

2018.09.16 ~ Sunday Service ~ Rev. Hyung Jin Sean Moon ~ Newfoundland, PA 18445

Look at this cool Camo. Look at our Korea Ministers in their military outfits. They served of course in Korea. They had to serve three years in the military when they were young, when they were you guys age when they all served. It would be good if you all had to serve. It would be very good. That would be good for your people. That would be very good.

Of course anybody who votes, you know, we were talking about this during the week. Voting and military service, they actually have to be tied. So, many states in Cheon Il Guk if women are voting they have military mandatory service. Very important because if the women do not go to the military or do not have military training, then they don't have the fear of death if they choose bad politicians that start stupid wars. This is a problem with the vote today for the women. They are off the hook. They can vote for bad Communist politicians who send our kids into war and they don't get sent to war. All these young boys have to get sent, you see what I'm saying? These young boys have to die. The men have to burden the terrible decision making of the Leftist lunatics trying to suck in the women to get their vote; so, in Cheon Il Guk in the Kingdom of God, ooh, women are going to have mandatory service, too; so, because of that they will have to think double time or twice about voting for Left-wing lunatics.

Of course, in the Cheon Il Guk Constitution, of course, it doesn't allow the government to grow beyond ten percent even in America. If everybody had to vote had to do military service or at least is open to the draft, they immediately, women how they vote, especially single women would change overnight. Would change overnight. They would not be voting for lunatic Leftist wars and Neocon wars. They would be voting for candidates who were not into wars, otherwise their necks would be on the line; so, obviously there is a whole issue in the debate whether women should go to the front line and all that kind of stuff, but having the power to vote, and of course control over resources and being able to take resources; and, then the men having to pay for it in society is a horrific horrifying terrible, terrible, terrible system. It's a very irresponsible system; and, of course the politicians get to woo the women to buy their vote and to promise them free resources and to start these crazy wars and to make them billions of dollars. So, we don't want that, right?

We don't want these crazy wars for our kids to die for no stupid reason for other than bankers get billions of dollars. Is that true, boys? Do you want to die in these stupid wars for bankers to get more billions? How do you feel about that boys? But, guess what? If there's a war and there's a draft all you guys are eligible for the draft. You don't have a choice. If you don't go, they're going to put you in prison. They'll probably kill you. You see how ridiculous that is? And you got these crazy, especially young women, young unmarried women ... Not our sisters obviously. What I'm saying normal brainwashed girls two times more, especially young women, they're voting Leftist, they're voting for the Democrat Party, which is the Communist Party in America, right?

We know Communism very well cause, you know, True Father's whole family. We have a lot of people here who been from Communist dictatorships. At least our family know very well how dangerous and genocidal Communism is. So, it's amazing how they deceive, but it is the reality of our land today with the Kingdom of God.

It's amazing in Pennsylvania the Catholic Church begins the crumbling and the explosions that's now happening in the Catholic Church. That Church is dying. It fractured. All the sexual immorality. Raping children, raping Nuns and doing Luciferian rituals and killing children. It's inside out. It's exploding and destroying itself.

By the way, we have a new shipment of the Cheon Seong Gyeong from 2006 available. It's so amazing. When you see the Cheon Seong Gyeong in context of the Bible, then everything makes sense. When you do it context of new age age and the environmentalism and all this fake carbon tax and all this bull crap, you don't understand what's going on. It's like making Jesus into a feminist or something, or making Jesus into some kind of, you know, gender studies, transgender professor. It's ridiculous. You have to have the context of the Bible, okay. Can you say Amen? Then you can understand what that's about.

By the way, let's give it up for all our pot luck dishes from our folks who donate. See, that's what it means, and offering, right? We talked about that. God commands us to do tithes and offerings. Tithes are train us to be generous. Offerings are what talents we have. What gifts we have. Some people have financial gifts they're going to do above the tithing. Some people have different types of gifts like food cooking which also money, right? That's also treasure, okay? Some people have art. That's also treasure, right? Skills that they have.

Don't confuse that with our tithe. Our tithe is separate from offering, okay. Our tithe is to understand God is the owner and giver of all things and just like He commands, and let's us keep ninety percent and ten percent goes to the ministry of harvesting souls and saving souls, okay. That's a very important ministry and a very important practice we have. When God trains us to do this at a young age, you should be doing it from a young age. I know a lot of our young have not been. It's not your fault. You've just not been taught about it; but, from a young age, young people in Christ should be learning about it. You get a dollar, they know that ten percent goes to the ministry cause that whole dollar came from God.

God gave you hands. God gave you a mouth. God gave you the brains. God gave you the body to make that money. Mowing the lawn or whatever it is, and you put that back into God's ministry, and you be faithful like that. When you're faithful with resources, then God can bless you with more resources. Can you say Amen? Do you see what I'm saying? I want all of you to become billionaires and millionaires, but not evil billionaires and millionaires, cause they're plenty of those. We want you to become Holy Ghost anointed billionaires and millionaires. Then you know God will trust you with those resources. He knows your going to do and support His work on this Earth and saving souls and saving the lost. Can you say Amen?

Of all things, on top of that you have skills. You got dance skills, art skills, you got whatever skill, you know what I mean? These skills become offerings, so don't confuse them, okay? And of course, if you're good in making money, then you can make offerings, financial offerings. That's fine. Whatever you skills are, then add offerings. That's when your offering those things, those gifts onto God for the benefit and the strengthening and encouraging of the body to Christ, okay?

So, you have to learn how to be generous. Very important; and, I trained my kids from a young age to tithe when they were small. It's very, very important that all ministers are tithing. All people on staff are tithing. Of course, they are; but, this is very, very important. We have, we sent the example. The first thing I do when I go to Korea, all the ministers say they are tithing. That's bullcrap. They weren't tithing. They were putting it into health insurance and calling that tithing. That's not tithing. That's lying; so, we called them all out on it. Then whole national ministry, they were all lying, lying to their congregation. Do you understand what I've been saying? So, I made the policy. All of them had to tithe. Every single one. They had to tithe. They had to talk to the members about tithe and offerings, you better be giving tithes and offerings. Can you say Amen? You have to show the example. You have to show the supernatural faith, even though don't have a lot. It doesn't have anything to do with the size

of your salary. It could be five million dollars, it could be five dollars, it could be one cent. It doesn't matter. It's the heart for which we give. God loves, what does it say? a cheerful giver. (2 Corinthians 9:7) a cheerful giver. It's the heart by which we give, okay?

So, when you're young it's important because you're not tithing a lot, you're not offering a lot when you young; but, as you grow God blesses if you've been faithful with His tithes and offerings. You've been faithful being generous; then, of course, your talents become a huge backbone to the saving of souls and the saving of peoples, okay; so, this is a very, very important thing in the body of Christ, and that's why young people, you know, it's good that you're starting to step up and understand that it's because you should be taught about this from a young age. It's very, very important to be taught about these things from a young age, okay?

Now, we go back to that pot luck lunch. Let's thank our food ministry team. So, we have to have a discussion about this, okay. First of all, you know, God put it really heavy upon my heart, you know, to freshen up this Sanctuary a little bit, you know. You look at the Sanctuary, you know, we've gotten used to it. You know, we're used to sleeping ground or leaves. We could sleep in dirt. I mean, I trained our kids to sleep in Mylar blankets and garbage bags, you know what I'm saying? So, they know about Winter shelters with a garbage bag, okay; so, we can sleep on the ground or we can sleep on the dirt. We have no problem that; so, when we come in here, it's pretty luxurious, okay? But, at the same time, we get used to it, we get used to it, and we kinda of forget. We lose objectivity. We forget that like with normal folks, it's like walking back into the 1950s when they come in here, okay; so, we're going to be doing some revamping in this place in an affordable way, and I'm going to have to rely, I'm going to have to ask these young people. All you Ninjas, you gonna have to help, you got to help me revamp this place, okay? We're going to do some crazy stuff. I mean, there's going to be people opposed to it, alright? People are going to say, "Why are they doing that?" Okay?

But, I need the young people's help. How many of you got skills in the art realm? How many of you got skills in obviously the good energy? You got good energy so you can lean some skills like welding. We got to spruce this place up just a little bit. The Queen is working on a co-project. I could be telling this behind the office to Gregg or something and get in consultants and stuff like that. I could be do that; but, they're going to charge us \$40,000, \$50,000. Do you see what I'm saying? Why not put our own sweat into it and then the young people can help me do that. I trained them. I'm generous with them; then, they can give back not only to me, but all the people that are coming in to the Church, to the Sanctuary. Make it feel like a wonderful place to be. Do you know what I mean?

So, we kind of get, we lose objectivity when we're here for a long time. When you walk in the front doors, I got to be brutally honest with you all. You walk in the front doors and we see tables, boom, Boom, boom, lined up like that. It looks like a refugee house. It looks like a food kitchen. That's what it looks like. It looks like a food kitchen, okay. Objectively speaking, that's what it looks like. It looks like a food kitchen.

And, we love Father picture, but we have a humongous picture of Father as soon as you come in. alright? Then they get, "What is this, a funeral going on here? What's going on? " People don't know what's going on; so, you got to be objective with these things, okay?

So, we have those precious pictures, but we have to be aware of the folks that are coming in. This is not... the saving of souls, the work of the saving of souls is not just for the saved, it's for the lost. Can you say Amen? Okay?

So, we have to be clear with these things. You know, we have to make an environment. Unfortunately, the normal person is very spoiled. They see very high level things. They have a very high level market standards. They have high level with cell phones, technology, computers. They have high level with hotels and country clubs and golf resorts. They have high level standards. People. It's the normal people have very high standards now cause you go to the Motel 6 and they revamped their whole place. You have a Motel 6 and they got remodeled Motel 6. Did you see this? Who's been in a Motel 6 recently? I've been in one recently. They are revamped. They look actually 21st Century. Can you say Amen? Do you understand what I mean? I mean some of them are a little backwards, but some of the new ones, they're revamping them; and, this all across the country. When we went across the country, we were staying in Motel 6s. A lot of it is revamped. They look like they're in this century.

When you walk in this building, I'll be honest with you, I know the building's the most important thing. Don't get me wrong. The Holy Ghost is pouring out. The Fire of God is coming out. The anointing is coming strong on people. These are all great things; but, God is preparing us for a harvest, a revival, and souls being saved. He's preparing us for a new dimension. We're going to be moving in a supernatural realm, especially with the new book coming out working with some of the top publishers and distributors in the country. In the country. Presbyterian elders who are not only on board with us, but they're saying you have to reclaim Christianity. That's what they're saying to me. Presbyterian elders, who the top of that organization, they're telling me, "Rev. Moon, you have to reclaim Christianity." That's what he's saying. That's what these people are saying. It's incredible.

It's unbelievable. So, that's coming down the pipeline with the Rod of Iron Festival in 2019, do you know what I'm saying? And that pipeline, I'm literally going to be on the roll for probably three, four months. One month before the launch date of that new book. It's going to be in all the Barnes and Nobles, all the BAM bookstores you go into, okay; and, maybe will do a little prize before it goes in the Barnes and Nobles and BAM bookstores. Everybody takes a picture with the new book and stuff like that. We'll give yo a new prize. The first 21 or whatever, alright? And then I'm going to have to be on these show circuits, so they're gonna having me on different TV news, Fox news, whatever they'll put me on. CNN, wherever I'm at; and, I going to have to be debating these gun control freaks. You know what I'm saying?

I'm probably going to have to debate Leftist ministers, too, because they're going to want to bring the Leftist minister saying, "Oh, pacifism is Christianity." This kind of thing; and, that's why the next book is really historical. We're going to go in the different history from the early Church all the way up. You know, we just had the interview with this production company. What's that production company down from Canada? They sell to Netflix. It will probably be on Netflix very soon; but, it may be out in a couple of months. VICE media's coming out this September on this month. Real soon. In a couple of weeks. In a couple of days, in a couple of weeks.

But, this Canadian company that came down, they do Netflix. They do very large. They did one documentary with Ben Stein and stuff like that; but nice folks. They came down and interviewed me. They basically interviewed some other Christian pastors, "Christian pastors that were saying, you know, the right to bear arms is not a Christian tradition and pacifism is very important in the early Church. They didn't even allow people to even go into the military; and, so they saying, 'How do you feel about that?'" I said one word. This is how I answered them. I said, "idolatry." and not in the way that you think about it. Then I explained:

Would a Christian go in and join the Army of ISIS? Of course not. Of course he wouldn't join the Army of ISIS. Do you see what I'm saying? The reason why the early Church in the Roman period did not

join the Roman Army because it was ISIS, I was basically ISIS. It was a pagan Roman military that was a hegemony, and it was a monstrous conquest based empire that was killing everybody trying to take over the world; and, so Christians in their own mind...

First of all they're not supposed to bow to this Zeus, this Aphrodite, and all these demons. They're not supposed to bow to them. They forced you, as you were conscripted in the military. You were forced to become a pagan idol worshiper. Many times you were given statues of Mars, which was Aries, the god of war and you would have alters to him. You were forced to pay and pay obeisance to them; so, of course the Christians are not going into the military, and they are telling the congregation don't join the military. Why? Because it's like joining ISIS, do you understand? Can you understand what I'm saying? Then they were, "Oh, I see what you mean."

So, the Leftist fake banker bought out Christian pastors. That's the argument in the early Church; whereas, the reality of the early Church was that they didn't want to join the military because it was joining Paganism. Then, you were actually becoming part of the physical violent Army of Paganism to go conquer other lands to rape, pillage and plunder. Of course, it was not for the people, not for you know, the soldiers, but of course for the super elites, do you see what I'm saying?

So, this is going to be, all this kind of stuff is going to be in the book; and, from the early Church all the way to the Medieval period. The lies of the Crusades, which was a self-defense war. It was not the offensive war. The Jihadists and the Islamists were coming up through Europe. Already they conquered Sicily all the way to the gates of Berlin. They already have conquered Byzantine Empire in Turkey. They already have taken over North Africa. The Middle East was all taken and they take everything, and they're coming in selling the young blond-haired, blue-eyed girls. They had the highest money on the slave trade, the Islamic slave trade going into Sicily and Italy and France. They already have conquered Spain. Going in and taking these girls and selling them on the slave blocs, so of course the Christians better fight. Can you say Amen?

All these truths will be elucidated in this book; so, it's probably going to be a massive book, and I'll probably be on a three month circuit. We'll have to be traveling. We will be going to these stupid shows, blah, blah, blah, and arguing with these Leftists. Anyway, things are coming down the pipeline like ridiculous, okay?

This Professor Elder, who is the CEO of this company. One of the major distributors. Has created hundreds of Barnes and Noble best sellers. *New York Times* best sellers, I'm sorry; and, of course with Dr. Williams has created eight. Just him. One author alone. 8 *New York Times* best sellers; so, he said, I'm not going to be working on this book. I'm not interested in the book. The only reason why I'm here, cause I believe this will be a *New York Times* best seller. That's what he said. Okay?

So, God is, how can you explain that. That's a supernatural door that's opening up. Supernatural. How can you plan that? How can you explained that happened? How did we manifest that? We didn't. It was the hand of God. Can you say Amen? So, it is not by my doing. The Spirit of God is pouring out on all flesh. People are starting to wake up, and made the Publisher of this book.

He said, I produced many books. He said, he even produced books for himself that he wrote, but he's saying there's nothing like this on the market. Nothing. Nothing. No historical, spiritual, comprehensive, you know, argumentation and historical proof, evidence based proof setting for the Second Amendment in Christian history. Not one. Not one book like this. It's so unique, and he was saying, you know, this book, we got to bring it to the national stage, which of course will propel it to

the international stage; and it will allow, well we're talking about every Sunday to become the voice of the Abel-type Christianity, the Rod of Iron Kingdom Christianity that will rise, not only from America, but also Europe, spread to Africa. The fires of the Holy Ghost will spread to Asia, China, North Korea, South Korea. Who knows. Kim Jong Un may decide that he's gonna, you know, join the Rod of Iron Kingdom. Who knows? You never know. You got to pray big and bold, folks. You got to pray big and bold; so, things are coming down the pipeline. Things are crazy, moving so fast; so, I want to be ready for that. Can you say Amen?

You want to be ready for that? I want to be ready for that. I don't want to sit back and say, "Okay God, you have a huge harvest coming; so, I'm going just going to chill and relax." I won't do that. I'm gonna start cutting the grass right now, start cutting the grass right now. You know what I'm saying? I got to prepare for that harvest. That harvest is coming. It's coming.

So, that's why God put it heavy on my heart, you know, to start revamping this place just a little bit. We're going to do it in creative ways, where we can save a lot of money, and also incorporate it with the young talent here. Get these young kids here, get them to put some sweat into it. They train hard, so they know how to sweat, they know how to work, but get them to be owners here in that way, you know. Create some of that ownership.

So, this is the generous thing that we're talking about here; so, I'm asking the Queen to be in charge of this stage; so, she's going to be working with her team. She's going to select her own team of a couple of artists, young people, etc, that can cut wood. We're going to be moving. This is a very wilderness Church; so, I want to keep the wilderness flavor, but I want to keep, I want it to be chic, too. I want it to be wilderness, but I want it to be chic. I want to look kool, and I it to look hot, okay. Can you say Amen?

So, I don't have any fancy designs made up by, you know, ten thousand dollar companies. We just have the general theme, and we're going to work with some our teams that are talented here. We have some project for the girls from art teams, and we have some projects for the boys. We'll be bending some metal and doing some grunt work, and you know, gettin' some flame torches out and doing some fun stuff like that with the boys. Okay, so we need everybody's help, especially the young people. I'm relying on you guys to help me revamp this place and make it very welcoming for people that come in.

Look, you can still preach very hard and strong. Real truth. Biblical truth. But also, at the same time, people have to come in here. They have to realize that and know that we care for them. We care for this place. It's not just some 1950s old auditorium with grandma seats in it, or something like that. You know what I mean? This is a place that's care for, it's a place that is loved, it's a place that's like a home, but it's a place that is filled with Holy Ghost fire filled, fire filled, you know. Word. Holy Ghost Word. preaching, you know. People on fire, and people have to feel that. Can you feel what I'm saying? Can you feel what I'm saying? Okay! Alright!

Well, we're going to try to keep it down, cause we could hire some fancy schmancy people, and we could do it like this, but I thinking no. Why don't we do it as a project where we put our blood, sweat and tear in it. Put a little artsiness into it, put a little bending iron into it, you know what I mean? You know what I mean?

Some of the stuff we can't do. For example: I'm thinking, maybe, remove the whole ceiling. This whole ceiling, all this white stuff. Get rid of it; and, I know they're going to say, "Oh, the insulation and all this stuff." We'll find a way. Remove this thing, and you know how you go into some nice trendy

places. You go into a little cafe place and you have all this industrial stuff? You see the vent. You see everything. Paint them some nice, dark charcoal, okay? You paint them some nice, dark charcoal. It's like walking through a cafe or something; but, you see all that stuff up there, and that's much easier for our stage light. It's much easier to hang some different stage lights, different stuff like that; but, it's blending some sort of industrial look with the wilderness look, which we're gonna be touching on here.

Now, I'm just thinking about this. I'm not, you know, we're still in the mode stage. I'm just sharing this with you because this is like a family, okay? This is like literally a family meeting we have every Sunday, alright; but, let me show you some of this. God put this in, these kind of designs. God inspired me with some of this kind of pattern, okay? This is called, "Geometric Wood Art." Geometric Wood Art. There's many different things you could do with Geometric Wood Art. It's also reminiscent of like Native American style chic. You know what I'm saying?

Like, many times these kinds of Geometric Arts, they'll draw cute little, cool little white arrows, you know, or a little bow or a little gun or something, you know. It almost sounds like the Southwest. You know, Father loved the Native American peoples. He said that they were descendants of the Mongol people, because they also have the blue butt, too, that we have. You know, Koreans, they have the blue butts, you know what I'm saying? Right? We got what's called the Mongolian Blue Butt.

When I was young, I had on my right booty, I had a, I had lips, a kiss. Literally, a kiss. They looked like lips, and that's my Mongolian Blue Butt. It was in the shape of lips, and it wasn't my Mommy kissing me every day that did that. Do you understand what I'm saying? I mean, that was like... I'm serious. I had that, it's called a Mongol Pungam. That's a Mongolian Blue Butt. Any Asian kids. When you're born, you know. You're children have the blue butt, right? I had lips on my hip. Can you believe that? That's the weirdest thing. I had that until I was, let's see. I was into my early teens, I think. Early teens. Can you believe that? Oh my gosh! That's incredible!

Anyways, Father actually loved the Native American people. Of course, Chief... Chief, we're you at man? Hey, brother Chief over there. Hallelujah! There's the Chief over there. Oh, hallelujah. He's wearing his eagle's feather today. Praise God. Hallelujah! He felt it, he felt the Spirit today. Look at that? You know, God healed him of his of the cancers in his neck. God healed him. The young people at that point didn't believe him, so he brought in his papers before and after, the Doctor's written papers and he gave a testimony. Remember that? Chief is an amazing man of God. He's an incredible hero in the Vietnam War, a Green Beret and all that, but Father actually loved the Native American peoples because he actually saw them as the original, you know, Mongolian sort of Asian folks that were living here as well, so that's interesting.

But, these are called Geometric Wood Art, okay, and as you can see, we can make this with wood pallets or if you got wood laying around give it to us. If you got wood laying around or something like that donate it to the Church at this point cause we're working on a lot of wood art. We're making these cool wood art designs. I'm not gonna design them all. I'm going to get some of the artsy kids here give me some designs, okay.

And, they're going to build their teams. I want them to have ownership. So, they're going to build their teams to build some really cool artistic pieces that we can hang up and present to everybody; and, of course, they will have meaning. They will have Scripture attached to them. For example... Put those mountains up again. This kind of Geometric Wood Art we can do very cheap, but look how dope that looks? Look how sweet that looks, you see what I mean? It looks so wilderness, you see what I mean? But, it also looks so chic. Can you say Amen, young people?

Now boys, you got to be interested in this stuff, too, because your wife's going to be interested in this thing, you know what I'm saying? You can't be like, "Oh, okay. I don't want to bend iron with a flame torch." You guys got to be interested in this cause your home, too, you have to be excited when your Queen, you know, is designing it out, and you say, Hey, that is beautiful." You know what I mean. You got to be encouraging as well. You know the King has some design in him. I'm very stylish, you know, in my own way; so, I like to bring this, this kind of flavor into the Sanctuary here, in this main area here.

And, this is not the exact design, but this is cool. We're probably gonna have these mountains here that symbolize Christ the Rock of our foundation. Unmovable. And of course, we'll tie them to Scripture. Faith as small as a mustard seed will move mountains. (Matthew 17:30) Can you say Amen? It's amazing, you know things like that. And will tie Scripture, but also will have rivers of flowing water coming down from these mountains and these beautiful turquoise patterns, geometric patterns, coming down to these beautiful lakes. Nice cut angular geometric beauty. Ooh! It's going to be hot, okay.

This kind of coolness, alright? Bring it a little more trendy chic, a little more trendy chic. And maybe will give it a little more log cabin flavor. If you guys have mason jars lying around, bring your mason jars. We can put light bulbs in them and hang those mason jars right next to these paintings, so we have that nice cool ambient glow with a little lighting. Can you understand what I'm saying? And we have a kind of log cabin feeling, where you're canning goods and doing that kind of stuff in the wilderness. You know, with mason jars where you are canning goods and this kind of prepping and survival stuff; but, we could revamp that into a cool style here, you know, and have some kind of different panel here.

I talked to Pastor Browne, I just emailed him, cause he almost messages me everyday. He's amazing. The just upgraded their stage. You know, they got a beautiful stage. Pull up their stage, boys. River Church, Tampa Bay. Who's going to Tampa and hang out with the Holy Ghost folks down there? Alright, good, good, good. Alright, we got all the young people going down there.

So, bring up his stage. He has a beautiful stage. LED. LED stage. His Church is called the River Church, so it's blue symbolizing the river and the way to salvation, okay; and, it's LED, so it looks really cool. Really cool and trendy. The problem, I have this feeling its probably going to cost us \$40,000. \$20 to \$40K probably. Probably. You know, probably something into that range. He's going to connect us with that design company who made his stage. Look at his stage. Get his stage up there.

No, no. See, that's the old stage. The old stage was like the Asian walls. The Asian walls, the called it the folding walls. They just put a whole bunch of those and put a light in them. So, that was like their regular stage. They upgraded their stage. Look at this? No, no. Go down. That picture down there and to the right. There you go. See that cool LED panel they had behind them now? They had two of those behind the alter, okay? So, it looks pretty good, but it's probably going to cost us \$40,000, alright?

So, I like to do it. We'll call the experts to come in and overcharge us for all this stuff, or we can make it into a trendy chic cool design which is a little more rustic, cause everybody knows we're the wilderness church, everybody knows we're the gun church, everybody knows we're AR-15 church, everybody knows we love nature, everybody knows we love God and Creation and all that kind of stuff, you know. If you look at the Rod of Iron ministry you know when you see the Camo Jeep and all this stuff, you know we love the natural world.

So, for Pastor Browne's Church in the city, that blue and LED lighting, okay, that may match, that may be good; but, for us, this kind of cool factor, when we bring in some of the art talents of some of our young people and we make some of these cool things, I think this will bring a kind of a nice upgrade and a nice presentation.

So everybody, let's encourage the Queen because she's going to be in charge of the stage here, okay? So, pray for her. Pray for her. Pray for her. We'll probably have to ask some of you trendy, you know, Maryann and Mesha, you can lead some teams and some people who do good art. I think, Shrimom is really good in art, too. Is Shrimom good? Anyways, we'll see who wants to do some of those projects and then offer those talents, make some cool trendy things.

I'm even thinking about, okay, step by step I thinking about even in the front in the lobby, okay, in the lobby, this is where the boys come in so this is very important, now we got to do bending some metal, alright? You walk in the lobby and you see the refugee tables. Those will probably have to go. We didn't buy them in the first place. Those are holdovers from the Catholic Church, okay.

So, we got a whole bunch of tables, stuff like that from the Catholic Church, we don't know what they were doing on those tables, giving the statues of the Catholic Church, okay. So, I want to go with an X-ray light and see if there are nasty stuff on them or something, I don't know. So, we got it from the Catholic Church. You know, God is bringing a whole new harvest and of course we're preparing the Catholic Church and those who are trapped in the Roman Church to be freed and liberated and delivered from the Roman Church to come into the Kingdom of God. Can you say Amen? It's the right time to get rid of those tables. Get rid of the all the vestiges of Rome cause this was connected to Rome, can you believe it. That's ridiculous, that's insane, totally insane, okay.

So, I think it's a good time to get rid of those tables; and, what we can do, and this is a very simple project for the boys, very simple designs, very cool, very chic. Wood and iron. Wood and iron. So, we got some cool black iron, alright? Maybe, we got some, I don't how you call it, maybe some metal pieces, we make a square on the ground. Very simple. We weld this square on the ground. All the boys can do that. Make a square on the ground of metal that's tied together. Maybe, in each one of the corners legs come up, and then on the top there's another square. Can you see it? Can you envision it in your mind, boys? Can you see this?

So, a square on the bottom, a metal square, and then there's legs that come up from the corner and another square on top which makes one piece. Can you see that? You see? And then on then on top of that you put a nice wooden table. We'll just cut some wood up, paint it nice, maybe this same pattern as rustic as that, and just have some nice tables. Now you have a table with that metal and industrial iron that blends. We don't shun technology in Cheon Il Guk. We're not like the Amish or something. The Kingdom of God's going to have tremendous technology.

But, we can make this, Bill. Can we make these things easy? That's pretty easy, right? He's a Master builder, so maybe he can Apprentice some of these kids, the young boys to get these stands. So, we make some of these cool tables. Maybe, I'm kind of seeing maybe four people sitting at those tables of appropriate size; so, when you come in here, it's not these huge refugee tables. They're smaller group tables, where you see the people they're talking to, and you can have these smaller discussions; or, you can move the tables cause I'm thinking about getting rid of all the dang carpet. This carpet, I don't know what's in this carpet, but there's all sorts of stuff in this carpet and people spilling, all this kind of stuff.

What they do in modern places they have just the cement floor and they just coat with a nice charcoal grey that matches the charcoal grey ceiling with an industrial look; and, then you got the wood on top of that. It looks sweet. It looks so nice. Incredible.

So, I don't know how we're going to do the ceiling. Gregg, I know he's pulling out his hair right now, you know; so, we may have to get professionals to do this, but the other stuff I think our young people with me and the Queen, we can I think can do this with the young people and some training with the Masters like the welders. Get some training. These boys can bang out some nice tables and we can bang out some nice seating, too, out of that rod of iron. How does that sound? Wouldn't that be great? That would be a great project, and they would be putting in their blood, sweat and tears to invest back into the Sanctuary which has given them so many blessings. Can you say Amen?

Come on, let's encourage these young people. They are blessed. You guys are blessed being here, Amen? You're blessed man, and you'll be blessed when we can beautify this place. Make it look very amazing, because we have the spirit, we have the truth, and it's time, it's time to upgrade it. I just thinking here. I'm just thinking out loud.

I may even get rid of these partitions. Get rid of this whole thing. Getting rid rid of this 1960s grandma padding. Get rid of it all. Get rid of this old sofa cushion. Get rid of it all. Maybe just keep the bases, paint it black. Paint it black so it's just some nice charcoal grey, and then on top of that will just make some nice wooden, some nice wood, and on the top and in the back, or Lowell may have some better idea, or something that kind of unites all these chairs together. You know what I mean? And, then not have all these partitions. That's not necessary.

And get rid of this old sofa look. It drives me nuts. Everytime I come in here, its like people come in here and say, "What color is that?" It's like puke brown. That's what they said; so, maybe in the 1950s or 60s, whatever it was built, that was trendy and cool; but, this is not wilderness chic, okay? I tell you that one. Th is is not wilderness chic in my standard.

No, this is not gold. This is not gold. This is a dehydrated person, a dehydrated person in the morning, okay. So, this is not gold.

So, even doing that, that would change the environment of the Sanctuary. It would be so amazing. It would transform how we are greeting everybody; and, look, the Church is not only for the saved, it's not only for the save, but look, it's not for us. We have to be thinking about saving souls, saving people. It's not about filling these churches. We're not just thinking about filling churches and preaching a watered-down diet cola Christianity. We hate that. We rail against it, we rebuke that. We're going to do some hard preaching, like everybody here. We do some hard slamming of the Left because they're Commies, and they're very dangerous genocidal maniacs; but, at the same time, it doesn't mean you have to be on your grandma's sofa, okay?

You can still be in a beautiful place hearing hard preaching that is challenging you and is, you know, putting the Spirit of God in you, and the Word of God is turning your stony heart to flesh and people getting saved, and people are giving their life to Christ and surrendering their life to Christ. I mean, you know, the Spirit of God is moving; so, I think right now God is preparing a massive big harvest; and, I'm not talking about just filling seats. I'm not interested in that. I'm interested in saving souls. How's that for a change, huh? We're not interested in filling seats. We want to save souls.

We want to save souls. We want to have victories and decisions for Christ. This is what we want to have. We want to see people's lives changed and reformed and sanctified by the Holy Spirit, and the move of the Holy Ghost being poured into them. That's what we want to see. That's what gives us life and energy, okay.

So, there's a couple of things we have to address, okay, because we're in of course, Mark 16. This is a very important chapter. Everybody should know it, alright. This is our Rhema for today. It starts on the Sabbath and everything, but look at this.

Mark 16:1 And when the sabbath was past, Mary Magdalene, and Mary the mother of James, and Salome, had bought sweet spices, that they might come and anoint him. 2 And very early in the morning the first day of the week, they came unto the sepulchre at the rising of the sun. 3 And they said among themselves, Who shall roll us away the stone from the door of the sepulchre? 4 And when they looked, they saw that the stone was rolled away: for it was very great. 5 And entering into the sepulchre, they saw a young man sitting on the right side, clothed in a long white garment; and they were affrighted. 6 And he saith unto them, Be not affrighted: Ye seek Jesus of Nazareth, which was crucified: he is risen; he is not here: behold the place where they laid him. 7 But go your way, tell his disciples and Peter that he goeth before you into Galilee: there shall ye see him, as he said unto you. 8 And they went out quickly, and fled from the sepulchre; for they trembled and were amazed: neither said they any thing to any man; for they were afraid. 9 Now when Jesus was risen early the first day of the week, he appeared first to Mary Magdalene, out of whom he had cast seven devils. 10 And she went and told them that had been with him, as they mourned and wept. 11 And they, when they had heard that he was alive, and had been seen of her, believed not. 12 After that he appeared in another form unto two of them, as they walked, and went into the country. 13 And they went and told it unto the residue: neither believed they them.

I'm just gonna jump to it. I'm just gonna jump to it right there. This is just roll away the stone and Christ has risen right there. Let's go down to Verse 14. We'll start at Verse 14. Mark 16:14. Wow! Wow, wow, wow, wow, wow, wow wow! Wow! Good, boys. Let's give these boys a hand. Hey, they ain't no dumb Bozos. Good, boys. Nice job.

Alright, now let's go to Mark 16. Matthew, Mark, Luke, John. That's the order. Matthew, Mark, Luke, John. So, go to the second Gospel. Matthew, Mark, Luke, John. That's in the New Testament after the Old Testament. You guys got it? For these young people here, how many? This is the first time navigating the Bible? How many people, not today, but this was the first time navigating the Bible? Okay, that's good. That's great. That's wonderful. That's really wonderful, okay. That's a great blessing. That's a great day. Alright, we're in Mark 16:14

Mark 16:14 Afterward he appeared unto the eleven as they sat at meat, (that means eating) and upbraided them with their unbelief and hardness of heart, (So, he rebuked them. He chastised them because their hearts have been hardened.) because they believed not them which had seen him after he was risen. (Now, look what he said) 15 And he said unto them, Go ye into all the world, and preach the gospel to every creature. 16 He that believeth and is baptized shall be saved; but he that believeth not shall be damned. 17 And these signs shall follow them that believe; In my name

shall they cast out devils; they shall speak with new tongues; 18 They shall take up serpents; and if they drink any deadly thing, it shall not hurt them; (which means they shall have the protection of God on us.) **they shall lay hands on the sick, and they shall recover.** (Can you see? Can you see?)**19 So then after the Lord had spoken unto them, he was received up into heaven, and sat on the right hand of God.**

Amazing! You see, folks, this is the power of someone who's saved, that someone who has given their life to Christ has. We have that power. Did you know, you can heal somebody, if you pray for them. It's not you obviously, right. We just become an instrument, and God can use you to touch that person, to heal that person. Maybe, it's a fleshly sickness. Maybe, it's a mental sickness. Maybe, it's a sickness of the heart, you see what I'm saying? But, God can use you to transform somebody's life. Maybe that person, the next time they have a car accident, they go to the Spirit World. They die. You don't know. Maybe that's the last time they have an encounter with God, or the last opportunity where they have an encounter with God; so, we have to be excited about bringing people to Christ and having them confess with their mouth, you know, and give their life to Jesus. We have to be excited about that.

You know that's the whole purpose of the Alter Call, too. To equip and arm us all. So, we go out, we're meeting people, we're not only seeing them in the flesh – Oh, that's a nice guy. That's a this or that person, no. We're seeing them in the spirit, in the spirit.

Now, there's a problem with Second Generation kids, okay. You guys are much less than obviously Family Frauders because they're totally fallen, unfortunately; but, the problem with the Second Gen folks, the young people, is that you think you're too special. Okay, You guys are obviously not as other kids, okay; but, I'm saying, this is kind of a general problem. So, when you see another person, let's say you see another young person coming in or a family with young people your age. They come in this place and you see them, oh that person this or that, and you may be nice to them. You say, "Hi, how you doing?" You may be nice, but in your heart, in your heart, you see what I'm saying? But in your heart you still feel your higher than them. That's bad. That's a sin. That's bad, because before your saved, your a sinner. You're no better than them. You may have the lineage, the physical lineage. Look at the Family Frauders. They have the lineage. They fell. God is not only interested in the physical lineage. Yes, he wants the physical lineage, but he wants physical lineage who are His children, but He also wants their hearts. Do you understand?

Look at the other kids in Father's family? They betrayed him. They sold him out for money. You think that brings joy to Father in Heaven? No, of course not. Why does he rejoice in Kook Jin Nim and myself as his Heir and Successor? Cause we're his physical blood, but also has our hearts. Our hearts are his, they're not only ours in a sense.

So, we have this in the Second Generation atmosphere. This is worldwide. This is a problem. It's like a little bit an entitlement, and I don't think its their fault. The First Generation are so excited to see the Second Generation of young people, and so they just praise them too much, and when you get praised too much and you don't work hard ,and you don't have to do like crappy things like cleaning trash and cleaning crap and cleaning urine and mowing the lawn, you don't have to do that kind of stuff, you get entitled. You think you're too special; so, everybody you meet in the world, "Oh, but you don't know

how amazing I am,” but nobody else in the world treats you that way, well, you say, “Everybody’s against me. You just don’t know how great I am.” You see what I’m saying? And you become like this, basically somebody very similar to someone who is addicted to anime, right?

And many times, these secular people, they actually get addicted to anime, because anime basically teaches you the same thing. It teaches, “Oh, you’re a superpower. You have this superpower nobody can see, nobody recognizes. “Oh, you have this power of...” whatever the hell this thing. It’s ridiculous. You’re playing these video games and you have some superpower and everybody’s really going to worship you. If they only knew about this superpower. That’s ridiculous. It’s totally absurd. You know, you see these kids who get into anime and they get wacky. They’re hunched over, they’re skinny, they’re emaciated. They’re like, “How come all the girls don’t like me, huh?” You see what I’m saying? It’s like ridiculous. These people, they’re living in Fantasyland, total Fantasyland thinking they have some superpower cause they watched Ninja Turtle, whatever. Maruta. It’s ridiculous. It’s totally ridiculous, okay.

And don’t forget, all that anime, mostly, 99.9% of anime and cartoons, stuff like that, pagan, is pagan based, especially the Japanese stuff, totally Shinto, totally Buddhist-Shinto based, pagan based. All their gods, they have all their gods. Fox gods with all these tails. That got this little different gods in the forest, blah, blah, blah. You know, it’s tied in with the stories and Mythology of Paganism; but, they’re feeding that to young people at a young age. It attracts them, I have to admit, through this incredible animation. They’re highly skilled artists. Highly skilled. But, they’re drawing them into Paganism. They’re drawing them into self-worship. They’re drawing them to spiritual entitlement and feel they’re solely incredible. I mean, if the world just knew how amazing I was, well, they would, they would just recognize my glory. I mean, come on, get your ashtray in the dang toilet room and clean the dang toilet with a good attitude. Get your ashtray in a mowing machine and cut the dang weeds with a good attitude. I mean, can you say Amen? You know what I’m talking about, parents?

This is very important. The delusion versus reality. That’s why the combat martial arts is good for young people. It breaks them out of that delusion. It really forces them to see they’re not special. They’re not incredible. They’re not superpowered. They have no superpowers. And many people in the combat world, many of you guys know, will kill them very easily, okay.

So, it helps them, it helps them break through that reality, it helps them break through that fantasy that they want these kids to get addicted to at a young age. but unfortunately, this happened on the inside, too. This also happened in the Church. The literal Second Gen, the so called Second Gen, they got so entitled, so arrogant. “It’s the Second Gen era and all this kind of crap. Remember this? It’s ridiculous. Even the Han Mother was trying, you know, lore them in with that. That she declared the Second Gen Age two years ago, and now she’s cancelled it. She said, “I very disappointed in the Second Generation Age.” And now she’s cancelled it. She fired them all, put the old crusty Commies in. So, I mean, the Second Gen were Commies, too. It’s not like they’re off the hook. Those Second Gen kids, they were Commies, too, she was putting in. The were 100% hardcore Socialist Commies. They hate Jesus with a passion. These people are hardcore Commies. It’s ridiculous, you know, especially the images.

The point is, at least they’re Leftists, we know that much. It’s so funny cause they’re trying to attract a spirit. When a fallen Church is fallen, you can see, they actually think its cool and innovative to invite

the people who are more hardcore left like the homosexuals or the transgenders, and all the Second Gen are coming out. They're gay. "Oh, he's so brave. I love your post. You so brave, so heroic; and, they got all these people, you know what I'm saying? I mean, just letting the wolves in, let them in. Let them in, just let them in. You see what I'm saying?"

And they have no proper amygdala function against it. Now, that's an important thing. That's an important thing. That's important for us to remember too, because as we get interested in saving souls, and as we reignite that fire that's within that the Holy Ghost gives us, it's a fire that extends beyond ourself. The love of mankind. It's a level of wanting people to be saved. It's a supernatural vision, a supernatural sensor when we see people we not only want to see their flesh and blood, not only see the clothes they are wearing today; we see a soul that needs to be saved. Do you see what I'm saying?

So, we see people around, but we don't just see people walking around in different types of clothes and jeans. We see souls that are walking around that need to be saved. They to be connected to Christ, because as the Scripture says right here, For those who do not, who do not believe, they will be damned. They will be separated from God. They will be in torment, and if we really care for them, not just saying, not just saying we care for them, "Oh, we care for you." No. If we really care for them in the spirit, then we ought to be interested in saving them.

"Ah, but somebody said, the Family Frauders, you know, the Family Frauders, what about them?" Well, we're trying to do. What do you think we're trying to do for the last five or six years? We're trying to tell them the truth so that they wake up and be saved because they've fallen. Do you see what I'm saying?

Of course, the Family Fraud, they're collapsing like the Catholic Church and all the corruption, and all the immorality, the sexual immorality and all the secrets that come pouring out, etc, all those kind of things, what happens? They're inviting homosexuals like homosexual leaders to take reigns, etc. I mean, it's absolutely insane; but, as they're doing that, what happens? They're crumbling. What happens? As they crumble, people start waking up.

Like just this week, we had a whole bunch of people just wake up. The Family Fraud, they came in, talked to Rev. Lee for two hours. Boom! They converted. They immediately got saved. They got the Holy Blessing. Brought their friends. They brought a whole bunch of their friends. A whole bunch of friends in the Family Fed on the same day. They were saved. Boom! Came back to True Father's Authority. Did you see how fast that was? In one day. That was one day; and, they're just spreading, spreading like wildfire. God is moving.

People, we only focus on the Family Fed, which is a terrible thing. God is interested in the lost, okay? Yes, the Family Fed is lost. Obviously, there are some people in ministries that are reaching out to them trying to save them, and many of them are being saved. That's great. But, we are ignoring the larger harvest that's all around us. People that want to be saved. People that want to know the truth. People that want to come to God, and we're ignoring that. We're not seeing that. We're not seeing that everybody who steps in here as a precious person. Not only in the flesh, not only what clothes they wear, whatever; we're seeing a soul. We're seeing that soul, right?

We're see that soul. Oh, have a desire in our heart. I want to see that person be saved. I want to see that person confess Jesus. I want to see that person confess Christ. I want to see that person come to Christ. I want to see that. I want to see that. That anticipation, that prayer. You see what I'm saying? That energy that your pouring out towards, and also praying for that person. That's the Fire of God that's dwelling inside the hearts of men; and, I believe God is removing those cold hearts, those stony hearts that we had, or many of us may have had, and putting on this heart of flesh that we can just start feeling the Spirit. Start feeling people's souls, because that's what we're going to be going into Heaven, folks. We're not going with our bodies only. I know. Thy Kingdom come on Earth as it is in Heaven. Yes, Heaven will be here on this Earth as well; but, we're not only in the flesh. Also, the core of our flesh is what? The Spirit.

So, we have this very big thing, even in our, I would say, even in our First Generation culture, "Oh, Christianity only focuses on spirit, and we know the truth about the lineage and the flesh." How many of you have heard this? How many heard this? But again, we have the lineage; but if God, if you don't give your heart, if God doesn't have your heart, you're in Satan's camp; and, you signed with the Family Fraud. You saw what happened, you see,

So, this is a huge awakening, a wake up call for us, right. The heart of man, the heart of woman is not just their fleshly body, it's their spirit. God is after the heart. He's not after just the flesh. Obviously, He wants us to be His children, but He's not only that. You can have many children, but what if they're all against you or coming against you. They're all your enemies. Is that going to be thr Kingdom? Of course not. You're going to be Hell, right? Some of you inside are saying, Amen, Amen, Amen right now. Right? You see what I mean?

God wants the heart. He wants the heart. Of course He wants the children. He wants children, but He wants children who love Him, who will surrender to Him. He wants children who will give Him His heart, their heart, cause that's the hardest thing to do for many kids. The hardest thing to do. To give your Father your heart. Imagine that. To surrender to your Father. Many times it's the things; and, that is the thing that brings the greatest joy to God. He's after the heart. He's after the spirit man. he's not only after the flesh, cause we seen how that could happen. Look at what happened with the Family Fraud again, okay?

So, we can't have this kind of culture. We have to address these things. We have to be aware that these cultures exist, and we have to rebuke them cause they're bad cultures. They're cultures that are trying to prop us up almost like Pharisees; and, they're killing our love the human soul. They're killig our love for those people who are walking, and they're killing any desire for us to want to save them, because we're too busy thinking how holy we are, or Second Gen is greater than them, whatever it is in your mind. You may not be thinking this in your mental, but he may be in your sub-conscience. He may be haunting from behind the scenes like a Pharisee in the dark, almost like a little demon in the dark. Can you say Amen?

So, it's something that has to be rooted out at the root. Just like Jesus cursed fig tree and cursed it at it's root. This thing has to be rooted out. Rooted out, because it kills any love that we have for some person that walks in. This person, that person could be on, I don't know. He could be a heroine addict, whatever, and he walks in, of course now at the same time we have to be, we can't be stupid. We can't

be wide-eyed deer running into a Mac Truck. At the same time, that's why I trained these young people to have proper amygdala function and to have proper red-alert symbols when they have people coming in, okay? Cause, we can't be like the, "Oh, we want to have everybody to come in, and then you have all your criminals and predators that come in, and you have no way to check them out. Discern them. Can you say Amen?"

So, this balance has to be done. It's like opening your house up to folks in the neighborhood, right? You got to mix. Some people go crazy. You got some people that are nice, right? And, you have to be able to discern who is going to be safe around your children. Does that make sense? Right? And things like that. Now, obviously that has to be done, but at the same time, we have to empower the kids, so that they may have proper amygdala function and they can discern. "Ooh man, that person looks a little weird, even though I love that person's soul, even though I love that person, that person looks a little weird. I'm gonna stay awake. I pray for them; and, if going to pray for them maybe I'm going to go with Uncle Ted or Uncle Gregg or Uncle Kyle, you know what I'm saying? I'm going to go with somebody else to pray for them. Can you say Amen?"

I going to be smart about it. I'm gonna say, "Hello, Mr. weird man. Can I pray for you?" I want to love the souls like Pastor is talking about; and, so can I just pray for you alone in that room back there. No stupid. Obviously, you girls are not stupid; but, don't be stupid girls. You understand what I'm saying?"

You always have to have proper amygdala function. You always have to protect yourself; but, at the same time that's happening never lose the heart of love God/ love our neighbor. So, when we see somebody walk into here, yes, we have to use our amygdala function and properly discern and say, "Okay, that person May look a little dangerous." I'm not going to go near the person, but maybe I'll ask an adult to go talk to that person. Instead, I'm just letting him sit around. You see what I'm saying?"

And, maybe if there are young people, well, maybe I'm going to approach them, but I going to approach them this time greeting them or something like that, but with the heart and attention of seeing their soul, be interested in their soul. "Hey, how are you doing and yeah..." whatever. Right?"

You're approaching with the intention of seeing their soul wanting that person to be saved. Who knows, we don't know if they're saved; but, they may or may not be, but that desire has to be there. The desire. You probably know that kind of holy desire is important. God has a desire. He wants to see the lost be saved. He want those have been lost to be found. Can you say Amen?"

That's the heart of God. That is the nature of God. And of course, that's why they're wailing in the wilderness, to try and get people saved, to try and get Family Frauders to understand they're going down a path of hell and heresy, okay, which is the reason I speak the truth, even though it's painful, right? But, in the end, God wins. God has a choice. In the end as Susan was praying today, right? We move from the victory of God, from the victory. We're not begging for a victory. We're not, you know, asking for God. The victory's already done. We're moving from the victory into more victory. Can you say Amen?"

So, it's very important. This kind of heart is very, very important; as, God is preparing a great harvest, a great harvest. A great harvest, you know. When we see people, we have that heart. I'm not saying, "I'm

not immediately ranking them, you know. I'm a Second Gen, I'm a First Gen, whatever." You're not ranking all of a sudden, right?

We remember, the first thing we remember, "Oh, I was once a sinner, too. I was once in that same place." Distant. Separate, you know. No relation with God. Arrogant. Narcissistic. Not surrendering myself. Did not give my life. I was in that same place. I don't care if you're a Second Gen. You're going to the same place, too. Right? We have to get off these high horses and understand, "Hey, we are interested in the harvest and the souls of men." That's were God lives. That's where the fire of the Holy Ghost is, cause the fire of the Holy Ghost will move through people who have a burning passion, burning fire to save people's souls; and, we don't do it ourselves. We bring them, them lead them to Christ; and, we make them, we allow them, we provide a place where they can confess Christ, confess them to Jesus, give their life to Jesus, have the desire to know him deeper, to have the desires. In 2Timothy 4:8 it says, "Desire his appearing, his Second Coming." That's what it's all about. That is what it is all about, folks. That's why God is pouring out the fire, not so we can just bask in it and be drunk on the Holy Wine, you know, the Wine from Heaven so to speak, you know. It's not just to have a party with ourselves. Can you say Amen?

It's so that when the harvest comes, we are ready. The Bible says, "The harvest is great, the workers are few." (Matthew 9:37, Luke 10:2) We don't want that situation. As a harvest, God is preparing a great harvest. I mean, I'm talking about Rod of Iron Christians waking up across the nation, across the world, set on fire ablazed by the Holy Ghost. Understanding their Kingship, understanding the Rod of Iron, understanding their role in the Kingdom of God. I'm talking about revival spreading out across the world, across the world setting, lighting fires, brush fires in the minds and hearts of men across the world. From America to South America to Europe to Eastern Europe to Russia to Africa to Asia to North Korea. I'm praying for bold revival, for bold fire pouring down like a waterfall from Heaven. Can you say Amen? Hallelujah!

But it's on account He's preparing that, and the remnant, the remnant is going to affect this. We have to have our hearts right. We have to have our hearts right. Yes, we're unworthy. Yes, we are of the flesh. We don't know how we got chosen; but, God has prepared this hour as such a time as this for the remnant. This is the only voice that Christianity has that is showing clearly the Kingdom of God, the Rod of Iron Kingdom, that Jesus Christ himself defines in the Bible. There's nowhere else in the Christian world. All of the world, all of Christendom, nowhere else.

And, just like God is bringing down the Catholic Church and fake Churches from Pennsylvania, and just like He's electing Donald Trump, the World President, from Pennsylvania, everything is happening in Pennsylvania because the Providence starts here; and, you may say that's crazy, well, freedom world worldwide, freedom worldwide spread from Pennsylvania. The Founding Fathers started in Pennsylvania.

So, we don't know, we just don't know. We just a number, folks, you know what I'm saying? In the wilderness somewhere in Pennsylvania. It doesn't even come up on Mapquest or Google, but God is moving in such a powerful way. There's a powerful harvest coming up. I want to make sure we are ready, we are ready. Of course, all the things, all these external things, yeah, the don't, in the end, they're not the most important factor; but, do you want you house to be in disarray physically? Do you

appreciate it when you walk into your house and it is in total disarray, because maybe your big dog has been running around in it smashing everything? Or, you say, "That's fine. Let's go to sleep." While the dog is crashing through the silverware or crashing through the glass or whatever. You would rebuke that dog, even though you're a Holy Ghost filled, Spirit filled Fire from Heaven, you know, a Scripture in God wanting to believe in its part, you would still get angry at that dog. This is in the midst of my home, you Bozo, right? Can you say Amen?

In the same way, we're not going to be worshipping the art and the atmosphere here, but it doesn't mean we're not going to pay attention to it. We can still pay attention to it. We can still make it inviting and nice so that, you know, when the families that come here, they feel welcomed and they feel that we care for the place, we care for their experience here. I'm not saying it's everything because their experience has to be with the Word of God and a move of the Holy Ghost. That's their experience in the end; but, at the same time, people are on different levels. Some people can't get past the externals, so the internals sometimes have to be at level where they can pass through. Can you say Amen?

And, I'm not saying we have to become some kind of Diet Cola Christianity where we just have to pay attention to our stage and how good we look on TV. We don't care about that. We want to preach the truth. We do hardcore preaching, too; but, at the same time, we rebuke the Devil, we rebuke, you know, Satanism and all its forms, Political and beyond; but, at the same time, we have a wonderful environment that we as a team, we as a collective team right here put our blood, sweat and tears, or expertise, God has gifted you with different talents. Even the young people, they have, you know, some of these guys are really excellent artists, excellent in design and stuff like that, and God can use that to beautify this place at another level. The Queen is extremely talented in natural style designs that she can incorporate Scripture into. Beautiful, you know, things like that; and, we can put in that blood, sweat and tears, and spruce this up just a little bit.

I don't know. I don't know what we're going to do with the chairs. I may get rid of them completely, I don't know; or, maybe just cut them up completely and make them into wooden or nice organic feeling. Put some dark wood on them or something. I don't know; but, we can think about this a little more. I'm not going to do this right away. We can start moving on some of these teams with the young people. We need a Stage team that's going to be led by the Queen. We also need Lobby team. Probably will have to divide you guys up so we can have some of our best artists here. Maybe, we put you guys as the heads, if you're willing to do so, and then one of you can take a wall and another of you take another wall, so we have two designs up. I mean, you guys obviously check everything with me, and then I'll check out your designs, whatever; and, you guys come together and if they're lacking in Scriptural content. Of they're lacking in certain spiritual content, then I'll give that feedback, and then we can start by building those code designs from reclaimed wood. I mean, this is cool. We do it, we make it trendy chic, but we do it with the resources that we have. You know, we clean those pallet wood.

Put that back up, boys. Put that back up. Look at some of this cool art that people can reclaim; but, we incorporate this kind of cool art, okay. Give us some more examples. Give us some of those squares. Even cutting 4 by 4s into squares, you can create, just by making them into squares. Go ahead, keep going down. Where is it? Where are the ones with the squares? Keep going down. There's some with the nice squares, the nice squares and they're basically different heights; and, you basically post them up on like a frame, and they're different heights of squares. Where, where. Let's see. Something like

that. Okay, this is very symmetrical. Some are asymmetrical. That stuff we can kind of do easily; and, also let's see. Look at that right there. Look at all the Holy Ghost fire. Let's see that Holy Ghost fire in the middle. I like that. That's got the Holy Ghost fire on that one. I like that.

See, we can incorporate that with a biblical theme and biblical imagery, do you see what I'm saying? So, that would be like a Holy Ghost fire piece, and we can do this. Young people, you guys can do this, right? I think you can do this. This is art within your level. Is that true? I think we can do this.

And the young people, but boys, if we get some training with Lowell, make some teams, the more senior boys here, make two teams with some of the younger people. Sung Ho, he is an engineer, so he can help, I don't know; and, some of you can weld. I know some kids down in the Hutcherson family know how to weld, but these guys learning welding would be a great skill to learn; and, training with somebody like King Lowell the first, oh my God. This man is incredible. He's such a gem. He is, what a gem, what a gem. Give it up for King Lowell the first. This man is like a gem.

I mean we got so many. Martha, what an artist. Look at you. I forgot about you, Martha. God just put my eyes right on you. Boom! I mean we got Martha. She's a great artist, too, see; so, we can put some of you guys to do some art pieces, if you're willing to do so, and we can spruce this place up just a little bit. With a little care, and we can move in this direction where we have a cool sort of world under chic flavor. How do you like that? World under chic flavor. World under chic. We can have some cool lighting.

Hey, look at that. Look at that thing. Wow! It got the welds on the South thing. It's got the river of life. It's got the fire of the Holy Ghost. I like that. That's pretty cool, too, and that's made out of wood. Even if you don't add any color to it, and you just stained them different colors, even the staining of the different color wood it's a beautiful art piece, and it's very simple to make, you know. It just takes a little bit love and some care to want to have people have a wonderful experience see that. This kind of abstract biblical art come to life. How cool is that.

Also, in the front lobby, that's the kind of thing I'm thinking about for the front lobby. We're going look into, I was talking to Gregg. We we're going to look into one section on the front or something. I know, I don't know how were just going to do both. You know, it's either it's going to be just nice tables, where we got the iron wood and all this kind of stuff. Cool areas just like that; so, when you come in, it's like a country inn. It looks very nice. Ready to sit down, ready to have meetings, blah, blah, blah, etc.

Or, it could also be, that front area can be like a wedding hall, a beautiful wedding hall, you know, where people from the local area, they get married, you can save thousands of dollars getting married here, cause we're having the wedding feast all the time. We have the wedding feast all the time. We are the famous Wedding Church. You can bring your own Pastor. You can bring your own Pastor. You rent out that space. Beautiful beige-purple, you know, undertones on the nice walls. Everything that matches with a beautiful bridal, beautiful floral, beautiful tuxedos, beautiful colors, beautiful faces, makeup, all that matches. Gorgeous, okay. The brides maids come out with the beautiful floral bouquets. All that gorgeous stuff, okay, matching those beautiful colors. You know, it looks nice, all those nice purples. Deep purples and the light greens. Match it with that nice, what is it, the silver? The silver. Oh, it could look nice. It could look nice.

Who knows, God may supernaturally manifest \$50,000 silverware and glassware. Who knows, Who knows. Hey, you don't know. You never know. He may manifest it. Fifty thousand dollars glassware and bridal, what is it? Silverware. It may just appear. Can you say Amen? What's wrong with you people? You don't know. You don't know. You don't know; but, that's another thing. That would help us monetize that space. We're in the End Time Harvest. We need to make money. We need to get ready for the harvest that's coming in. You know, we need resources for that, the saving of souls, setting on fire in the different cities, spreading evangelism, and spreading to the nations, etc. You know, God wants to bless us with resources, too.

So, that's also another possibility. Change that front area into like a bridal area. When people in the local area want to save like a thousand dollars, instead of doing it at some hotel, they can do it here. Okay, I know. We'll think about it. We'll think about it. We can't do both at the same time. We can't be rustic chic and sophisticated bridal at the same time, okay. You have to chose. We have to choose between that. Those are some of the serious decisions we have to make; but, what we can do is we can start moving on some of these pieces here, these are pieces right away.

What we can do is start moving on the stage right away. Do you see what I'm saying? What we can do is moving on the lobby right away, because even if we make a bridal area in the front, we're probably going to close it off when you walk in, okay. Maybe you're going to walk around it. You have windows in to see it, but then, you know, there's going to be some, you know, we're probably going to have to put some walls up; so, you kids when they start playing around don't break some fifty thousand dollar glassware and silverware. Young kids, you see what I'm saying?

So, depending on what happens out there, even in that case we may need some of these small tables, okay, even though you have a bridal section out there, okay; but, then that gets into the whole thing about the cafeteria thing, cause also we then have to talk about then, what are we going to do about lunch after service, see? People are going to be railing about, "Oh, they got rid of the lunch after service."

Will you stop thinking about yourself? Can you say Amen? We're not supposed to think about us. We're supposed to think of the lost. What about those people coming in? What about the souls that are coming in? We can have maybe simple pastries or bakery stuff. Simple stuff, not the whole use of the kitchen. You know, we're not cooking by the women and not all these pot luck coming in and having these huge tables, where we're sitting down like refugee style. I know we love it. I know we like hanging out with you. I know. I understand. I get it. I get it.

I get it, okay. The point is not us. The point is the world that's gonna be shaken by the Holy Ghost. The point is the cities and the nations are going to be shaken and the harvest of souls that are coming to God. That's the point folks. I don't know what part you want to be part of; whether you want to be on a refugee table just talking about stuff on a Sunday afternoon; or, you want part of the Holy Ghost fire revival that the harvest of souls that God is preparing out. Lord have mercy! Hallelujah! Hallelujah! Whew! My goodness! I got the Holy Ghost jitters right know. I'm ready to lay down on the ground right now. Hallelujah! Praise God! Okay, do you see what I'm saying, folks?

So, we have to pray about some stuff; but, we're going to be asking some of you artsy people, artsy, you know, some Crusader young Ninjas. We're going to start asking you to build some teams, and do

some cool art, and you know, to let God speak. To let God speak through those pieces, Let your talents that God gave you speak right now for the glory, never for your glory, but for the glory of God. Can you say Amen?

The Queen is already on board with the stage, so we're going to revamp that stage step by step; so, pray for us, pray for our teams, pray for the young people cause I want to keep this with like the young. I want to keep this project, especially with the arts stuff with the young people. We're probably going to have to rely on some of you guys who have expertise to help with some technical stuff, but I do want the young people to have ownership in this; so, they're not always getting things done for them and they just walk into a place, and oh they have a revamped Sanctuary, and they're like, "Oh, yeah, I deserve this. No, you arrogant Bozos. We don't want that. Can you say Amen?"

First Generation folks, right, we don't want that. We want these people, these young folks to grow up with responsibility and ownership and they have sovereignty and they know, "Hey, I got to live for something beyond myself." which of course they know, but I'm saying if people forget. Okay? Live for something greater than myself. I'm a part of something, the move of God, the shaping of a nation. I got to be part of this. They got to have it on the inside of you. They got to have that fire that's lit on the inside. You got to have the Holy Ghost come down and tear you up on a good way, right? Tear you up into pieces and put you back together like the Potter's Vessel. That's what it says. Like a potter that will build a vessel, that will, what is it? That will shape the vessel. That's in Jeremiah, right there. The Potter's Vessel. Okay, So, young people, are you going to help the King on this? You guys suck. Come on. Are you going to help me out on this or not? One, two, three... (Yes!) Whoo! Praise God, hallelujah! Thank you. Thank you!

I need their help. I actually need their help. Sometimes, you got to tell your kids, you need their help. Look, I could do this and pay big bucks for it; but, that's not spiritually good. We could do that, but we would be Commies. We could slowly build this, "Oh, yeah, just keep building this for us. Just keep doing it," You know what I mean? You're not going to feel like we have to invest in it. We have to put our sweat in it. We have to put our dalga. Look it, what does the Bible say? "Where your treasure is, so your heart shall be." (Matthew 6:31, Luke 12:34)

Where are you putting your money? You're making all these kids, you know, we want them to be maybe one day, you're praying that maybe they'll be millionaires, billionaires, all these Sanctuary folks all around the world. Where are you putting your money? You know, getting these little, buying these stupid little Mercedes cars and things like that. It gets old over time. It gets old pretty quick. You know what I mean? These little, whatever they're buying. Whatever. Rolls or something. It gets old very quick. You got to have a greater purpose for which you are living. You got to have a greater purpose which is cosmic and powerful. The move of God. Nothing greater than the move of God, right?

So, these young people, stepping up, putting to use their talents, their skills, making SWAT Teams together. We'll put this together. We'll present it to all of you and you know, encourage us. We'll be real with us, too. Be real with us, too. Be real with us, too. We want some feedback, too, as we're developing the arts, developing this stuff. It's going to freak some people out, because we may be tearing up this carpet, man. We may be lifting up all this carpet and having cement floors. "Oh, it's not

presentable, blah, blah, blah! I said, just wait for the charcoal paint.” Stop criticizing us. We’re tearing the dang carpet up. Wait for the charcoal paint, okay? You may change your mind.

And then, you know, we have the nice charcoal paint, with the Rod of Iron flavor, the iron here, you know, and then we have some nice organic wood on top. That would look nice. That would look nice. Nice.

And, we have some. Oh, we have some woodworker’s here. Yeah, Marshall’s dad. Hey, he’s woodworking, too. He’s a woodworking Master, too. You see, so we have a lot of folks who can train our young people, to give them actual real skills that they may or may not in the future. They will. What did I say, the may or may not. No, they’ll use these. You’ll be able to create art pieces for your own tiny home. You got this training now, you’ll be able to create your own furniture for your dang tiny home. It’s a benefit for you; so, you bless God, He’s gonna bless you. What did I say. You release what is in your hand, God will release what is in His hand. Can you say, Amen? His hand is way bigger than you, young people. Way bigger. You got to have a generous heart. If you have, then God will bless you; and, we want you to be blessed. We want you to do great things for God. To be set on fire for God’s Kingdom. Can you say Amen?

So, that is why. Look at Mark. Did I say Mark. Let’s jump to Luke. Sorry, I’m sorry. John 14. Let’s jump to John 14:13. Let’s start at 13. It’s a powerful verse right here. John 14:13, and let’s read that together:

John 14:13 And whatsoever ye shall ask in my name, that will I do, that the Father may be glorified in the Son. 14 If ye shall ask any thing in my name, I will do it.

How about we start asking for the fire of God to start spreading like wildfire across the lands? How about we start asking for the fire of God to be set off in the brush fire in the minds of men? How about we ask the Holy Ghost to start touch people and bring them to salvation? Deliver them from slavery? How about we ask God to liberate nations and liberate whole peoples? How about we start asking? How about if we start asking one another to become millionaires and billionaires to fund the End Time Harvest, huh? Ask for it. How about we ask for this place to be supernaturally transformed with the gifts that God has given us, so that when people come in they can feel the love of God? They can feel the chastisement of the Holy Ghost, too. They can still feel the convicting of the Holy Spirit, cause we don’t water down our message. We preach from the Word. The Holy Ghost will convict those who have a heart for God; but, at the same time, the environment, they know that we care for them, right?

That’s almost like that feminine side, isn’t it? That kind of feminine side, you know. Not only wanting the truth to be told, which the more masculine side; but, the feminine side, wanting to care for people, take care of people as well. We have to have both. We have to have both, folks. We can’t be a Diet Cola Church and only take care of people that have become to feminine, we can’t have only fire and brimstone and grandma’s couches. Can you say Amen? We need both. We’re in the 21st Century. God has given us technology. God has given us parents, and the End Time Harvest is being prepared. It exciting times, folks. It’s exciting times; so, we got to be ready. I want to be ready. I don’t want to left behind. I want to be ready. Alright, let’s keep going. 15:

John 14:15 If ye love me, keep my commandments. (keep my commandments) **16 And I will pray the Father, and he shall give you another Comforter,** (that's the Holy Spirit) **that he may abide with you for ever; 17 Even the Spirit of truth; whom the world cannot receive, because it seeth him not, neither knoweth him: but ye know him; for he dwelleth with you, and shall be in you. 18 I will not leave you comfortless: I will come to you. 19 Yet a little while, and the world seeth me no more; but ye see me: because I live, ye shall live also. 20 At that day ye shall know that I am in my Father, and ye in me, and I in you. (Amen!) 21 He that hath my commandments, and keepeth them, he it is that loveth me: and he that loveth me shall be loved of my Father, and I will love him, and will manifest myself to him. 22 Judas saith unto him, not Iscariot, Lord, how is it that thou wilt manifest thyself unto us, and not unto the world? 23 Jesus answered and said unto him, If a man love me, he will keep my words: and my Father will love him, and we will come unto him, and make our abode with him.**

When you have a guest over to your house and you want to share with them the Gospel and the Word of God, you want to share with them and have them be led to Christ, when you invite them to your house, does your wife not clean the house? Does she clean the house or not clean the house? Sisters, when you have a guest coming over and your girlfriend's coming over and your friends are coming over, do you clean the house or not? (Yes) You may have not cleaned it in three months – I rebuke you sisters who do that – but when your friends come you're cleanin' away. How many say Amen? Confess your sins one to another cause that's what the Bible says, okay? Right? We clean the house. We clean it. We try to make as most presentable as possible. Can you say Amen? It's the same way. It's the same way, okay?

It's the same way. When we are inviting people, God is sending people, sending people. He's sending people to come. These people may have never given their life to Christ. They may have been a conventional Catholic or maybe a Pagan, whatever they are; but, He may have to send them to get saved. He may have to send... That may be the last time they set foot on Earth, cause they may drive out of here and hit a MAC truck, we don't know. Do you see what I'm saying?

And just like we may prepare our house and try to make it as most presentable as possible, it's the same thing, the same thing. We're not supposed to wait around until somebody else does it for us. Then the mom's really angry, is that true or not? Young people. You just wait around and just say, "Mommy, you do it." "You little pieces of trash. Boom! Get your ashtray cleanin' up," right? And as they say, kind of doing a Spring Cleaning. Maybe it's an Autumn Cleaning, Harvest Cleaning. It's the Autumn time, it's the harvest time, so you are doing an Autumn Cleaning, you know what I mean?

This is good cause as a home, as a family, we're coming together and pulling up the carpets. We have no more mold here. Thank God, Hallelujah for the Chief's mold products. Chief's mold products got rid of all the mold in this place. Do you want to come into a Sanctuary when you have mold filling up your lungs instead of the Holy Ghost filling up your heart? You may be filled with the Holy Ghost, but if the lungs are being filled with the mold, you're going to the Intensive Care Unit. Do you see what I'm saying? Thank God for Chief cause his Native American, Native American natural mold killer got rid of all the mold, so we don't have all the mold.

We don't have a water problem here, but you know, the pump was not working. We had this place moist as a, what is it? As a freaking sauna. It would be a swamp in here. It be moist as a sauna. There was humidity everywhere, before. Now, not at all. See, we got rid of that problem. We got rid of the problem, see? Because, I know these may feel like worldly things, fleshly things, again, if you think in terms of your home, we would, we want it to be most presentable as possible. We want most things in the favor, in our favor, for the saving of souls. We don't want things against us that may turn against us. It's not saying we can use this thing or that stupid little artificial thing, or whatever to then turn people away from where they been saved. Can you say Amen? Right?

So, this kind of place, it's kind of like a house cleaning, it's kind of like a revamping, but I believe it's going to be a really beautiful, it's going to be nice, it's going to be a fun project to do. You know, we're talking about doing that building project, but God is helping us to do this building project, cause we're building small stuff, building little art pieces, building little tables and stuff like that.

Maybe, we'll have to tear up all these seats and get rid of grandma's couch and makes some cool, cool... get some saws in here and cut off these arms, you know what I mean? Get some saws in here, gets some boys in here, get some sparks flying, some Holy Ghost sparks. Sand them down so they're nice, with no sharp edges. Then, we have some nice benches. We have some nice bench. You could just slide on down, and slide on up, you know what I mean? Paint them so they match the floor, you know, if we lift this carpet, this kind of stuff. That would really change this whole environment.

Look at all this red-maroon carpet? Where did they get this from? This is 1960. You know how much stuff has been spilled on this these carpets. Okay, on a show of hands, would you put these carpets in your house? I donate them to you. Who wants them? Ahh, you see what I'm saying now. You see what I'm saying? Okay?

So, if we do this, if we put a little love in this, a little grit and a little grime and a little oil in our elbows, and we get to work here, I believe this place can be a whole new place. A whole new place. It be like a new mini-small Jerusalem. A mini-new Jerusalem that descended out of Heaven.

So, we have to has some of you artsy girls to make up teams. I'm thinking, now, Maryann and Misha, I know they're very skilled and artsy. Who else is artsy amongst you guys? You young people know. Who else is artsy? Well, you guys got to help us with the manly stuff. You got to get some saws, you guys, and cut this stuff up; and, then you got to put some style into it. You know what I'm saying? Give us some, make some teams. If you know some style, you know what I mean? We could build some teams of you boys. You guys, make some smaller teams, maybe two teams here, and us some ideas, give us some proposals, what you want to do with these chairs. I wanna get rid of grandma's sofa. I don't know about you, but I feel the Holy Ghost telling me, get rid of grandma's 1960s sofa. Okay, so you guys can think about it. Mira, can you think about it? You select your team. Who wants to work with you. Maybe, Sung Hyo, can we ask you to lead a team? Okay, Sung Hyo, step up, step up. God calls you, step up. You choose your team. Give some ideas what you guys feel how we change this up. Modernize this, these seatings without, you know, let's think how we can keep them here, but revamp them. Just this kind of sofa, this kind of texture, this is like 1960s. This kind of old, old texture. It's like some kind of antique you find in some kind of old dusty place, and they charge you two dollars for it

cause they know you're going to cut it up and use that as some kind of patchwork on a quilt, or something like that, right?

You people, you feel what I'm saying? Is this true? Young people, is this true? Are you telling me you love grandma's sofa right here, or do you want to see it a little modernized? You see, this is what's wonderful about Cheon Il Guk culture. We can still have all the modern stuff, you understand what I'm saying? The Cheon Il Guk Constitution will create tremendous technology. Tremendous modern stuff will be everywhere, but it's going to be centered on goodness to love God/ love your neighbor. It's going to be the ethic of the place. You know, we don't cheat people. We don't wanna, you know, destroy businesses to create monopolies, all these kinds of things. You know what I mean?

So, there's going to be tremendous innovation, stuff like that; so, we can spruce this up. You guys come up with some ideas. How are we going to do this place? These chairs, what's you want to do in terms of sawing them up. I'm thinking we want to get rid of these partitions between. Some people can't even fit in these seats, their but is so big. We got them running 5K, 7K, you know what I mean? But, I'm thinking, if we get rid of these arm sections, too, then we can have like longer chairs. Maybe put some nice organic wood on them. Maybe burn some patterns on them, you know, what is that – a cow iron? You know, a cow iron, burn some branding iron stuff on it. Get these kids with some cool stuff with some iron sparks and fire, you know?

These boys, they're getting excited. I see the Holy Ghost. They're starting to shake, they're starting to shake with the Holy Ghost. The creative energy is starting to move in this place. Can you feel it, folks? Can you feel the creative energy that God's pouring out right here with these young people?

Oh, that's good Kristina that you mention that. We have to redo the bathrooms. Who wants to do... you want to lead that? Alright, you give us some good ideas with that. Give us some good ideas. How we're gonna do it affordable, and you know, make it look nice, like real nice. I wants you to be creative. I don't want you to think, "Oh, my gosh, Gregg's gonna get upset." Don't think about that. I want you to be as creative as you can. Let God use your artistic talents. He's not going to be angry. Don't worry. We love Gregg. Show it to him, and you show it to me, too. I'll look at it, too.

I'm thinking about even the front. I know we love our beautiful sign, our mural up there, but I'm thinking even take that down, because even though it has a message, it doesn't match the whole thing. You know what I'm saying? Eve I'm thinking taking that down making a nice, like a nice partition wall; so, I thinking, maybe have a little bit of molding, make the bottom section, what do they call it? Like what's that blue? Not Navy blue. It's like, what is that? What's that darker blue, but it's closer to Navy blue? No! Indigo? Indigo, something like an indigo. Something like that, but put some molding there, so we have some molding, almost it look like a fire place, almost look like a home when you walk in; and, then you have that top area, and on the top area I'm thinking maybe some artsy people who do some photography as well. On the Palace, in the Palace, we have this end garden, this white stones end garden; so, on that, we can take individual pictures of letters so we can write "Thy Kingdom Come," but we can write them with black stones on the white zen garden gravel. So, you have the black stone contrast the white stone, and each picture holds one letter so "Thy," ding, ding, ding, "Kingdom," ding, ding, ding, ding, ding, ding, "Come," ding, ding, ding, ding; but, all different pictures, but they'll

work together; and, it almost makes a wall like this cute little mural that's using the imagery of organic nature material, you feel me, you feel me? Young people, you feel me a little bit?

Come on, come on. You feel that, you feel that? You feel that. I got to do some push ups right now. I'm ready to do some Holy Ghost push ups right now, you see what I'm saying? We can play around with these ideas anytime. I don't want you to be constrained. Don't feel even constrained. The King is right behind you. I'm behind you. You're there for me, you'll fight for me, I'll know. I trained you guys, and I know you'll fight for me. You will put your life down to defend your Teacher. I know you'll do that for me. I'm there for you, too.

Alright, don't feel, "Oh, this person said, oh, it's too much." No. Let's see what you guys come up with. I can't guarantee I'll take all the suggestions, but give me some suggestions. Give me like a one-two-three, each team, give me like a one, two, three; and, I can choose between the three of them. How's that? You know what I mean? How's that sound?

So, we got bathrooms, we got stage with the Queen. She's gonna make her own team; so, the Queen may ask you to be part of her team, okay. Also, we got some other teams. Arts teams. Art team, we got Kristina, you wanna. Oh yeah, bathrooms. How important is bathrooms for ladies? Come on. Come on. You gotta be real, right. You got to be real, right? Bathrooms, it's so important for ladies. You know, men, we're okay with a little hole in the ground, that's fine. We ain't got no problem. We can just cover it up after we're down. Ladies, the bathroom's very important, right? We want our Queens to have a good time here, Amen? Okay, so let's spruce that up a little bit. Let's get some young people energy in that. Give us a proposal for the bathroom team. Select your team, whoever you want to work with.

So, we don't just want to appoint people to just you do. No. You guys just develop your own team. We're delegating to you. We're letting God and the Holy Juices flow and let the fire of God fill you with God's glory. You know, it's love God/ love your neighbor, you know, you know what I mean? Get Creative. Get creative with this stuff; but, let's stay in the theme. Always remember in the back of your mind, "Wilderness Chic." Wilderness Chic, you know. Stay within the themes we're talking about using natural wooden materials. Iron, you know, natural stuff like that. Stones, stones, you know what I mean? Different types of river stones, white stones, black stones, you see what I'm saying? You see? Let your creativity flow. Let it flow, and set up your teams, alright?

Can we get. Let's see. Misha & Maryann, you want to lead some teams? You want to lead teams? Come on. Yeah, okay. We got a confirmation right there. Misha, we got a confirmation right there. Alright, we got some good confirmations. Give them a hand, give them a hand. We got a some confirmations right there. Select your team, okay? Select your teams, whoever you want, it's fine. Whoever you want to work with, it's fine.

Give me some good ideas. I can't come up with all the ideas, okay? I'm leaning on you guys, on you young people. I trained you, but I'm also leaning on you, okay? I want this house to be welcoming. At the same time, we want this house of worship and praising God and finding Christ to be welcoming as well. How's that sound? Does that sound good? Woo, okay! Praise God! Praise God! Hallelujah!

Oh, man. God is moving so fast, folks. I'm just saying, we have to be ready for the Harvest. We have to be ready for the Harvest. See, this is like, we don't even have a Sunday Service. It's like a meeting.

We're just studying the Word of God, and we're having a meeting, like a family meeting; but, we're studying the Word of God. That's how it's supposed to be in the Kingdom, you know what I mean? In the Kingdom, we're not just talking about ethereal things, we're talking about the real stuff, too. Can you say Amen? Alright?

SOS, come on down. Come on down. Come on down. Let's end in prayer. Let's bow our head. Every head bowed in this place. If you're coming here for the first time, let me ask you a question? If today was your last day, that God takes you to the next world, where would you go? Are you sure that you would be with God? Are you sure that you would be with Christ? The Bible says that there's a Heaven to gain and a Hell to shun, that you can be delivered and set free from that future. We want you to be with God in the next world, we want you to be in His presence, in His Glory. If you've never given your life to Christ, never surrendered your life to Christ, today is your day.

Today is the day of deliverance. Today is that day that maybe in your heart you know you've been relying on yourself too much. You know that doing it your way has led you nowhere. You know that there's another level, another dimension to break through, and you know that you can only do it with the supernatural touch of God. We invite you, today, we would be honored to be able to pray for you today. If that's you, then keep your eyes closed, but if that's you, you are included, we want to include you in the prayer.

Secondly, if you are someone who has been in a tremendous traumatic event in the last few days, or even weeks, we want to pray for you today. Maybe, it's a breakup, a tremendously painful breakup. Maybe a betrayal of a close friend. Maybe, you lost your job. Maybe something hit you like a MAC truck from the side and you never saw it coming. Whatever it is, God knows. We want you to be included in this prayer as well. We want you to be set free of the shame and condemnation and the sin. Maybe, you're also someone who's on fire for God in the past, and you've gone cold and you're not serving Him like you know you should. Maybe, you're hiding things on the inside that you don't let anybody see. It could be pride, it could be anger, it could be resentment, it could be inner things that your not letting the eyes of man see, but you know, you know, that it's tearing you down, you know that it's weighing you down, you know that it's making you sick, and you know that you need to be free from it, but this is your day, this is your day to be free. Not tomorrow, not yesterday. Today is your day.

Maybe, you're somebody that has things on the outside that Satan is using that the Devil is using against you. Maybe, he's using your children against you. Maybe, he using your financial situation against you, telling you're going to fail, telling it's confirmation is evidence that God has let you down. If that's you, you're also included in this prayer. We want to pray for you today.

If you're including in any of these groups, keeping those eyes closed, keeping those eyes closed. Don't look at other people. Keeping those eyes closed. If you're included in any one of those groups, I want you to raise your hand right now. Raise your hand. Don't look. Don't look. Raise your hand. Just raise your hand. Okay, put them down.

We want to pray for you today. All eyes are opened, and if you raised your hand, I want stand up right now. If you raised your hand, stand, stand. Give them a big applause. Give them a big applause. Give them a big applause, folks. Come down, come down. We want to pray for you. Come down. Come down to the Alter. Come down, come down. Come down. Come. Come, come. Come down, come

down. Come down, come down. Today is your day. Today is not another's day. Today is your day of deliverance. Today is your day of deliverance. Hallelujah! Hallelujah!

God said in his Word, Romans 10, it says, if you confess Jesus Christ as your Lord and Savior and that if you believe in your heart that he's been raised from the dead that you will be saved, and that is the starting point. God will use that point in your life to change something on the inside. He will use that point to set a new harvest in your life.

If you need prayer, come on up, come on up. If you need prayer, come, come. Hallelujah! Thank you God. Thank you God. Thank you God. Thank you God. Thank you God. Hallelujah! Come on up here. Yes God, yes God. Hallelujah! Though none go with thee, I will follow. Though none go with me, still, I will follow. Yes Lord, yes Lord. Hallelujah! Hallelujah, hallelujah. Yes God. Yes Lord, yes Lord. Hallelujah, hallelujah! Okay, let turn that down. Alright, let's go together with our prayer.

Let's confess together our love for Christ. Let's confess together with our mouth. The Bible says we must confess with our mouth, not just in our heart, but with our mouth that this is the seed that will set afire not only in your heart, for we are believing that it will set You ablaze, and You will set others ablaze by that touch of God. Say this prayer with me. No lyrics please. Say this pray with me:

Father, we come before you, in the precious name of Jesus. Father, we thank you for that all you have done to deliver us and save us this day. Your Word says that if I confess that Christ, Jesus Christ is my Lord and Savior, and that I believe that he was raised from the dead with my heart that I will be saved; so, today, I confess that Jesus is my Lord and Savior, and I believe that he has been raised from the dead. I thank you for changing me today. I thank you for filling me today. I thank you for transforming me today.

Father, never let me be the same. Fill me, use me, change me, let me give You all the glory. I turn my back on the world. I turn my back on sin. Any anger, any unforgiveness, anything that is plaguing my heart, I put on the Alter before you.

Father, I thank you that You would release me. I thank you that You would deliver me from this bondage. That I will have no more shame and condemnation that Satan can use against me, and that I will be fully used for your glory and your Kingdom.

We give You the praise, we give You the honor, we give You the joy, and we lift up holy hands to praise Your name forever. Thy Kingdom come, thy will be done, and may I always desire Your appearing. Amen, Amen, in Jesus name, in God the Father's name. Praise God, I lift two hands Him today. Amen-Aju!
