

## Father's last words were, "I have completed everything"

Young Hwi Kim

November 9, 2013

Five City Tour, Los Angeles, CA

Hilton Pasadena Hotel, Pasadena, CA

*Unofficial notes: Mark Alexander (My notes are probably 80 to 90% accurate, but it's better to attend and videos may become available online. I like written notes because they are quicker and easier to access. Try to see if you can find Mother's video for sure. I give it 10 out of 10.)*

### Introduction

#### **Dr. Ki Hoon Kim**

We have seen Mother's trip to Japan. There is no hope without True Parents. Without their spirit there is division in the family, church, and nation.

With this tour there was unity for the church and Japan. Despite the typhoon everyone came. Mother said, "I may come to America." Mother never stops working for the 7 billion people of the world.

Today we receive many blessings, tribal messiahship, etc. No one in history has had these blessings. We are the new ancestors of Cheon Il Guk, a new nation of God.

#### Video message from True Mother

*This may become available on line, hopefully because it contains an excellent message and production values. Mother's words were in subtitles and there were wonderful happy, tearful, loving shots of her at various venues throughout her Japanese tour.*

## We Are Happy People

### Hak Ja Han

First work on our own faith through unity of mind and body, that is most fundamental.

Before criticizing say thank you to Heaven. Live in gratitude and joy will spread from you to family, society, nation, world, and cosmos.

You are happy because you live in the age of True Parents. Plant seeds of truth throughout the world. Be truly brave people up to the end of your life. Make up for what you didn't do for God and True Parents.

What dreams do you have? Are they the same as True Parents? True Parents had absolute faith. Expand that responsibility throughout the world – at all costs – to make all the world Cheon Il Guk citizens. This enables you to be the providential ancestor restoring human history and leading to a great future. This is the hope and dream of True Parents and mankind.

True Parent's dream should be our dream.

We must work through family, society, nation, world, and cosmos to attain.

Too big a goal? For 60 years True Parents worked day and night to achieve this dream of true love as one family. Invest 100% sincerity, loyalty, and love that this country reaches God's homeland by 2020. Join the proud ranks to expand this environment which 7 billion people can gloriously attend.

Foundation Day opened all the doors. Join ranks to translate beliefs into action until the last moment, centering on True Parents. If we resolve and carry out there is no more indemnity. It is up to us to fulfill bringing glory to all citizens of Cheon Il Guk accelerating the environment internally and externally.

I am intensely educating grandchildren. In "war" I couldn't properly educate the children. I am creating a prayer to be used by 2nd, 3rd ...generation children.

I hope you become historic figures. From the time of Moses only Joshua and Caleb are remembered. Inherit that tradition and become a Central Figure.

Mother talked about 1975 missionaries, Top Guns, etc., leading to the point of preparing for a museum of True Parents life.

She talked about witnessing, attendance, ancestors, providential nations, etc.

Don't be accused in spirit world, if don't reach the 7 billion heavy burdens will be placed on our descendants. People don't understand the providence of indemnity.

America was about to collapse when Father came to awaken it. The Puritan spirit that put God first was leaving.

Historically civilization reached the Italian peninsula and now the fruits of history are reaching the Korean peninsula.

I am determined that you achieve God's will at all costs.

*Cut to scene-Mother crying at speech in Tokyo Dome*

Become one in heart with True Father at all costs, a devoted child and patriot.

Spirit world is a tough place. Free God's sorrow by fulfilling your responsibility.

The first year of Father's ascension was a time for him to work freely in the spirit world. Only by liberating ancestors can spirit world be brighter. If you have unity with True Parents, the entire spirit world is with you. Creating the new environment is your responsibility.

Cheon Il Guk scriptures are polished gems, keep them where loved, and if even crude stones are polished they have great value. They are intact and threaded together and central to building Cheon Il Guk. The salvation of mankind is based on them.

The providence of restoration through indemnity is my responsibility not others.

Sacrifice with united m/b for salvation and the defeat of Satan. Work together as a united family.

2020 is not a dream, but the reason and purpose of our lives.

*Then, in keeping with the elegance and beauty of this whole video, there was an inspirational piece on the immigration of the white necked crane over the highest mountains in the world to reach their verdant, green winter home. It was very inspirational with great music, video, and voice over.*

*The cranes exhibit working with the leader while helping and sacrificing for each other as one family. In the end heaven helps them with updraft winds as they reach the highest peak almost exhausted.*

*Our spirits are higher than the mountain, if Heavenly Parents are with us we can cross the highest peak of Cheon Il Guk.*

## Message of Rev. Young Hwi Kim

### **Introduction**

Rev. Kim joined in 1955 at age 27 and an electrical engineering graduate of a top university. He held many national leader positions and can teach great workshops in 3 languages.

### **Rev. Young Hwi Kim:**

Father's last words were, "I have completed everything." I will speak about how this point was reached. He accomplished everything God wanted him to.

In 1945 Father began mission work in South Korea. He did not proclaim Divine Principle yet, but spoke of the Bible. There was not much success, so June 6, 1946 he went to North Korea and again tried to contact spiritual groups but failed again.

Father visited prison with the husband of one of the spiritual leaders -- his wife was in the women's cell. They were all jailed for their faith. The husband said he would follow his wife so Father wrote a note to her saying pray and find out who I am. Also deny everything and get out of prison. But she couldn't deny her mission work. It was chose her version of the Bible or Father. She thought the Bible was safer and they were both killed. Because Father's note was found he was severely beaten and thrown into the snow to die. He was nursed back to health, however.

Because of these events he had to go the course of three temptations or trials.

*The first test:*

He went to Mrs. Park, the woman known as the "wife of God." He started out serving her family from the position of servant of servants. He slept in the barn and served them with all his heart despite criticism from some who thought it strange. As he moved through the eight stages of restoration she testified to him, as she was moved by the Holy Spirit. But when she lost the Holy Spirit she couldn't understand what she said.

*The second test:*

He fought for truth in the spirit world for 43 days. The most important issues were change of blood lineage, heart, and ownership. He spoke to Jesus who said he made mistake of over emphasizing he himself was coming back. Confucius admitted he did not know God and used the word *heaven* instead. Saints and even God questioned Father. This was to reverse and restore Adam leaving God. Finally God said, "He is right!" God gave the seal to Father.

*The third test:*

To succeed in the mission of Jesus and start where he left off -- on the cross!

Father went to the hard [Hungnam] labor death camp where the goal was to work and starve you to death. He spent 2 years, 7 months and 20 days there. He survived and those who knew him there said they never saw Father sleeping. He received 3 citations as a model prisoner. He saved a little water to keep his body clean. Heaven was moved. Jesus died because he lost 12 disciples. Father had to restore 12 in prison in order to get out and he did.

In prison you can't talk so how to witness without speaking? Spirit world helped and worked and gave dreams to other prisoners, telling them to follow Father. Father was released in 1950. The first place the allied forces went to was Hungnam.

Father went back to Pyongyang and visited all his followers, but they didn't follow him -- later they said they would have if they had known Divine Principle.

Father took an injured man on a bike and Won Pil Kim to South Korea. And for one year he wrote Divine Principle.

In 1953 they began to preach on the day that Jesus had left the world. Father's first mission was to succeed as a perfected man (first blessing) in North Korea.

Jesus died because he didn't find a second Eve (second blessing), so Father's first mission was to find the third Eve. He met a young girl of 17 and he immediately knew who she was. I am so grateful, he told God.

April 11, 1960 was their Blessing. Right after that he spoke of true salvation, and change of blood lineage. Jesus, although perfecting the first blessing, unfortunately couldn't attain this.

April 16, 1960 three couples were blessed. This was the beginning with blessings in 1961, 1962, 1963 with more and more couples. However since men and women were center leaders there were fewer centers due to the blessings. So the next blessings were postponed until 1968.

*Spirit World*

There are many more people in spirit world than on earth. Archeologists with bone fragments say mankind is 35,000 years old, but newer DNA evidence says 50,000 years or more. That is 1800 generations. Many children died very young but they still go to spirit world. Father has to be more concerned with salvation of the spirit world. No one did anything about this until Father. He began spirit world work in 1997 in America when blessing 40 million couples around the world.

Father blessed five saints and three "devils." It was shock therapy to the spirit world. Many spirits asked if them why not us! Everyone came to have hope. Satan had built huge walls, but this put a small hole in them and would begin their deterioration.

Why did Father make so many declarations and proclamations?

November 29, 1997 -- First spirit world blessing

December 1, 1997 -- Opening gates to spirit world blessings for all.

1998 -- Declaration of Opening Heaven and Kingdom of God -- people in spirit world were very happy.

June 30, 1998 -- 360 million couple blessing and proclamation of Blessing Ceremony -- Person in spirit world can be blessed with someone on earth.

February 12, 1999 -- Chung Pyung ancestor liberation begins. The first goal is seven generations ancestor liberation in direct lineage. Now it is up to 210 generations liberation and blessing.

Why is this important – there are about one trillion people in spirit world and few were blessed then and spirit world was very dark. Spirit world is dominated by Satan. When there are more good spirits than bad spirits changes will occur on earth more quickly than now and stronger.

So liberate ancestors through Chung Pyung. They are not doing it for money as some members say.

Chung Pyung has liberated 480 billion ancestors. Finish your 210 generations.

Father has opened an educational institute in spirit world with the help of Heung Jin Nim and Dae Mo Nim and other couples in spirit world. Heung Jin Nim died in place of Father in 1984 and Dae Mo Nim for Mother in 1989 so that spiritual restoration and education could occur. There was no institute in spirit world until then.

All spirit world came down to us to get resurrection. Now in spirit world you can listen to Divine Principle. There are fewer distractions like jobs, housing, food, etc. Also, nearly everyone believes in spirit world and God. Witnessing in spirit world is much easier.

So cooperate with Father and liberate and bless your ancestors.

The change of blood lineage comes from the Holy Wine, which is only on this earth so spirits have to come down to earth to drink. They come down to Chung Pyung.

So what we do here is important. The blessing is really through us.

So do it. No excuse. If all members do it, spirit world changes quickly.

Father asked how is liberation going? He wanted it quickly. He asked all leaders to push members to liberate and

bless ancestors.

There was so much sacrifice for Chung Pyung here and the institute in spirit world.

March 21, 1999 -- Satan surrendered but his subordinates didn't; just as Kim Il Sung died but other carried on.

The goal is to make more good spirits than bad.

September 9, 1999 at 9 hr., 9 min, 9 sec-Declaration of Cosmic Value -- when wall between heaven and earth began to crumble.

December 10, 1999 -- The day when the Old Testament Age, New Testament Age and Completed Testament Ages are restored.

Father in his own words said he failed in one area. The 3 seven year courses ran from 1960 to 1981 but there were some failures that is why there was not completion until 1993. In 1984 Heung Jin Nim died and Father went to Danbury. There was a lack of True Father unity. Repentance was needed. It was a wilderness age.

October 23, 1999 -- Now Satan surrenders, liberating spirit world.

It was the end of the 20th century and Father wanted to finish as much as possible.

1999 was the time of the coming of the fourth Adam. It was Father himself (and all of us) because there was some failure in the third Adam age.

November 7, 1999 -- Chung Pyung ancestor blessing began.

*Conclusion:*

Ancestor blessing is so important.

2000 - Return of the cosmos to God.

2001 - Coronation of Kingship.

The number of good spirit world keeps increasing. Father was very precisely designing. By this we see it is most important to restore Adam and Eve to the original position, thus paving the way for all fallen people. Father succeeded in order to save the entire physical world and spirit world.

*Era of the Settlement of the Cosmic Parent, Parents of Heaven and Earth and Parents of Heaven, Earth and Humankind*

What was God's other desire when he created Adam and Eve? God wanted substantial form, to be the visible God. Adam and Eve would be God's body.

For years Father emphasized this point repeating over and over, more than he had repeated other points.

It is very deep text.

In the last page of Father's original notebook (Which Rev. Kim showed us) he wrote,

"The final purpose of the providence is achieved."

Three times he wrote it was completed.

True Parents and True God became one.

It is a reign of tranquility and prosperity.

The age of Hoon Dok Hae is completed and perfected-what does this mean?

**BY DOING HOON DOK HAE WE CAN MAKE OUR SPIRIT PERFECT.**

God created man by words, by daily reading we can perfect the spirit man. It is a CONTRACT between Heavenly Father and Father. It is more than a proclamation or declaration.

If we do Hoon Dok Hae, results will come. We can easily clean up our fallen nature.

In 2011 Father risked his life traveling to NY and LV proclaiming these victories. It was very tough on him physically, but he knew he would not have that much longer to live.

He signed and stated:

"The record of eternal victory is completed and perfected."

The oneness of god and True Parents is completed. His wish is fulfilled to have substantial form. Even God's heart can grow. It was never done until now.

There is unity between Father and Mother. True Father will come to True Mother on earth. Without True Mother Father can't be part of True Parents. Mother is most important to him and of equal value on earth and in spirit world.

This age of completion was proclaimed throughout 2010-2012 in Japan and Korea.

No one has done this much work. Jesus tried and attained spiritual success but not the rest. If we understand all this then smaller problems will diminish and resolve. Spirit world will come back to God's side.

We will witness great change by God and spirit world. Everyone do their part and share victory and glory.
