Our Unification Movement is facing the providentially crucial task to build “One Family Under God” and establish the Cheon Il Guk. However, the Unification Movement has been going through a crisis losing the identity and vitality as a providential movement due to its deviation and retrogression from the aforementioned providential goal and direction, which has been caused by the current UC leadership for nearly last four years. Since this is not just an internal problem of the Unification Movement, but leads to a crisis in God’s Providence at large, our movement should return to its original place as soon as possible and do our best to fulfill the providential calling that was entrusted to us. Accordingly, we in the worldwide Second Generation Realm of the Unification Movement, proclaiming that we will not compromise with anything not aligned with God’s providential goal and direction, would like to make a declaration of our conscience as follows:

First, we declare that we will make efforts to be in the forefront of realizing God’s Dream. We believe that both the purpose of God’s Creation and the goal of the Providence of Restoration are to establish God’s Model Peaceful Ideal Family of the vertical three generations and, based on it, to build One Family Under God. Hence, we cannot condone the wrongful acts of the current UC leadership to obstruct the realization of God’s Dream by destroying the true family ideal and artificially severing the sacred parent-child relationship, so we urge the current UC leadership to immediately stop doing those acts. Accordingly, we in the worldwide Second Generation Realm of the Unification Movement resolve to lead the way in marching forward to settle God’s Ideal Family substantiating true love, which is God’s Dream.

Second, we declare that we will continue to strive to preserve the legacy of True Parents. We are sure of the fact that True Parents have been living their entire lives, centering on true love, to realize the Model Peaceful Ideal Family (True Family) and One Family Under God, which is God’s Ideal of Creation that Adam and Eve could not realize. Hence, we strongly denounce the wrongful acts of the current UC leadership to brutally destroy the legacy of True Parents having been achieved with true love by defining their legacy as merely founding a religion called the Unification Church and even compelling True Parents to write proclamations based on distorted facts, so we urge the current UC leadership to immediately stop doing those acts. Accordingly, we in the worldwide Second Generation Realm of the Unification Movement resolve to proudly testify before history and future generations and certainly keep the true legacy of True Parents signifying that True Parents are the ones who have been realizing God’s Dream, centering on true love, by transcending all religions, nations and races, and leading all humanity to that dream.

Third, we declare that we will devote ourselves wholeheartedly to enabling the Unification Movement to fulfill its original providential mission. We are aware that True Parents have been expanding the mission of the Unification Movement according to the progress of God’s Providence. True Parents founded the HSA-UWC in place of Christianity and established an internal, spiritual base at the religious level. Since then, according to the providential demands, they have advanced our movement to build ideal families as the basic units of the Kingdom of Heaven through the FFWPU and, particularly with the opening of the Era After the Coming of Heaven, they have developed an interreligious, international, interracial peace movement for the substantial realization of the peaceful, ideal world through concentrating all the foundations accumulated by the Unification Movement on the UPF and the Parent-UN. Hence, we cannot accept the wrongful acts of the current UC leadership to make the Unification Church an end in itself, so we urge the current UC leadership to immediately stop doing those acts. Accordingly, we in the worldwide Second Generation Realm of the Unification Movement resolve to make every effort to enable the Unification Movement to fulfill its original role and mission of breaking down all the barriers of race, nationality, religion and building One Family Under God, as the owner of God’s Providence.

Fourth, we declare that we, the members of the extended True Family, will make every effort to fulfill our responsibility as the owners of Cheon Il Guk, aligning ourselves with the providential mission for the Era After the Coming of Heaven in which God’s Ideal of Creation can be substantiated. We realize that it is time for children to fulfill their portion of responsibility in addition to God and True Parents’ in order to complete God’s Will. Hence, we cannot agree to the wrongful acts of the current UC leadership to make members lose their senses of providence and mission by defining them not as children but as sinners and educating them to live as servants and slaves of True Parents, so we urge the current UC leadership to immediately stop doing those acts. Accordingly, we in the worldwide Second Generation Realm of the Unification Movement resolve to fulfill the children’s fateful responsibility for realizing God’s Ideal of Creation.

Fifth, we declare that Hyun Jin Nim has been carrying out his mission as a True Child with the single-minded desire to accomplish God's Will and True Parents' mission. We testify to the fact that Hyun Jin Nim has been, with the clear providential viewpoint centered on God's Ideal of Creation, devoting himself steadfastly to the mission as a True Child to aid True Parents, and especially it is now clearly vindicated through the GPF movement showing the world the fruits of his relentless efforts. Hence, we strongly warn the current UC leadership against their wrongful acts to abuse and criticize Hyun Jin Nim by identifying him with a fallen Adam, so we urge the current UC leadership to immediately stop doing those acts. Accordingly, we in the worldwide Second Generation Realm of the Unification Movement resolve to testify to the truth and reality of Hyun Jin Nim who shows the exemplary living guidelines in fulfilling children's responsibilities for this age, countering the distorted criticism and misunderstanding of Hyun Jin Nim.

Our True Parents have been dedicating their whole lives to realizing God's unfulfilled Ideal of Creation. At times, steep mountains and large oceans blocked their way, but they have kept running towards that goal even at the risk of their lives—up steep mountains and across the seas, with no regard to whether it was day or night. We in the worldwide Second Generation Realm of the Unification Movement pledge before Heaven that we will also join them in their way without wavering and thus declare as stated above.
