Here are the ribbons opening the newly refurbished Columbia CARP Center.

Berlin

Hyo Jin Nim's Song “My Pledge”

The Blessing Quarterly

Hyo Jin Nim's words about Hyo Jin Nim's rally the Berlin Wall, from her message in Ohio, USA, on

A History of World Carp in America: 1973
Here's an excerpt from the God's Day 1988 Midnight Address:

"I've got a problem with life, breathing stuff. The body and the soul are created by God and we are God's property. Does this mean that we can do what we want? No, we don't have the right to do what we want.

For example, I have a child. I love my child. If I want to kill my child, won't God be angry? Why? Because the soul of the child was created by God. So, we are God's property. We have to love our parents and we have to love our children. If we don't love our parents, we will be demonized.

The only person that can cure your anger is you. It's difficult, obviously. But you are not the beginning and end. If the person that you put yourself in the position of depending upon in curing your anger, dismissing the justification they might have, they feel superior to you. So you have to be the one to forgive that kind of person.

When you forgive someone, you get rid of your own anger. When you forgive someone, you get rid of your own pride.
Throughout his life, Hyo Jin Nim was inspired to teach True Father's message, particularly to the 2nd Generation in Korea on February 2004. He spoke about the importance of living a life full of hope and belief in one's abilities.

When we can do that, when we can control ourselves to that degree, yes, there is hope. And there is belief. There is manifestation. That's the reason why people come, why they listen, why they speak. Everything you see, everything you hear, everything you feel, is the result of that belief. So, I hope you will try to develop that belief, that faith.

Life is short. I am 45 years old. I never thought Hyo Jin Moon would become 45 years old. When I looked, I thought I am 35 or 40. But, that's the way things go. When you look at the country, you think the country is over. When you look at the country, you think the country is over. But it exists in the world in general.

When you look at America, this is the greatest nation. But basically people want stability, security, and continuity. And you think America is an ideal world? You think it can provide that, the basic stuff that we have?

But it seems that even there, there is the conclusion. You have to control multimedia, then you lose. There is the conclusion. You cannot control multimedia, then you lose. You cannot control education and entertainment. If you can't control them, you're losing the competition. If you can't control them, you're losing the competition. You have to control, you have to control. Otherwise you're losing the competition.

Parents have a lot of responsibilities. Parents have to act upon it. Parents have to act upon it. You have to look at yourself individually. And you have to know your limitations. You know what is the problem? The problem is, you have to know your limitations. The problem is, you have to know your limitations. You have to know your limitations. This is the responsibility of the parents.

Do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful. If you really want to use your head, you have to do something meaningful.
