

Nepalese Blessed Family Community

Blessed Members and Families of the physical and spiritual worlds!

Dear brothers and sisters of the Nepalese Blessed Family Community who are dedicating utmost sincerely their bodies and souls for the providence!

Dear Ambassadors for Peace who have been working to realize the long cherished hope of God and True Parents!

All the people of Nepal who have been moved by the vision of “One Family Under God” and working accordingly in the frontlines!

Representatives of different organizations as well as the blessed members and families who have dedicated their lives in the frontlines for the Nepalese providence have gathered here today to declare with their resolute volition, conscience, loyalty and spirit this written resolution.

The brothers and sisters who accept this resolution participate with a passionate heart in the work of realizing the original dream of God and True Parents.

This nation of Nepal has been receiving endless love and blessing of True Parents. They have given special considerations to this nation in many occasions and instilled the inspiration of new Nepal. They have visited this country in person and become the inner driving force of new unfolding.

History is a witness that today’s Nepalese Unification Movement owes its thanks to the many elders who understood the truth and shed their blood, sweat and tears with unchanging *shim-jung* to establish a foundation of sacrifice, and it also owes its thanks to the investment of the passionate younger members.

We inherited the Words and the Will that True Father received as a revelation from God and we marched towards the restoration of a nation with the same vision and the mission. Even when we gave lectures or went fundraising in home and abroad or had to encounter severe difficulties, we never allowed a smile in our faces fade away, our confidence shake, and God’s tears dry from our eyes. We remained true to God, True Parents and Truth as authentic sources of our motivation and inspiration.

However, unbelievable, unimaginable and unacceptable things are happening now:

The leadership that used to inspire through love has degenerated to a type that hates, threatens, uses forces and creates confusions; many members and many blessed families have lost direction for their conscience. People who seek a way to solve the problem are simply branded destroyers and heretics.

Even in this small country with limited number of membership, division and discrimination were created. Members were forced to confined to limited freedom, asked to make commitment; those who failed to comply were excommunicated, their families were tortured even by asking them to break the happy blessed families.

Weekly services, and all the public meetings and gatherings were and are still used by church side to preach one sided stories, false rumors regarding those who are not with them, and artificial explanation of the principle to suit their behaviors, activities and announcement. They did not even hesitate to compel ambassadors for peace and other

VIPs of different districts to make public commitments not to support in any kind the activities of those who are not with them. The extreme of this type of activities came on September 29-30, October 1 and 2, 2010, when they purposely published very expensive notice in almost all daily print media on the front page to publicly announce the internal division. Further, they made misuse of money, power, Unification Movement's fame and True Parents' name to block people and the president of Nepal as well as to provoke baseless negative news in the mass media.

God is shedding tears of blood as He looks upon the division of brothers and sisters; pandemonium has been considered to be the providence.

Those who are creating this conflicting situation on purpose and those who support such actions: how are you going to bear the screams and wrath of spirit world?

Our world renowned leader as one of the most dedicated disciple of True Parents has been publicly accused of being the "Fallen Archangel" or "Satan" and his entire family has been also condemned which caused the severe spiritual and mental damage. What is more serious is that these same methods being used, no actually more severe methods are used in the reckless attack and character assassination of True Parents' direct son who has dedicated himself publicly for decades for God's Providence as the eldest living son currently and continues on that path even now without changing. It was a unbearable shock to know that this was led by his own brothers and sisters, carrying the same blood lineage. They have mobilized the Unification Church organization and media and without hesitation called his own brother "fallen Adam" and "Satan," and branded him an evil son who has sued his own mother. They present twisted information to True Parents – who are their own parents – and have caused them to issue two proclamations in the name of True Parents. In America and Brazil, they have gone as far as having the Unification Church organization and its members pursue lawsuits against him.

How can we accept this type of heart piercing action as Principled? Even when they compelled to bear the disgrace and humiliation of such accusations, they are continuously investing in God's providence without a moment of doubt in their hearts. The younger brothers hiding behind the scenes participate in machinations concocted by a few people who are blinded by power and riches—they ruthlessly swear at their elder brother to whom they are related by blood and they sell their Father's name and control this shameful work. They are driving old friends who worked together in difficult times into becoming sworn enemies. The providence has left the road of unification and is standing at the edge of a cliff.

Now it is the time for a resolution. We as Nepalese brothers and sisters will not remain as mere spectators or avoid this situation any longer. We cannot allow the True Father's life long achievement and direction becoming fragmented and limited by someone's selfish purpose and motivation of life.

We want to overcome the current providential confusion with the correct providential standard and with ownership, and we want to fulfill our infinite responsibility in realizing God's dream for Nepal.

Thus, we hereby present our resolution to God and True Parents, and convey this to all the Blessed Members and Families on heaven and earth and to our brothers and sisters around the world.

Our Resolutions:

1. We learned through True Father's revelation that God's fundamental Will and Vision is to establish the true ideal world of peace centered on true love. True Father's lifelong teachings are summarized in 8 volumes and are further compressed in the expression "One Family Under God." The True Family is the substantial model of God's Will, and the Blessed Families have the responsibility to bear likeness with the True Family and fulfill that Will and providence. Rooted in God's fundamental Will and vision, we will fulfill our essential mission as Blessed Families and fulfill the providential responsibility given to Nepal.
2. The essential Principle that True Father revealed is a Heavenly Law and an unchanging law that God, humankind, and creation must uphold and abide by. We will act according to the rules and justice centered on this Principle; and no threat or organizational order that goes against this Principle will be able to bend our conscientious resolution or our actions.
3. True Parent's Unification Movement never jumped aboard the bandwagon of power or was simply swayed by the feeling of the times, but historically it has always judged good from evil, standing on the side of justice, and truth and transparency. Because of our accomplishments based on such standard, we are able to proudly say that we stand at the center of the providence. We must no longer allow such a culture, in which lies are disguised and propaganda are created to make them sound true to absolutely faithful innocent members and families so as to gain power within our Unification Movement. We will strongly reject the orders whenever lies or hypocrisy are detected in terms of the policies and decisions of the current leadership of the Unification Movement.
4. In the history of God's providence the secret for victory was to use a strategy of true love of "getting hit first and then to reclaim". The reason True Parents were able to become the champions of peace is because they lived a great life of loving and liberating their enemies even before their own children. They have been planting their seeds with these accomplishments throughout the world.

The new Unification Church that is being created these days is destroying the precious legacy of a culture of true love that was established on the basis of the blood, sweat, and tears of our True Parents. They discard leaders who have been dedicating themselves for God's Will as if they were old shoes, and they are driving out people who stand for justice and for conscientious actions as if they were heretics. They are forcefully ordering leaders who have dedicated themselves for the providence and for God's Will to pledge their loyalty, and they are even stirring up and instigating these leaders to force them to judge their own brothers and sisters.

We will not follow these orders that put True Father in a bad light and make him the laughingstock of history. No such attempt in Nepal will be allowed.

5. The most important thing to True Parents, True Family, and Blessed Families is the providence. And God is the center of the providence. Accordingly, God's eternal Will, and True Parent's dream of realizing that Will is absolute and unchanging. Our Nepalese Blessed Members and Families will take the correct providential perspective and a subjective role in order to realize God's Will and True Parents' dream.
6. All assets and providential institutions of the Unification Movement are not the possession of any one individual or organization. They belong to God and all humanity and must be used for God's providence and humankind's welfare. We will not allow any attempts by any individual or organization to use their power to make these assets into their own, and we will strongly stand against any attempt of misusing of such properties and premises.
7. All humankind stands in front of God's providence as individuals or as a collective that has to fulfill its own portion of responsibility. Our Nepalese Blessed Families will work to fulfill not only our individual or family-level portion of responsibility, but we will work to accomplish the mission of fulfilling the collective portion of responsibility of the Nepalese providence with utmost sincerity. Moreover, we will exhibit a spirit of mutual cooperation to amicably accept all activities that are aligned with True Parents' will and the Principle in order to quicken the fulfillment of our providential goals.

This is our resolution. The leaders and central members of the Nepalese providential institutions established by our True Parents reached a consensus after much anguish and consideration and we have passed this resolution. We hereby declare its passage to all our brothers and sisters around the world.
