

**2018.09.09 ~ Sunday Service ~ Rev. Hyung Jin Moon ~ Newfoundland, PA**

Okay folks, this is our Rod of Iron ministry page. Get some of the stick fighting training right there. Now you see the young crusader ninjas, now they're using weapons, and of course this is Kali Escrima – a very dangerous art, and of course this is an art that was developed with the use of machetes and double swords; so, this is actually swords, but these are actually sticks. They train with sticks, but they're really swords, okay? So, they traditionally use in the jungle with machetes, okay. Can you imagine? I mean, literally, this is some dangerous stuff they're doing, but of course they practice with sticks because it's safer; and, you learn with the stick as well, because there are differences between blade and stick, and edge weapon and blunt weapon; and, they used stick fighting, but they can transition to blade very quickly, very quickly, because the stick is a little less versatile than the blade. The blade is much easier, cause all you got to do is pull and they cut right open.

And you guys, you see the fake movies. Don't be diluted by that. It's fake stuff. It's totally fake. People get cut using that cause they're fighting with knives. They usually got these little red lines from blood dripping from them. That's their little. I showed you a cut. You understand, you saw it, right? You young people saw it, correct? You saw that? A little touch and boom! The skin, the whole muscle's completely open, okay. Massive laceration damage; so, you imagine that time on steroid times ten with these as machetes or double-edged sword or battle axes. Do you see what I'm saying? Okay! So now you got a whole different ballgame in motion. Alright. Go ahead. Go to the next one. Let's see some of the other ones.

Now this is meant, I'm just showing this so that you that you young crusader ninjas are encouraged in seeing they're training. They're young and it's exciting, and then people, you know, they will develop real special powers, and of course I'm always reminding them don't be diluted because they are developed compared to the normal child. They're developing special powers and of course knowledge of very dangerous things, and of course they love watching themselves on TV. Don't lie you suckers. I rebuke you in Jesus name. Okay, but them training in the one-two, four-one patterns, okay.

This one, Kaya Jones, who is a patriot young lady in the gun community. She's now coming out with a new video. She's a musician. She was in the Pussycat Dolls in the late 90s or something. Big, big music band, a huge band. They were top MTV, you name it. They were number one on the charts. You guys probably don't remember them in the 90s. Who remembers Pussycat Dolls? I never heard their music but I remember the name, okay; and, there were four girls, and one of the girls is Kaya Jones. I guess she's the one with pink hair. She has pink hair now.

But, she has come out. She has come out against Hollywood, exposing Hollywood as a pedophile cult that has Harvey Weinstein type people that a basically raping young people that are going in there with a wide-eyed dreaming, you know, California dreaming of becoming a stars and you know idol, etc, and all this kind of thing; but, she's exposing all that and showing this is fraud. This is total lasciviousness. This is degradation. It's wicked. Don't be diluted. Don't be sucked in by the lies of the Devil. Don't be sucked in by the lies of Hollywood. She's part of Hollywood, but now stepped out and making her own powerhouse. Almost like a ministry. She's a very strong Christian, and she's a testifier to Jesus Christ.

You know, Colin Kaepernick, the failing Quarterback that was, you know, trying to get his little social justice warrior, you know, funded by George Soros. He wanted to be a little hero in his failinh career, and he comes out and does his little Anthem kneeling, which insults all the veterans and all, you know, and so the NFL ratings have plummet, plummet, plummet, plummet; and, the NFL has the lowest

ratings ever now, okay. So, he's done a great job in destroying, you know, successful franchise that was absolutely fantastic; and, Nike too jumping on the bandwagon. I guess they wanted to follow the success of the NFL, so they know hired this bozo to be on this thing, and he's got his little face up there, and said these letters. It said, "Believe in something, even if it means sacrificing everything." It wasn't this picture of Jesus. It was a picture of Colin Kaepernick. What a punk. The guys making \$35 million dollars, and he's saying he's sacrificing everything. Give me a break. What a total hypocrite. We're so sick and tired of these fakes and frauds.

And Kaya Jones put up the real person who sacrificed. That's Christ, okay. They put up this one. That's the slogan that you need, but that's for Christ. "Believe in something, even if it means sacrificing everything." Talk about dying for other people's crimes, dying for other people's sin. You and me. The blood of Christ, the blood of Jesus, this is the power folks. This is the name that they're all afraid of. This is the name of Jesus. They're afraid of it in the public schools; they're afraid of it in the music videos. They're afraid of it in Hollywood. If you say the name of Jesus, they try to guilt/shame you. They try and make you feel like you're stupid. They try and make you feel like your some kind of backwards medevil fool, cause they know. At the highest levels they know. They're Satanists. They're practicing Satanists, they're Luciferians. They're doing Satan worship, Baal worship. They are doing satanic rituals in the pedophile clubs, and they think it's fun and games; but, in the end, they know that they're channeling power from an evil source, right? The Bible says, we fight not against flesh and blood but against principalities. The rulers of darkness of this world, the spiritual wickedness in high places. (Ephesians 6:12)

So, we should be, this is not a conspiracy theory to say that the world is governed by evil. I mean, that's straight out of the Bible. The Bible says that very clearly, and it's very clear because the entire satanic world is ruled by Satan; and, so you can tell wherever they're hostility against the name of Jesus, you see, you see, cause Jesus represents something more than just man. He represents an entire civilization. He represents a culture. He represents a way of being. He represents a reality in the world that is transcended. He represents something so powerful that if somewhat antagonistic to the evils of tyranny, the evils of Socialism and Communism and centralized power. All those, meanwhile telling young people, "Hey, you need to vote Democrat cause, you know, we want to help the poor. We want to do this; meanwhile, they're hurting the poor.

Everytime they raise fiat currency or print more money, what happens to the poor? Young people, you should know this. What happens to the poor people everytime you print more money? What happens? Who get hurt the most? Why do poor people get hurt the most? Who knows? Okay, explain it simply. Why's that? Explain inflation simply? Why does that hurt the poor people more?

Okay, the go to the supermarket more. Poor has much less money than the rich person, right? And now, you know, maybe the food prices stayed the same, but the power of each dollar is weaker, and maybe they have less dollars. You see what I'm saying? So, it hurts the poor people the most.

Let's bring it down to the real world. When they go in to buy the mango or buy cereal or buy, you know, milk, whatever it is. The power of their money is being evaporated because this stupid bank is illegally printing money and fake money and more more and Monopoly money, the fake money, which you know is not real money, right? So that's why those who are the most adversely effected by this kind of system, it's not the rich. The rich can get around it. They can have all their little loopholes, they can have their army of Accountants and Lawyers, etc. It the poor. The poor are the ones who get smashed, but they're the ones who get suckered in believing that they got to vote Democrat, okay,

because they talk about, “Oh, we care about the poor people. Oh, we want to do it.” And then you got the politicians out there doing their little media stunts lying to you, okay. So, it’s a total scam. It’s a total, total scam. These people are just like running a little circus, and everybody’s watching them, and all are mesmerized by the stupid CNN TV. My goodness!

Here. Jump up this for a second. What’s the next one’s here we want to show? Oh, there’s some other ones. Let’s see the young people. There we go. Get the crusader ninjas on the right side. Hold on. Yeah, there you go. Let’s click that. Look at this. They’re training all their patterns.

Now, it’s great. One of the videos GN Funker Tactical. That’s GN from Funker Tactical, but he follows us on Instagram. I met him from the Shot Show. He has one of the biggest Filipino Martial Arts Tactical channels on YouTube. It called Funker Tactical. Anybody who’s training should be a part of it. You know, subscribe to him. But nice guy. They train with Instructor Zero and GN. GN commented on one of these videos. I don’t know if it was this one or another one here that he commented on; and, he said, “Thank you guys for spreading the art.” And I said, “Hey, GN, cause we met that at Shot Show. We met them in Las Vegas. Him and Instructor Zero who’s a specials ops training guy. Nice Italian dude. He trains all sorts of special ops around the world, and they work together. We met them, and you know, acquainted each other, and we follow each other, etc. And this is like the first time. He’s so thankful that, you know, the young people are learning this kind of Filipino Martial Arts or FMA. You know, they’re learning these arts, but of course you know, he sees how we’re training. He sees how we’re training. We’re learning these dangerous arts, but it’s Christ centered. It’s based on self-defense, right?

These young people, they understand that it’s not for showing off. It’s not for flamboyance. It’s not to get praise and worship. It’s for self-defense, right? It’s for actual usage, right: so, you may have seen some of these young people before. They like to show off. The young people like to show off. They want to get praise. They want to get known. They want to be special; so, they do this thing, even they don’t know what they’re doing, and anybody who knows what they’re doing, who knows what they’re doing looks at them, right? Look at these little kids, these little show off kids; but, after they train, they realize the ethic of the combat art, and they realize you don’t do that because of so many people of huge high levels, right? And so you don’t, how do you say? Pose in that way. You have to actually have to have that kind of skill level, and even at that high level skill level, where you deal with weapons and stuff like that, then you’re dealing with unknown factors. You’re dealing with luck as well. You know, that’s the problem. This problem with Jiu Jitsu. One with about Jiu Jitsu, you never get lucky. If you’re fighting a higher level guy, you’ll never get lucky. You can never get lucky. That luck is almost totally eviscerated. It’s completely gone. Okay. It’s basically all skill.

Boxing and striking to a certain level as well; but, once you get to weapons and stuff, since the weapons themselves become so dangerous luck actually comes in a little bit. There are some elements of luck. You can get lucky and hit a grand master in the leg by luck, you know what I mean? A stick or knife won’t do anything because you get trained up to receive those blows.

But at firearms, it’s a whole different level, okay. Let’s get some of those firearms training. Okay, so this is some of the drills we’re going to have some of the young people do. Well, there’s GN. GN right there. Yeah, GN from Funker Tactical. “Thank you for spreading the art.” And I wrote him back saying, “Hey GN. Thank GN for sharing the art and your journey the most.” Okay, not the best English; but, I wrote him quick. I’m not trying to be a PhD on Instagram, alright. Okay. So we have some different drills.

Let's go to the hostage drill here. Go down, down, down. Alright, right there. There we go. You know better than me. There we go. Here's the hostage target. These are some of the hostage targets that we got; and, this is a drill that we're doing at 5 yards, 5 meters, but the hostage is very small, so that would probably be 10 to 15 meters cause the guy is very tiny. He's not a human size. So, even though you're 5 yards away from the target, the target is actually 5 or 10 yards away, basically, because the size of that man is so tiny compared to a real human target, and you can see just aiming and putting it right on target. Don't hit the girl. You hit the girl, you get 10 push ups. Each shot you hit the girl with, you get 10 push ups, okay, in the 90 degree weather heat; and, you got to put it right on placement, get that bad guy first, get that bad guy down. Isn't that fun? That's pretty cool, right?

So, we got these kind of drills, and of course Kook Jin Nim Hyung has been talking about it, and you guys have a high level gun Instructor, right? As you all know, marksmanship is very important. Marksmanship is really key. Learning the control of that trigger, etc. Very important, okay. So, when we train the Rod of Iron arts then you guys can be all trained up, but nice and slow, and your going to have understand that's the payment. You don't want to just spray down there and miss everything. You want to put it right on target. You don't want to pray and spray. If that's the case, you don't want to pray and spray. You want to put things right on target, right on point. Can you say Amen, young people? Who wants to shot one of those targets? That's kind of fun, isn't it? That's kind of fun. Okay?

And also, let's check out the Thompson. Let's go down here. Slow-mo on the Thompson. Right there, right next to the target. I'm shooting the Thompson; and, who's painting the AR? Who's painting the ARs today? Alright, you guys are gonna spray paint. Good. This is how it operates. You know, the pistol, you can operate right on your cheek. See how it's not even shouldered? It's right on the cheek. Can you see that? So, that's a pistol 2.23/5.56. That's tremendous power, you understand? That's slow-mo. Where's regular speed? How come regular speed didn't happen? Did the regular speed happen? Oh, you saw that? Okay. That was a burst, right? You guys don't understand how much tremendous power the AR-15 has. Okay.

So, once you're old enough to own one, and you have to train with one, understand the ethic, and understand the comportment and character and the morality. Do you understand? Behind wielding such a dangerous, scary weapon. It's such a dangerous, incredibly scary weapon; and, you guys reach the age past 21, then you can get your pistol permit, etc; and, once you get your pistol permit, you can carry an AR pistol in your car or even on your person if you have it holstered in the right way, right, in Pennsylvania.

So, it's tremendous; but, at the same time you have to always understand that even though we live in the same United States did you know if you cross over into New York or New Jersey you're a criminal now. You're a criminal. You're now a felon. It's totally insane. That's because the Commies have taken over New York and New Jersey; and, they made it so you're a totally law abiding citizen, you're a great person, you serve your neighbor, you love people, your saving souls, you love to help people in need, whatever the case may be, and then you cross the boarder, and now you're a felon, you're a criminal.

In New Jersey, every hallow point bullet, you are going to get five years in prison. Five years, up to five years for every bullet. Isn't that incredible? Like, there's a Black sister, not part of Sanctuary, but a Black sister. She went across the border, and she didn't have her gun on her, I think. She just had bullets. She just had bullets, and she was on the range the other day. She left them in her car, whatever. She got like 25 years for those bullets. Golly! Do you see how crazy that is? I mean, do you see the difference between the level of sovereignty we have Pennsylvania, even though they're trying to erode

that, and the level that New York and New Jersey has had? That's what they want to make Pennsylvania into, folks, alright.

That's why it's very important. We have to stay activated. We have to stay also in the fight. One thing we must not do, even though we're filled with the spirit of God, that we're Holy Ghost, speaking in tongues, born-again and saved, and all this kind of stuff, we must not let the fake spirit come into us, and just put us into a doldrums, and just give us, oh, we're only thinking about the spiritual. No. God gives you the fire, the baptism of fire so that we can purge the evil in this world, so we can stand up against unrighteousness. That's what the Bible says. To stand up against unrighteousness, okay, so that we can be prosperous and do this sort of thing. To buy this property or buy this house. God wants are remnant to be blessed in that manner cause He know they're loyal to Him. He knows they won't be sold out for money, and knows they'll be generous in their stewardship of that. Can you say Amen?

But at the same time that's not the only thing. He wants to fill us with the Spirit so that we become activated and we become strong and powerful against the principalities and powers. This is real, okay. We can't just live in a spiritual unreality and get diluted t'ai chi ch'uan or something. You see what I mean? "Oh, you're just harvesting all the energy of the Universe, and I will give my crane beak, my white crane beak." Give me a break. I'll punch you five times in the face. Pow! Pow! Pow! We'll throw you down on the ground smashing your face. You know what I'm saying? Give me a break!

So, you can't be like that. In the same way, in the Holy Ghost community, too, there's so many people in the Holy Ghost community that are filled with the Spirit of God, but they just want, the only want that new wine; and, they want to be filled with the Spirit of God, and they should have the anointing and be filled with the Spirit, but that wants to activate us. Do you see what I'm saying? It wants to activate us to bring about His Kingdom. Thy Kingdom come, thy will be done on, what is it? Earth as it is in Heaven. Okay? So, let us not get diluted, okay.

Now, you young people, you know, you don't pay attention to the news. I know you don't watch *The King's Report*, usually most of you, so you don't know what's going on, okay, in the world, so that's why it's so important. Sometimes, "Oh, why he is always talking about politics or stuff like that?" I got to bring it out because maybe the older folks know, but the younger people have no clue. They absolutely have no clue. They have no idea that we're living in the unprecedented age with incredible censorship coming across the Conservatives. You're talking about people who cannot face their accusers now in the United States, you know. Play this video of Alex Jones. Look what's happening down there in Washington. He has to go down there to Washington in Senate Judiciary committees to go down and try to confront people because they won't let him stand before a trial that's trying to deplatform him into a racist platform, okay.

So, I looked on YouTube for this just trying to find this video. You can't find this with anybody. You only find MSNBC, CBS News, CNN. That's all you find in the beginning. The first Conservative site that I saw was "We Are Change," and Luke Rudkowski does some good work, but he was very critical of Alex Jones. "Oh, this is stupid. I don't want to talk about this." What's that? Do you understand how incredibly un-American this is that's happening to Alex Jones? He's being persecuted like on the level of Communist China. This is total censorship and we're supposed to have a First Amendment. We're supposed to be able to be able to talk; so, he's down there and he's doing press conferences and all these kinds of things, and they won't even cover this kind of stuff. They put out little clips like he's crazy. Like the *Washington Post*. I saw there little montage of him saying he's a nut bag, and they have

these satirical pieces making him look like he's acting crazy. I mean, this is happening right... This is happening last week in Congress, folks.

So, we have to understand God wants to fill us with the Spirit of God. He wants to bring healing and power and authority. At the same time, we cannot fall asleep. We cannot fall asleep. This is unprecedented.

Now, this is where he's confronting Rubio. This Senator's a snake, fake Neocon. A total lying politician. A little weasel. They should just a little bit as if Alex Jones is heckling him. Look at this idiot. Rubio is pretending he doesn't know InfoWars. He's pretending. He pretends that he fled Communist Cuba. Actually, his family left Cuba under Batista. It wasn't even under Castro. So, they weren't even under the real hardcore regime. When it comes to it, he is such a liar, this little snake. Such a Neocon. Sold out America for prophet and money. These people are in a little fraternity club. In Washington DC, they think they're above the law. They're slimy little snakes.

Thank God Alex Jones is confronting them; and, he's saying, "I don't know you Alex Jones." Oh really. It's only the number one story in the news in the world, and you're on the Senate Judiciary Committee, where you're interviewing the tech giants who just deplatformed Alex Jones and Stefan Molyneux and the other folks, McGinnis and all these kind of people. You're on these stupid committees, and you don't know these huge, huge news channels that they're shutting down? You see how snake-like and lying conniving these little wicked little Satans are? You see? Look at him. Look at him. They look slimy. They look oily and nasty.

Okay, so it's such a ridiculous charade. They're supposedly having some Senate Judiciary Committee, and they're just playing, they're playing with Twitter. They're playing with Facebook asking the no hard questions. Telling them to produce absolutely zero information; and, there's, "Oh, thank you for coming in Mr. Corsi, and now you can go."

And then Rubio actually threatens them. He threaten them. He says, "Don't touch me. Don't touch me." He we go. Here it is (showing a video with Rubio, and Alex Jones is standing close by. Alex Jones spoke up to the Senator telling him that he wasn't going to be silenced.) That's how people should talk to a Senator that are wicked and oily. They're snakes. He prefers competition, but then he'll support the banning of Conservatives and he's supposed to be a Conservative. What a fake, slimy, oily viper eel. He's a little meicoragi. What's a meicoragi, huh? He's a total prostitute.

This is, do you understand? This is in the Halls of Power now. These are the little soy-boy latte drinking devils who rule over us. This is the weak pathetic beta males who rule over us and keep the population on the drug of debt. The drug of debt, right? You get all the free stuff as long as we keep going into debt, but it's like cocaine. It's gonna make you feel great. Just unbelievable debt. But I love how Alex Jones. You see what's great about Alex Jones? He's keeps getting up in their face, but it took awhile. He waited. He waited a long time. They have totally deplatformed him. He had the biggest news site, the alternative news site in the world, and they shut him down. They shut him down. You see this little weasel for CNN. This arrogant little liberal, you know, genocidal. Look at the murderous intent in their eye. Just sick little. They're just sick little, I don't know, little lima bean eating, you know, CNN little grubs, and they think they're the little bureaucrats in their little office that can determine what you and I can watch. They're the arbitrators of what content will be available. They're the ones who are working with the Chinese Communists. They're the

ones that are acting like freaking Chinese Communist Xi Jinping trying to determine what we can see, and what information we are able to have. These people are totalitarian. They're total wicked thugs.

But, you notice how they want to use a strong arm, they want to use strong men, but they won't do it. They're back there in their conniving little oily little eyes; and, "Aah! I'm here to devour you. I'm gonna break America. I'm gonna cut its spine. I'm going to cut it to death. I'm going to destroy it," and they think that. They're on a total power trip. Such wicked little weak, weak little you know what. They're so weak. They're so pathetic.

Oh boy! If we bought that little CNN boy here to train with some of you Ninjas, you would crack their neck in ten different places in about three seconds. These people just a total joke. Total joke. You would just, you would just dislocate every single joint in their body. That's how pathetically weak they are, and they're the type of fools that think that they can rule over everybody. Do you see how unbelievably arrogant that is? It's so sick. It's such a nasty sickness. They're like a cancer to society.

And they're up there trying to morally posture. "Oh, I'm not doing anything wrong. I just deplatforming Conservatives. I'm just getting rid of free speech. I'm just deciding that I can overrun, you know, the Constitution because I'm on the CNN Board. Do you see what arrogance these people are/ Do you how they are totally operatives for foreign powers?" This is ridiculous.

They're totally un-American. Totally anti-Constitutional. They're totally enemies of this country, and they're sitting up in their air conditioned office telling us, lecturing us, and they don't even lecture us anymore. They just shut it off. They just pull the plug because they believe they are like gods of Silicon Valley. Do you see how sick this is, folks? These people are still about us. They don't stop. They're relentless. They talk about Russian collusion. Hello!

They got mid-term elections coming in what? November, what is it? The 6<sup>th</sup> is the date? October 9<sup>th</sup> is the registration date, right? Is that correct? In Pennsylvania. If you have not registered hurry up and register. If you're above 18, you have to register. You have to be actually registered as a Republican to be able to vote for other Republicans; so, if you don't know that, if you show up to the ballot box on November 6<sup>th</sup>, you go up there and start, "Oh, you're not registered, you can't vote, okay/

So, young folks, you have to hurry. Are we going to prepare a table Gregg? Where's Tim? Maybe Tim or Gregg, they can help these guys. After service if you above eighteen, register register to vote. Okay? Because they're saying Russian collusion. They're saying we hate the Republicans, the Neocons. They're terrible, but Trump is trying to purge the Republican Party of the Neocons. We're trying to get rid of Neocons, right?

Lou Barletta, he was somebody who's not a Neocon. This Wagner is a little more Neocon that's running for Governor here in Pennsylvania. He's way more Neocon, but Barletta is much more Libertarian, okay? So, we're trying to purge the Republican Party of this wicked sellouts that are pretending to be Conservative Christians; meanwhile, they're supporting every platform of the Democratic Party, including killing babies, including gay marriage, including all the anti-biblical things, including hating Christ. All those kinds of things. Meanwhile, they pretend to be Christians and Catholics.

So, don't be fooled by these. Just because they're Republicans, we can't be fooled. We have to know who we're voting for, okay; and, this a fight, a real fight. None of you want this to get real. Nobody

wants this to get a real physical fight, where actually have to go and fight a real Civil War with actual guns against the military. Of course, many of them will defect and leave the military if they're ordered to kill fellow patriots. They won't do it because 90%, eighty to ninety percent of the military and law enforcement, they are patriots. They believe in the Constitution, they believe in the oath that they took before the Constitution to protect it against enemies foreign and abroad and domestic.

Do you want it to get into a firefight with these people? You're kidding, right? You're not diluted, you young people? I showed you how your body can be slashed up easy, right? With a knife. You understand how easy a gun will do that to you, right? It's no joke. We don't want it escalate to that situation, obviously, right? Nobody does.

So, that's why we have to fight at the Polls. That's we have to get activated at the Polls. If you're above eighteen meet Gregg or Tim afterwards and they will guide you to register. You guys got to register. You have to think about it. You talk about Love God/ Love your neighbor, alright, if you're above eighteen, Love God/ Love your neighbor, don't just say that with empty platitudes. You have to act, okay, before it gets into an actual fight. You have to act so we don't have to get there, or at least we could slow down the process. Gideon can help you, too. He was not registered, and on *The King's Report* live broadcast, he was registered by Tim, by the guidance of Tim. Okay? So, make sure you do your duty and responsibility, These are other people that you're fighting for, okay? We have to stop the Communists who are in the Democratic Party.

Now, Jim Carrey was on Bill Maher, whatever stupid show he was on last night. Did you see this idiot? He's a stupid comedian drawing picture of kill Trump's children. Who knows Jim Carrey, this Bozo, who's a stupid comedian? He was in *The Mask* and all this crap. What a loser trash. What a little fake little trash. He's now coming out saying, Democrats, we should be open with the fact that we want to be Socialist. Just be open with it."

Yeah, Socialism and Communism only murdered two hundred twenty million people in the twentieth century, including a hundred million poor Asian people. Do you see what I'm saying? That's why people who lived in there, especially in Asia, we know very well. Our families are from there. We know very well how evil Communism is. Our family's from North Korea. We have folks here from Cambodia, you name it. Socialism and Communism leads to genocides, massacres; so, don't pretending like you're some kind of good person and you're inactive. You're fake then. you're total fake cause you're not standing in between the lusts of power, the ones who want to get all the control so they steal and rape and pillage the innocent middle class folk so they can buy off the majority of the people by handouts, and at the same time, colluding with big monopolies and the largest Social media tech giants to create billion dollar funnels to themselves. You are a wicked, evil you know what, if you are not standing up against them.

Every single one of these, of us, could be that vote, even though the election is rigged, and George Soros makes the stupid machines and all that kind of stuff. Still, it's an existential fight. Let's say in the end none of those numbers count anyway. So what! At least we did something. At least we stood against their will with our willpower. Spiritually, that means something. Can you say Amen?

It's not for being vane. It's not for pressing a button. Do you understand what I'm saying? Now a lot of you guys are eighteen, so I'm not talking to you, okay, but if you're eighteen get your duty done. You have to step, and step in the line between the stupid Commies that are trying to get power and the actual. This is the problem with democracy, of course. In the Kingdom, we're not going to have this

problem. We won't have to be under constant anxiety and this watchful and stupid politicians. Thank God that burden will be released in the Kingdom, for Christ thy Kingdom come quickly, for it's such an anxiety because you know what the Commies do everytime they get power. They will lie to you. They will tell you loquacious nice little things that young dumb kids will just buy it and suck up cause they're braindead, and their IQ's been sucked down low through public education and by music videos.

Do you the modern music video now has a third grade education level to understand? Third grade level education to understand. That means a normal person now in the United States has a third grade level of education. That's Kindergarten, first grade, second grade and third grade. So, what's that? That's the age group like an eight year old. So, the average adult now, okay, that's consuming pop music has an eight years old brain. Eight years old brain. Can you believe it? But, that's purposely done because if you dumb people down, they're less resistant because of the lower IQs, they're not going to put up a strategy against their enemies, because their enemies are sneaky about it. They're pretending to be the good guys, while they're the wolves eating them up.

So, we cannot be asleep about these things; and, we cannot be like some of the Holy Ghost folks in the body of Christ that say, "God is good. We don't have to do any preparation. We don't do anything." No, He didn't say to Noah, "Hey, Noah, just wait on me. I'll do something." He said, "Build that Ark, fool." Do you know how much effort went into that Ark? He didn't just say to Moses, "Hey Moses, just wait on me. I'll do something." He said, "Get your ashtray out of the Palace, get down there, and get those people free." Do you understand what I'm saying?

The people of God, that's what in the Principle their five percent. Okay, it's our four percent or five percent responsibility. We have a part in God's Providence that we have to take and we have to activate and we have to stand up with our will, with our power, with our heart, with our mind, etc, against the forces of evil; and, there's a real evil in this world, and we can't forget that.

That's why, thank God, these young people are becoming a real militia. They're becoming young warriors because their learning. What are they learning? They're learning how to stand up. To stand and fight against an opponent, right? Opponent. But existentially what does that do to a young person who doesn't know how to do that, and they're just at the mercy of predators, like some of the younger kids who are untrained yet. They're just at the mercy of predators. They're just totally vulnerable. Can you see what I'm saying? I mean, look at some of the kids who does not train yet cause maybe you're too young. You don't train yet. Who else don't train yet? Some of you, whenever, but you can see the difference. I mean, the bigger Ninjas when you look around. You can see who trains and who don't train. One is completely vulnerable, one is completely at the mercy of their environment, one is completely not able to handle any type of situation cause guys actually do real combat, okay. Not able to do it.

But, if you look at somebody else who's trained maybe two, three years, now you can see like, ooh, how confident I am at different skills. Now these guys can handle it. They can actually beat up adults now, okay. These guys now train two, three years, now they're walking on the street, now I can feel the confidence. I can have a peace of mind. I thinking about my son, oh, okay. Something happens, he's knows how to take care. He's alright. He's at a level now, where he can take care of most business. Most thugs are not going to be able to know how to... They're not going to be at a high level. They're not going to be disciplined. They'll be going through the grind of hard work of training and training getting beatened and smashed and beatened and smashed, and yet getting up again and doing it again, and getting beatened and smashed and beatened and smashed, and yet getting up again and getting

beaten and smashed and beaten and smashed, and yet up and doing it again. You see what I'm saying? That almost sounds like a rap song or something; but, you understand? It's like doing that over and over. It's like you develop a sense of strength that normal people don't have, okay.

And of course, existentially you're learning what? Your whole brain is being hardwired again to what? Fight against an opponent. So, your brain has become hardwired again, so that you become a warrior. You become a warrior. Your nephropaths are getting reshaped, they're getting reformulated; and, your whole brain is becoming different. Your whole mindset is becoming different, right?

I mean, look at the kids who don't train. They're weak, they're vulnerable. Many times they'll easily be sucked up by Socialism. You just throw some Socialist doctrine at them, they'll eat it up, cause they're not strong, they're not able to defend themselves. They cannot do it. They have to rely on somebody else to do it; so, you my as well rely on somebody else to do everything for me. That's the government, right? You see what I'm saying?

But, you see the kids who do train, no, they develop a sense of self-reliance, a sense of entrepreneurship, a sense of I can challenge this. It's hard, but I'm going to fight for it, but it's tough, but I can work for it, I can get better. It's a totally different spirit. A totally different spirit. I'm not saying they're perfect or anything. They improve tremendously. Become way more like adults. Do you know what I mean? They become much more mature people that are very skilled and talented adults and successful people will see value in their character and their personality. Wow, there much more mature than normal kids. They're not these little weaklings that are always begging and these little weaklings that are like, "Oh, you know, I'm so vulnerable. Oh, I'll pretend to be really nice, but I use that as a disguise because I'm such a power mongering evil wicked persons. Give me the power and I can rule over you and get back to all those high school people that didn't look at me when I was in high school. Then I'll get all the girls once I get all the resources." This is ridiculous. It's like a total, it's a psychological insanity, alright? But that's all that's working in their brains.

So, it's so important that you know, thank God for the Peace Police/ Peace Militia because in the Kingdom of God all the young people will be training that way; and, plus also, the whole system of the Constitution is geared against the desire to want to become Communist or Socialists. It's not possible. You can't centralize resources. You can't create an educational system to bring a march on the public. You can't monopolize the media. These are the central, central factors. You can't monopolize art, which is another factor which Alice Bailey was talking about in the late nineteenth century, early nineteen hundreds, when she was talking about the ten different phases that we have to go through to take down America as a Christian democratic nation or Republic. Somebody was taking over art because that's an easy way to propagandize the public. Art, you know, you don't have to think. You just look at it and say, "Oh, let's degradate art."

So, you know, let's say you have these beautiful art pieces like the classical art. I never really thought that was ugly or beautiful, but now that I see it, I see, Wow! I'm not the big artist of something, you know. I can do comic book sketch or something like that. I used to sketch with Marvel comics and all that kind of thing. That's about it. So, I can't paint the Sistine Chapel, but when I see it, it's lie, Whoa! It's amazing.

But, when you're young, they get you sucked into this whole thing. No, no, no, no. All this kind of degraded art. Things that are ugly are beautiful. They want to switch this whole kind of notion of the golden mean and proportionality, and the things that are more ugly are the things that should get higher praise. They're the ones that get the award. They're the ones that are "creative;" and they're the ones

you see, it's all about money. It's all about misdirection. It's all about slight of hand. It's all about confusing the public to get them to get them to believe that something is good is evil. What's was once beautiful is ugly and ugly is beautiful, and they'll be easily accepting something so ugly and vile like Communism that's something beautiful cause you got them prepped. You already changed their mindset, so they think something's ugly is beautiful. Can you understand what I;m saying?

So, Alice Baily was talking about these pillars that she had to take down. Another pillar that she was taking down, and some of the other pillars she was talking about. She to get control of art. We got make it look nasty, so kids are basically are like, "Wow! This is like splatter on white canvas," and they actually use feces to do it. It's so artistic. Give me a latte. I need a smoke right now."

It's like, it's so pathetic. You understand, Michelangelo, he painted the Sistine Chapel. He went blind. That's how much he had to paint. The dude went blind. His painting so much, he has so much mastery of his work, the guy went blind, not like these fake little modern painters that have a little doll sitting in the middle of the room, and they pour, you know, urine and feces and menstrual blood on this and say, "Ah, I'm such a genius. We're my cocktail?" I mean, these people are sick. They're totally braindead psychopaths.

That is part of this whole Communist system to degrade everything, so that they'll accept the most ugly vile ideology on the planet which is what? Immoral theft, killings, thuggery Satanism on a political level. Can you understand what I'm saying? And so he was wondering, you got to take over schools, you got to take over schools, the media, you got take over news, you got to take over the art. They've done that. They done that. That's why we want to fight back with the young people, okay.

Some of them are now building tiny homes. They're not sitting around just going into debt, these fake college that give you paperless, useless degrees that put you, you know, twenty, thirty years into debt slavery. You're going to be working the next twenty, thirty years for a dang bank, but now we got a whole bunch of young kids, now, around the world now in Korea, in Japan, but also in America now, we got them to start building their tiny homes, not getting into debt building an asset, so when they get two years of training to do that, they're learning four major skills. They're learning Engineering, basic engineering they're learning. They're learning electric work. They're learning carpentry. They learning plumbing. All those things which will save them millions of dollars over a lifetime when they're a homeowner and they're managing houses, properties, and multiple properties. Multiple, multiple, multiple properties that they're managing because God guards abundance. They got skills. By the time their two years are up, they got so many skills, they're coming out the wazoo.

Their peers are in these stupid colleges studying Environmental studies or something Iceberg Penguin or something, and they're coming out. They can't even get a job. They're two hundred thousand dollars in debt. For the next twenty, thirty year they have to pay off this stupid loan. They've no skills. They've learned some kind of, you know, some obscure sociological, you know, phenomenon, while happening in Iceland or someplace. It's like ridiculous. It's crazy. Do you know what I'm saying? There's no reality check.

Unless, you're going to be a Lawyer, a Doctor or some kind of Engineer, unfortunately you have to go through that system and get into debt because the payoff of those higher earning jobs may be when you get into their system with all their little permits and all their little fake little degrees that you have to get in order to working now and start pushing business towards you, then maybe you can start paying off your debt a little faster; but, you go into any other things that have the word "studies," woman studies,

environmental studies, gender studies, anything that have the word studies is a joke. You're going to come up jobless. You're going to come up tons in debt. You're going to be a joke. Probably brainwashed. Probably with blue hair and rainbow lipstick as well, because anything that is to be more ugly is to be more heroic. To be more of a victim is to be more heroic. This is such a ridiculous fraud. Okay? Give me a break. Lord have mercy. Come on.

So, I mean, thank God for these young people, these brave young kids who are actually say, "No, I'm not going to be part of that system. I'm not going to go into debt. I'm not going to be part of the bankrupt system. I'm going to do something else. I'm going to spend my time to build my assets. I'm going to build my asset-base for at least two years. Now that I have four developed skills, you'll have actual real skills that could be hired in different places in the real world or for different type of jobs, but you'll actually have a real asset which is a house that they can live in and start a family in; and, they're not in debt.

You see that compared to the normal kid who's two hundred thousand dollars in the hole? Can you imagine even twenty thousand dollars in the hole. Your twenty thousand dollars in the hole. Do you know how hard it is to dig out, young people? How are you going to dig out of that? That's going to take years to dig out. Oh my goodness. Ridiculous.

So, there under a lot of pressure now because they're pioneering this kind of thing and they're doing what the Second King is talking about, this or that. These young people start stepping up, you know. There's a number of boys that are doing that here in this area, and we got other kids in Japan and Korea who want to do it, and they're the pioneers; so, their job is the hardest because everybody's watching them saying, "Ooh, I want to see how that goes, and if it doesn't go well then blah, blah, blah." You see what I mean? But, if it goes well, then, oh why didn't I do it when it started? It's because you were weak and dumb and cowardly, that's why. Sorry. Now, you're behind and probably a hundred thousand dollars in debt. Okay?

So, thank God for the young people who were pioneering and stepping it up. You know, we may to do a project. I'm thinking, we may have to do a project where we have a container and make like a cafe or something. Get these young people, especially the ones who are training with the Ninjas, get them some actual skills. I mean, they're getting deadly skills, but unless you're in the military or law enforcement, you know, you're probably not going to be paid for those skills. That's just going to be an extra benefit from society.

But, the real skills like carpentry and building, we have some experts here. We have Bill Brunhofer. We have some guys who really know how to do it. Build stuff, you know, and starting some projects where we get these groups. Maybe will start, maybe, by building our DoJo. We don't have a DoJo yet, do we? Huh? What do you kids think about that? Shall we build our own DoJo? That way, when we're training in it, it's like, "Dang, we built that." How do you like that?

That's an idea. That's an idea, right? That we put our hands together. Sung Hyo, he's like an Engineer. He's done one construction; so, he can help. He's a big Ninja; so, he can help. We can lean on him a lot. And say, Sung Hyo, "How do you do this, how do you do that? And then Bill. We got all sorts of folks who know how to build stuff, okay; and, I'm sure... You guys did this? So, we have people that can help us do it. Oh, Lowell. He's the man. He's multi-skilled when it comes to anything with machines and stuff like that. Lowell knows a tremendous amount.

But that would be a great project. That way we're developing some of your other skills other than fighting. I know fighting skills are important, okay; but, they are, they're not the only thing you have to do cause you have to deal with the normal world, too, and you to, you know, we want God's abundance and anointing to be on you so your families can prosper. You have kids and you have a family and responsibility. One of great things, when you guys get ready for the Blessing, then when you young, you guys can use that energy that you have as your first project with your wife or your husband, you know your spouse, to build that first project together. You're building the house you're going to live in. How awesome, how romantic that is? Like everytime you're in the house, you can say, "Honey, we built this thing. Honey, we built this. Aren't I a sexy man? I built most of it." You know what I'm saying? You can brag about it and do things about it; but, then you don't start off your family in debt. Do you see what I'm saying?

They're lying to you. They're saying, "You know your children are a liability. Your wife and spouse is a liability. You got to stay single. That's the only way. Look at all these singles? The hundreds of thousands of dollars in debt. All they do is borrow. All they do is aggregate debt. They're so stupid, They're completely in the hole.

Look at all these single liberal lunatic kids. They're all in tremendous debt. They're extremely poor. They could be driving around in a Mercedes. If you got a hundred thousand dollar Mercedes you're driving, and you're two hundred thousand dollars in debt, are you poor, or are you rich? Are you poor or are you rich, boys? How much debt you got? You got a 100K, right? So, if your driving in a 100K Beemer, but you got 200K in debt, you're a 100K poor. Does that make sense? Even though you have the image of driving a Beemer, but it's all image. It's a show. It's a lie. It's an illusion. Do you see how ridiculous that is? Right?

So, this is what I'm saying. Do you know what I'm saying? You know, I thinking, you young people, we got to do a project like that together, where we can build something together. I'm ot an expert builder; but, we got all sorts of expert builders here that know what and how to do stuff. Actually, God is just pushing me to help develop other skill-sets that the have to build confidence themselves. In the fighting world, that's growing. That's definitely growing, but that's not the only world. You young people, do you understand what I'm saying? Say Amen!

Okay, it's not the only world, the fighting world. Unless you're going to be in law enforcement, unless you're going to be in the military; and, even if you're in law enforcement, you can't choke the guy. Did you know this? You can't. When you're trying to restrain the guy, you can't choke him. If you choke him that's a lethal attack. They're going to get you in prison. It's absurd. It's ridiculous, you know.

But, it's not the only world. So, that world is important because you guys have to be obviously like lions. Proverbs 22:13 and you have to protect your house and your children and your civilization, etc, and become wonderful self-defenders, which you are slowly becoming; but, at the same time, you need to develop skills to do. It's not like it's the end of the world. You're still young. Just don't go into debt. Don't go into debt, do you understand? Young people, do you understand? What's bad? (Debt) What was that? Say that again? What's bad? Debt! It's bad! Bad, bad, bad, bad, bad, bad, bad, bad, bad. Debt is very bad. Very bad, okay? So, do not go into debt. That's what you want to always avoid. Holy Shemitah, Shemitah, Shemitah!

So, we have so many things on, but I'm thankful you got these young people that are doing the training; but again, we may have to develop some more talents and skill-sets. More Ninja skills that are a little outside the fighting realm, but the realm you can actually make money and stuff like that, you know, because we want them to be Blessed, not because they're great or anything, but because they're surrendering their life to Christ. Even though they're imperfect, they're trying their best at that age. I'm not saying they're Saints and floating around in the clouds. You should never be that you're floating around in the clouds, right? I mean, unless you have some kind of technological device, some drone that you can fly around in the future, but other than that, right?

But, what would be a really good project to get these young people to develop skills? I'll learn with them as well, cause I don't know those skills. I'm not a mastery, definitely, in those skills. But, carpentry, engineering, we have some guys who prepared and trained professional in that. Young people like Sung, you know. Now, he's a humble guy. He's a humble dude. He's got a tender heart. He's tender heart. He's a good man. He's a good man, you know. He's a very high quality young man. All you single sisters out there, where are you at? This man is a very high quality young man. He's a little shy. He's a little shy, but he's a high quality man. He's got a good paying job. He's been working consistently for two or three years. He's got a degree in Engineering. He's been in the Construction field for a year, so he knows and he's tough; and, he's been training with the King, so he's been getting his fighting training on and all this gun training and all this kind of stuff. You got a young, quality good man. Do you know what I'm saying?

These are the kind of men that would not betray you and commit adultery and cheat on you. These are the type of men that will protect you in the middle of the night when a dumb bozo tries to break into your house. They're the ones that will walk down with an AR-15 and shoot their head off, do you know what I'm saying? Not the little beta-boy Bill Maher, soy latte drinking, you know, male breast man saying, "Honey, you go get him. I want equality and egalitarian upon you. You go get him. You know where the AR-15 is. Go!" Come on.

I have a tendency to rant sometimes. Lord have mercy. It's crazy. You want some high quality men, girls; but girls you got to understand, high quality men may not necessarily know how to woo you and make you feel like a criminal. It's like girls, you get attracted to criminals. You get attracted to boys that, that don't give you the time of day, they don't respect you, don't want to honor you, don't give a crap about you, want to use you, abuse you, have sex with you and leave and get the next one. That's what the girls are attracted to.

It's like, you girls, you got to watch out for that instinct that's so wicked and evil. You got to really watch out because it prevents you from seeking high quality men. You think high quality men are the ones can woo you heart, make you feel something. No, no. That's your emotions playing tricks on you like drugs. You know, if you take drugs, they make you feel something. It doesn't mean it's good for you, right?

Sugar makes you feel something, really happy, you get really happy, right; but, if you keep eating sugar in about two years you'll be three hundred, four hundred pounds and diabetic as well. So, just because it feels good, it doesn't mean it is good, do you understand what I'm saying, girls? Can you say Amen?

You girls have to be wise, right? Holy Spirit filled girls have to be wise. You girls have to have the wisdom of Solomon, the wisdom of Esther. The wisdom, the power, the honor. You are honorable women that are growing up to be Queens. I mean, you have to see that quality inside you. You cannot

go after boys that make you feel a certain way. Very dangerous. Those are predators. Predators can make you feel a certain way. You understand what I'm saying? You have to choose. You have to always be discerning. Discerning. Ask God for discernment.

First of all, girls, you cannot think selfishly for yourself. Your children have a vote. You're not the only one with a vote. Your children have a vote in what kind of daddy they get; so, when you think about the type of husband you're praying about in the Blessing, you have to allow and think about your children, too. So, what is the type of man that will be a good father? That's not always a Playboy. I'm sorry. It's never a Playboy, okay. Can you say Amen?

It's not a Playboy. The playboy knows how to work your heart. They know how to work your strings. They know how to lie to you. To get you in bed and throw you out. That's it.

But, it's incredible because it's such an emotional thing. I mean, there's so much emotion. I mean, even though you tell this to girls, and even though they know it and understand it rationally, when they hit that experience, and it's like oh my goodness. They can't stop thinking about this guy because he's treating them like a thug; and, then somehow they can't get them out of his head, and that's exactly the game he's playing, because he knows if he does that, he gets into their head, and then they can't take him out, and they'll be fascinated about him, I mean, thinking about him all the time, and they'll be dreaming about him, which will increase their desire for him, and of course will increase his desire to exploit them and use them and throw them out once he's banged them; so, you got to be very careful girls. You have to be wise women. If you're braindead and you're dumb and only paying attention to your emotions, you're a baby. You're just a baby. You're not an adult. It doesn't matter your age. You have to be wise and discerning. God gives you discernment. That's why the Word of God is powerful. It separates the spirit and the soul, it separates the bone and the marrow. It goes in and it splits stuff. You can discern between good and evil.

Do not just... You have to be very careful because your emotions trick you. They trick you, and your emotions are powerful because you got about, what is it? Sixty percent more what is it? Tubes. Neural pathways coming from your left brain to your right brain? That's like your emotional stuff. It's like how your brains are connected more heavily with these larger tubes between your right and left hemisphere. So, you have to watch out for emotions way more. It's like the downfall of women. It's there emotions. If they can't get those under control, it becomes their downfall.

Seriously, like the downfall of men is sex, right? It's like if you men can't that under control, you will die. It will be your downfall, right? It's so important, especially your ministry, your public position. Man, you got to watch out, if you're a man, you got to watch out for sex. It's so dangerous, because people will pay people to try and take you down. People will pay whores and prostitutes to try and get you, do you know what I'm saying? They will come after you with sex because they know that's the weakness of men.

Women, it's evolutionary resources. It's emotions. That's their weakness. Satan knows that. Communist know that. Socialist know that. Political Satanists, they all know it. That's your weakness, sisters. Your weakness is the emotion, and it's the, what is it? The resources. Money. If you can get free money.

"I'm willing to, you know, if somebody's got to do the bad job, if I get a thousand dollars from the government you know, okay. You know what I'm saying. My family's in a tough situation. You know, we can't really do anything about it. You know, a thousand dollars will really help us." Okay, the

tendency is what? Most will say, "I guess it's okay. Everybody else is doing it." You see what I mean? You'll bend; but, you don't want to think about the system that is actually immorally stealing. You're forcefully stealing with a gun. There's a room, and you're pointing a gun at the people and say, "Give me your money." And then, as long as you don't see that, you're fine with stealing their money. You're fine; but, you're not talking about the big elephant, which is a guy in the room with a damn gun pointing at people and say, "Give me the money." And, he's taking 90% and giving you little crumbs, but still you'll be alright with that. Do you understand? That's evil. That's unethical. But, most women are never trained to go through this and understand how evil that is; and, they're not given the tools to defend against those emotions that come up, and the justifications that come up that Satan has put into your mind.

"Hey, everybody does it. Oh, come on. It's okay. It's not as bad as Pastor said. Come on. Everybody's doing it. Come on. We're trying to help poor people. We're trying to help poor people. Just don't pay attention to that man in the room with a gun that's putting a gun to their head and stealing their assets, so they can take 90% and give 10% to the poor. You know, don't see that dude. He doesn't exist. Don't be a conspiracy theorist." Can you see what I'm talking about?

So, we got to be careful. Very careful, you know. I mean, like a hundred guys. I can whoop these guys on the head, not only the Westerns, but the Korean kids, the Asian kids. It's like, you kids, they're looking so far away. It's like, they're looking away. With my spouse, I want to look so far away. I want to live with somebody who lives on the other side of the world. Okay, that's fine. That's fine. But guess what? The people who are training right with the King, they're the closest to the culture of True Father and the Three Kingdoms. They're closest to us; so, they're going to understand the ethical code, the moral code, the civilizational code. They're going to understand those nuances, those sensibilities way better than people who are out there; and, they're still probably good kids, but they're far away' but, since these guys train with each other all the time, they just feel it's not new. They want something new.

Don't you want something successful? Don't you want something that will build happiness and joy and assets and power and authority and of course high quality of happiness. No, you want something new. You never saw that person. "Oh, I have a little tragedy over here. I'm going to work on that." Okay. You have now, it's a different situation then. You don't know where that person may be coming from. Of course, it's better if they're from a faithful family from across the sea, but you'll never know. You know the kids. Sometimes, the parents are very faithful. Sometimes, the kids are whacked out. They're smoking the Devil's crack. They don't know what's going on. They watch The King's Report like one time, you know, on a little clip that somebody sends to them on Facebook. They don't know what's going on about politics. They don't know the evils of Communism. They don't know why the political class is exploiting people. They have no clue; but, yet their parents may be faithful. "Oh, okay, that person may be faithful." On, no. You have to know that clown may be your potential spouse. Why do you focus on the stupidity of the lie of the newness and the novelty of it, instead of looking at quality? Do you see what I'm saying?

If you focus on novelty, you'll fail. Novelty is not a guarantor of high quality. You know, novelty means something new. "I want a new face. Oh, he's new. He's cute. Oh, he's stimulating my emotions." What kind of bozo is it? We don't even know. Do you understand what I'm saying? Sometime, these young people drive me nuts. Don't be stupid about it, young people. You got to be wise. Of course, you're may more wise than people your age. I'll give you that. It's true; but, you can always get a higher level. It doesn't mean you want to stagnate.

Now, some of you do look out. They're are cases like, you know, Jonathan has a wonderful sister from Japan. She a very nice, wonderful sisters. Yeah, give them a hand, right? But, don't just look at Jonathan case and say, "Hey, he got a novel new girl; so, I want a novel new girl or boy." He got lucky. You see how many other cases there are that try and do that and they failed? Don't be stupid. You got to be realistic, kids. Don't just look at one case that works out of ten that didn't. That's a very low percentage of ten percent. You see what I'm saying? Don't be fooled. Don't be fooled, right?

God and Adam and Eve were in the Garden. They see each other every day; and, if they see each other every day, you're also going to become husband and wife. You're going to become great husband and wife. Oh, but Eve wants something new. Oh, she wants the new boy. She wants the new boy down the street, the new kid on the block, all that stupid stuff. You sellout the high quality man, and you get the shiny boy, Lucifer, who screws you and destroys humanity cause you go the little bling-bling boy and you are not, you are not grateful for that Adam that will get in the mud for you to hunt wild boar and frogs and whatever he's hunting to feed you. You're not grateful for that kind of heart. You want the bling-bling boy. You want a little angel who comes in and plays music. He's got rap music going on and he's got organs playing and he's shiny like Lucifer. "Oh, he's so attractive. Oh, that's so hard to do. Turn off the rap music in your car. It's so hard to do. That's definitely a clear guarantee of quality, girls.

Do you see how crazy that is. You see, you can still be around us, and still be brainwashed, because never dealt with these minor tiny assumptions which screw your brain up when you're talking about high quality people. There are high quality people all around you. One sister gave a good testimony. I heard about it on Tuesday, about Shigaru on Saturday. When she first came she said, "I don't know if I'm going to marry this guy. What am I going to do?" She came and everybody was acting out like it was done. Congratulations was arriving. She's known Shigaru for two months and all this kind of stuff. "Oh, but look at that guy. Look at that boy over there. Look at him. He's standing over there. He's kinda small. He's kinda fat. He's like..." That's what she was saying. She was saying that. She was the one saying that. It's in her dang testimony, do you understand. You girls, don't try and pretend you don't do that kind of stuff. You do that stuff all the time.

Yeah, then after that, she had many, many talks with the Queen. The Queen was trying to tell her about quality and all this kind of stuff; and, her emotions were raging, and she didn't know what the hell to do; but, now she sees. Now she says, "I'm so happy, so grateful, I got Blessed to Shigaru because he's a high quality man. He's a high quality man. Lord have mercy. Is this a Sunday service, or is this like a counsel meeting? The Holy Ghost wants to do some counseling today. Praise God. My Lord have mercy. We didn't even get to the Scripture today.

So, we can't be brainwashed kids. We have to be wise. The Bible says be wise, don't be a serpent. Be wise as serpents. (Matthew 10:16) and be peaceful as doves. Don't be a serpent. That doesn't mean God saying it's okay to be a serpent. Be a serpent. You know, we may be carrying some of this Kryptek Camo stuff, and the reason I don't like Kryptek Camo... Who knows what Kryptek Camo is? You know what Kryptek is. It's that reptilian camo. Did you guys see that? Yeah, there it is, okay. So, the reason I don't like it sometimes is because young people, if you don't think about stuff, you don't use your analytical abilities to think, you may just put that on and slowly you think wearing reptile is the thing. It's cool. So, you want dragons, and this or that scales on your body, and maybe you are lusting for a dragon tattoo cause some trendies on TV have little sleeve tattoos of little dragons, the little Asian Coy and stuff like that. "Oh, that's cool! If I get that, then the girls are going to like me."

Just wait until you get old and get wrinkly and saggy, I mean nasty. Those tattoos look like a joke. They look like a three years old crayoned you or something. It looks terrible, right? But you boys may think that, but look what happened. You're getting into that sort of world of delusion, okay; and, you may even think that the reptile thing has become positive. Oh, okay, when you're wearing the Kryptek Camo just remember, you conquered, you killed the reptile, and you're wearing its skin. You destroyed it. Do you understand? Don't think, oh, I'm wearing it, so now I got to inherit the characteristics of the reptile or the serpent. Do you see what I'm saying? Which you may do, because you think its cool wearing it; but, then what you wear also has an impact on you. How many know that's true, right?

If you wear a rainbow shirt in this modern day and age, that has certain symbolic sociological meaning, right? Like you support gay marriage. You see what I'm saying? It's not an innocent thing, where you have a rainbow on a t-shirt no more with Care Bear and you know little rainbow clouds with smiley faces on them. It's that no longer that exists. If you where rainbow, you are hard LGBT -QQAAIICCP, okay, with all the other stuff they're adding on there. You know what I'm saying?

You got to... So, you can't let the clothes rule you. If you wear it, you can't let it rule you. So, if you wear Kryptek Camo just be aware of it. Remember, I told you to be aware of clothing that has pentagrams on it and actual Satanist symbols. Remember that? You remember the King saying that, right? Because you have some bozos in the BJJ community that's doing that, like putting it on their Gi because they're stupid yet. They don't know what they're doing.

I understand. But, anybody with discernment, don't be wearing those kind of things. They have power over you. The Symbology is very powerful. You symbolic, whether you know it or not, it's like subconscious. It starts getting into your head and starts changing your mindset and it's very dangerous where those holds lead to; and, you've seen it, where those documentaries on Jimmy Savile and the Royal Family, the House of Windsor. The different Baphomet symbols, the different sex clubs, and the different sex trafficking. You seen that because we talked about this cause we don't want you to be blind to the satanic nature of the will. Okay?

We actually care for your souls and we don't want you to go suck on Satan's, you know, soul. I want you to stay clear of it and spit it out of your mouth cause he's always trying to be force-fed down your throat, right? So, very, very important: That kind of stuff we keep in mind, okay.

So, if you got your Bibles let's got to 1 Thessalonians and we're in Chapter 2 today. Wow, look at all these young people? They got their Bible. Hey, let's give them a big round of applause. Not to praise them or worship them. Let's just give them some encouragement, okay? If you don't have it, if you don't have your Bible, it's two hundred pushups at the end of service. When we do the Holy Ghost running, and everyone's running, you can do pushups.

Oh my goodness. You know what's amazing? We go to, when we're doing the running training for you guys, there's an amazing documentary out. What's his name? It's an amazing documentary about running. You guys who are training, you got to protect your bodies, you understand? That's something I always try to stress on you and keep your training safe, cause you guys are doing very harmful training for your body; so, you have to keep your joints and your body, you have to keep it safe, especially your knees. As you get older, your knees start giving out. Oh Lord have mercy, it's not a joke. Trust me, it's not a joke. Your hips, your spine, and your neck, okay? You guys who are doing hard training, which bends all that, and torques it, and twists it in all the different kind of painful ways; so, you have to take care of your bodies. Does that make sense? You young people, say yes or no? (Yes) You have to take

care of your bodies. You have to eat organic and healthy as much as you can. Eat healthy, train hard, etc.

But, check this out. Boy, come here. You small boys, come. Come up here. Come on. Get up here. Come on. All young boys, get over here. Stop pretending that you don't see. Get up here. Come, come, come. Come here. Let me show you real quick. Let me show you real quick. Alright guys. Come, I want you boys to run from here to there. Just a jog, okay. Just a jog, okay. Jog, jog. Go, go, go, go! Go, go, go, go, go, go. Go, go, go, go! Okay good. Stop! Now look. Look what happened? Do little eights so we can keep seeing you. Go, go, go, move, move, move, run, run, run, jog, jog, jog! Watch their feet everybody? Do little eights and come down here. This is how we warm up, by the way, without bumping into each other. We don't do that. But, look how their running? Look what happens with the modern shoe, okay. See their modern shoes? They're all cushioned in the back; and, they teach you when you're running to run with your heel. You adding, what is it? The study shows that two hundred to three hundred more pressure and impact pressure into your bones. So, all these companies that are making tons of money off you like Nike and all this stuff, and Nike, the bozo idiot company is trying to support, you know, anti-American, un-patriotism; but, anyways, stupid companies like that, that's making tons of money off you, you young boys and girls, they're teaching you to destroy your bodies and keep buying their products. Now watch. Take off the slippers. Run an eight pattern fast here. Fast, fast, fast. Look at him? Look when he's running? Look, look? When he's running barefoot, look, see how he's running on his toes? See how you run on your toes when your barefoot.

They did a study on this. Dr. Lieberman from Harvard University. He's an Evolutionary Biologist. You can see the documentary for yourself. Maybe we'll play it for you sometime. They can pull it up for you. Check barefoot running. He did a slow-motion video. You saw it with your own eyes. Go ahead Xavier, go one more time. Watch Xavier's feet? Look at his feet? See how he naturally runs, and you all do it, too, not only him. Don't be racist. No, his Black. No! You're a racist if you say that. Every single kid will do that. Even a flatfoot Asian folk would do it, too. Doo Gi, that your shoes off and run in an eight pattern fast. Fast, fast, fast, okay. Okay. See how that's hurting? See?

So, you're taught to actually not run with your toes; and, what the study shows, they actually,, First of all, there's not one study in the whole panoply of Science that shows wearing Nike's and all these stupid Adidas, whatever, actually gives you less injury than not wearing them. Did you know that not one study, not one. Not one. Isn't that incredible?

But, there's study on the Aztec folks, the people in one of the places in South America, they run 200 mile marathons. Two hundred miles. Flatfooted, barefoot, with just a leather sole, a tiny leather soul on their feet. So, this Doctor, along with another person, went down to see them and shot video and compared them to the modern Western runner; and, the Western runner, who is this White person that they had, in slow-motion, they were running like the shoe companies tell you, with your heel. Boom! Boom! Boom! This is how the West has been taught to run; but, this is against your body and micro- evolutionary we're developing as human beings to run down animals. God gave us the same mechanism. So, actually, then they showed slow-motion of somebody running barefoot, and they show that you run on your toes; and, when you run on your toes, your calf muscle absorbs all the shock, your knees don't absorb almost any of the shock. Your hips, joints, all that is protected because you're naturally running in the natural position that hunters until this day in Africa and in parts of South America use to catch animals.

So, all this propaganda about your shoes and how important they are for you, they're actually not. They actually hurt your, they actually cause the knee damage and all this stuff; so, when were doing the running, I want to some barefoot running, even if it's in front of the Church right here, some large running on the cement, we should do it barefoot when we're warming up and stuff, so all of us great trained in running on our toes. Isn't that incredible? There's so many lies. These people don't want you to be healthy. They just want to try and make money off of you. They're not trying to make you healthy.

Okay, where is it? Heal strike and forefoot strike. Oh, yeah, yeah, yeah. There you go. It's heal-strike. You can imagine your heal is a bone, and as soon as it hits the ground it's like Bam! You heard Doo Gi running. You heard it with my youngest boy. He doesn't run so much; but, you hear him running, then you can hear with his heal-strike, it's like boom! Boom! Boom! That's all impact coming straight into your bones and joints. It's damaging your joints everytime you do that; and, if you do that millions of times, you're going to kill your joints. Isn't that interesting?

But, the way God designed it, look how the folks barefoot are running. See how he's running and he's landing on the toes when he's running? What is it? Nigeria has the highest Olympic rate of long distance runners. Is it Nigeria? Kenya, Is it Kenya? They did this study, also. They went to Kenya to the Olympic long distance runners, I think it was Kenya, and they study how they run. They had them on slow-mo. They all run toe first. All. Now, some of the top major universities in the world that has sponsors and contracts with Nike, the coach have them wear Nike shoes, but also make them run barefoot as part of their training regiment now. Did you know that?

So, Nike has screwed up. For the last thirty, forty years they've been lying to us tell their shoe helps protect us, when they cause the injuries, like teaching us how to run wrong and now how our ancestors and forefathers ran, which is on our toes, so we can chase done antelope or whatever there are on the African plains. Run fifty miles so we can chase and exhaust them to death. Isn't that fascinating? Hey, for you kids who are training, you guys should definitely... We got to try it. We got to changer our way of running, okay. That's going to change our life. That's going to protect our bodies, that's going to make us strong, but it's also going to protect our knees. It's probably going to strengthen our knees, too; and, when we trek with our bags and stuff, we should practice walking on our toes. Will probably get nice, beautiful calf muscles. Sexy calves as well.

Okay you guys. Come down. Come down. Come down. Don't give them a hand. They don't need a hand. Don't give them a hand. No, don't clap. They don't need one, alright. Isn't that fascinating?

There's all this kind of stuff; but, I'm telling you, like there's so much misinformation that's out there that's promoted by these major institutions and it's like ridiculous. God has it way better. Way better. Your barefoot doesn't look as stylish as a Nike or Air Jordan that's three hundred dollars; but, your barefoot is way better. Can you say Amen?

You know, some of these boys and girls around you that are training with us, you know, you see them and they're unmade up and they're ugly and they're training, well, it's like seeing a barefoot. You see your barefoot, you say, "That sucks. I want a Nike Air Jordan for three hundred dollars; then I'll be nice. No, your barefoot is way better for running.

In the same way, these young people are training and you may see them everyday. These are high quality young people. You want to be with people that are serious about, you know, their responsibility

and their duty about the Kingdom of God. I'm not saying they're perfect or anything; and, many of them are at different levels, but nonetheless, they're in that world. Do you know what I'm saying? Don't be fooled by newness. New, new, new. "I want a new face. I don't want anybody I've seen." Oh, my goodness. For every one case that you point to, there's ten that failed. Do you see what I'm saying? Young people, do you see what I'm saying? You can't be dumb, okay. You got to see quality, not shiny. Look for quality. You have to let God fill you with the Spirit; so, you have discernment, and you can see quality.

And remember, your children get a vote, your children get a vote, because they have to pay the price of living with some wacko if you have a low quality choice. They have to live with that bozo for the rest of their life. You just punished yourself and children cause you wanted a flashy thing. Does that make sense, young people? Yes or no. No, you got to think about your children, too, and grandchildren. They have to live with that person as well as you. Okay.

Alright, we're in **1 Thessalonians**, and we're in **Chapter 2** today. And let's read this together. I'm sorry, **1 Thessalonians, Chapter 2**. We're in **Chapter 2**:

**2:1 For yourselves, brethren, know our entrance in unto you, that it was not in vain: 2 But even after that we had suffered before, and were shamefully entreated, as ye know, at Philippi, we were bold in our God to speak unto you the gospel of God with much contention. 3 For our exhortation was not of deceit, nor of uncleanness, nor in guile: 4 But as we were allowed of God to be put in trust with the gospel, even so we speak; not as pleasing men, but God, which trieth our hearts. 5 For neither at any time used we flattering words, as ye know, nor a cloke of covetousness; God is witness:**

Now look, that's why with the young people, especially if they train with me, they know me. They know I love them. They know I sacrifice for them. They know I give them skills that I don't have to give them. They know I'm investing in them. They know I love them. Is that true young people? Yes or no? (Yes) You know I love you, okay. That doesn't mean shower you with flattery and just tell you lies about yourself, correct? Cause then I wouldn't love you. Do you see what I'm saying? I tell you the truth about you when you suck, you suck; and, when you're good, you're good. Can you say yes or no? (Yes) Alright? Because I care for you guys and I want you to be realistic and powerful and have real authority and have the potential to hold and wield real power in the future as well.

But, it's interesting. When you speak the Word of God, it's interesting. As soon as you get into sometimes encouragement, people really get addicted to it; and, that's why it's important. When you think about the last couple of Sunday Services where the Spirit of God moved very powerfully and it's been very encouraging words; but again, I don't want to get the whole worldwide community to get addicted on encouragement because I can't addict you to only one side. Does that make sense?

I can't, when I'm training young people, I can't just say, "Good job. Good job. Great job. Trophy, trophy." They're not going to work hard. They're gonna get a bit lazy. They're gonna think to high of themselves, which is not the case. You know what I'm saying? They're going to get diluted; and, it's not a sin of them. I'm saying everybody does it; so, it's the same thing. When we're dealing with the Word of God. That's why the Rhemas are powerful because you don't know what your gonna get. You may get a very powerful Scripture that tells you repent, and you are full of wickedness and sin. You

know you may get Jeremiah. You know what I mean? You may get some of the Old Testament Prophets. You may get Jesus calling the Pharisees, “You brood of vipers and you snakes, you devils.” You may get some of that Scripture. You not going to get only the nice picture perfect encouraging Scriptures. You know, your little Christianity light, your little diet cola. You know what I’m saying? You drink this cola, you won’t gain any weight, but you get cancer because because it’s got aspartame which is E coli’s feces, by the way.

Did you know that the diet cola and stuff with the sweetener aspartame. Did you know that’s E. coli feces? Did you know that? It’s actually feces. You’re drinking and enjoying feces. Congratulation! Diet cola is way worse than actual cola, and cola’s bad for you. Cola is bad for you; but, diet cola has aspartame, which is feces. You didn’t know that? You didn’t know you liked eating shish-ka-bob, right? You didn’t know that. You didn’t know that you liked drinking... Now you know why diet cola’s brown. I’m just joking. Sprite, diet Sprite got it, too. Alright? But again, there’s a lot of lies in the health world, so you got to know knowledge, right? It’s the same way, the same thing.

So, God’s Word will not only tell us pleasing things, it will not only encourage us all the time because it’s not the encouragement we need. Sometimes we need the encouragement of a smack or whack. Sometimes we need a whack. You know, when you guys are training, remember when we were training? Get that picture of Rod of Iron Instagram. Let’s get that picture up. When you guys were training, this time were training, and we did a little smacking, right? How many enjoyed that? How many of you guys did that? How many did that this week? Put your hands up high. Okay, you guys got a little smack in training. There it is right there; so, go clip that.

This is some of the training. This their training; so, now they’re training in the stress of submission and wrestling and trying to control one and submit that person. They’re now adding the other stress of whacking each other in the face, okay, which is very important. It’s very, very important because a lot of Jiu Jitsu deoes break down unless you’re use to the stress of striking, and you know, you work from the defense of striking. So, there’s the Queen getting smacked by her daughter, by our baby girl, and she gets it back a little bit; and, you can her it. There’s some nice smacks.

You know, sometimes they get a little excited and they whack them in the face. Some people get black-eyes, but it’s okay. It’s part of the training. It’s very and healthy to do this kind of training because what does it do? This kind of training is what? If I’m just making and giving you... Go to next picture down. I given you the picture where they look cool, okay; and, they know that I usually don’t put up stuff that only makes them look cool because I know the young people, and they can get addicted to ego and addicted style and addicted to just trying to look good and posures, which is thank bad cause that makes you lower quality, right?

These are cool cause they’re slow-mo (3 people jumping over a bar in unison) and they’re cool. They look good; and, it’s like “Oh, that was me. Oh,..” You see a side you never saw. “Oh, my friends are going to see that. I’m going to get so many likes from people, and thumbs up.” You get addicted to that, you can get really, really... Look at that. They’re sleeping; then it’s like hee-haw. So, these kinds of things, if I only did these kinds of things, where they can boost their ego, and they can just feed on the ego, and just put out little fake things about themselves cause they look cool, well, then they become very wicked people, right?

The leader of the pack, the alpha wolf will create the speed of the pack. That's the old saying; so, however fast the alpha wolf can go, or however fast the alpha lion can go, then the other lions will follow in that pace. If he goes slow, and he leads wrong, it's going to create disaster. It creates problems, you see what I mean? That's why the Bushido Code and Chivalry Code and the Knight Honor Code and this kind of warrior code is so important, because that's how you young people get trained to be high quality leaders. Can you say Amen?

Now, I'm not saying they're perfect. They still have to fight through a lot of sins and stuff, the different obstacles that come their way, but they have a lot more tools than a normal person so that they can overcome them, okay?

Now, they had these more flashy pictures; but, then they have the reality stuff, which is like this; and, this doesn't look so flashy, but this is may more real. Can you say Amen, young people? If this is more real than the jumping, say Amen? (Amen!) You guys know what I'm talking about, right? You guys know. This training is way more real. Way more real, right? (Showing the first pictures, where they get slapped around.) But you see what happens? As soon as this one comes up, then they are like sad. When the other one comes up they are elated. You see what I mean? That's how braindead these kids are, especially when they're young. You have to help them out of that. You know, if your an evil person, you could just totally exploit them, and you can just destroy them, make them a nasty wicked vile Socialist Commies. It's so easy. That's why the liberals, they know so well, you get children young enough, you can make them into Commies, hard core Commies, and make them believe they're fighting some kind of Crusade and some kind of good work, when they're setting up a system for genocide, and they won't even feel bad about the genocide because they've been taught that Mao Zedong is great. It's so evil.

So, drawing this out of the kids it's hard, it's not easy; and, they all know I'm a very high level instructor, high level coach. They try to go to other Dojo, try to attend. "Oh, let's see what other Dojos are like. I know they do that. I don't tell them not to go to their Dojos. I know that I'm a very high level of teaching. I know that. I know that level very well in this world. You understand what I'm saying? Okay!

There they are again; but, anyways this kind of training is reality based. Reality based. And so, that's why I don't want them to get addicted to glorified stuff. This kind of grinding, this kind of harder work, this is the work that actually create warriors. Amen, young people? This jumping like the Ninja in slow-motion, does that actually help your fighting training more than this kind of training? Which one makes more aware of being hit? Yeah, yeah! Cause you got a smack in the face, some of you were hitting nice and good, some of you were hitting too weak. Some of you were hitting nice slaps, okay?

But, this really wakes them up, and really forces them. They have no choice. Unless they want to eat punches, eat slaps, they are forced, forced to defend themselves. That why it's so wonderful; and, you can see, they're actually doing pretty well. How many found that once the person got the hang of it, it was harder to hit their face? It's much hard, right? Once your person is using all their limbs, all their legs, you know. And, how many found the person would over-compensate by trying to hit you; but, then exposing his arm, you caught arm burns and stuff like that? Alright, did you see that? Other

submissions would open up, when the person wants to hit you so bad. Who saw that? Some of you felt that, okay. Right?

So, it's like this kind of combat training, this kind of thing, not only is skill based, physical skills, this also trains your spirit. This also trains your will power. You can see people who come, they see this kind of training, they say, "Holy crap. This is scary. It's like a gangster Dojo or something in here. It's like, I thought we were going to do Karate." And everybody gets to watch on the side and they're clapping. "Great job honey. Trophy right now. Belt promotion. You did a beautiful form." No, we're gangster fighting. This is old school. Only the gangsters would be training this kind of stuff. Real tough thug guys.

The Brazilian Jiu Jitsu guys, the first guys, man they were freakin'... Do you know what I mean? They were, they had the Gracie Challenge. They would fight anybody that would come in, and if you were a blue belt, whatever, you understand, they'd make you fight them. Do you know what I'm saying?

So, when you walk in to these kind of fighting Dojos, this is like walking into like a gangster zone because, like my gosh, this is not playing around here; and, of course, you can see that it's scary to do it. Of course, we have a great community. We're not, you know, we don't try to threaten anyone; but, it's scary to walk into these kind of fighting Dojos.

Also, you can see, you can see the kids. Some of them get so scared of it, and I understand. You have to work through your own demons, and sometimes they're dealing with weakness, whatever; but, you can see that they get scared. They're basically scared. Mentally scared. I mean, it takes some of them months to get over that fear of trying to face this. "Oh, my goodness. There's so much anxiety." That's good. It's a good challenge, you know. It does build you up. You have to overcome your fear cause your fear will only make you weaker cause everyday that you're scared, all the other kids are beating through that fear, and they're getting stronger, so you'll never catch up. The best way is to jump in and just eat the fear. Do you see what I'm saying? Right?

But, this kind of training, and once we add the real punching to the face and all that, I mean not just light punching sometimes that make you guys hit real hard. That gets scary. Weapons, smack each other, bruising. You get whacks and bruises all over your body. Scary, scary.

Yeah, I mean this is combat art; so, this gets very badass in a good way; but, it takes a lot of pain, it takes a lot of work, you know; so, obviously the young people who are not eating their fear for dessert and for supper and for lunch and breakfast, you know what I mean? Letting you control them, they're doing the good thing. You guys are doing good. Okay? And think about. It's not terribly bad once you get use to it, isn't that correct? It gets less anxiety ridden. Is that true? Or maybe some weeks are worse than other, right? Sometimes, you get a bad week. "Oh, crap! I don't know why I'm so nervous today; or, another week, I feel great I want to go, right?" You experience all those highs and lows. That's good. That's part of the warrior path. That's part of the spiritual path.

You're learning spiritual truths. You think your fate is always going to be on high? "Wow! Holly Ghost! Wow! Hallelujah!" You think you're going to be like that all the time? You're going to be depressed and crying at times. You'll be on your feet and "Oh, geez!" Are you kidding me? You think it's always a high, high, high? You think someones always there encouraging you? Give me a break! Once you're

walking on a martial path, or the martial artists path, a Bushido path, or a warrior path, or a knight crusader path, this kind of path is very real, very, very comparable, allegorical, metaphorical of the spiritual journey, too, because it's filled with ups and downs. It's with, "Woo! Hallelujah!" highs, and "Oh my gosh!" Incredible lows; but, through your training, through your pain and suffering, which in a good way, it builds you up. Not in a sadomasochist way.

Young people, come up to the front. Don't be sitting back there Next time you're going to get push ups. Don't be a bozo. You live in my household, boy. Get over here. Come on. Up here. Come up here. I'm gonna make you sit right here. Come on. Sit here. Come here. You sit right up there. There you go. You sit in the back, you're going to sit right in the front. It's best seat right here. Look how blessed these younger guys are? You can smack them in the head a couple of times. Okay? Oh those boys are moving up. Come on you bozos. Alright. They're not stupid, okay. I'll let them get away with it this time. Can you see what I'm saying? Okay?

It's very comparable to the spiritual path too. The ups and downs you have. "Oh, I don't want to go to that. I want to quit." I told you, it's only going to get worse, especially when you get a blue belt. Some of you guys are getting closer, closer, closer, closer to a blue belt. You going to feel it's even harder. You're going to feel that spiritual angst. It's like a real spiritual journey, especially for your age. There's nothing that will give you this kind of journey that will make you feel this kind of angst and suffering and pain. Not a lot of things that will you feel this kind of stress at your age other than probably going to war, okay. I mean, we have people from the Navy, etc, that came to see the training, and said, Wow! You guys literally become brothers. It's like literally going in the Navy, or like a Marine training, you know, because you guys don't realize it because it's just what you have around you. You're blessed to have it in your midst. You don't realize how precious it is. You don't realize that 99.9999% Christians worldwide don't have any of this. Do you understand?

But, you do this training, and you go through the ups and downs. You go through the highs and lows. You go through the, "Ugh!" You go through not only physical training, which may mean you're sometimes sore after training, but a lot of times mental hardships, isn't it? Is that a yes or a no? Can you say Amen or no-men? It's many times mental.

So, it's sometimes the same dang thing. A spiritual battle, too, a spiritual life, too, a lot of times the Devil will attack you in the mind. Remember, we talked about this in the Scripture? In 1 Corinthians 6, we looked at it? Taking down into captivity all imaginations, all the thoughts, all the things in your mind that come against the glory and knowledge of God, right? Satan will attack you in your mind. In your mind, you understand? Not only in your body. He will attack you in your mind.

So, the things you're learning now doesn't mean you're perfect or anything. It doesn't mean you're greater than a Saint; but, it means you are experiencing a feeling that's probably very similar to what you have in your faith life as well. Do you see what I'm saying? Okay?

Alright, let's get to that, back to that. We're at Verse 6 here:

**1 Thessalonians 2:6** Nor of men sought we glory, neither of you, nor yet of others, when we might have been burdensome, as the apostles of Christ.

Now look, you think I'm always happy to see you and train you? Are you crazy? You young kids, you think I'm always happy to see you? I have to motivate your bozo booties all the time. I got to make it fun for you. I have to make a circus because I know some of you are weak-minded. I know, "Oh, it's not fun. I'm gonna quit." Okay? And, if I can't cater it like that for just those kind of people so that everybody else is suffering because of those people; and, I'm dealing with so many different types of people at different levels. Do you know it's not easy to deal with so many people at different levels of maturity and wit and thinking or mentality or physical being? Do you know what I'm saying? Yet, keep the general morale high. You think that's easy?

I'm saying, you know, you're not terrible kids. I mean, think about it. When Gideon's trying to minister to you, then you're playing around watching video games on your iPhone, right? He's not able to capture you attention as easily. So, it's not that automatically you are listening to what I'm saying, or listen to the techniques. You seen the stuff I teach you has real world effects, and has real ability. Have you seen that or not?

You've seen the technique I've shown you, the abilities I've shown you have real world ability. I'm not lying to you, right? I'm not lying. You know I'm not there to tear you down. Every single one of you that train with me, you get strong, you get better, but you also become more humble. You develop as human beings in your character as well, as well as your physical technique. Is that true? Yes or no?

You're probably way more more mature than two, three years ago than you were before. You probably have a way larger perspective and analytical ability that two, three years ago, right? If you think about it, right? Some of you kids, you could not even analyze politics. You didn't know what was going on. You watch some idiot politician lying to you on CNN. He'd say, "Okay..." You had no idea what's going on. You're not able to decipher what's going on. Is that true? Right?

It's like now, now you can decipher in a MMA fight. You can see what's going on cause now you learned that landscape. You've been empowered to understand that landscape, right? You've been empowered to understand firearms, and you've trained with good people here as well; but, do you think it's easy to train you week, week in and week out, trying to keep it exciting cause some of you bozos, "Aah! I don't want to train. Aah, cause I'm dealing with this kind of stuff." Huh?

Most of you don't do that; but, I'm saying, in different days in different weeks, we have to deal with that all the time. Coming in late. Disrespecting my time. Expecting me to give you stuff for free. You're trash-heads then. I don't have to give you stuff for free. You have to appreciate the generosity of coaches that are training you and instructors who are training you, whether it be firearms, knives, sticks grappling. These are generous people cause they care about you, not because you deserve it. You understand? We care about your future. We care about your families. We care about the type of quality people that you will become, and you what kind of leaders you'll become in your home; so, don't disrespect the Instructors and me when you come and train and be late. Does that make sense?

Cause then your treating people who are generous with you like crap. Well, screw you then, cause in this world nobody will help you if you be like that. You have to learn character. Character. That's what you learn. You're not going to some Dojo where you pay some Instructor to teach you techniques so you can look like you're a badass on Instagram. I don't have to teach you these skills. I could just teach this to my kids and have them become my SWAT Team Ninjas. We'll beat your booties all the time. I don't do that. Is that true or not? I'm extending that to give that knowledge to you as well, okay. Yes or no?

So, this is a very important part of being a part of an honor code. You learn to have character and be responsible. You learn that your actions have consequences. You learn how to be on time and keep promises. Adults, is this not important in real life? Those kind of ethics and skills? I mean, yes, young people like the Ninja stuff and all that, the killing art and dangerous stuff; but, think about the character

stuff. Aren't those important in the real world? Do you want to become a Doctor, Lawyer, Businessman, Entrepreneur. You want to make business contracts. You want to make win-win solutions with people. You want to make partnerships. I mean, come on. It's critical, okay?

So, the Second King is not trying to bust on your ashtray when you're being lazy bums. I not trying to bust on your ashtray. Do you understand what I'm saying? It's not personal. I don't have a personal vendetta against anyone of you. I love you bozos. That's why I'm training with you and I'm generous with you. Do you understand?

**1 Thessalonians 2:6 Nor of men sought we glory, neither of you, nor yet of others, when we might have been burdensome, as the apostles of Christ. 7 But we were gentle among you, even as a nurse cherisheth her children: 8 So being affectionately desirous of you, we were willing to have imparted unto you, not the gospel of God only, but also our own souls, because ye were dear unto us.**

You know, you guys will feel it too. You guys will obviously develop to be very high level Instructors, too; and, you won't let your students get away with crap because that's a bad teacher. Did you guys know that? Bad teachers let their students get away with crap. Parents. Oh my goodness. Bad parents, you guys train now, you guys are learning skills that will develop you into better high level parenting, high level teachers when you have to instruct people's lives as well; but, also at the same time, you got to keep morale up. But at the same time, you can't let it get delusional. You also have to be able to smack, you know, metaphorically on the head. "Hey, don't be freakin' Fantasyland." You also got to be realistic. Does that make sense?

You got to keep that balance, and it's not easy all the time, right? But, each one of you will be called. When you get Blessed and you have children, all your training, your Jiu Jitsu training, your Kali Eskrima training, that training, the learning; and, sometimes I'll say, "Come, you guys teach them over here; so, you'll have experience in teaching them what's going on, right? And by doing that, that's how, that's giving you an opportunity to teach somebody and to empower them. Do you understand what I'm saying? Don't see it as a burden. "Oh, I'm so shy. No." This is your chance to train cause you don't want to be a white belt at teaching, when you have to teach your children or your family. Does that make sense? You want to be a higher level. At least you want to be blue or purple, right, in terms of parenting. Is that true? Do you want to be a white belt. You know you lived under some whacked out parents or you've seen friends with whacked out parents, you know how crazy it is, right? There's a lot of bad parenting out there. Is that true or not?

There's a lot of bad parenting out there. Obviously, you don't want to do that to your kids. Is that true? You don't want to give that to your kids, right? You want to give them the highest level of instruction and parenting possible, cause that will give them the highest chance of them developing into high quality people, too, right? And, you guys are learning that; but, sometimes I ask you to go instruct them here, go teach that person there, then you'll have that opportunity to teach, instruct; and, if you have to train larger groups, you'll see, it's not as easy as it looks. Not as easy as it looks.

You try and encaptivate a group of teenagers and twenty years old and have them all listen to you at the same time. Let's see how good you do. There's got to be a lot of trust, there's got to be a lot of investment. They know that you're not out to get them. They know that you're there for them; but, again not there to just stroke their egos and become little weak vapid empty, you know, stroke me when I feel down because you be there for me all the time, cause I vampirically, toxically hold on to you, and whether I can use you when I need a comforting. That's a selfish person. Do you see what I'm saying?

The whole purpose of you learning the training is you learn how to do things yourself. You learn how to stand up, and you learn how to battle with your skill level. Obviously, you'll always need help, but more and more, you're becoming more self-reliant, more self-reliant, because then you have the skill to

train other people. Does that make sense? But, you have to be able to do it, right?

**8 So being affectionately desirous of you, we were willing to have imparted unto you, not the gospel of God only, but also our own souls, because ye were dear unto us.**

So, you'll see. When you have to train other people, you have to give them a part of you. You have to give them your souls; but, you can't do it in a way you become selfish and they become entitled that they deserve it because then they become evil. Evil selfish parasitical people. Vampiric. So you got to balance that. It's not a simple thing. Not a simple thing.

**9 For ye remember, brethren, our labour and travail: for labouring night and day, because we would not be chargeable unto any of you, we preached unto you the gospel of God.**

You know, training is hard. Training is not fun. At times, training is not serious. In our mind it can be rough, but look. We are standing up and practicing at exercising not only our physical body, getting more healthy, more fit and all those good things, but we're exercising God's Commandments. God said the greatest Commandment is to Love God/ Love your neighbor. The greatest. Those are greatest Commandments of all Commandments come from. If you understand the ethic of loving God with all your heart, mind, soul and strength, and love your neighbor; and, it doesn't mean we do it perfectly, it doesn't mean we're not sinless. It means we are striving for those things. Does that make sense?

It doesn't mean you do it perfectly. Nobody in this room does it perfectly, but we are striving for that, okay? With that metacharacter. Meta means above, okay. So, with the meta-ethic of loving the transcendent God which gives all humanity human rights. He gives them, makes them in His own image, etc. Gives him value. It is our desire to love God, also; and, then natural then goes to the next Commandment which is love your neighbor, learn to protect people. That extends to your children, that extends to your wife, that extends to your husband.

How about you sisters. When you get married, how important it is to protect your husband. You think he's the only one who going to be protecting you? You got to also protect him. Can you say Amen sister, you girls? You have to know it's also your responsibility to protect him. Don't just assume that it's only his responsibility to protect you. It's also your responsibility to protect him. You know what I'm saying?

You have to protect his anointing. You have to protect his position that God gave him. You got to let him be the head of the household. You got to honor his position as the head of the house cause your kids when they start acting up against you, and they say Mom, "Yeah, yeah!" You can no, I obey the Word of God. I don't want to obey my emotions. I don't want to obey anything else. That's why I'm telling you to obey the Word of God, and I have the right to do that because you see how I obey the Word of God. You have to protect your husband's anointing. If you don't protect your husband's anointing, and you become an arrogant women trying to rule of it yourself, you'll destroy your household. You will harm your children, and you will suffocate and try and kill your boys in terms of just trying to control them out of existence cause you become a total control freak. None of those homes work out well, where the mother tries to be the ruler. None of them work out well. All the boys get suffocated and destroyed, or some of them just give in to it and become soy-boy lattes.

How are they ever going to stand up against Communism? How are they ever going to stand up against the principalities of the world? You guys have to protect your husband's anointing. You have to protect him as the Priest of the house. Very, very important. Very, very important, because then he will be able to protect you, and also your children will protect you. If they see you protecting his God's calling on him, then they will protect God's calling on you, which means you have authority over your children; but, women are not taught this at all. They're taught to be arrogant selfish narcissists. Me, me, me. Me,

me, me, me, me, me; and, my husband is my servant. And you don't even want to live with a girlfriend like that. How do you expect a grown man to live like that, especially who's got testosterone and knows how to fight? Hell no! Are you kidding me?

You're living with a lion, not a little pet. You got to respect your husband. Obviously, a good grown man will try and respect their wife and honor their role, honor their Godliness. Will listen to them. I mean, it's amazing how much gentle-hearted Christian men, they listen to their wife, sometimes to much. I'm serious. Sometimes, they let just too much. Sometimes, you got to say, No! I love you honey, but no! You have to learn how to do that. Golly!

But at the same time you have to learn how to always win peace with your spouse, peace; so, that even though there's that natural SWAT Team positioning that there's peace with the children who are under that. They can feel the peace between Daddy and Mommy. That they know they're a team. They know Daddy is the SWAT Team Leader, they know Mommy is the Assistant SWAT Team Leader. They're not above her; but, they're going to challenge you all the time, that if you're always trying to be on top of your husband, then they're going to say, "Well then, I'm on top of you then, Mommy." especially if you got boys and strong boys.

Unless you're the type of tyrannical mom that try and beat out any type of masculinity out of them from a young age, and just make them into slaves. You're an evil wicked woman. Evil. Cursed woman. You will curse your household taking out the spirit of a growing man when they're young, and you should be rebuked.

It's a strong woman that can appreciate the strong man and protect his anointing. Because why? Your sons will be stronger than you; so, when you have sons, you want to be the type mother that's trying to oppress them, so you're on your high-horse and more powerful? You are a low quality then. Don't you want your sons to flourish to become powerful grown men, and have leaders of their household, leaders of entrepreneurship and business and markets, etc? Don't you want that for your own self? But, you're stealing it by beating him out of it from a young age cause he won't listen to you as he grows bigger because you don't obey God's Word in trying to protect your husband's authority, so obviously your authority is cut down, so how do you expect your children to protect your authority? You don't even do it for your husband and God Commands you to do it. Does that make sense?

Now, I'm not saying you're all going to be like that, but there's a temptation, there's a societal pressure to be like that, so basically you're abusing somebody. You know, the gentle heart of Christian men, these men are good people. They're strong men, but they're good people, so they will take abuse. Don't become a wicked person that just thinks because a man is nice that you can just beat on him, and beat on him, and beat on him until Hell turns cold. One day he's gonna snap. You're dealing with a lion. You're dealing with a freakin' anaconda. Do you understand what I'm saying? One day it's gonna snap, and you're the one who's made the problem then. Do you see what I'm saying?

You got to be, when you see a tender man, be grateful for a tender man, because as tender man who's strong. Look at these. Brother Lowell, John Clark. These guys are tender guys. They're tender men. They got big beards, but they're tender, tender. They're tender guys. I'm a tender romantic at heart, too. I am so tender it's like ridiculous. I'm called lovey. I was so tender. I could be super tender. That's just my nature. I'm the youngest of twelve, you know, thirteen children. I am tender. I am super tender; but, I got to tell the truth cause if I don't tell them the truth, nobody's going to tell them the truth.

Don't take a tender man who appears nice as a weakness. I know most of our sisters here don't do that because our sisters here are wiser. You have wisdom and you get Godly preaching. You don't get fake preaching. I tell you the truth; so, whether you like it or not, you're confronted with the reality of God's Word. That just makes us more realistic with ourselves.

But, if you see a tender man like that, he is not a weak man. It's a very foolish woman if you see a tender man and you yell at him and he kinda lets you just yell at him, and you do it again and he kind of lets you just yell at him, one day that lion will snap. Do you understand? Do not abuse your King like that. One day he's gonna freakin' snap; and, I'm not saying he's going to cut your head off, like a Jihadi behead you or something. I'm not saying he's going to do something wacky like that. I'm just saying you're going to drive him nuts. He going to say, okay, it's over. How many people in their forties and fifties get divorced because of that?

Let's respect, respect as God said, we unconditionally love, husbands, we unconditionally love our spouse; but, sisters, we need to learn to respect our brothers. I know, you Sanctuary folks, I know you're high level at this. I'm just saying, anybody who this needs to be heard to across the air waves, whatever, you got to let the Word of God penetrate in. It is lifesaving Word. I'm not saying my word. I'm saying the Word of God is lifesaving Word, okay?

He's got the master plan just like I showed you with the feet, man. The feet, I mean I'm gonna start running like that cause that is the right way to run to save my knees. His design is the best.

**10 Ye are witnesses, and God also, how holily and justly and unblameably we behaved ourselves among you that believe: 11 As ye know how we exhorted and comforted and charged every one of you, as a father doth his children, 12 That ye would walk worthy of God, who hath called you unto his kingdom and glory. 13 For this cause also thank we God without ceasing, because, when ye received the word of God which ye heard of us, ye received it not as the word of men, but as it is in truth, the word of God, which effectually worketh also in you that believe. 14 For ye, brethren, became followers of the churches of God which in Judaea are in Christ Jesus: for ye also have suffered like things of your own countrymen, even as they have of the Jews:**

I know when you give your life to Christ, it can feel like a burden at first because you may get other people try to determine the walk that God is pushing you, especially your friends. You got to watch out. When God calls you, He's going to call you, He has a certain gifts and certain strengths your friends don't have. All you guys, you trained together now, but as you grow up you may branch out into different industries, different markets, different businesses, all sorts of different fields, you know. Hopefully, you can have those fields and elements of those fields are connect so that you can always appreciate this very precious brotherhood and sisterhood we all have here. You know, training one another this kind of close. When can you train with people like this close? You know what I mean? It's like never in the real world, in the normal world. It's like never.

But, God, when He calls you, I don't want you to feel pressure to come up to the alter call when we do a prayer. Don't do it for show. It has to be real in your heart. You have to believe that in your heart. And, maybe you can't work out all the details; but, you know you want to give your life to Christ. You know you want to do that. That's so precious cause that seed becomes a big tree. It's the thing that moves the mountains in your life. That one see, that proclamation that you done, and you may think that it's a passing day, but you should really never forget that day cause that day, look at it, look at it?

We have some people, and it's precious. We have precious Blessed children that are not fallen, etc; but, at the same time, think about it, we have a situation where saw in the Family Fed many, many Blessed children who are not "fallen," right? They didn't fornicate before marriage. They got "Blessed." But, they are completely pagan. They don't believe in God. They don't believe in, you know, Father. They don't in Jesus. You say the name Jesus, it's like, "What are you like for?" To them, Jesus is like Zeus or something. It's ridiculous.

So, just because you have the lineage doesn't mean you're saved. God doesn't want only flesh and blood. He wants the heart and spirit as well, and that is so critical. Now, you guys are at a better level. You have spirit. You have the lineage. You have the flesh. You have the inheritance; but, at the same

time, God is looking for your heart. He's looking for your heart. I mean, you don't show anybody. That you hide, that you conceal from the world. That you don't talk to any of your friends or anybody who gets near you. You withdrawal and hide away from it. That's the heart he wants, the one you do not show anybody. The one that you deliberately conceal and hide. Your deepest, deepest desires. That's the thing God wants. That's what He's interested in. He's interested for you to give Him that, cause when you give Him that, He gives you what's deepest in Him. He can make the exchange. He can give you something which is at the core of the Creator; and, we talk about it this vague love. It's all vague to you because you're still hiding, hiding, hiding those inner workings, those inner desires, okay?

So cannot. Don't do things for show. Don't do things because you feel pressure, because other people are going up, so you want to pray, you want to receive prayer. It's great to want to receive prayer, we want. Obviously, holy people want to pray for you, and you should want to pray for other people, too. You know, we should, adults, don't be afraid to ask young people to pray for you, too. Can you say Amen? Sometimes, we get into a whole thing where, oh, I'm older, so only I can pray for you. No. Sometimes, we have to ask younger people to pray for us. Can you say Amen? We can't get on a high horse, either. We need young people praying for us, too.

That's why I tell these kids, "Are you praying for me?" Then, how many times, I did ask you that, did I not? I ask you that, right? Are you guys praying for me? I'm praying for you. Are you praying for me? Did you guys hear me ask that or not? And, I'm not asking you that to make you feel guilty on anything. I'm asking you a question. Do you see what I'm saying? But, most of you are not praying for the Second King, is that true? It's probably true; so, pray for me, do you understand? That means something to me. It may not mean anything cause pray for you as they say doesn't mean anything, or not a lot; but, to me, it makes a big difference. Do you understand? It makes a big difference to know that kids I'm training are praying for me. It makes a big difference; and, that's why it's very important also, that the parents are asking their kids to pray for us, too.

Even the small kids, they can pray for you. God has given the power of prayer. What's prayer. It's not some kind of magical spell, like Harry Potter, we're trying to put on the Universe or something like that. That's not prayer. It's not some kind of mantra some Buddhist mantra we're doing, so some aet of wishful prosperity would come on to you, you know. Prayer is a power. It's a power. It's also a weapon that God gives to us to fight spiritual warfare, and to protect people, to defend people that God has called into His holy warfare, His holy army; so, when you pray for me, you're kind of defending me with your prayers.

It's like, if you would imagine it like a Jedi movie, you know. You're praying that prayer. That soulful, willful desire is like a force field that comes around me. It helps me; and, when I pray for you, then you're force field protects you. Do you understand?

Did you boys know that at your age your prayers have power? I'm not saying that one time the Hudson River is going to split in half, or the Atlantic Ocean, all the whales will come and float on top. I'm not saying don't ask for those kinds of things. Just I'm saying, your prayers, your care, your heart. Pray for your parents. If they don't ask you. Maybe they're too scared to asked you. I don't know. Maybe, they're too proud to ask you. Maybe they're too Japanese or Korean, and I don't want to ever ask my children to pray. Okay fine. Don't pray for them. Pray for them to overcome that. Do you know what I mean?

Young kids like that should be praying for their parents. They don't have to do fake prayers like, "Oh Daddy, I prayed for you for three and half hours." I'm not asking you to do that. Stop trying to show off. Don't come and say, "Oh, you know, last week I prayed for you ten hours." I'm gonna probably say, "Thank you;" but, I'm gonna probably say, "Don't do it for show." I'm probably gonna tell you, "Hey, if you just pray for me one second, two seconds, if it's heartfelt, if it's real, I appreciate that more than ten hours of fakery to impress other people, to make yourself stand out in the crowd and say, 'Hey,

I'm better than all these bozo." No, don't do like that? That's fake. That's religion. That's what the Pharisees were doing.

How about a heartfelt real prayer. I mean, I really want the Second King to be successful in the things that God has called him to do. That's it. Amen, in Jesus name. If it's heartfelt, that's precious to me, that's precious to just about everybody. Does that make sense? If I want to pray for you, I don't have to pray for you for thirteen hours to convince you that I care for you, right? So, this atmosphere, this fighting for one another, and also putting this spiritual protection around one another, this is important, too. This is important, too. You know what I'm saying? It's important. x

Let's go to **Verse 12:**

**12 That ye would walk worthy of God, who hath called you unto his kingdom and glory. 13 For this cause also thank we God without ceasing, because, when ye received the word of God which ye heard of us, ye received it not as the word of men, but as it is in truth,...**

Let's go to **Verse 15 Who both killed the Lord Jesus, and their own prophets,**

He's talking about the religious people. He's talking to the religious people. We want every one of you folks to have a personal relationship with Christ. Personal. That's why we do the Alter Call at the end, because we want to give our lives individually to Christ. How many of our young people never had that opportunity, never did it; and, they just believed in it by having the lineage. They're just part of everything; and, then it becomes some kind of social club that falls away from God cause they didn't take personal responsibility for their believe and for the civilization. They never surrendered themselves to Christ. They never surrendered themselves. I mean, that is a life transforming turning point in your life. You may not recognized that; but, it's huge. Huge, huge, huge, huge. You existentially metaphysically did something transcendental.

"No matter what I'm gonna do. Cause I need you more and more." I know that's a nice song, but look, it's got crazy lyrics. Why are you chasing after him? If he's within you, you don't have to chase. Now, sometimes God's within you and calls you out into the wilderness to get to know Him more and more. Sure. But, I'm saying the chase is right here in your heart. It's right here, cause it is those who did those good things, act like they're doing good things, they're the ones who killed Jesus. The religious people. The ones who were doing the show of religion like the Catholic Priests that were raping the young kids in Pennsylvania. We were saying that five years ago, not only those in Pennsylvania, but Catholic Church as a decrepit pedophilic organization. Five years ago, everybody said, we're crazy.

Remember that? Huh? And no look, it's out in the top, in the Supreme Court. I mean, the Pennsylvania State Court ruled it to be true. Four hundred different predator Priest praying on young kids, raping them. Over a thousand different victims; and, they said that we were crazy. I'm not talking to you. You know what I'm saying. I'm not talking to you. I talking metaphorically to everybody else who was criticizing us say that where the freakin' conspirators. Your the freakin' conspiracists. Not you who are sitting here. I just saying generally speaking.

There's a lot of misunderstanding in the Western world. I always got to qualify what I say for fear that somebody may take it personally or insulting. Well let the Spirit of God rebuke you. I don't mean you directly cause I know this is the remnant, okay; but, that doesn't prohibit you from having those doubts. Even though they're part of the remnant, they may have those doubts. "Oh, man, why is he talking about that? Oh, why did you have to..." But, those may or may not be true. We're talking about the Communist style of government that is coming. It's not happening before your eyes. We talked about the pedophilia in the Catholic Church at the highest levels of power. That's now being exposed, okay? So, who is the one who is uniformed, ignorant, and who is the one who did not know anything

about the real world; meanwhile, pretending they're the ones who understood the things about the real world? That know nothing. They're part of the slave system. That's all they know.

What's that song? "I'm no longer a slave to fear. I am a child of God." How does it go? What's that song? "You unravel me with a melody. You surround me with a song. Of deliverance, From my enemies, Where all my fears are gone. And, I'm no longer a slave to fear, and I am a child of God. And I'm no longer a slave to fear, and I am a child of God." Okay, that's enough of that, alright?

That's what I'm saying. That's like the song. It's a song. It's in the slave mentality you can't see what's going on because you bought into the system. You bought into the program. You bought into the matrix that they sold you and lied to you about, and it's how they keep you dead and weak; but, the relationship with Christ, with Jesus, and Jesus at the Second Coming. The same Jesus by the way. How many know it's the same Spirit of God, the same God inside, okay? Same Spirit, same God. The relationship with Him, that's the praying power. That's the power that lets you ascend and transcend the offerings of this world, which in the end is what?

What are they planning for stupid humanity. They're planning AI, they're planning technological implanting, they're planning the super elite monopolists to rule over the world with corporate power. I mean, these people are sick and crazy. Do you understand that? And, they are expecting you to be happy in that. You got all these brainwashed people who think they're going to be happy giving themselves over to this new artificial system, and losing their humanity, losing their will to power, losing anything, any semblance of their real God given image. It's so crazy, folks.

What Satan offers in this world is so pathetic. If you actually know what they're offering at the end, it's so pathetic, it's so weak, it's disempowering, it's so dehumanizing, it's so inept, it's so fake and facile and weak; but, what God offers is the total opposite. They can say that God doesn't exist. They can say this or that all they want until high heaven comes. It doesn't matter. It doesn't make any difference. Their emotional appeals, their emotional argumentation has no bearing on reality, in the reality of God's presence; and, the fact of the matter, the Word of God says that every man in their heart knows that God is alive. He's the one from which we get the power and the authority. He's the one by which we get life, not death.

Everything the world can offer us is just images, templates, little fake little programs to make little simulations, little simulations to make us feel or taste of the reality of a relation with God, but it's not transcendental. It's always trying to simulate transcendence.

But, when you're plugged into Christ, you're plugged into Jesus, you're plugged into God, you transcend all these realms of simulation. You transcend all these video programs. You transcend and can see through like Superman with x-ray vision, like the Matrix once Neo gets, you know, saved, and see through the Matrix and all the digital fakery. It's all illusion. All illusion to make you weak, lustful, arrogant, narcissistic, pitiable; and, then because they made you that way, and you can't succeed, you have worthless degrees, and then they use that anger against you; so, they built up the resentment, they built up the failure of life, and then they blame you for it and say, "Oh, the reason we have this is we have freedom over here, so we have to get rid of those free people so you can take their resources, and then that will solve your problems. That will make you happy, and you see." And you see that's how they sell Communism, Socialism, and it's stupid religious forms. It doesn't matter.

God wants to be with people who have a relation with Him, who are dwelling with Him. He doesn't want to be with religious people. You see how religious the "Catholics" are, right? They're "religious." What happened to them? Can you see what happened to them? They're sort of the epitome of religious people. All their little Catholic garbs and their robes and their Priests. Have you seen some of these Vatican Priests? Tech team, pull up one of the Vatican Ceremonies. Let's look how religious they are. Pull up Vatican Easter so we can all laugh at them because that's not what makes you holy. I not trying

to be mean or anything. It's just not what makes you holy. Go ahead, tech team, pull that up. You can go through all that outward forms.

That's why I warn people, when they come to the Ceremonies that True Father gave us, you have to do it with a freshened heart. These are not just to do it for the Ceremony's sake. We're supposed to be meditating, we're supposed to be participating in the Ceremony that is honoring the civilization that God has created; so, when you do Parent's Day, we're honoring the Godly Parents; Children's Day is to honor Godly children. Creation, honoring God's creation. You know what I'm saying?

No, no, do you have a video? Bring up a YouTube video. Can we bring up a video? Let's get a video with all the singing and all that kind of stuff. Hey, people are into that. People are into the singing. Singing is powerful; but, you can see, they can do all these religious ceremonies; but, they're totally wicked and decrepit inside. They're not filled with the Holy Ghost. They're not born-again. They don't have God ruling within them. Jesus is not ruling in their heart. They have Jesus that's still on the Cross and dead on the Cross. He's not alive in their heart. They keep him nailed to the Cross. Did you notice that the Pope, the Pope is literally carrying Jesus around like a pet? He's nailed on a Cross on his staff. He's saying, "Hey, everybody, see how powerful I am with my little Jesus as my little pet dog?" This guy is a wicked, wicked demon that supports of course, Goldism and carbon taxes on poor people. I mean, this guy is a total thug. He's a thug, Mafia thug; and, of course a great protector of pedophilia and childhood rape, which everybody said we were crazy when we were talking about it five years ago; but, now everybody's silenced their mouth about it cause they were wrong. (Doing Gregorian chants) I mean, look at these guys? Do you understand what I'm saying?

When we were doing the Ceremonies that Father gave us, we're not doing it like this, do you understand? This is not our civilization. This is a civilization of centralized power, central banking, Mafia, illegal, helping the illegal drug trade. These people are such an evil organization it's ridiculous.

It doesn't mean that Catholic people are like this. Normal Catholic people, I mean like John or brother there, he was born and raised Catholic. He eventually got freedom, praise God. Hallelujah! Hey, let's praise God for that. DO you know what I'm saying? This is a wicked, wicked... It doesn't mean... the people are wonderful, but they're stuck, kind of trapped in their culture because it's become like this incredible state controlled civilizational power, which of course adds like pagan on it; but, God is not present.

I'm telling you, we got so many young people going to Rome in a couple of weeks. The buildings are impressive, okay. The paintings are spectacular. You walk in the Sistine Chapel, you're going to drop your jaw. I mean, how huge this building is built three-four hundred years ago. You're going to be shocked. Do you understand? But, don't let your carnal mind, don't let your weak mind take over. You have to understand how much wickedness and evil has created that. Do you see what I'm saying? Some of you young people are going to Rome. You're going to see the catacombs and stuff; but, they must not forget the wicked murderous history of Catholicism that had the most blood on their hands of killing Protestants. Thousands of Protestants murdered by Catholic Priests and the Pope cause they said, Nope, we're not going to worship a hierarchy. We want to worship God. We want to follow His Word.

So, it's a very genocidal institution, the Catholic Church is to other Christians as well. One thing that you see in the Protestant which is very different, even though they disagree with you on theology on certain points, they'll still consider you a brother in Christ, and still consider you saved. Some people in Protestant Churches, in Protestant Churches that we work with, etc, in the Evangelical who knew; but, they know we love Jesus, they know we're saved by Jesus, they know we confess and give our live to Jesus; so, they that we're saved. Even though they'll give you the Word. You're saved, but I don't agree

with you on this and this and that theology. Do you see how that's very different than the Catholic Church or the Shariah, the big Islamic, you know, centralized Caliphates.

It is not these kind of robes that make you holy and stuff like that. No, no, no. I don't know if this guy by himself, whatever, but these kind of people that dress in these holy robes, they were raping these young boys and girls. Do you understand? They were raping Nuns. All those Priests were raping Nuns. How many years did we tell you about that? Why do you think Father was telling them, "You better allow the Priests to marry or the Catholic Church will die." He told them that.

I mean, think about it. How many people believe that when said that the Priests raped the Nuns, have sex with the Nuns, a peddled around as sex toys? Nobody believed us. Nobody believed us. Now, you're the ones that has been exposed as a fool. I'm not saying you. I'm saying generally, or whoever was doing that. Trusting in vestments and garments because they're gold and red. Who cares. That's not what God's after. When we do Ceremonies here, too, we must not have that kind of religious spirit. We're doing it for the religion. No, no, no. We're doing it to honor the civilization. We're doing it to honor God; but, that's not set in the different ceremonies that we do, but that's for anybody's glory. That's for God's glory. That's for us to us to meditate on and remember him.

It's like, think about if you have a big nation, and you have a Veterans Day, or they have like a Parent's Day. Do you know what I'm saying? Or the nations celebrating general high quality nature of their Parents or children. Do you know what I'm saying? We have to see it like as citizens of a nation. Instead as seeing it as some religious ritual that were attending. Does that make sense?

God is not interested in the religion that man creates, the men create. He wants to accept the traditions that He gives us. Sure. But that's not the purpose for which he comes. He gives us His blood. He wants to tie us back to His family, His lineage; but, at the same time He wants us to give our hearts to. In the end, does any parent that doesn't want your child's, you know, internal heartistic, you know, love for you? Do you want them to be just your flesh and blood? Don't you want them to agree with your values, and agree with your civilization, and agree with the things that you are fighting for? Don't that bring you tremendous joy when your certain children do that for you, and doesn't that fill your heart up with joy; whereas, the other children who don't do that, and curse you, and spite you, and hate you, even though you provide everything for them, and still, you know, you see how painful that is? And sure, you weren't perfect in raising your children; but, they're not perfect either, and you did your best, right?

So, it's a very important thing that in Christ, and remember, that we have a relationship. That's why the body of Christ is supposed to, we're supposed to appreciate one another. You know, we're supposed to be more patient with one another. We wouldn't usually be this patient to other people, but because your brother in Christ, I'm gonna a little more patient with you. You know what I'm saying? Like we're expected to do that. That's part of the ethic, because you've given your life to the same person I've given my life to, and we're relating to the same person. Do you see what I'm saying? So, it is important to give each other just a little bit more courtesy. Just a little bit more care. You know what I'm saying?

I'm not saying we let each other stop on each other and beat each other, you know, so abusively. No. What I'm saying we afford one another a little more. Does that make sense? Because it's about relationships. It's not about religion. We want to be about following Christ, and not following a religion. That's why when people come up here and get the Holy Ghost, you know, prayer and they get an anointing, that anointing of God will come on them in different ways. Some people will see the fire of God.

One of our brothers, the Korean brother, look at this? Look at our Korean ministers? Look at them? They're in their full Peace Police/ Peace Militia outfits today. Look at them? Whoa! Look at them?

Woo! Look at them, boys. They look like some scary dudes, don't they? Look at them? Wow! Salute! Now, they both served. All the Korean men have to serve in the military. They served three years, I believe, in the military. Both of them, when they were young in their twenties they served three years in the military; so, they're able to wear those garbs, okay, without actually get in trouble.

In America, that's why, we like Camo and stuff like that; but, you know, you can't walk around in a military outfit. That's called stolen valor. That's illegal. If you do that, you will be asked what's your number, your military number, all that kind of stuff; and, if you lie, that's a crime in many states. So, when you Camo, you have to respect that Camo, cause that's what the Army and the military Marines, that's what they use. You know, I'm not saying anyone of you guys walking around in full military, you know colors. I mean, some of the young babies do that; but, they're still you, so you know, adults will give them a pass; but, as you grown up, unless you're in the military, you can't be dressing like that. You have to let the military have their own garb. Even though you have a militia, it doesn't matter. You still have to honor the military in this situation, in this situation, you know, in America under current law.

That's what Tim was saying the other day on *The King's Report*, that's the military, law enforcement. We're not paid, and it's all based on local militia and law enforcement training just like it was in the early days of the US, and how it is in the Cheon Il Guk Constitution. They should not be paid staff of politicians in the Washington DC. That's very dangerous. That's what Hitler did. Very dangerous. I'm not saying that the military... Most of them are patriots; but, that kind of system can become evil very quickly over a couple of generations.

But, we have a connecting point all of us. We gave our life to Christ. We gave our to Jesus. We gave our life to returning Jesus and desire him; and, we may not know them deeply, but the fact that we desire them, we gave our life and surrender to them, that's a huge, a huge thing. It's a massive thing. We may not know how serious that is; but, that's a big thing, a really big thing.

You don't know how much Father loved, loved Jesus. I mean loved. Totally loved. It's like the Father God loving the Son, who are one; but, still the Father God loves the Son, right? Loves Christ. Loved him. I gave you guys the example of the Avatar. When you created the entire Universe in the game world, but then you play the Avatar in the game world, and you're meeting the other AI people that you're also meeting and they also have free will and they can think and manipulate the Universe for themselves, whatever the different things they're doing and you meet them. When you actually meet those people that you're playing with, they're actually meeting the Creator, if you are the Creator of that Universe. Does that make sense? Does that make sense?

In the

h the figure of the Second Advent, etc; but, he steps into the world, and so when you actually meet that person that looks like a person in the digital world, he will look just like a digital character, an Avatar; but, when you meet that person, that's actually the Creator that's actually playing Him, and the Creator could love that Avatar. He could really, really love that character. Does that make sense?

Some of you have done it. Some of you have played D & D. Your character dies and you cry. How many of you have experienced that? You played a video game, and you got so attached to that character in that video game, you actually cried. Don't raise your hand. I know who you are. Can you say Amen?

So, it's that love that binds us together. It's that relationship that binds us together. That's the thing that transcends, that's the thing that makes us ascend over all the different systems and programs. It allows us ascend. We have to be open how the Holy Spirit works. You know, when these Seun Seng Nim received the Holy Ghost and received an anointing a couple of weeks ago, one of them said he felt as if

his hands were on fire, and he felt his hands were growing like touch the sky, and his legs would touch the sky; and, he said, "I couldn't put my hands down." And then he said the Spirit of God just gave him... He said his face turned all red. Even the next day, he got like sunburn. You know, when you get sunburn you start peeling your skin. His skin started peeling the next day like he got sunburn. He said like want's going on. He said, "I guess I received the fire of God." Do you understand. Of course, that all went away. God was able to touch him in that way.

Other folks don't do that. They get the cool Spirit of God, and that things that they're worrying about that are mucking around their head, that they're stressing over, those things got untied. They got released.

So, we need that time with God. You don't know. When you go to Pastor Browne's Church you'll see people writhing on the floor when they get hit with the anointing of God. You will see them... some people will just stay quiet. Some people will be like a corps when the anointing hits them. Maybe they need to do quiet surgery with God. Some other people may have to get a fiery demon out, so they may have to writhe and yell it out. Some people when they get the anointing, they may start laughing out of control. They can't stop laughing cause they get hit with the joy, and they just can't stop laughing; but, you can't say that person's crazy, that person's wacky. Just let God work it out with them. Just let God work it out. You don't know how they're going to react. They may be just be cold and still as a cold dead body, but God is working on them. He's operating. Somebody may do a Holy Ghost dance. May start sprinting around, running around. Let God work on them. If he tries to attack me, I may have to kick him in the head, okay?

But, you got to let God operate on people the way the Physician is going to operate on the people he needs to operate on. Can you say Amen? Not all of us when we receive the anointing are going to react a certain way, you know. The Spirit of God hits and that person needs to work it out with God. He just needs it. He just needs that time with God. Just that time to be with God. That's it.

You don't know what's going on in that person's life. You don't know. You have no idea. All the things that are hidden on the inside they're not sharing with you, they could be going through serious crisis and they need that touch of God, and that touch is the thing that they need, so that they can overcome that. They need that reconnection with God; and, it's not me, it's not you, it's not anybody who's praying for them, it's the touch of God that they need. Can you say Amen?

They don't need me to whack them on the head. They don't need you to illegitimately pretending that you're doing the healing. No. All we try to do is be an instrument to God's work, so God can touch them through the people that are praying for them and laying hands on them cause maybe God needs to do an intensive surgery. Even that person needs some kind of surgery, something, some cancer needs to be removed. I'm not talking about the flesh. It could be a fleshly cancer. It could be. We've had some miraculous healing. Chief was healed of a fleshly cancer. God gave him a supernatural healing. Come on. Let's give God some praise for that?

A supernatural healing, the Chief. He brought in the papers from the Doctors. You guys saw it. He gave a testimony one time. I think he went home early today; but, other people are dealing with cancers of the heart. Huge. Maybe very, very traumatic issues that they're dealing with. They won't tell you. They don't tell their kids. They don't tell anybody about it. You don't know what they're dealing with; so, when we see people and God is working it out, we have to just, we have to just let them be. Let them work it out with God in that realm. Let God just touch them and operate.

It's not for us, "Oh, that person didn't do that. Oh, that person didn't shout loud enough." Hey, they could be as quiet and still as a dead body and God be doing surgery upon him. I saw another person hollering. Kept speaking in tongues. You don't know when the Spirit of God hits, the anointing of God

hits, you don't know. They can just start laughing out loud. You don't know; but, maybe it's that exact thing that person needed. Maybe, they needed that deep laugh, to get it out. Something, you know, that's inside of them. Maybe, they're too Japanese or too Korean or too stiff-necked. They just needed to get it out. Can you say Amen?

So, you got to let God work on them how He's going to work on them; and, when we're given the gifts of the spirit, we're given gifts of the anointing, don't judge the person. Just be happy that God's working on them. Why? Cause it's centered on Christ, it's centered on Jesus, it's centered on Jesus who has returned. There is power, power in the Spirit of God. Power. Power that we cannot see. So, we have to let God operate on people when He needs to operate on people. Can you say Amen?

We got to let God operate when the Spirit of God is on them. We got to let them operate. We got to let them operate. Hallelujah! What God wants to give His people, sometimes they don't even know they need; but, it's exactly the thing they need to receive.

Let's let everybody close their eyes. Let's bow our heads. The Spirit of God is so powerful. Now, keep your eyes closed. I don't want to give nobody pressure, okay? I don't want to give you pressure. I don't want to give you pressure. The Spirit of God is very powerful.

Brother Ted, can you come up here? Ted, come on out. Let's pray for Ted.

Father, we thank you so much Father. Father, you know exactly what you desire. What our brother needs. Let the fire of God be upon him, and let your Spirit cover him from head to toe. Let him down. Slow, slow, slow. Let him work it out. Praise God. Thank you, Father. Thank you God. Thank you God. Let God work. God knows how to touch those people. If you can, lift your whole hands up. Let's pray for your brother who's receiving the anointing. I don't know, but the Spirit of God is moving through this place.

Sister Adelaide. Come on up. Let us pray for you. Okay, come on over here. Let's pray for our sister right here.

Father, just one touch Father, one touch from Christ. Father, you know exactly what she needs. One touch of the hem of his garment can change our life. Father, we pray as you would do what you will. Father, with the fire, the fire of God, in Jesus name. In Jesus name. Thank you God. Thank you God. Thank you God. Thank you God. Hallelujah! Thank you God. Yes Lord. Thank you God.

God is good. God is good. We don't know what people are going through. All we know is that God knows everything you're going through. The Spirit of God knows exactly what you're going through. He knows all the crisis and tribulations you are dealing with.

Lourdes, come. Come. Let me pray for you, Lourdes. Help her up. Help her. Help her up.

Father, we thank you so much. We pray that you release all things. Release it all. Fill her with the fire, the Spirit of God. The desire to bring those to salvation. Father, we thank you so much. We pray the fire of God, we pray the Spirit of God, work through my sister right here through head, the tip of her head to the soles of her feet. Father, in Jesus name. Father, we thank you. We thank you God. Thank you Father. Thank you Lord. Yes God. Thank you God. Thank you Father. Thank you Father. Yes Lord. Thank you Lord.

God operates on us in the way that He knows. We must get out of the way. We must let God work. We must let God work. These people are precious people. They go through many things just like you. They have many fits of trials and tribulation, pain and suffering, just like you, but also great breakthrough. Great breakthrough; but, many times we have to surrender ourselves before the Altar of God cause maybe we relied too much on our ability or too much on our strength. We may not know everything that is going on or in and about people's lives, but we have to believe that God has provided a way. We

have to believe for one another that God will bring us through. Thank you God. Thank you God. Yes God. Thank you Father.

If you never not given your life to Christ. Maybe you been here for your first time. Let me ask you a question. If today was the day that you would die, maybe you go home, you have a car accident or something terrible happens, and today's they day you die, do you know, do you know, do you have confidence that you are saved? If you breathe on your pillow your last breath tonight, where would you go? Would you be in eternal separation from God? Maybe you shunned him, ran away from him. Maybe you rejected Him in your heart, never given your heart over to Him, never surrendered to Him. Maybe, you've never done it in your life. Maybe, you weren't even given the opportunity, but today is your day. You know, the Bible says the Heaven to gain, the Hell to shun. There is a way out of that eternal separation. That is, giving your life to Christ. If you're in that category, then we want to pray for you today.

Also, if you come into this place and nobody knows your situation. Maybe you have inner turmoil, inner things inside. Maybe you were once hot for God, on fire, but your heart has gone cold. You're gone weary. You've become tired; but, the Bible says our covering, Christ said, my yoke is easy and my burden is light, and when we give ourselves over to Him that heavy burden will be lifted, and the yoke of lightness, but strength, will be put upon us (Matthew 11: 28-30) If that is you, we want to include you into this prayer.

Now, maybe you'll be somebody who has a traumatic event that has happened recently. Maybe a disaster. Maybe a car accident. Maybe a sudden disease. Maybe the Doctor said some bad news to you. That you'll never going to recover, that you're going to die, whatever. God is our Physician. God is the ultimate healer and He is the light, He has the last say. Maybe, it's a sudden breakup, a sudden situation of big change. Trauma, crisis almost. Maybe, it's a betrayal of a close friend. Maybe, you lost your job. Whatever it is, God knows what it is. We don't know. Man doesn't know, but God knows. If you're in that category, we want to pray for you as well.

The last thing. If the Devil has been haunting you and has been trying to claw at you, to make you doubt your salvation in Christ, to make you doubt your connection with Christ, then we want to pray for you. If you fit any one of these categories, keeping your eyes closed. Anyone of these categories, just raise your hand very high, raise your hand high, nice and high if you fit anyone of these categories. Don't let people see. No pressure. Put them down. Thank you God. Thank you God. We want to confess with you our dedication to Christ and want to give ourselves in you; then, with the true love for Christ and Jesus, we want to say this prayer with you.

Let's all rise. Let's all rise. Those who raised their hands, please come up to the front. We want to prayer for you, and together with you. Just stand together. Just stand together right here being mindful of other brothers and sisters on the ground working it out with God. Let's just let them work. Let God work on them. I want to pray for you. Come on up. You can come up right to the front.

Giving your life to Christ is a landmark event in your life. Rededicating yourself is landmark as well. Nobody knows but you what you're going through. Nobody knows. I don't know, they don't know, Pastors don't know, Priests don't know, Only God knows; so, we want to pray with you today. Let's raise your right hand up to Heaven. That's where your blessing and salvation comes, and we will confess, we will confess and surrender to God. Today is your day. Not tomorrow, not yesterday, today is your day of liberation. Today is your day of deliverance. Today is your deliverance. Today. Freedom from condemnation and of shame, and just say with me this prayer together:

Father, we come before you in the name of your precious son Jesus. Your word says that if I believe in my heart and accept Jesus Christ as my Lord and Savior and I believe he's been raised from the dead that I will be saved; so, today I confess and accept Christ as my Lord and Savior. I surrender to his will

and I believe he's been raised from the dead. Make me new. Fill me, use me, cleanse me, wash me, and never let me be the same again. Today is my day of deliverance. The Word of God says that we should also confess this next confession that we say today. Let's do it together:

I confess that Jesus has come in the flesh, that Christ came in the flesh to save sinners and I turn from the world, I turn my back on sin and I follow you Jesus. I follow you to the Kingdom. I give my life to you. You are my healer, you are my deliverer, you are the one that saves me from myself and the whiles of the Evil One. God, use me this day, fill me this day with your Word, baptise me with fire today, let me be on fire for you, let me shake nations, let me shake cities, let me shake the world, not with my glory, but with your Grace and for Your glory. We give you all the praise, glory and honor, in Jesus name we pray. Amen and Aju, means I own it.

Amen, everybody. Let's give it up for God. Thank God. Praise God. Let's help our brothers and sisters. If they feel they want to stand, if they want to lay down, let them lay. Thank you both. (Ted O'Grady) God Bless. Good man. Thank you. Let's just worship God. Let's just offer Him all his glory. Thank you God. Praise God. Amen-Aju!

**(unread Scripture to the end of I Thessalonians 2) 15 ... and have persecuted us; and they please not God, and are contrary to all men: 16 Forbidding us to speak to the Gentiles that they might be saved, to fill up their sins alway: for the wrath is come upon them to the uttermost. 17 But we, brethren, being taken from you for a short time in presence, not in heart, endeavoured the more abundantly to see your face with great desire. 18 Wherefore we would have come unto you, even I Paul, once and again; but Satan hindered us. 19 For what is our hope, or joy, or crown of rejoicing? Are not even ye in the presence of our Lord Jesus Christ at his coming? 20 For ye are our glory and joy.**

**Amen-Aju!**
