmanuel Tanui

August 4, 2019

Kenya held its special event for Cheonbo workshop and ancestor liberation and blessing ceremony which was held at the Sasamoto training center on August 3 to 4, 2019. We had 550 participants.

A lot of those members received a stronger passion as to why we should attend to their ancestors and also liberating them. especially those who have been reached out through Heavenly Tribal Messiah activities.

Others could experience later physical healings through the chanyang sessions; separation of evil spirits. we are really grateful and thankful for the grace our heavenly parent and true parents has bestowed upon us as a nation. a continent of Heavenly Africa and the whole world at large.
