July 27, 2020

WFWP Argentina organized an online conference through the Zoom Platform entitled "Fibromyalgia and Its Impact on the Mental Health of the Woman," offered by Dr. Maria Jose Sepulveda.

The event focused on family therapy and the impact of fibromyalgia. Mrs. Norma Banegas and Dr. Sepulveda have been very active in expanding the conversation around fibromyalgia and how it mainly impacts women.

32 participants attended the online conference and expressed their deep concern regarding the difficult situations that people have had to endure. The event also helped spread awareness on the psychological impact of the disease, as well as the importance of creating a loving environment in order to help.
