

4 day Divine Principle Workshop

“One Family Under God”

Mullet, Tirana, Albania, 3-6 September 2013

Reported by Greta Voci

During the month of August, about 30 members joined mobilization period in Albania, divided into 5 witnessing teams, and 1 fundraising team. They had experiences in fundraising, witnessing, lecturing, team work, etc. At the end of mobilization there was 4 day DP workshop, where they could invite their new guests to attend.

There were 8 new guests who attended the DP workshop for first time. Members were very joyful after mobilization, and were taking care well of their guests. Their high spirit helped the new guests feel good and understand well the content.

This time, beside experienced old members, new members who participated at mobilization took responsibility as staff members, especially as group leaders. They showed purity and dedication in their investment, working side by side with the workshop coordinator Gentian & Maria Qarri, and other staff members.

To give a clearer view of the feelings of participants we will share few reflections of them:

*Life of faith, or the way to be close to God is a period of “wars and fights” in our life, but I wish and believe that I will become as God wants me to. Determination and prayer will help me to reach to God, and not just me, but my family and friends. For me it was a really spiritual workshop. - **Blerim***

*I liked a lot this workshop because of many activities, gentle people and with the heart of contribution. I liked a lot especially the Life of True Parents of Heaven and Earth and Humankind. - **Enea***

*I believe that this is the turning point that I was searching to do for years in my life and to find that pure happiness with true love. - **Dajana***

*It was completely different from what I thought before coming. Thanks to this workshop I could learn about the history of our ancestors, learned what is life and how it should be in reality and most of all I learned the existence of God. - **Ervis***

*I learned how God is growing us as his children and is teaching me how to communicate with him, and understood that the greatest gift that God and True Father gave is teaching the way through which we feel God and understood that only through following True Father we can go back to God. - **Erjon***

*Divine principle lectures helped me to know more myself, to have stronger character and helped me to evaluate myself more, and from a quiet girl, to be able to talk to people. Thanks to Heavenly Parent and True Parents who teach us to live a life with more harmony and unity, a righteous life as happy brothers and sisters. - **Edlira***

*When I hear lectures, it happens that I feel like it is like the first time I heard them, and I always remember my feelings when I attended the DP lectures and during lectures was asking myself "what can I do for Heavenly Parent and True Parents"? How ready am I to sacrifice myself for God and True Parents? - **Besiko***

*Thanks a lot to my sister who invited and convinced me to attend this workshop, and I am happier that my close friend joined with me and could have the chance to join such a beautiful thing. I know that I am departing as a better person from here and want to keep this attitude also out of this center. - **Sidorela***

*- I feel that the workshop has changed something in me. For the first time I was group leader and this made me feel very good. - **Alfred***
