

Dedication of a Trail Across a Thousand-Year-Old Yew Grove at Mount Balwang, HJ Mona Park, True Mother's Benediction

June 13, 2022, Yong Pyong Resort, Mother Yew Tree Garden

Most High and Noble Heavenly Parent,
How difficult and lonely has Your journey been to find your lost children?

As we stand here today on Mount Balwangsan for this dedication, we deeply reflect on Your words: at Mt. Balwang Monapark have found the actual works and records You prepared for this one day, and are dedicating them to You today. Until this day of joy and gratitude could arrive, how hard have You worked to realize the lofty, beautiful dream of realizing Your ideal for creation.

It took 4,000 painful years of restoration through indemnity before You were able to find and establish Jesus Christ 2,000 years ago. Though You sent Your only begotten son who could once more unfold your providence in hope, Your Will could not be achieved. We, today, know the heart You felt as You watched Your son being crucified.

Heavenly Parent,

While the Christian sphere, which has waited for the Returning Messiah, says they uphold Your Will, they committed incomprehensible errors because they were unaware of Your deep circumstances and situation. You sent Your only begotten daughter after

2,000 years since the beginning and end of Your creation must bear fruit together, and You dreamed of living with Your children in the Kingdom of Heaven on earth. How impatiently must You have waited so that True Parents' providence could unfold?

A new providential era has begun. I have proclaimed the Foundation Day of Cheon Il Guk and the firm establishment of Cheon Il Guk has been taken to a continental-level. By providing this nation an opportunity to fulfill their filial piety and loyalty, let those living in ignorance understand through this natural environment how much You have longed for Your children, and how hard You have sought to find them. I pray that the beauty of Mona Park will touch their hearts, so they will render You thanks and glory.

Through this phenomenal natural environment You are showing us today, and one that you have waited long to reveal, and as this natural environment seems to speak for itself, please allow all those afflicted by sin to come here and learn how to attend You and become one with Your providence.

As this beautiful garden seems to express, enable true families, Cheonbos, citizens of Cheon Il Guk centered around the unchanging True Parents as well as all citizens of this world to realize Your deep love

from this place and realize that when their families and countries attend You, no matter what adverse difficulty may befall them, You will always be with them. Through Your children and particularly through this yew grow path, enable all those who visit this place, to have a lot of realizations, receive

education, and come to live beautiful lives that reflect them. I pray that today becomes a day when we are able to fully appreciate what a great glory and blessing this beautiful yew grove represents to You and to mankind. In gratitude, I proclaim and offer this to You. Aju..
