### Rod of Iron Patriots: "Purpose, Acceptance & Love"

Testimony & Mission

2020. 05.17

#### **Pastor HJ Sean Moon:**

Today we have a very special guest that we flew in from Florida. Of course most of you know Andy. He was one of our emcees during the Rod of Iron Freedom Festival. He's a tremendous not only Patriot and Second Amendment guy, and Gun Guy; you know in the nation he is the third recruiter for the NRA. So he has trained 30,000 people through the NRA safety program. Okay, so that's tremendous job. He's going to give a little bit about his testimony today, and a little bit about the work that he's been doing.

But really he's here to give us a report on the program that he and some of our folks here have been developing, and just to give everybody an update. We heard it a couple of weeks ago during the international meeting. He joined us and gave the report to the leaders across the world, and everybody was very excited about it. So we decided, "We're going to invite Andy here to give that presentation to everybody else," so you could see some of the progress that has been going on behind the scenes and some of the team's great work that they've been doing. This is of course with Andy; Kerry is on the team, right, and Lowell, etc

Let's welcome Andy Hallinan from 'Florida Gun Supply' to the stage

#### **Andy Hallinan:**

Hello everybody! I appreciate you guys having me. Guys, it's been a while since I've been in front of a church, but let's go ahead and go to the Lord and pray:

"Heavenly Father, Lord, I want to thank You first and foremost for every person in this building today. Thank You for the grace that You've given us to be able to show up today through all the trials and tribulations this country is throwing our way, through everything our government is doing to keep us out of this building today, for everything that the social media is doing to keep our message away from the eyes and the ears of other people. Lord, thank you that your grace abounds and we're able to be in this room today doing what we're doing.

Lord, I want to pray a special blessing for Donald Trump and team. Lord, keep them safe; keep them focused on your path and your wisdom, Lord. And Lord, I invite you into this room today. Be here with me as I give the word of this program that You've laid on our hearts and our souls and our

minds. You've given us the unique understanding, the unique background, and the unique ability to present this program and get more eyes on You. Lord, I ask these things in your name. Amen!

Well guys I think I got a PowerPoint. There we go! This is going to be called:

*“Purpose, Acceptance & Love”*

I started it with the picture of my son and I, at an axe-throwing competition, just because I wanted to brag a little bit, and show you guys my boy. That is my seven-year-old son Christopher; he's my primary reason that I feel so compelled to help make this country a better, safer, place to live. So throughout the presentation that I've got and throughout the message this morning, kind of keep that in mind, that one of the things that we're doing here with this ministry that we're all part of, is we are leaving a country better and safer, and with a deeper understanding than when we came into it. And that's one of the reasons that we're here today.

So we're going to be talking about *“Purpose, Acceptance & Love”* today. It's a very unique message. This may be something that you have heard before in previous sermons with Pastor Sean, or something that you've heard in other churches that you were part of, but I think that we can present this in a very unique way today, a very unique way.

**How I became the “Gun Guy”**

First of all, I want to talk to you a little bit about my background, and how the background that I have has literally designed me; it's been a God-given inspired plan of my life, that leads me to be standing in front of you today presenting this message. I want you to understand all the little tidbits that kind of went into the shaping of my life to come in front of you today, to help build this program and to help with what we're doing here at the ministry that were involved in.

So I want to talk about how I became the “Gun Guy” okay!

I was raised in a very anti-gun family in Massachusetts. Now people refer to Massachusetts as taxachusetts, okay, but at one point it was a freedom-loving state called Massachusetts. My family wasn't especially religious. I think that my father came from a Catholic background, my mother just a non-denominational background, but we didn't ever attend church; we didn't ever participate in any sort of religious ceremonies or events.

When I was about fourteen years old, a friend of mine invited me over to his grandparents' house and the Gospel was shared to me for the very first time. That's where I started a journey that again has led me ultimately to being here today. But throughout that journey between 14 and 18 I knew that I was destined to greatness; I knew that I was destined to follow Christ and to understand the Gospel. I knew that there was something on my heart and life; I knew that I was going forward in that relationship.

But I always felt like something was missing! Still even as a believer, even studying the Gospel, even trying to understand, something was still missing. That idea of purpose was still missing! I knew that it was my purpose to worship God and I knew that that was pretty much the reason that I was from this planet, but I knew that there was something else.

So I actually got a really wonderful paying job after high school, and they transferred me down to Florida. I actually dropped out of high school without finishing; I did get my high school diploma a little bit later, but this is an interesting little tidbit that when I dropped out of high school I had a choice to make. I could either go and get a job and try to make my own way, or I could go make a job and make my own way.

God has put this fire, this spirit of entrepreneurship and leadership in my heart; so I started my first business. And I passed around business cards everywhere I could pass around a business card - it was computer repair and web design. I came into a computer lab- internet cafe I think they called them back then- where there was a whole bunch of computers. I'm sitting there as a computer repair guy thinking, "Jackpot! Right; if I can score this account I'm set!"

So I handed out my business card and I said, "Look, I just started this business. I repair computers. Do you need this?" And he looked at me and said, "No, we don't need a computer guy; we need an instructor. We have a government program for youth who are at risk; they have to either be pregnant or have a felony charge against them, or some other barrier to employment. We have a government-funded program that needs an instructor, and what we need is somebody that knows computers, because one element of this program is to teach them how to build a computer. Because when you teach an at-risk inner-city child how to build a computer they feel great about themselves; they feel like they can conquer the world. So this is a really great element of this program. Now by the way this program requires a bachelor's degree and three years of experience but we're going to set you up for an interview."

So they set me up for an interview with a lady who was running for City Council in the City of Worcester Massachusetts, and this lady was so sure that she was going to be the next City Council member that she spent all of her time working on her election, no time working on this government-funded program; so she was three months behind deadline hiring somebody to be the instructor. So in walks this kid, eighteen- year- old high school dropout named Andy Hallinan, and she took one look at me and she said, "You'll do!"

So there's this high school dropout at the center of a classroom teaching at-risk youth who are ages 16 to 21: how to find a job; I had never done that before. How to build a resume; I didn't do that either. And this is all before Google, okay; I couldn't even look it up on Google and find it. At the end of the year I had 87 % success rate with the students. I was one of them! If I had not been at the front of that room, I would have been sitting right down next to these guys, these girls! So I poured my heart and soul, and I stayed one chapter ahead. I would go to Barnes & Noble and I would buy a book on resume writing, or I'd buy a book on interview skills, or I'd buy a book on whatever the subject lesson was the next morning, and the next morning I would get in front of the class and I would teach it.

This desire in my heart started to still find that purpose but that purpose was still missing; it still wasn't fulfilled.

So at the end of the year, 87 percent success rate; that was the largest success rate in MA. The next program down from me had been there for years; it was well established and it was at 27%. 27%! So the company actually was changing gears and the state was changing gears; you know how government contracts go. They actually pulled the funding for our particular program in Massachusetts.

So the company I was working for gave me a choice. They said, "Either you can be transferred to Ohio, California, New York or Florida." Well, Ohio, nobody really wants to live there; California was too far away; New York was too expensive; so to Florida I went.

A year later after I renewed relationship with my spiritual father I took a year off and went to Scotland to be on mission.

By the way I should be scrolling through my PowerPoint. (*Showing photos*)

-Here this is me with that tech- bridge program in Worcester Massachusetts, again building computers with at-risk youth.

-And then taking a year off to Scotland: you now have all seen me in a kilt. That's as far as I'm going to go with that; it is not a dress!

I remember right before I went to Scotland, I remember waking up one day and saying to a friend of mine, "You know for the next year of my life, two- year commitment actually; for the next two years of my life, all I have to ever worry about is waking up and saying, "How am I going to bring people to Christ today?" And as I found out I didn't wake up saying that a single time in Scotland because of the politics that surround the church in the United Kingdom.

The first church I was fired from (supposed to be some laughter there guys!) I actually attended this church I had a two-year commitment in Llandrindod Wells, Wales; there are more sheep than people there. I showed up to lead their youth group and to work with their music ministry team, but if you're familiar with some churches that believe in speaking of tongues! I don't speak in tongues and I won't fake it, so I was promptly let go; because of course, if I don't participate in their cultural thing that they do I can't possibly be a real Christian!

The second church I was fired from: I had gotten off the city bus and this was another Pentecostal Church in Weymouth England. I got off the city bus and I saw a guy, a homeless guy, leaning up against a building, and he had a sign on this cardboard cutout and it said, "Please help!" and I felt the Holy Spirit say, "Go, help him!" and I said, "No, no! I'm here for youth and worship; homeless people aren't my thing," and I just kept walking. I felt the Holy Spirit say again, you know another tuck in my heart, "Go help!" and I said, "No, no, no! You put me here for youth. I know what you're doing; I know what you're doing!"

And the third time it was like the Father's voice, "Go now!" So I went and sat down next to a fellow named Ramsey, and I said, "How can I help?" And we developed a relationship over the next month where if he had money from his begging, he'd buy me lunch, and if I had money from the church that day, I'd buy him lunch. It was a great relationship that was really impacting his life.

One of the biggest things that I'll always remember is when Ramsey came and said, "Andy, I feel like sometimes I don't need to do heroin because you make me feel human. If it wasn't for the physical chemical addiction I could get over this thing." So we started going to drug meetings. I started to bring him into the church to shave and shower; go to these meetings to benefit his life, get a job and get off the juice. One day the church leader came to me in the car and said, "Andy, what do we do when the parents of our youth group- which didn't exist- say, "Why is Andy hanging out with the homeless heroin addict?" I chuckled; I thought they were kidding. And I said, "Well, we just tell them what Jesus did, right; Jesus came for the sick." And I was promptly fired from that church. Ramsey kicked in all the windows -I found that out later- and probably ultimately succumbed to his addiction; but I'll never know.

On to the third church that was a pretty great experience for me; I helped design and develop their youth group, and then I came back to the States. When I was over there in the United Kingdom, I was not allowed to work because I was on a student visa; on a student visa you can't have a job. So being that person, being that that fiery entrepreneur that just constantly has to learn I just studied and what was fascinating for me was marketing.

I wanted to know: What can I write, what could I say in a video, what can I do with my words that would inspire others to action; whether that's purchasing a product or coming into the church? Or what could I say on a Sunday morning that would make people want to go out tell their friends and fill the seats on Sunday morning? I wanted to know what I could do with my words. So I bought every marketing book that I could; I read every sales book that I could. I started reading John Maxwell and Dale Carnegie and all these names in leadership, so that I could advance my own life. When I came back to Florida I became a marketer, and I became one of the top marketers in the country, working for Sony, Gillette, Betty Crocker, Pampers, AIMS.

At the top of my career working as a consultant with these companies this guy here changed my life. (*Photo*) Who knows who he is? Yes, he is James Holmes; he's the character that walked into a movie theater, a Batman movie theater showing in Aurora, Colorado, and he killed a whole bunch of people.

Now, remember this Massachusetts guy who was raised in a very anti-gun family! I wasn't even allowed to play with GI Joes when I was a kid, because those GI Joes had guns! Imagine that! And now this happened! I will never understand what snapped in my soul that day, but I went out that very weekend, bought my first gun and became a firearms instructor the very same weekend. Now, no slam to the NRA; that's how easy it is!

I set out to say, "You know what? This will never happen again on my watch!" Since that day, of course as Pastor Sean said, I've trained over 30,000 people that are actively carrying in the state of Florida.

After James Holmes, there was this guy. (*Another photo*) Anybody knows who he is? I think that this is the Sandy Hook guy; I don't have his name on there. I think this is the Sandy Hook guy who walked into the Sandy Hook church and all that stuff.

**Then ...**

- **2013- Boston Marathon Bombing**

The Boston Marathon Bombing!  
And a slew of others.

During the whole same escapade where Sandy Hook, the Boston bombing, all of this stuff is occurring, (*Photo*) my mother who's right here; she's the one not in the wheelchair but standing up by the horse there. She was working for a hospice at the time and she was known as the dream- maker. This woman in hospice here in the chair, had one last wish as many people did. Her one last wish was to kiss a horse. So my mom would set it up. Or one person's last wish was to ride on a motorcycle for the very first time, or see snow for the very first time; so she bought a snow machine and made snow inside the living room of this person's house. She was known as the dream- maker and just became

very, very well- known with that mentality, because she would take somebody's life and make it drastically improved.

Now after one thousand and seven families that she helped cross the other side, pretty much one thousand and seven last wishes granted, she sadly took her own life with a firearm that I sold her and trained her to use. So the Gun Guy who's sitting there with a mission is just devastated!

And again there's that fire, there's that spark that God has placed in my heart; that leadership desire to make the world a place that she would have wanted to live in, even grows further.

What I did in response was, I really set out to try to understand what makes people tick, to really understand: why is it that ISIS is able to grow? Why is it that radical Islamic extremists can give their entire bodies, beings and souls to a cause, that would make them strap on a vest, and go and hurt people? What was it that made these people so evil, and carry out this evil and ambitions? And then how can we use that on our side? How can the good guys harness the same mentality, the same ideas and bring them forward, and use them for good?

And I figured it out! I sat down one night and I said, "Why is it that ISIS grows?" and I realized that they grow because they give people purpose; they give people purpose. So I said, "You know what? How do we apply that to my mission? How do we apply that to this movement of training people with firearms?"

I set out and I said, "Well first we need a tagline! We need something that people can say." So I came up with this idea of "*Get Armed, Get Trained, and Carry Daily.*" That's what we want people to do! We want people to go out and buy a gun; people who are physically, mentally, and legally able. We want them to go out and buy a gun in whatever state they're in, or whatever country and community or wherever they're at. Go out and get armed! Then we want them to get the proper training. We want to make sure they know exactly how to handle that firearm in every situation, a stressful situation, a non-stressful situation, cleaning that gun. We want to make sure that in every situation they know how to use that gun.

Then we can't make a lick of difference unless there are people at movie theaters or gas stations or just shopping or just sitting in their living room, who are currently carrying. So, carry daily! And in that, I started leading the largest open carry marches in Florida history. That's what some of these pictures are. We've got a lot of these people here, over 300 people at most of my rallies and events in Florida, and the message for open carry isn't necessarily to support the idea of open carry. I support open carry for the primary principle that I don't want the government to tell me how to dress. Right now in Florida, if I want to carry my gun, I've got to make sure that I wear a jacket or a shirt, and the government has a say in what I'm wearing, because I have to hide that gun, okay. I don't like that; which is why I do support open carry legislation.

But in these marches, again you know I'm hitting my purpose; I'm hitting my purpose. I feel like I'm close, but I'm not quite there yet; even though I'm transforming, even though I'm building. I'm not quite there yet.

Then ...

- *2013- Boston Marathon Bombing*
- *2015- San Bernardino Attacks*
- *2015- Dylan Roof Attacks Church*
- *2015- Marine Recruitment Center Attacked*

So again, going back to a lot of these things that really spawned a lot of our movement, it was you know the Boston Marathon bombing, San Bernardino attacks, Dylan roof attacks in the church in South Carolina; and then the Marine recruitment center is attacked in Tennessee. And finally angry Andy that had lost his mother to this type of violence finally decides to start a conversation about radical Islam.

After all of these people, I ended up on the news because I declared my store a “Muslim- free zone.” The message wasn't “Muslims are evil” okay; that wasn't the message. The message was: we had a president in office as the time that refused to even say ‘radical Islam,’ refused to even have a discussion about the actual core issue that we were seeing.

I mean look at all of these people in that short amount of time that did awful, evil things! (*Photo*) the Pulse Nightclub; Dylan Roof! You know Dylan Roof wasn't necessarily with Islam but just anti human life in general; which radical Islam shares in common.

So I have the “battle flag”; it shows you how much this Yankee knows about the “battle flag”. The “battle flag, “it turns out, is actually upside down in this picture. I didn't know that, but I didn't even know it has a right-side up or an upside down; so I caught a lot of flak for that. I used it one time and the idea was: “we're going to battle!” When I posted that sign on the outside of my door that said “Muslim- free zone, “I knew I was going to battle. I was going to battle, not against Muslims, but against political correctness.

The reason I chose these particular characters to put on the slide is because in every one of those situations, in every one of those, there were friends, there were neighbors, there were church leaders and family that saw a red flag about one of these guys, that saw a situation that didn't quite add up.

And they thought, "Maybe I should report this; maybe I should call the FBI; maybe I should call the ATF"; but they didn't make that call.

Do we know why? Political correctness! They were afraid of being called islamophobic! They were afraid of the backlash they would receive by reporting what they saw. And because they failed to report, because they failed to take action, because they were afraid of this political correctness, human life was lost; in a much more substantial way it was.

So I took one for the team and I said, "It's not so bad to be politically incorrect!" I put that sign on the outside of my door, and at the time I knew that putting a sign outside of my gun store saying "Muslim free zone"; I knew it would start a conversation. I didn't know it would start a conversation in every country, in every city in America.

### **Signs on the shop: FLORIDA GUN SUPPLY**

**KKK FREE ZONE**

**Terrorist Free Zone**

**Racist Free Zone**

**Dickhead Free Zone**

After I refused to take my sign down... Oh, by the way, these are the other signs that were never reported on: "KKK free zone," the media didn't want to pick that one up;" terrorist free zone," "racist free zone."

*(Photo)* This guy here his name is Hassan Shibly. He is the leader of the Council for American Islamic Relations in Tampa. Now, for those of you who may not be familiar with the Council for American Islamic Relations, they are an organization that claims to want to enhance the relationship between Americans and people who study Islam, and Muslims across the world.

Well, what you may not know is that the Council for American Islamic Relations was an unindicted co-conspirator to a 2009 investigation, and a bunch of people going to jail for funding terror, and they are designated a terrorist organization by the United Arab Emirates. President Obama who is very pro- Islam actually removed them from his government aids because of these things. I mean, they used to be really good consultants and discuss these matters with a lot of higher-ups, but they actually were removed under Obama; that's how bad these characters are.

These guys filed a lawsuit against me in federal court, for my sign. Now I was in Inverness, Florida, with a population of a hundred and forty-four thousand people. There wasn't a mosque for a hundred and fifty miles. We don't have a problem in Inverness, Florida, with a bunch of Muslims coming in trying to buy guns from my store. I never had one try.

All it was was a political statement on the outside of a private business! Does anybody know what amendment protects my right to do that? The first! Unless you're liberal at which point you don't have any of the amendments to protect yourself!

So after about three months their lawsuit was kicked out; we won the lawsuit by an Obama-appointed judge, and I'm sure that she gritted her teeth when she said the First Amendment protects my right to

have this sign; but she ultimately made the right choice, and fortunately I didn't have to go to appeals court or lose my business.

❖ **Florida's 'Muslim-free' gun store closed to stop a U.S. veteran from going inside.**

(Newspaper article) Along the way this guy, okay, a veteran from California: (Reading the above headlines) What the headline should have read: "The Council for American Islamic Relations pays Chris Martin to put Andy Hallinan's life at risk," because I had the ATF and the FBI show up at my gun store on a Monday morning, and they said, "This guy has purchased a one-way ticket to your store to come kill you." 48 hours in protective custody! Snipers on rooftops, SWAT teams ready to go, and at my every move being guided and directed by the ATF; in 2015! It's okay though, because Islam is peaceful, okay!

Throughout all of this I'm still searching; I'm still seeking. I'm very close; I'm very close. I can feel I'm on the verge of greatness. I'm on the verge of truly understanding what my purpose is and therefore my acceptance.

(Photo) Oh, by the way! A big mistake I made! That's George Zimmerman. America did the right thing by acquitting him in his trial, and I struck up a friendship, but he actually is a racist. Here, meeting with him; he's a bad dude, someone that we don't want to associate with. The trial and everything that happened with that, that was legitimate; he definitely should have been acquitted, but he turned into a bad dude.

(Photo) Oh! As a celebration for my victory against the Council for American Islamic Relations, we launched the Mohamed targets that I just wanted to debut a little bit; those went over pretty well after that lawsuit was over. I thought they were going to sue me again, but they didn't want any more.

## **Part 2 The Mission**

So, that leads me to where we're at today. Again the title of this is "*Purpose, Acceptance and Love.*" You know, I was searching for why movements become powerful, and I looked at all of the charismatic leaders and all of the people throughout history, whether it be ISIS or a positive movement, why is it that these movements grow? They grow because every human is put on this earth with a core fundamental need; this is something that's programmed in the root of our soul. We are programmed to seek our purpose, to feel accepted into a program or a community, and to feel love. And we're not talking about husband wife love; that's great. But we're talking about the true *agape* love that can only come from a Creator who loves us. We are destined to find that purpose, acceptance, and love.

So, when going through these studies that I did of Islam, and how Mohammed had created his movement, and Jesus, and how he created his movement, and understanding the similarities and understanding the differences, I started to get that grasp: if you can help people understand what their purpose is, if you can help them feel accepted into a community, and if you can demonstrate and if you can provide that godly love, like Pastor Sean says all the time, "Love your neighbor." There's a reason that that's a core staple of the ministry here; because it is about that *agape* love and loving your neighbor and loving your wife and loving your kids and showing that *agape* love throughout everything that you do.

So I realized: if I'm able to do that with my movement of people, to get armed, get trained and carry daily, I can then influence people to get off their couch, to go out and buy their first gun, to come through my training program, to carry every single day. Because their purpose at that time in life was to help protect their community; was to be a father or a mother who knowing when they go to Walmart or a movie theater, that their kids are safe and the people around them are safe.

And in the community that they were coming into, my gun store and my training academy, they were feeling the love that my employees and I were giving them because we devoted our lives to making our community safer. It hit our three major elements. But there was still something missing.

I got a phone call after leading all these rallies and events from a guy named Eric Palhof, a friend of mine, who had come to many of my rallies; he is also in Florida. And he said, "Andy, we've got a Second Amendment rally in Broward County, and we're going to be down there and you know, I've got some friends of mine coming down from Pennsylvania." I didn't know who any of you guys were at the time, and he said, "You know we really want you to come, we want you to speak; we want you to be part of this thing and we want you to rally people." Just so you know, Broward County, Florida, this is one of the toughest counties in America for gun rights; it is one of the most liberal counties for gun rights. This is where the shooting at Parkland High School happened.

You know Parkland had just happened, and Pastor Sean was leading the charge to go down to Broward and say, "Look, we are in this together! There is hope; we're part of the Second Amendment community!" So, we went down there with Eric. It was really interesting; I felt a spiritual battle just even getting there. I had two flat tires, two blowouts on my RV on the way there. And I remember thinking, "This has got to be something big! This has got to be something huge; right, nobody gets two flat tires, two blowouts!"

So I go down there and I meet Pastor Sean, and people for the very first time, and I'm just blown away! I sit next to the guy and he takes me out to dinner with Mark Robinson and a few others, and I found that true agape love, right. I meet the guy for the very first time!

All these churches that I'm fired from, and all these places, I just don't fit in anywhere. You know; look at me! And Pastor Sean and his wife, and I just feel this connection and I just feel a need to explore it. And even before I got a chance to explore this connection I get a phone call from Gregg, and Gregg says, "Hey! You want a ticket to Tigs, you know John Teegan's house in Colorado? You want to go shoot some guns out of a helicopter, you know?" I mused for days on whether that was the right decision!!! I said, "Yeah I want to do that Gregg! I really would love to do that, but I've got nowhere to stay." And he says, "You know Kyle and Dayella, they're out in Colorado; give them a call!" So, I fly out to Colorado, and I stay with Kyle and Dayella. And you know the minute I walk through the house and meet them, I mean it's just like family; it's family!

These aren't just people that I met at a rally in Florida; this is family! Throughout the next year I'm helping with Kahr Firearms and I'm meeting Justin and I'm working with Pastor Sean, I'm using these techniques in a very strategic way to generate more knowledge for more people, more people out there to the Rod of Iron. We start using some of my marketing skills that I used for Sony, Gillette, Betty Crocker, and we come together and we spent a year growing a social media audience like no other. I think with Kahr, when I first started they had 60,000 people on their email list; I have no idea what it is now, somewhere in the 400,000, somewhere like that. And with Pastor Sean, same thing!

What we do is we create a very systematized way to use social media to influence people into change. We give them a sense of purpose, a sense of acceptance, and when they meet our community for the first time they feel that love. At the end of the year we had some really great success; we had some really great success, and this spawned an idea that I spoke with Gregg about. I said, "Gregg, I don't understand why when I watch videos of Pastor Sean speaking, and I see this church," where I'm here for the first time," I don't understand Gregg, why every seat isn't filled in the place. I don't understand why there's not a line of people out the door. When you hear Pastor Sean's message, when you hear the idea that we have here, I don't understand why these seats aren't filled!" I said, "What we need to do is copy a lot of the other movements and we need to create a systematized way to help connect people who are seeking, what I would call 'a seeker', to help connect people who are seeking with our mission."

Because this mission, it perfectly for the first time in my life gives me purpose; perfectly for the first time in my life I feel accepted no matter what I'm wearing, no matter what tattoos I have, no matter if I mess up, up here on stage or whatever the case may be; I feel accepted into this community because of you, and I feel that sense of love, that agape brotherly love. And I feel like we need to systematize a way to do that.

So before I get into what we're doing to accomplish that, I was here for that Trump breakfast yesterday and it was phenomenal. Just again walking through the door, everybody greeting me as if I'm an old friend, you know, and most of the people that I'm talking to I'm meeting for the first time. And I meet Gabriela. I was outside talking to her for like two minutes, and she presented me with this theory that I think perfectly matches what I'm about to talk about, about the way that some leaders work and things like that. So Gabrielle if you can take two minutes to just kind of explain to everybody in the room what it was that you explained to me outside that would be really helpful. So come on down; you're going to be able to explain this a little bit better.

### **Gabriella:**

It's a very important point, especially for your new mission. Your purpose is not your success what you may do or what you feel that you can do in your work; it is actually coming from God, and we need to be aware of what God would like from you.

I want to tell you that there is are five major personality energy, and you are so unique and so special in a way that when you were born through your special parents, wherever you were born and the stars were lined up in a certain way, you have a specific energy. (*Reading from different types*)

### **Andy Hallinan**

So the theory is that every one of us fits into one of these modes. Thank you very much; that was perfect. She explained that to me in two minutes and it was really good. It really fits into what we're doing here.

Because what we are doing is we're launching a program to do what I think that we need to do, which is to get every one of these seats filled. I think that every one of these seats should be filled, and I think our parking lot should have an overrunning problem, and I think that we should have people lining

out the doors because the message that we have here is so phenomenal! It's so unique and it definitely gives that purpose, that acceptance and love.

So I want to show you what we're going to do to fill these seats and whether these seats are filled in person, or it's a nationwide movement, I think both are going to happen through this program that we're launching. This program could not have happened without Kerry Williams; absolutely phenomenal! I'm really good at presenting ideas and really good at thinking through things but Kerry is so much more theologically verse than I am; she has built these types of programs before. And Gregg made this perfect match for us to develop this program.

Kyle also played a big part in this because Kyle he is the person that we're trying to transform people into. He is the guy that opens his door to a random stranger from Florida that has no connection whatsoever, doesn't know who this guy is coming in, but has seen him all over the news with the 'Muslim-free zone,' right, and we're going to let him in? I mean just absolutely phenomenal! Kyle played a big part in that as well. And of course Gregg played a great part in that as well, and recently Lowell has come in and worked through this program as well and the team has just been absolutely phenomenal to work with!

This PowerPoint you're about to see may have been seen by others; this was actually created by Richard Panzer. So it has just been a really wonderful journey.

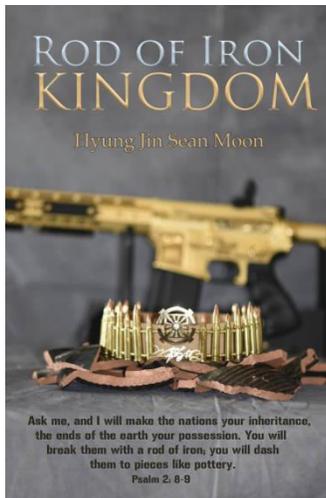

And as a side note, you know Kerry, Gregg and I and Lowell, in building this program -it's all been virtual- we've been on zoom since before zoom was a cool thing, okay, for an entire year, just about every other Friday and talking and working through these things. And my sister- I'm the youngest of four- and she was a die-hard anti-Trump liberal. She's from Boston, and all of the people around her are diehard *anti-Trumpers*.

My eldest sister she quit her job as a leadership development consultant with a really big name agency in Boston, and she bought a little RV, a little van and she was going to do the van- life, travel around the country, do leadership training workshops. Then Corona hits! "Hey Andy, you got an extra room?"

We never talked about Donald Trump; we never talked about the state of the country; we never talked about "*Purpose, Acceptance, and Love*"; we never talked about religious ideas. But she heard us on zoom, Kerry; every week she heard us. She'd be coming in and out. And she had this situation: I couldn't understand why she left her room and went out in her van, and kind of you know hibernated in her van a little bit. She emerged a couple of weeks later, kind of being antisocial; you know, me thinking like, "What did I do? Did I leave dishes in the sink too much? What did I do?"

And she emerges, and she loves Donald Trump! Amen, right! And she's asking constantly now about the Bible. I mean we're sitting there and opening the Bible and we're going through verses, and just the other night I had the opportunity to talk about the Trinity and things of that nature. And it's just been a mind-blowing thing! Just because we were on video chat Kerry, right, and we were just talking these things through!

That's the power of the message that we have, folks! The power of the message that we have! It transforms lives! And we need a systematized way to go out there and meet people who are seeking and present this opportunity.

## *Rod of Iron Kingdom*

### *"THE MISSION"*

So, that is what the mission is all about! The *"Rod of Iron Kingdom"* book, his first book that was published, which talks about Parkland; it talks about all these different ideas that we need to know as a foundational principle of our future and our movement. It is all in there.

So the question that I am going to have, and what I want you to do right now is, I want you to role play with me a little bit. I want you to imagine two things:

1- That you're a seeker; that you don't know what your purpose in life is; that you're not sure why you were put on this earth. You haven't found your God-given purpose; you're still seeking, okay.

2-And I want you to imagine also that you're the flipside of that. You're somebody that is in these seats because you want to make a big difference in life; you really want to go out there and help others understand their purpose.

I want you to look at it from both angles. So imagine that we're in a room with people, guys, and we're talking to seekers who don't know their purpose yet. They haven't met Pastor Sean; they haven't become part of our movement. They don't understand what it is that's compelling them to action, but they know that there's something missing in their life.

And we start with this question: "are you a Rod of Iron Patriot?"

### *✚ Are you a Rod of Iron Patriot?*

- ✚ Rod of Iron Patriots live a Godly lifestyle which focuses on faith, family and readiness*
- ✚ For us, words like "courage, duty, and valor" aren't just cool words to use.*
- ✚ They are commitment. They are a way of life*

Everybody in this room, I would say probably is, right? We're people that have devoted our lives to a mission. But now we have these seekers that aren't sure what they believe in yet, and we ask them,

"Are you a Rod of Iron Patriot?" That's going to grab their attention; that's going to captivate them, and they're going to want to know more.

We're going to explain to people that "*Rod of Iron Patriots they live a godly lifestyle which focuses on faith family and readiness*" and "*for us, everybody in this room today, words like*" *courage, duty, and valor*" they aren't just cool words," that we sling around. These are words of a "*commitment*"; we are committed to a lifestyle; a godly lifestyle.

### ***The Rod of iron Patriot is a good shepherd***

- "*I am the good shepherd. The good shepherd lays down his life for the sheep.*" John 10:11

Now of course, the Rod of Iron Patriot, we're going to explain to these seekers. We're going to say: it's "*a good shepherd*". It's not somebody who's out there angering on Facebook, and being a Facebook troll, right. It's a good shepherd. And we talked about John 10:11, which says, "*I am the good shepherd. The good shepherd lays down his life for his sheep.*"

And one of the reasons that I feel so accepted in this community, in this movement; one of the reasons I feel so much love in this mission, in this movement, is because I know each and every person in this room whether it be the King on down, will lay down their life for me. From the very first moment I met this movement in Broward County, Florida, I knew that! Walking into Kyle and Dayella's home in Colorado I knew that! We live that lifestyle! We live that lifestyle!

### ***The Rod of Iron Patriot is a co-heir with Christ***

- ❖ "*Now if we are children, we are heirs of God and co-heirs with Christ, if indeed we share his sufferings in order that we may also share his glory.*" Romans 8:17

"*The Rod of Iron Patriot*" - this is another really important point- *is a co-heir of Christ.*" Romans 8:17: (Reading the above). *We are co-heirs with Christ!*"

This presentation I'm giving you right now, is actually going to be not in the class itself; this PowerPoint is going to be before the class, to inspire people to join the class. So now, not only are we saying that you know if you want to join this class, it's going to mean that you're going to be a good shepherd. This is what we're going to transform you into; we're going to transform you into somebody that's willing to lay down their life for your neighbors, whether they agree with what you say or what you do, whether they vote for a different president; whatever the case may be, we will lay down our life for them because that is what we're commanded to do.

And we're going to talk about how we're co-heirs with Christ, and the responsibility that goes behind that. Then we're going to talk to the seekers about the problems.

## *American Values Are Under Attack*

- *If America is to continue as a free nation, we have to remember our founding ideals and understand the very real threats that endanger it.*

We're going to say: *"American values are under attack,"* right now as we stand! If we haven't seen that in the last three months, with our rights being degraded massively, quickly, irreversible damage, then we just need to wake up! So we're going to say:

*"America values are under attack, and if America is to continue as a free nation, we have to remember our founding ideals and understand the very real threats that endanger it."* What a perfect message at a perfect time in this country's history!

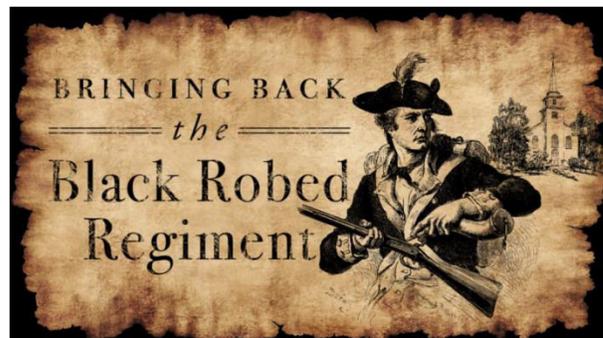

## *Why must America Succeed?*

- ✚ *America is unique in human history*
- ✚ *America is in a central position in God's providence*
- ✚ *The fate of America will determine the fate of the world*

We are then going to explain that it is imperative that America succeeds, because: *(Reading above)* And this program here is going to allow people across the nation, for the very first time, to become part of that fate, to have a say in how this ends; to be able to stand up and make a difference, make an impact with this program.

## *"We hold These Truths to be Self-Evident"*

- ✚ *Rights not from government, but "endowed by the Creator"*
- ✚ *"Black-Robed" Clergy preached about "God-given freedoms" before the Revolution and were the first to grab their muskets.*
- ✚ *The U.S. Constitution is rooted in a Biblical view of human identity, personal sin and God's ideal of justice*

"We hold these truths to be self-evident," and we're talking about rights," not from government but endowed by the creator", like "the Black-Robed Clergy preached about," the "God-given freedoms before they revolutionized and grabbed their muskets" in winter war. These were heroes that were sitting at a church on Sunday morning, and then went out and made a big difference.

We'll then explain, "The United States Constitution is rooted in a biblical view of human identity, personal sin and God's ideal of justice." What a powerful message! For the first time people are going to hear this message; for the very first time!

## ✓ LIMITS on Centralized Power

### Amendment 1

-Freedom of Religion, Speech, and the Press

### Amendment 2

-The Right to Bear Arms

### Amendment 4

-Protection from Unreasonable Searches & Seizures

### Amendment 5

-Protection of Rights to Life, Liberty and Property

"No person shall be ... deprived of life, or property without due process of law."

We're going to explain how the Constitution has "limits on centralized power." Now in the last three months of my life, I don't think that I have seen these limits of centralized power. Have you? Right! Where have they gone? Where have they gone? You know what happened in Milford? A rally of patriotic people coming together and standing up for our beliefs! We need to empower people with the ability to really understand what the First Amendment means.

1-The First Amendment doesn't say, "You have the right to assemble unless there's an emergency; you know, the right to assemble unless we want to make you afraid." The First Amendment says; "You have the freedom to believe what you want to believe; you have the freedom to say whatever you want to

say without the government coming in, and stopping you, and punishing you for that speech.” And you know we have the *freedom of the press*. We have freedom to assemble as well.

2-The Second Amendment: *“The right to bear arms.”* There are many states across the Union, Florida being one of them that have suspended concealed- carry applications. First of all, concealed- carry applications, the idea of that isn't really a right to bear arms; it's more of a privilege. If the government grants you the ability, it's a privilege. But we're not going to get into that. We're going to talk about how recently local and state governments have said, “You either can't carry, or we're not issuing new permits,” by default because they sent all their employees home right. That's a really, really, big deal!

3- The Fourth Amendment: *“Protection from unreasonable search and seizures.”* That's a really important one.

4- And of course the Fifth Amendment.

I mean the entire Bill of Rights is super important, and one of the things that we need people to understand is that the entire Bill of Rights again is not established there only when things are convenient. Freedom is inconvenient for some people sometimes. Freedom is especially inconvenient when we gather, when we empower, and we get people motivated to get off of their pew on Sunday mornings and to become that Black- Robed Preachers out in the community, making a big difference.

Again that's what this program is going to do.

### ***Rod of Iron Patriots Believe in America's Revolutionary Biblical Worldview***

- *Radically different from the anti-Christian, atheistic French Revolution*
- *Radically different from societies based on Buddhism, Confucianism, Islam*

(*Reading above*) or the “peace -loving Islam” Oh! I didn't say that today! Is this public? This is a radically different view of the constitutional freedom.

### **❖ The Rod of Iron Patriot Believes American Judeo-Christian Ideals should Be Spread All over the World.**

(*Reading above*) Okay! It should be spread all over the world! This was an idea, in the Second Amendment community, being the self-defense community... I was in the self defense community six, seven years and Pastor Sean was the very first person that ever communicated to me that self-defense is not just an American trait; it applies to every human across the planet. And he also went on to explain that every creature on this planet has the ability of protection in some fashion, from a snail

with its shell, a slug with its slimy nastiness, all the way up to human beings that have been given the empowerment, the training and the ability, the tools, the Rod of Iron, to defend human life.

We believe in a limited constitutional government. That's not just for Americans; that's for the world. We don't just believe in this for this country here; that's for the world. And we know, and we have seen, that the bigger the government, the smaller the individual. We have seen that, and we have especially seen that recently.

### *The Challenge of "Progressive" Statist Ideologies*

- *Individuals forced to be subservient to the Nation or the "Revolution"*
- *Freedoms of Speech, Religion, Ownership and Self-Defense taken away after Disarming the Population*

*"The challenge of progressive statist ideologies!"* Now remember we're going to give this presentation to seekers, to people who know that there's something that they're called to do; they know that there's something that they're called to believe in. They don't know what it is yet. And we're going to be the first to tell them the challenge and the threat of progressive statist ideologies.

(Reading above)... *"Revolution"* Isn't that a lot of what we hear about today: a *"Revolution"*? ...*"Taken away,"* after what? *"disarming people."* And we know that that happens; we know that enemies of states are created.

Look at what is happening to us on social media! We are being censored, primarily because what they would like to do is dehumanize our ideology. When they dehumanize our ideas, they make us less valuable. Eventually they make us the criminals who should not be armed, who should not have the ability to have self-defense, because we don't have the right ideology. We're the ones that are dangerous. In reality what we are doing is, we are carrying guns because we want to make sure that every human life is protected. We want to make sure that even the people that disagree with us are protected. That's why we own and carry guns. But they make us like the reason that these school shootings are happening, when really it's their policies that are allowing that to go through.

So we're going to show them that they are ultimately going to try to eliminate us as the enemies of the state, and historically we know that we are right.

- *Eliminate "Enemies" of the State*

•

*94 Million Victims of Communist Democide \**

- *65 Million Chinese in the **People's Republic of China***
- *20 million Civilians in the **Soviet Union***
- *2 million Cambodians in **Cambodia***
- *2 million Koreans in **North Korea***

- 1.7 million Ethiopians in **Ethiopia**
- 1.5 million Afghans in **Afghanistan**
- 1 million East Europeans **Eastern blocs**
- 1 million Vietnamese in **Vietnam**
- 150,000 in **Latin America**

*According to the Black Book of Communism, Current data suggests MUCH higher figures that are well documented.*

Now these particular numbers are coming from *The Black Book of Communism* and so we have had some debate internally in this group, in this workshop that we're creating, that these numbers may not be a hundred percent accurate, but you know what?

*" 65 million Chinese, 20 million civilians"*

We look at history, and history paints a very clear picture about what they want to do with our conservative values. They want to disarm us because they think that we are less than human. They want to eliminate our right to self-defense because they believe that we are dangerous, and it's all in the name of this "safer, bigger government" that can protect people better than we can.

If you think that, then Corona should have taught you something.

### ***In the Last Century, American Ideals Have Been Under Attack***

- *Korean War- Liberation of South Korea from Communism takeover by US/UN Forces by Gen. MacArthur*
- *Vietnam War won militarily, but lost through Ideological Warfare*

(Reading the above) Okay! That's a very important point; we're going to be going over this

### ***America Must Fulfill Its Purpose***

- ✓ *Unconceivable without Biblical Foundation*
- ✓ *Vision of Pilgrims and Founding Fathers*
- ✓ *America founded to establish God's Kingdom of Freedom and Responsibility*

And we're going to be talking about how America must fulfill its purpose. Absolutely! We got to have a little round of applause for that idea because these seekers out there, these people, they don't know what they believe, they don't know why they feel this call to their heart; they don't understand. We are for the first time saying, "This is what your purpose is, right; your purpose is to worship God! And in the meantime we need your help to fulfill America's purpose."

(Reading the above) "And this is inconceivable; we cannot do this "without its Biblical foundation." You know, think about the "Pilgrims and the Founding Fathers". Those were the pioneers that built this Biblical foundation in this country.

"America was founded to establish God's kingdom of freedom and responsibility," and that is a fascinating turn of events as well.

### *Rev. Sun Myung Moon's Ministry in USA*

*In 1976, he gave speeches at Yankee Stadium & Washington Monument*

- ✚ *America is meant to be a model nation established by God*
- ✚ *America threatened by communism, family breakdown/immorality and racial divisions.*

Now what we're going to do is we're going to talk to these seekers, okay. These people don't know who we are. These people aren't going to know who Reverend Moon is. These people aren't going to know what our mission is. They're not going to know what our purpose is. But we're going to introduce them.

And what a great way to introduce them with the 1976 speech that he gave at the Yankee Stadium and Washington Monument! That speech! That speech! When I first watched that speech: chills, chills!

(Reading) "America is meant to be a model nation established by God." Again, everything that we are doing in this room, everything that we are saying, everything we believe in was not meant to be in the confines of the borders of the United States. It was meant to be worldwide.

"America is threatened" every single day "by communism, family breakdown, immorality and racial divisions."

Those are really key points. Each one of those is a plague that needs to be stamped out by the re-indoctrination, the rethinking of ideas- which is what this program is going to do. We're going to bring somebody in who's heard all of these crazy ideas, all these crazy thoughts. They've been brainwashed by public schools; they've been brainwashed by universities. We're going to bring them in, because they're seeking. God's opening their heart and mind.

We're going to bring them in and we're going to retrain their ideas to help them understand that communism is not good. Right? Bernie Sanders' idea of a society is not right; it is not good. It is not what God intended.

*"Family breakdown"*: we need to bring that family unit together again. We need to end immorality and racial divisions.

Look at these guys right here! They're all my heroes right here; all my heroes!

So after we talk about Reverend Moon, we bring these seekers into an understanding of who Reverend Moon was. We show them a clip of that video where he was speaking, and we start talking about what is happening in the country right now. We start explaining to them what Newfoundland, Pennsylvania, is doing to help change America, to help guide America. We start explaining to them how business owners can really influence communities across the planet with what they do; they can make a purpose- filled business, like Justin Moon has- a business that gives back to the community, a business that's able to use a lot of its money and resources to help inspire a nation and help restore freedom. Absolutely! Absolutely!

### *The Betrayal*

- *Pastor Sean was chosen by Reverend Moon to be his true heir and successor*
- *Reverend Moon held three separate ceremonies around the world appointing Pastor Sean*
- *Pastor Sean's Mother betrayed the church and teachings of Reverend Moon, declaring herself "God"*
- *Pastor Sean and Justin Moon left Family Federation to continue their Father's Kingdom-building work.*

- *Both brothers left billions of dollars behind to remain loyal and to continue their Father's work in spreading the gospel.*
- *The Family Federation continues to be led down a path of heresy*

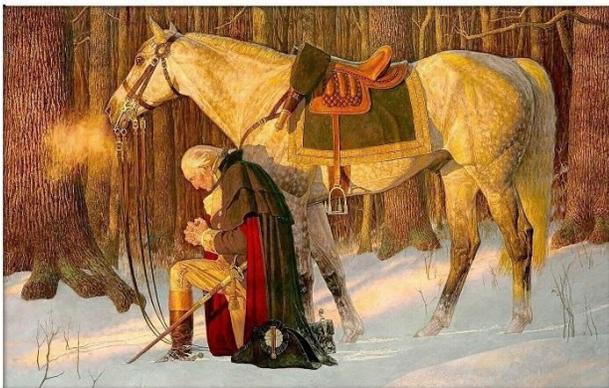

Then we are going to talk about the betrayal. This is not my favorite topic but I would rather them learn from us than Wikipedia.

*(Reading)* We're going to teach them that "Pastor Sean" .... not only was he chosen but there were "three separate ceremonies" across I think two different continents, at least around the world, that appointed him as the true heir and successor. We're going to explain that unfortunately "Pastor Sean's mother" ...  
*(To the end)*

We're going to explain to these seekers just what it meant to leave everybody they knew, all the businesses and wealth that were garnered, and they left it all to continue the real work. What a decision! What a decision! I'm honored to be part of this!

*"The Family Federation continues to be led down a path of heresy"* and we are here fulfilling the true work that was started.

***It is time to reclaim America for Jesus Christ.***

Guys, I'm here to tell you and we are going to be telling the secrets that come into this program; that it is time, right now, not tomorrow, not the next day; it is time, right now, to reclaim America for Jesus Christ!

Now, a quick word about this picture: Kerry found this picture of George Washington praying before a battle! One of the things that we are going to need to explain to the seeker that comes in and wants to be part of this, is that it starts with a relationship; we need to get on our knees before our Father and we need to say, "Empower us! Open our hearts! Open our minds! Show us the truth! Show us the way! Show us the real vision!" This is such a powerful picture! I actually have it on the background of my desktop now. I love it.

## *Jesus' Teaching about the Kingdom*

- ✚ *But seek first his Kingdom and his righteousness, and all these things will be given unto you as well. **Matthew 6:33***
- ✚ *And Jesus went about all the cities and villages, teaching in their synagogues, and preaching the gospel of the Kingdom, and healing every sickness and every disease among the people. **Matthew 9:35***
- ✚ *These twelve Jesus sent forth, and commanded them, saying, Go not into the way of the Gentiles, and into any city of the Samaritans enter ye not: But go rather to the lost sheep of the house of Israel. And as ye go, preach, saying, the Kingdom of Heaven is at hand. **Matthew 10:5-7***

So we're going to explain to the seeker Jesus' teachings about the Kingdom. This is a revolutionary idea for most people.

(Reading all the above) That is the message that we are going to be bringing forth!

### *The Kingdom Restores the Original Purpose of Creation*

- *"And God blessed them, and God said unto them, **Be fruitful, and multiply**, and replenish the earth, and subdue it: and **have dominion** over the fish of the sea, and over the fowl of the air, and over every living thing that moveth upon the earth." **Gen 1:28***
- *Be Fruitful- Mature, personal relationship with God*
- *Multiply- God-centered Marriage and Family*
- *Have Dominion- Sovereignty over Creation and Territory*

*"The kingdom restores the original purpose of creation."* Okay I'm going to say that again: *"The Kingdom restores the original purpose of creation!"*

(Reading the above) Genesis 1: 28 ...

There are three things that the King teaches us inside of the *Rod of Iron Kingdom* book, and this is something that we're going to be bringing to other people as well.

The three commands that He gives us are:

- To *"be fruitful"*: so we want to *"mature,"* we want to *"have a relationship with God"* and we want our seekers to have that as well.
- We want to *'multiply with a God-centered marriage and family'* and
- We want to *"have dominion: sovereignty over creation, territory"* property; so on and so forth.

Oftentimes, you know, we think of these as second nature, but imagine somebody who hasn't heard these ideas before, because they've grown up without a church, without God; God is the government or whatever it is that they worship. We're going to be bringing them in and showing them the truth.

### *God's Kingdom Comes ON EARTH*

- ✚ *This, then, is how you should pray: "Our Father in heaven, hallowed be your name, **your kingdom come, your will be done, on earth as it is in heaven.** Give us today our daily bread. And forgive us our debts, as we also have forgiven our debtors. And lead us not into temptation, but deliver us from the evil one. "Matthew 6:9*

God's Kingdom is coming right here on earth! Matthew 6:9: this then is how you should pray, and everybody, say it with me right now: "Our Father... on earth.... from the evil one." Amen! Amen, guys!

### *God's Kingdom will be protected with the Rod of Iron*

- *Ask of Me, and I will give You  
The nations for Your inheritance,  
And the ends of the earth for Your possession.  
You shall break them with a rod of iron;  
You shall dash them to pieces like a potter's vessel. Psalm 2:8-9*
- *Now out of His mouth goes a sharp sword, that with it He should strike the nations.  
And he himself will rule them with a rod of iron.  
He Himself treads the winepress of the fierceness  
And wrath of Almighty God. Revelation 19:15*

(Reading all the above)

### *We are Created as Children of God*

- *By fulfilling our portion of responsibility, human beings can inherit the creative nature of God*
- *Human beings were not created to be only servants, like the angels. We are the sons and daughters of God.*
- *Even Adam and Eve had a portion of responsibility in the establishment of God's kingdom. Obedience would lead to Heaven, but disobedience would create hell.*

So we're going to explain to these seekers: (*Reading the above*)... "Human beings were not created to be servants like the angels." The Bible says we will judge the angels; it shows us an idea of our status. "We are the sons and daughters of the Living God." (*Reading more*)

### ***Battle between God and Satan***

- ❖ *As God works to establish His Kingdom, Satan works to sabotage God's efforts.*
- ❖ *God needs men to faith to stand up for righteousness and resist the satanic providence and temptations.*
- ❖ *While God can lead us into battle, human beings must fight on the front lines in order for His will to be done.*

(*Reading all the above*) "The battle between God and Satan": this is something that we face every day. That's what a Rod of Iron Patriot does! That's what we do every day here in this ministry; that's what you all are part of, and that's what we're going to get people to really understand.

### ***Men of Faith & Action***

- ✓ *Abraham, "Father of Faith", a Militia Leader*
- ✓ *Moses who revealed 10 Commandments and the Torah was a Prince and General of Egypt*
- ✓ *David was a Warrior King*

*"Do not think that I have come to bring peace to the earth. I have not come to bring peace, but a sword." Matthew 10:34*

We are going to transform people into "Men of Faith and Action." (*Reading all the above*) You know people look at the Founding Fathers; they look at the stories of the Old Testament, they look at the stories of the New Testament, the Disciples, and say, "All those people lived so long ago! We don't have those opportunities anymore; life is kind of boring. We've got *World of Warcraft*; we've got video games we need to play. We've got *Call of Duty*."

Well, we have real life here guys; we have a mission to fight. We need more warrior kings; we need more princes and generals; we need more militia leaders; we need people right here today. We have the same opportunities and responsibilities as the Founding Fathers! We have the same opportunities and responsibilities as the Founding Fathers!

(*Reading*) Matthew 10:34 says ...

## *Kingship of Believers*

- *Kingship through Christ, not Government*
- *Government, as the "Archangel," is in a Servant's position*
- *Centralized State Authority MUST be LIMITED*

We're going to talk about (*Reading above*)

## *War Against God's Kingdom*

- *Nazism & Socialism= Satanic Imitations promising "paradise"*
- *Individuals, subservient to "Dictatorship of Proletariat," expendable*
- *Ignores Human Sin. Worship Leaders who create Satanic Tyrannies*

Now look at these wars against God's Kingdom in history! "*Nazism and socialism,*" all right You know everybody in America today, if they don't agree with you you're a Nazi automatically, okay; both on the left and the right. We all throw that around all the time.

We're going to exactly define what Nazism is and what socialism is ... (*Reading the above*)  
Absolutely evil!

## *Providential Election of 2016*

- ❖ *Election of Hillary Clinton would have solidified pro-abortion, anti-2<sup>nd</sup> Amendment, anti-Christian agenda nationwide.*
- ❖ *President Trump, akin to King Jahu, cast out evil King Ahaziah and Queen Jezebel, who killed many of God's prophets (2 Kings 9) and instituted child sacrifice*

Take a look at this one here (*Photo of Hillary Clinton*)! Anybody knows who that lady is right there?  
The wicked witch!  
(*Reading*) ...

## *Providential Election of 2020*

- ✓ *Government Control of Religion vs Religious Freedom*
- ✓ *Pro-infanticide vs Pro-Life*
- ✓ *Gun Control/Confiscation vs Right to Self-Defense*
- ✓ *Socialist Control vs Private Property/Freedom*

So, the providential election of 2020! This is what we're up against ... *(Reading)* That's what's coming up!

### *Call to Defend God's Kingdom*

- *Believers called to defend God's Kingdom, which guarantees rights of ALL*
- *Called to fulfill the 3 Great Blessings*
- *"Warrior" Kings & Queens*

*... To Him who loved us and washed us from our sins in His own blood, and has made us kings and priests to His God and Father, to Him be the glory and dominion forever and ever. Amen. Rev. 1:5-6*  
*Hold fast what you have, that no one may take your crown. Rev 3:11*

So we're going to give them a choice, guys; I mean we're going to give them a choice! They are being called, these seekers that are coming into this program! They're coming into what's called an orientation. That's what this presentation is; it's an orientation. We're going to give them a call to action to defend God's Kingdom.

These believers are called to defend God's kingdom ... *(Reading)* Yes. Amen! Amen!  
 We read these two together! Revelation... *(Reading)*... Amen!

### *How You Can Get Involved*

- ✚ *Looking For Leaders to inspire and mentor the next generation of Rod of Iron Patriots*
- ✚ *6 Weeks Leadership Training Program*
- ✚ *Disciple the next generation of the Rod of Iron Patriots*
  - *Enhance your own skills*
  - *Economic benefits*
  - *Become part of the Great Awakening to bring America back to a Christ-centered freedom-loving country.*

So we're going to give them an opportunity, and this is an opportunity for you guys as well.

Everybody watching on YouTube, if you're watching on the 'Andy The Gun Guy' page in which I shared this as well; I want everybody who's watching this, and who's watching this far, whether you're here in the room or you're at home watching this on YouTube or Facebook, I want you to understand that there is a way for you to get involved.

There is a way for you to get involved in the community and the movement that I have been talking about for the last hour here, and how special it is. There is a way for you to find purpose in your life; there is something greater. There is something that you can find and devote your life to. And it will feed you just as you feed it. It's not a never-ending requirement; it's not turning you into a slave. It's

turning you into a purpose-filled person; it's turning you into a warrior king or queen, a co-heir of Christ.

*(Reading: How you can get involved)* "We are looking for leaders ..... And as a leader you get to enhance your own skills. There's nothing that enhances your skills like training other people and helping other people understand their purpose! You get economic benefits because as an instructor for this program -people actually pay for this program, they join by paying- and you get a portion of those proceeds for your time. You know we're asking a leader to give six- weeks- worth of classes. They should get paid for that, and I think that Scripture also benefits that.

So as you're an instructor you go out and you find your 12 people to mentor and disciple. Each one of those 12 people pays a certain amount, you get a portion of that amount for your time and your commitment, as a thank-you for spending and sacrificing your time away from your family, away from your work, away from any other obligations you have. That's our thank you for that!

And you become part of the Great Awakening. This, in my opinion is going to be the Third Great Awakening on this planet; that's what this is going to be. This is how we're going to do it. We're going to "bring America back to Christ and back to a Christ-centered freedom-loving country!" Amen! Amen!

***Regardless of religious or ethnic differences, our nation's identity and freedoms are under attack***

***Let's Work Together to defend and build God's Kingdom!***

So, guys, "regardless of religious or ethnic differences, our nation's identity and freedoms are under attack!" So I'm asking every person in this room, every person that's watching on YouTube, every person that's watching on Facebook, every person that sees this message later on, "Let's work together to defend and build God's Kingdom here on earth!"

## Pastor Hung Jin Sean Moon

Thank you Andy Hallinan! Praise God! Praise God Almighty! Beautiful! SOS come on up! Please join me in prayer real quick:

### Prayer:

Father, we thank You for the beautiful presentation given to all of us and across the world by our brother Andy. Thank you for empowering us and giving us purpose and mission. We thank You for the great Word that we heard today, and the study of Scripture, and understanding that we must become better shepherds to love You and love our neighbor; that we must be committed and be brave and courageous, and have a sense of duty and valor, that is part of our life and our lifestyle.

God, we asked You to build up this program, and build up the folks who will be joining this program, to they become themselves warrior kings and priests, where they will also mentor the next generation, next teams of shepherds that will be coming up through this type of great work, in a program done by the hands of You and your guidance and your Holy Spirit, animating all the folks that have freely gathered together to put this program together.

We thank all the helping hands that have made this program possible, and we pray for the success of this; that it may do your work and your will; that it may be part of bringing people to the Providence and understanding the purpose of this central nation, America, that we must protect. And that the world will change if America falls; the world also will come into a great time of darkness and dictatorship and evil that will rule over the lands.

We pray for all those who are of conscience and know in their heart of hearts, that God is calling them for a time like this; that we must stand together here, at this frontline, and we must defeat the different ideologies and Satanist doctrines and programs and systems of government that are trying to be implemented here and that are trying to aim to destroy America and remove the shining light on the hill, the example for the rest of the world, that freedom and responsibility doesn't lead us to perfection, but it leads us to the opportunity, to become perfect in You and to seek You freely.

God, we know that You do not want robots, You do not want automated programs, AI, for your relationships. You want free- thinking free- loving individuals who are made in your image, who freely choose You, voluntarily. And that can only happen when a nation is free.

Father, we thank You for your trust in humanity. We thank You for giving us free will, because we also in our weakness turn from You, and we harm You, and we scar You, and we bring You great suffering and pain through that free will. But You never take it away. You give it to us as the last remnant of hope that we will turn to You and understand the wickedness of our ways; we'll turn from our sins and we'll turn back to You, our God, the fountain of goodness and the fountain of truth and righteousness, and that we ourselves will find our purpose, our mission, in relating and deepening ourselves in relationship and knowledge of You.

We thank You so much for this great presentation today. We ask that all the folks that are gathered here be inspired and touched by the Holy Ghost, and that through us You will build more warrior kings and priests, that will lead the nations and that will rule them with justice and with the Rod of Iron; not to bring tyranny, but to bring protection and defense and empowerment of private property,

and people to have dominion over creation, and have the right of becoming the rulers of this land and the rulers of even those that will judge the angels. But that we'll do it in your image and as a shepherd in the image of the Good Shepherd: 1st Peter 5.

Thank you God, for this wonderful time of study! We pray all these things, reporting these things with all the blessed families that are gathered here. We pray this in your precious name. Amen! Amen! And Aju!

All right folks! SOS come on up! Let's worship God, praise Him! One more time, let's give it up for Andy Hallinen! Great presentation! Praise the Lord Almighty!

*(Songs)*

Hug your neighbor folks! We'll meet at the gun range and the True Mother Memorial after lunch. God bless you! Bless your neighbor- elbow bump!
