

2nd King of CIG- The King's Report

July 4, 2019

The King's Message on the 4th of July

Happy July 4th, everybody, 2019, 10th year of *Cheongi*, 6th month, 2nd day by the heavenly calendar! It is July 4th, Independence Day!

It's a tremendous day, tremendous day, and a very important holiday here in America. It's a day we all should remember. You know today is July 4th; the fireworks are happening today, but remember July 4th is not about parties and barbecues, and fireworks.

The fireworks symbolize the shooting of guns in fighting for freedom; they symbolize bombs and canons. They symbolize to the death, life and death battle between good and evil. They symbolize a struggle that cost the Founding Fathers everything. They put their necks on the line, their lives on the line, they put their fortunes on the line, their honor on the line; everything!

You understand? Because if they lost they would all be dead; they'd all be killed by the British crown. So this was not a joke; this was a bald move and by the grace of God they won the Revolutionary War. Incredible!

So it is a very important holiday! It's the holiday where God prepared America to receive the Lord of the Second Advent, and to prepare the grounds right before, to prepare the grounds so that True Father could be protected and his ministry could expand here in America- which it did- because of the persecution that happens in the East.

So it is a very important holiday; it is a very important day here in America. And it's a day we should remember and thank God for and thank our veterans for, because they are also in the same tradition as the Founding Fathers, putting their lives on the line. Even armed citizens; armed citizens also they make that commitment to put their lives on the line if they have to, to be able to defeat evil.

I remember a 2nd amendment poster I posted on Instagram maybe a week and a half ago. It says, "The 2nd Amendment is about this," and there is a picture of the Revolutionary War and they are fighting a war. And then it says, "It's not about this," and there are two hunters. The 2nd Amendment is not about hunting, folks!

The 2nd Amendment was there to defeat tyrants, and to be able to have the fire power to defeat a rogue government that has gone out of its place and is now trying to master and overlord over the people.

So really the 4th of July is a celebration of the 2nd Amendment, really, but you never think about that, do you? They never promote it like that.

The 4th of July really is a celebration of the 2nd Amendment because without the bangs from the guns that the fireworks represent, and the cannons, our Founding Fathers would be dead. They would be hung, they would be hanging from a rope, and America would be nothing other than a British colony, have globalist laws and we'd all be slave there.

So really the 4th of July celebrates the 2nd Amendment even though we're never told that in history class and/or on TV. They never want to teach the real history! They never want to teach the real history!!!! They want us to be good pets, not sovereign peoples.

So today is a very special day. Once again happy 4th of July 2019, 10th year of *Cheongi*, 6th month, 2nd day!
