You must remain like a tree that has strong roots. From now on this is the time when we must reveal the truth. We can not wait any longer. We will not wait any longer. We must go forward with pride and reveal the truth. I have been daring! Look at the cross, for example, all who should have supported, all were hidden, all apostles, only thieves were with him at the last moment of his life and yet the left thief still mocked Jesus and the right one said [ this person is different from us, has no sin ...] And Jesus said to him, even today he will be with me in Paradise. Paradise is not the Kingdom of Heaven. Therefore from that point of view I will be proud of you. I’m already proud of you. I see the reports and I’m already proud, Grateful. All things that are wrong in this world can be rectified, Tidy up. There are still many wrong things, And you second and third generation must change the world ...”

In the second part of the event the Festival Hyojeong took place with young people from Latin America who presented a wonderful show that expressed the Creation of God, Fall, Restoration and the Age of Cheon Il Guk. At the end there was the dance of Mujokon, and Saranghe who all sang together with True

The event was concluded with 3 cheers of Eog Mansei given by the Brazilian national leader, President Koichi Sasaki.

It was indeed an unforgettable and historic afternoon, many members expressed a heart of much devotion and union with True Mother, being moved by the reports given by the leaders on the preparations and results achieved that especially thrilled with the presentation of the young people of Latin America.
