

“Meaning and Value of Marriage Blessing” Eastern Europe regional Seminar for Blessing Candidates

Russia, Moscow, Yuriy Gavrilin, January 26-28, 2018

On January 26-28, 2018, Blessed Families department of the Eastern Europe region organized a seminar for the Blessing candidates on the theme “Meaning and Value of the Marriage Blessing” which gathered Blessing candidates from several nations.

During the workshop Blessing Department staff gave 5 lectures on meaning and value of Blessing, proper and necessary preparation for matching and Blessing, and process of Blessing and mission of blessed families. Also we had blessing testimonies from elder families and special art-therapy session from Bayarma Efremova, the drawing of the image of my future Blessed family.

During the seminar we emphasized many times the importance of witnessing as a preparation for the Blessing and Heavenly Tribal Messiah activities as our ultimate mission of blessed families. We were happy to hear their very positive response to this and expression of dedication. We hope we can proceed and help many of them to receive Blessing. Below are excerpts from testimonies.

“I liked the lectures. It will help me to create family centered on God in future. Also I will help my uncle to fulfill tribal messiahship, he believes in me. We want to pass Blessing to all our relatives and friends.”

“I am grateful to God and True parents for their enormous love. Many things happened in my heart. I was very happy. I loved testimonies. Now I have a new motto: Most important and responsible

decisions I make together with God. I will continue to work on myself , to become better and change myself first of all for God and True Parents.”

“During the seminar my internal situation has changed dramatically. When I came I was lost and kind of disappointed but after while I found myself happiest in the world! I had to make serious decision, but when I did, I felt strongly that it is right.”

Personal testimonies were very moving. I could see that the course is difficult for everyone but if you take it you get amazing result.

“During seminar I realized that in my spiritual life I miss real growth and inspiration. I want to find God in myself, see it in other people and feel God's heart. I want to thank God, that he is helping me in my life.”

“In the beginning I thought that this seminar will improve my intellectual understanding of Blessing, but finally I felt moved emotionally, my heart was touched.”

This seminar left very warm feelings in my mind and made my understanding of Blessing more deep. I realized what kind of precious gift True Parents have brought to us. I was very moved by testimonies; they were honest and sincere and therefore close to my heart.”
