

KINGDOM AUTUMN ~ SEPTEMBER 10, 2017 ~ REV. HYUNG JIN MOON ~ NEWFOUNDLAND, PA

Finally, it's Autumn time, folks. I brought out my handmade coat. All of you have seen this before. I made some upgrades to it. Also, we must be praying for disaster victims. We just got hit by Harvey; and, again, this time around with Irma. Florida is still in a state of emergency. I hope the Sanctuary people knew about this in advance, and moved out of the danger zone. Of course, there's a lot of rebuilding to do after these kinds of disasters. We had these disasters just this month. There is also Hurricane Katia in Mexico; and, an Earthquake of 8.1 in Mexico. There's Typhoon Hato in Hong Kong and Macau; and, also Tropical Storm Pakhar. Of course, the US is dealing with Irma right now.

It's interesting, because at the time of natural disasters, the country has to pull together, to come together. The leftist lunatics and the Antifa children cannot do their insane asylum behavior, and attack normal law-abiding people. A natural disaster is where everybody has to pull together. That's what's so amazing. Harvey and Irma, you had people who were constantly beaten down. In Harvey, for example, you had the hunters and the fishermen go in and rescue people that have the Christian values. Of course, they're becoming a minority, because they're always being told they are racist and bigoted and xenophobic, and should be killed by the leftist lunatics. You see that on display on CNN; but, the fake stream media has to cover all people of creeds, colors and race. It doesn't matter. They're helping everybody. That's the real America. That's not painted CNN pictures of America, and Antifa, which doesn't represent America. All these nutbag Marxist professors in colleges brainwashing students do not represent America. It is the bowhunter, the archer, the gun owner, it is the fisherman, it is the blue-collar worker that works hard and puts their neck on the line, when there's disasters like this, or any other time to go save people; and, that really is the heart of the Christian.

That is the heart of a Christ centered country. Of course, that's dwindling on the eve of post-Christian culture, and multiculturalism, and all the relativism that we've seen throughout the decades now. It's now coming to a battlefront. We're really on the battleground, now; because, if these disasters, these natural disasters, typhoons, hurricanes were not happening, there would be more Antifa riots and fights, and all sorts of stuff all over the country. They've been planning that since before the Summer time to start civil war here in America.

So, it's always a double-edged sword. There's always a lot of disasters; but, again, people come together and transcend the brainwashing, they transcend the Satanism, they transcend political cultists, and the centralists, and the globalists, and the Satanists that's always trying to divide them from the normal goodness of the people; so, we see this, and we have to pray for the people down there. If you can help in any way, the victim of Irma or Harvey, please do so; but, of course, everybody needs their prayers down there, and the country needs to pull together.

This is a serious, serious time. We're on the verge of nuclear war with North Korea; Iran is ramping up their nuclear capabilities, etc. This is not a playtime we are living in. Meanwhile, in this country, they're trying to be imploded by the international bankers like Soros and the Rothschilds, these fake political Satanists who think they're kings and queens. No, it is the children of God that are the true Inheritors of the Kingdoms of this world. That's why it's so important to stand in your sovereignty. Yes, let people mock at you, and laugh at you with your crowns. "Ha, ha, ha. Look at them. They got a five-dollar crown on." So what! Because in one generation, two generations, they will become real jewels. Real gold and real representation of sovereignty.

It's so important to leave that slave mentality, leaving that servant mentality; as, God, now, is calling us to His Kingship, as we face His Kingdom that is quickly coming. Please pray for the victims down there, down in Florida now. We hope that Sanctuarians can help anyone in that region, and of course, evacuate if they're in the danger zones. Do not listen to Democratic Mayors who tell you to stay in place, and emergency notifications are ridiculous. Don't listen to them. You saw what happened in Harvey. You see what they always do.

Also, join us for The King's Report for understanding of current issues broadcast live on the Sanctuary Church website Youtube channel. Also, congratulations to David Takahashi for winning the 1<sup>st</sup> Cheon Il Guk King Cup Shooting Tournament. That's why the peace police/ peace militia signs have the AR15s. The Rod of Iron.

Remember, the Kings of this world will be ruled over in this world by the Rod of Iron; and, the Rod of Iron is Inherited also as the co-heirs with Christ, who will be placed as the Judges over the Kingdom; and, that's why sovereignty and the right to bear arms is so critical. Even yesterday, we took Mrs. Kang out on our Saturday lunch date, which she looks forward to all week long, and we were talking about there are ministers in Korea who are standing up against Sharia Law. They're starting to expose the reality of the Islamization of the West, and in Korea as well. They're trying to bring in radicals from different areas in the East as well. The same globalist-plan. The same UN-plan. The same Rothschild-plan to divide and conquer a country, so they can sweep in and take control.

If you think about it, you have 1.5 billion Muslims. Of course, not all of them are "radical;" and, if you take the Koran seriously, and you actually believe in the Prophet Muhammad, who was a Jihadi. He himself cut off eight hundred heads of the Jews, after he said they betrayed him; so, he was a Jihadi. And so, if you are actually serious about your religion, not just like a nominal Christian in America, right, who hardly know the Bible, it's the same in Islam. Most Muslims don't read their Koran. They're just going to the Mosque and saying their prayers. Sometimes, most people don't even do their prayers, like in Turkey. They are supposed to, but they don't; but, if you are serious about it, and you actually believe in it, and you take it seriously, well then you have to adopt the law that was given, and the behavior that was given by the Prophet Muhammad in their religion; and of course, they have to allow certain behavior, which is bad. A Korean Minister, who has been twenty years in Iran, was exposed to the fact they are prepping girls at nine years old. They were having a little celebratory party, "Yeah! You're ready to get married. You're nine years old:" Muhammad was married to Aisha when she was six. He was fifty-one years old when he married a six years old girl; and, started consummating that marriage, when she was nine years old. But, of course, before that, he was molesting her.

But, it's not only that. She started beating her into submission. You saw David Wood's expose on the reality how women are treated in Islam. You can beat your wife. Completely legal. The Korean Minister was giving the example of a Korean woman, who just believed in the lies of the apologist. She thought Islam and Christianity were the same; so, she ended up marrying this guy, who was Muslim, and he said, "Oh, I have another wife in Saudi Arabia, wherever she is. By the way, I have another wife; and, when I go to the Middle East, I just go and visit her, because Allah allows me to have four wives." Of course, they try to explain, "Well, you know Abraham, and all the biblical figures had multiple wives and things like this."

The reality of Sharia Law and the apostate cult, which is radical Islam, particularly Saudi backed Wahhabism, which kills you if you leave the religion, beats you into submission if you are a woman. Your

husband can beat you with a rod. Completely legal. He can go to prostitute brothels, as long as it's done as a legal marriage. You see, you marry the girl for thirty minutes or an hour, have some sex with her and toss her out, sign the divorce paper, and you are free to leave. This is fine in Sharia Law.

Also, there's the reality of honor killings, etc. And, the women have to produce four male witnesses, even if they're raped. When they're raped, they have to produce four male witnesses. She was going on and telling how the Korean Minister was explaining that was one of the Hadith with Aisha, or one of the brides of Muhammad, who was apparently raped by somebody; and, then he had to rule on it. He didn't want to divorce her. If he wanted to divorce her, he said, "Produce four male witnesses." Of course, she couldn't; and, they had seven women witness that came forth; but, since women are half of a man in the justice system there, it only came out to 3.5 people. So, they were overruled, and of course, he didn't have to divorce her; and, the rapist got away with rape.

So, this reality as well is spreading, as fanaticism, as the economy implodes, as disgruntled youth are sucked into as radicalism, Saudi backed Wahhabism, which has tons and tons of millions and millions of dollars of radical Jihadi funding. So, you have this kind of force; and, we know it's not a religion. We know that. It's a political ideology. That's why Father called Muhammad a devil. He was into the Middle East saying, Muhammad was a devil. I was with him. You can hate Father all you want. He's got bigger cajones that all of you combined. So, that is a reality; and, you have the spreading of Jihadism.

And of course, the radical left in the West is allying with them to bring them in to use them as a Mafia tool, use them as a divide and conquer strategy, use them as the radical Pitbull's tool to attack any of their political dissidence, attack anybody who wants to go against them, attack anybody literally with violence and death. That's of course, why they want to disarm every single person in the Western world. That means, now America.

You have to understand, even the normal Christian is so brainwashed by state Christianity, state run Christianity, whether it's Catholic state run Christianity, or whether it's Protestant state run Christianity, which is also funded by the Federal government with various programs; and, they become behold to. So, it's a very small section of Christianity now that is Abel-type, that is standing against these kinds of things, and of course risking their 5013C status and all that, thinking I don't care about all that, thinking I have to stand up against this evil; but, there's so much good about Christianity. Joel Osteen and these kinds of mega church preachers, who take in tons of Federal funding, of course, they can't criticize the archangel, because they're being paid by the archangel, or get funding from the archangel. In the Catholic Church, where the normal Catholics are wonderful people, it's unfortunate that their organization is one of the largest pedophile sex trafficking organizations in the world. This time, the Deputy Pope literally is getting now sued by the Australian government for child trafficking. I mean, I'm sorry for being informed; but, that's the reality. The reality is, that state run Christianity is not real Christianity, is not real Kingdom Christianity, which understands the Gospel of the Kingdom, understands sovereignty.

God-Blessed humanity of Adam and Eve, with the Blessing of being Fruitful, Multiplying and having Dominion over the Earth. That's why the Rod of Iron is so important. The Rod of Iron, think about it: In the Kingdom of God, it is not a centralized governance. All the citizens are called to be part of the peace police/ peace militia. There's no centralized law enforcement. No centralized military. The people train at the local level. The people have sovereignty and the local level. The people have the Rod of Iron at the local level. So, if you have the start of the spread of radical ideologies that seek to overthrow

sovereignty, freedom, liberty, free will, etc, well then, you have the peace police/ peace militia right there to vanquish them; as, they are of course terrorist organizations. The only power that can stop the spread of radical Shariatism and radical Jihadism, and Saudi backed Wahhabism is the Cheon Il Guk Constitution. You cannot do it with the glitterbug preaching Christianity. Real sovereignty must be had, and there must be a true and honorable Christian Christ centered civilization that is also empowered from everybody who's living there; so, it so critical for us to understand what sovereignty really means. What Christ had to pay for that sovereignty. We take it for granted; but, it is a tremendous price he had to pay.

So, yes, the world may look at your crown and say, "Ha, ha, ha. Look at those crowns. Look at those weirdos with the little crowns. Their warmonger crowns. Ha, ha, ha!" But, as your sovereignty identity in Christ solidifies, and Christ is able to strengthen in you, you will see. That crown will start becoming more and more powerful, not so your kids can be spoiled, and generations in the future can be spoiled. They will try to fight over your assets that you've accumulated and put into crowns, and other real royal assets. No. They will learn the tradition of protecting the lineage, protecting the civilization, and be honorable people. Of course, young people will always become Socialist and Commies, if they don't do hard things. That's why the peace police/ peace militia is so important. Training is so important; because, it forces the young people to face reality. Face reality, and become unlocked in their epigenetics, so they are not bamboozled by brainwashers in college, and in Hollywood. You name it, that are trying to steal their sovereignty, and make them join a sick pedophile cult that is literally trying to dishonor everybody, so they can sit on top of everybody, and have their selection of sexual meats.

So, these are the powerful and trying times that we are living in; and, of course, there is the Cheon Il Guk Constitution. Wow, Wow! Father was powerful. When I get up there, I just have to let Father speak. So, sometimes, I have to disappear and let Father speak. He was very upset that, still, people came before his alter with a slave mentality. You did not honor him with the crowns that he has prepared. That's why we sing the song, "We are no longer slaves." What does it mean to be a child of God, the child of the King of Kings! What does that mean? Is that some just nice little Christian phrase you say to make yourself feel good? What does that mean? What kind of incredible Cosmic ramifications does that have, okay? He came down so powerful, and it was so clear.

We must throw away the slave mentality, the slave spirit. The spirit of slavery. That's why it's amazing that the Japanese members, now, are taking their pictures with AR15s and AK47s, whatever. The fire in the Rod of Iron is symbolizing their sovereignty, even though they're not real. I mean, you cannot get them in Japan. They are buying ones that look like real guns, etc. It's that symbology. They're not able to access that, because they're different civilization, and it's totally archangelic. The people are really slaves in East Asia. But the Japanese members, and now more and more Korea members, the Korean members do it less, but every week they're strongly proclaiming their sovereignty, putting their pictures up with those guns. Even though they're mock guns, still, they are putting them up with sovereignty. They're taking those pictures and putting them up. That's a powerful declaration against the archangel, because they're saying, "Okay, we may not have them now, but we will one day." You predators will not be able to perch on top of us at that time. Koreans have to do that, too. The more the archangel mocks at you, laughs at you, and curses you saying, "Oh, you. We don't let you into our cult, because you have a gun. Look at you. You caveman. How dare you have that." Don't you know we're all disarmed; but, our bodyguards have 21 guns on them at one time? They're so pathetic. They're such pathetic liars. That's the great thing about this age. Their hypocrisy has been exposed.

Play that clip, again, of the Second King. Go ahead, play that clip. Oh my gosh. That was so good. I'm thinking, "When did I say all that?" They edited that into a wrap video. Of course, we're standing against that. Go ahead. Play that clip. Did you see this? It was covered in the news. It's this lunatic leftwing Antifa guy, and he's just saying, "I'm Antifa militia. This is my first gun I bought. Look, it's an AK47; and, this is the thing where you do here, and the thing here, you pull this thing, and oh, how do I do that? Okay." This kid is a strange person. My God. "Here's a little clip here, and it goes here. Oh, it's in backwards. Put it in again." Oh, my Gosh. If these fools want to start a war with hunters and fishermen and veterans, they're out to lunch. They are crazy. They're literally in a suicide cult.

Alright, I am no longer going to think about that. I gotta stop speaking so much. My immune system is way down. Three-hour plus broadcasts, and of course ten hours on Thursday, and all that kind of stuff. I got to stop speaking so much. Stop ranting so much, even though it's quite entertaining to watch; but... That's the type of scenario. The only thing I can stop is this kind of radicalization. These radical ideologies are allying together. It's a physical kingdom. It's not like God's Kingdom. It's not spiritual. Jesus said, "Everyday you better pray, "Thy Kingdom come, thy will be done in Earth as it is in Heaven." On Earth as it is in Heaven, where God has all the authority. Where angels tremble at his feet. Where devils dare not challenge him. That's what we're talking about, because it's got to be that way on Earth, too. The predators, the demons, and the archangels should tremble at the Inheritors of the Kingdom of God. They should tremble. They not only have the authority, the might, the goodness, but also the power.

That is why the Kingdom Gospel is not preached, because so many churches are state run, and they're colluding with the archangel, and they want to protect their 5013C status, and they're defending big pedophile networks like even the one here in Pennsylvania with the Catholic Church networks, or Penn State. Who was that guy? Sandusky. He was running some kind of orphanage thing. That's why they're not teaching their people to have a kingship mentality, to have arms, to have the Rod of Iron, and have true Kingship perspective. They cannot be brainwashed by the society telling you the paper is true assets.

Just like he told the Church of Philadelphia in the Book of Revelation. "Let no man take thy crown." Christians in America, even they think it's weird that were all are wearing crowns. Well, they're weird. They're not reading their Bible. The believers were to receive crowns of glory. Believers are to be the inheritors of the Kingdom of God on Earth. Co-heirs with Christ. The Bible says, "Let no man take your crown." The Bible says, you're supposed to have a crown to represent sovereignty, or represent your connection to the King of Kings; so, when you have good well-meaning Christians, and are brainwashed by state run Christianity, archangelic Christianity, Constantinian Christianity, Roman Catholic Christianity, even though they're very nice people and good people. They're Abel-type definitely. They are definitely on God's side, they're not on Satan's side; but, they still may laugh at you, and curse at you, and say you're in a cult, and why are you wearing a crown? But, people may be laughing now, as your crowns are cheap \$5 Walmart crowns, or ones you made out of little wire, whatever; but, they won't be laughing when they start becoming real gold, real jewels, and are representing an entire Kingdom with arms, with the Rod of Iron, with true Christian ethics to serve, love and protect goodness, and to vanquish evil. No, they'll be lining up to see how beautiful your crowns look, and how they wished they can have a crown, even though they may be cursing you, and laughing at you; and, that's what's so sad.

State run Christianity comes sucked up and eaten up by this relativist culture. No longer trail blazing. No longer pioneering the pathway to liberation from the archangel. That doesn't mean they're all evil. Of course not. They're still on God's side, of course; and, they are still on the Abel side, so we must not think they're enemies, or something like that. What I'm saying is, the mocking and the laughing, don't let it get to you. We must wear our crowns with pride; and, you must never give up your guns. That is your Rod of Iron; and, you must never let go of the Cheon Il Guk Constitution, which preserves that sovereignty and freedom in the entire world for all generations to come.

So, with that said, I want to invite some of our international leaders here. Let's invite Rev. Lee to come and give a brief report about his time here these last few days. Also in Korea Sanctuary, as well. Let's all welcome Rev. Lee. Also, let us welcome Mrs. Erikawa.

(Mr. Lee and Mrs. Erikawa reported of the situation in Korea and Japan. The key points are emphasized by the Rev. Hyung Jin Nim within his words since the beginning of the year; so, to repeat them here would only be redundant. Rev. Lee and Mrs. Erikawa are doing their best to apply the teachings of the King. Rev. Lee spoke how North and South Korea are the center of evil and good. The Korean Sanctuary Church is the only ones left that are trying to support America and sovereignty to the fullest. Japan, with the guidance of Mrs. Erikawa, is doing the same. Amen-Aju!)

Wow! Did you see those shocking pictures in Japan? What is this weird Movement, with all these crowns, and all these AR15s? Wow, wow, wow! Let's give it up one more time for Rev. Lee and Mrs. Erikawa. Thank God and Father for the work they are doing all over. That is a weird Movement that is spreading around the world.

And, what do they believe in. They believe in private property, and non-federalization of the government, and they believe in citizen's armed, and a peace police/ peace militia. And Look at this. No international bankers can come in, and muck it up with the Commies, or the Communist can't take it over. It's interesting. It must be the Kingdom of God.

We are, of course, are thanking all brothers and sisters worldwide, who are standing up at this very critical time; but, we have to understand, why the crowns are so important. Why are the crowns so important? Yes, you may start with a Burger King crown. Who cares. It doesn't matter. It doesn't matter, because you are declaring before Heaven and Earth, and before all the demons that you have sovereignty; and, remember, the Korean members, they don't have the right, or the permission from the archangel to actually have weapons there; but, they are making that symbolic gesture, right, that they stand in a Kingdom that is not of this world, and that the Rod of Iron will not be centralized, and will not be in the hands of the politicians and demons; but, that the inheritors of the Kingdom of God will have the authority of the Rod of Iron.

So, it is so important, so important to have your crown; and, like I said on Thursday, "Yes, the world may mock you and will laugh at you, so what. they laugh at me, too. I am the King that did not give away my crown. You know why? Because my Father gave it to me. That would dishonor him. See, I did not give up my crown. My Father gave me that crown as the King of Kings to wear; so, I didn't dishonor him by casting it off. I kept the Crown; but, then I unmuzzled the King that gave all of you crowns, too. So, I didn't dishonor my father. I kept my crown; but, I also gave you crowns. So, when you come before me, especially when we have these special events, then you are honoring the King of Kings. You must come and honor the hand that has crowned you, too. There's a line that's connect right to the top, okay.

So, your crowns represent that sovereignty the archangels cannot take. You know, we're having a wonderful time with Hoon Dook Hae with our kids; and, it's interesting. We're going through the Cheon Il Guk Constitution, and we just read the authority of the King section; and, this is great, because our kids can discuss this, and the Third King is sitting there, too; so, he understands what the Constitution says, and what he has to do to represent and stand up and protect; and, also, the other kids understand, "Oh, yes, the King's rule." I asked them all a question, "What would happen if the Second King gave the Third King unlimited authority?" They're all sitting there like looking at him, and he's embarrassed. He's hiding under the backpack. I said, "Will he become a demon, because absolute power will corrupt, absolutely." So, I was explaining to my kids, your Daddy is a King who knows that; and, he knows only the King of Kings can handle that; so, that is why in the Constitution, there is Cain and Abel. You have the balance of power; and, you have the Cain connected with the judicial branch. The satanic Kings control everything, including the force and the military. They centralize everything. That's all broken down. We went through the different sections of the King. That's why even the King, and I asked the question, "Can the King of Cheon Il Guk do this? Can the King of Cheon Il Guk do that? Can the King of Cheon Il Guk this law? Can the King of Cheon Il Guk that law? Can the King of Cheon Il Guk say you can't cut down trees in your backyard on private property, etc? This kind of exercise of having the children understand what kind of Kingdom we create is so important. Understanding the Cheon Il Guk Constitution, when you do the Hoon Dok Hae with your kids, you can have Q & A.

You can ask them questions. You relate to them, the culture and civilization of Cheon Il Guk. What you represent, and yes, your crowns may be like that now; but, as time goes by, I said to one person, next time he has to come with more real assets on his crown. As time goes, these will become beautiful crowns. When we are talking about the Cheon Il Guk culture, you don't see another's crown and say, "Hey, that selfish person. He's got a nice crown. Better than mine. Ahhh!" You don't do that. You say, "Wow, that person has a wonderful, beautiful crown." They're giving honor to the King of Kings, and they're becoming part of the three great Kingships on the Altar of God, and they're showing the beautiful crowns, and Father's so happy, and thank God for that kind of beautiful crown. Now that inspires me to upgrade my crown. See what I mean? You don't be this jealousy culture saying, "He has a more expensive crown than me. Look at that person? Ahhh!" No, no, no. We're happy, when another Blessed family can stand up with sovereignty; and, while Mrs. Erikawa has a diamond crown... Oh, that's not real diamond; but, in the future, it will be, you see.

So, all the culture of Cheon Il Guk, and your civilization that you are inheriting, you can also teach your children. You invest in the dynasty that's connected to the King of Kings. You don't just spend, and waste things on frivolous things, and die in debt slavery. You invest into your dynasty that got connected. The dynasty that's honorable that stood with the King of Kings and the Three Kingships. You invest in your dynasty. You protect your dynasty. Then, you train your children not to become arrogant, selfish, narcissistic money grubbers, who want to steal your assets. No! Teach them in a culture of peace police/ peace militia. Teach them in a culture of the warrior spirit, right, honoring the loyal Kings and Queens that come through them. Protect the Constitution of God. Protect the Kingdom, right. Then they learn that culture as they go down the road. Then they are also producing beautiful crowns that continues to go on for generations. Then your dynasty can rise. Stand together with other dynasties that you are not jealous of, that you are thankful for, so we can all stand together as the peace police/ peace militia, as the guardians of this Earth and of the Cosmos. The children of the King of Kings, and the Inheritors of the Kingdom of God.

SOS come on up. It is with that in mind that we will all rise, and give the King of Kings the glory. I did not give away my crown. I did not dishonor my Father, who put a crown on my head. I did not dishonor him. I kept my crown; and, I gave you yours. So, don't be shy of it. Embrace the sovereignty that's been handed down to you, just as I had to embrace the sovereignty handed down to me. Yes, I had to go through the same thing. It's the problem with good people. They don't want to be raise themselves. I completely understand that heart. You all saw me have to go through that, too; but, it is not arrogant if you are proclaiming the truth. It's not arrogant if you are proclaiming the truth. It's not arrogant when I say I'm saying I am Second King, and I was crowned by the King of Kings. I didn't choose that. That was bestowed upon me; so, it's not arrogance when I say what is true. That's the big difference.

So, it's not arrogance, when you say, "I am a King and Queen of Cheon Il Guk. I am a King and Queen that represents an entire dynasty, because I stand with the King of Kings and his Kingship. We are one peace police/ peace militia. Now, it is spreading worldwide. It's spreading worldwide. We have the Constitution. It's right there. Understand it. Read it. Share it. Discuss it with your family, your children. Understand what you've been given the culture, the powerful culture of God that is now yours. Not so we can destroy it, so we can have an ego trip. No. So, we can preserve it, and we can guard it for the sake of all humankind. Come on SOS.

We have a sister from the Yamaguchi Sanctuary Church. She was Blessed this past Spring. She is here with her husband and mother. Let us welcome up our sister. Let us all go in peace and do our part. Let us honor the King of Kings. Amen-Aju!
