Upon the victorious foundation of True Parents, who have perfected, completed and concluded the entire providence of restoration, blessed families around the world make the following resolution for the victory of Vision 2020 in order to establish the substantial Chun Il Guk.

1. Our family is resolved to let the entire world know about the great accomplishments of True Parents, who have manifested on earth as the Savior of humanity, the Messiah, and the Lord at his Second Coming and have victoriously accomplished their mission. We will work toward establishing the substantial Chun Il Guk in every country centered on the 43 providential nations as strategic nations by 2020.
2. Our family is resolved to advance without rest until every single person on earth is restored to the position of a Chun Il Guk citizen in response to the providence of True Parents who have embraced the seven billion people of the world through true love while conducting the providence of salvation.
3. Our family is resolved to establish the tradition of Hoon Dok Hae within our families in accordance with True Parents instructions to fulfill our mission as Tribal Messiahs through this Hoon Dok Hwe tradition and to realize the ideal world of one family under our Heavenly Parent at all costs.
