

Exhibition of the Life and Legacy of Rev. Sun Myung Moon in Barcelona, Spain

Dulce Balil
September 13, 2020

The exhibition on the Centenary of the Life of Sun Myung Moon in Ronda Barcelona within the framework of the celebration of the annual Audir program of "La Nit de les Religions" (The night of religions), celebrated on September 12 and 13, 2020.

This year for the third time we have participated in the 5th edition of "La Nit de les Religions", in Barcelona, along with 26 other temples or centers of spirituality.

Our program was the presentation of the Exhibition of Life and Legacy of Father, Dr. Sun Myung Moon. We had 7 roll-up two meters high by 80 cm. wide, very beautiful and 10 posters that were exhibited in two rooms. We also offered books of True Father, bookmarks, the Divine Principle in various presentations and a beautiful guide to the entire exhibition.

Two young sisters with Korean dress invited people giving them bookmarks.

We also screened some nice movies like True Parents singing in Jardim, and videos of other moments of Father Moon's life. And a table with some Korean products as packaged. Due to Covid-19 we take into account all health recommendations such as the use of a mask, interpersonal distance and hand washing. 14 guests and several families from the Barcelona community came between the two days.

I attach some photos of such a beautiful meeting.
