

## In loving memory of Arthur Edgar Gardner

Matthew Huish  
January 6, 2017

Arthur Edgar Gardner born on 20th of April 1958, in Ross Hospital, Paisley at 7:45 pm.

Unfortunately, until his 16th birthday, he was brought up in the children's home, where he had many good and bad memories.

At 21, he met the Unification Church through his spiritual mother, Chikako Nauser. She has been very supportive and special spiritual mother for Arthur during his life and now.

Throughout his life, Arthur has supported the UPF movement in many ways. One of those is by giving Devine Principle presentations which he absolutely loved to do. In our house, we always had people from many different religions and denominations where we had different discussions and debates.

In Arthurs life, he had many days where he felt very high and others when he felt low due to his battle with cancer and severe depression. On the 20th February 2016, he had a massive stroke which would affect his physical body so much. He was paralysed on his right side, wasn't able to speak and had to be fed through a tube directly into his stomach.

Eventually, he had lost his battle on the 20th of December at 5:15 pm. We miss him very much.

I also want to say thank you to everyone for your lovely messages, for all your support and concerns. Thank you to all people who managed to come to Arthur's Songhwa ceremony on the 30th of December 2016. Special thank you to Robert Williamson and David Fraiser Harris who gave a lovely service for Arthurs send off to the spiritual world. Special thank you to Paul Curry for his beautiful words about Arthur. Very special thank you to my Children, Costya and Vladik, who have supported me during this very difficult time.
