All right! Thank you. Thank you, everybody!  
What a beautiful day! What a beautiful day!  
Well, I would like to welcome you, to our  
Second Rod of Iron Freedom Festival, or shall I  
say: welcome to the protest against Covid  
tyranny in America! Kahr Arms is proud to be  
the main sponsor of this event in partnership with  
the Rod of Iron Ministry.

What a breath of fresh air! We have been masked  
and suffocated for the last seven months due to  
COVID. As it turns out, COVID is less likely to  
kill you than the common flu. Yet, we have shut  
down our economy and subjugated ourselves to  
house arrest. Hundreds of thousands of  
businesses have been called "non-essential" and have been forced to close. Millions of Americans have  
been laid off and told that they do not have the right to work.

Our governors sent Covid patients to nursing homes, killing thousands of residents. Our President caught Covid and went back to work in three days. These medical emergency powers given to the government must be revoked. We the people are mad as hell, and we are not going to take it anymore.

The media tells us that the President that we elected is not legitimate, that he is too rude and too crude to be allowed to serve another term, even though he got us out of foreign wars, made peace in the Middle East and gave us the greatest pre-COVID economy of the last century. Instead, they want us to vote for senile Joe Biden, who in an interview with Anderson Cooper on CNN said "bingo!" when Cooper asked, "What do you say to gun owners out there who say that the Biden administration means they are coming to take your guns?"

We are Americans and we know why 1776 happened. The redcoats came for our guns and they got the bullets instead. I'm just thinking if Jo gets in and they come for our guns, we just may get 1776 take two. I hope it doesn't come to that, but just in case, we have a lot of ammo (ammunition) in Tommy Gun Warehouse, so make sure you stack up.

We all know that in this election cycle, the Demonrats will have their full toolkit of voter fraud arrayed against our President. Dead people will be voting, mail-in ballots will magically appear after the election; people who have moved out of state will mysteriously vote and illegal aliens will be voting with driver licenses handed out to them by the Democrats.

If we want to avoid take two of 1776 we need to win this election for President Trump with enough votes to overcome all the voter fraud. Get out and vote! Make sure everyone you know gets out and votes for Trump. I know that some in our community are upset at the abuse of regulatory authority by the ATF in the bump stock ban and now the ruling against Honey Badger by Q Firearms. I agree with your righteous outrage, but under the current circumstances where the Demonrats are coming for all of our rights from the first to tenth amendments, we have no choice but to vigorously support our President in our nation's hour of need.

With that said, let us remember that our forefathers faced real crises. They won the Revolutionary War, they won the war of 1812, they kept the country united in the Civil War, they won World War I, they overcame the 1918 influenza; they defeated the Nazis in WWII, and they beat communism in the Cold War.

Let us not be the generation that fails to meet the challenge of the day!

The Demonrats have become the communists. Let us make sure that they and their Chinese communist party allies who paid us with COVID are defeated on November 3 with a Trump landslide.

God bless you and have a great day. Thank you.
