

## **Rev Hyung Jin Sean Moon- 2<sup>nd</sup> King of CIG**

**Korean service at the True Parents' Memorial during the 21 day WS**

**Oct 28, 2020**

*(Unofficial notes)*

Good morning! There are so many Asians in the forest! This is why people say Moonies are a cult. You are receiving OSDP through Rev Yu. Even though he does not have a great health, he is giving us True Parent's thoughts. Through OSDP and CAUSA all young people have come to the frontline.

### **Training:**

You have a great time with Victor Moon, a small guy who is able to choke a lot of people. You might be doing this martial arts' training for the first time, but you can overcome some challenges and be victorious for God. Through blood, sweat and tears you come close to God. You understand the nature of alpha male, and develop your inner nature. You can control your mind and body, and help develop each other by doing this.

Before you started maybe you were anxious, nervous. Men should be able to overcome fear. As you train and develop you become stronger individuals. You may continue to be nervous, but you start having fun at seeing others being choked.

Through training you get to fight someone bigger than you, and you get nervous. This training is not tae kwon do kicks and punches; it is fighting with all your strength to overcome a big guy. Young people, you get to learn how to protect yourself. **Small people can beat big people not through strength but through skills.** In normal sports big people are stronger and win. In MMA, they put somebody on the floor, pound on them, and win if they are bigger.

In Brazilian Jujitsu (BJJ) a small person can beat up a big guy through skills. BJJ is the foundation base for Peace Police- Peace Militia (PPPM) The muscles in the rump and the legs are stronger than the chest; so your legs will protect you and be your primary weapon.

**Triangle choke** is the most effective; you do it with the legs. In judo you both end up on the floor, but since their rule is that you lose after 30 seconds on the floor, they could not develop grappling techniques. BJJ combined with judo. You girls, when you do jujitsu training you learn how to fight and defeat a big evil man who tries to sexually assault you. *(Victor and Kata demonstrate how)*

CIG is a very strong place. Girls can also do the triangle choke. In 8-10 s, the guy stops moving; in several minutes he will be dead. You want your daughters and granddaughters to protect themselves; they have that responsibility. The sexual organs of the person are the holy temple. Through PPPM training you can protect yourself when the predators attack.

85% of the blue belts end up leaving the training. They are emotionally and physically tired and bored. For 2 years they have been beaten up. No matter how much they practice, they have kept on losing. They cry and want to quit. Young men living in the internet world think they are strong but they come here and get beat up, and see that they are not. Women, some smaller than you can beat you up, and you realize that the propaganda was fake.

***Kook Jin Nim called!*** Applause for him!

### **The Queen:**

Isn't it great that the Queen of CIG does this training? She is not sitting on a chair telling people what to do. She is doing what her husband tells her, sky diving, jumping into the frozen water, etc... She was an artist with fear, but now she is strong, doing everything for True Father.

She is also driving a motorbike. With a small mistake on a curve you can get hit by a truck and get killed; you cannot survive. I doubt that normal husbands would ask their wife to do that. The 2<sup>nd</sup> King is not only her husband but he wants to give glory to True Father. Through the grace of God we can train in this and give the glory back to God. Our Queen is a super woman. She is now riding a 900 CC bike! The King saw how powerful and dangerous this was, and he trained her slowly, and comforted her. Now she can go around as a strong woman of God. How happy True Father must be! Now the Rod of Iron Riders is in the first phase. There will also be boating licenses and procession of boats in Florida, and we will all have a Trump flag.

The Queen could live a very comfortable life but he does not like that. He wants his daughters to be responsible. The Queen can teach the Bible and the Divine Principle; she is also a Peace Police woman and can overcome things she is afraid of by training, and she can develop. Through practicing she can now beat younger and stronger women and has confidence in herself. True Father wants that kind of daughter! He does not like fearful women. Through PPPM training, women can develop, face their fear and anxiety, reduce them, and overcome them. Men are much stronger than women. Shin Joon who is only 14 years old, can beat up all the women all the time.

### **Philippines knives:**

Women see how much stronger men are, and get out of their illusion. They realize why the King says to do BJJ and Philippines knife training. Why? Because women are weaker! People don't realize how dangerous knives are. Young people also need to do knife training. Women are scared to take an attack. Training helps them think and have strength to fight. "I will not lose. I need to find strength to be able to live." Anyone who combines BJJ and knife training can be very dangerous.

In Japan and Korea, women traditionally carried a small dagger to protect themselves; it was also used to commit suicide if sexually attacked by men. That was the archangel method. (*The King shows the dagger he carries on himself*)

Knife training alone is not enough; it needs to be with BJJ. Then you can protect your home and your holy temple. You can choke the attacker.

### **Guns:**

The Kahr pistol created by Kook Jin Nim is very small. Men can be 8 times stronger than women but through the Rod of Iron technology and BJJ training you can be stronger than a lion. Women should be lionesses. Fake news tell women fake propaganda, that they are stronger than men, but only those who practice can be lionesses. Others try to brainwash themselves each day that they are.

In training they will sweat out, bleed, and through that they will continue to develop. You will continuously get hurt as you train, but you should get hurt. Through this you will become stronger; you develop resistance.

Stop thinking you are smart. You should train your children and grandchildren, and tell them not to worry. They need to understand the **benefit of being hurt**. If blood runs and they cry, why act crazy? It's only blood! Through training you can guide others. You also need to know how to give pain and spasm in an attacker's legs. They will scream with pain.

### **Water:**

A woman who menstruates loses mostly water, so she needs to drink one and a half time more water. Young kids are not used to drinking enough water. PPPM training is not the same as living a normal life. If you don't drink enough water, you become stiff; if you have spasms, drink water. When you wake up you should not drink coffee, you need water. One liter of water is lost through the night by breathing. Young people were training and had to sleep

outside in a sleeping bag; they woke all wet from sweating, as if they had taken a shower. The body needs water. We can only survive 3 days without water. As soon as your body wakes up, it wants water. If you drink a lot, you pee a lot; that's what you can be grateful about.

If you work a lot on the computer, after 4 hours sitting, stand, go to the toilet, and drink more water. Genesis is about water. We can't live without water. If you drink a lot of water, you will see your day will go much better. Older people, if you need to pee, don't wait just because I am here. Just go! Older folks can get bladder infection. Drink a lot of water, and give it back to nature, to the trees and the flowers! CIG is not about cities. It's about sovereignty: owning land, a house, developing your land, planting fruit trees etc.. Rabbits are good because in one year they can have one hundred babies. They are good for meat and fur.

When you don't drink water, pee is lost. If you drink a lot of water, your pee is lighter; if it is yellow, it means you do not drink enough water. People don't know and worry about the color. We need to drink a lot of water. You can regulate your body through water. Most people don't understand how powerful water is. It also helps you with the amount of stress you feel.

A stream from the top of the mountains: you can hear the sound of the stream and see fishes. I will make such a lake with cheap fish in it. When you are training you will catch and release them into the lake.

### **Ice training:**

We will make a natural pond to do ice training. I did such training under - 30 Celsius. I had to break the ice to do ice training. You make a hole in the water and you can stay 1 or 2 mns, potentially 3. Some people can become paralyzed or die. You should never do this training alone, but with others. When you do ice training, stress comes to your body then your immune system is strengthened. After 1 mn, come out and recover. Next day, do it again. This is the natural way to boost your immune system.

You need to learn natural ways to treating illnesses. When you have the flu, you shiver and want to cover yourself with blankets, but your body needs to be shocked, and react to develop your immune system. Soldiers with the flu jump into ice water, and recover from it. This is something you really don't want to do, but you need to breathe deeply in freezing water. The first 90 seconds are the worst. If you keep on going with breathing techniques, you can tolerate the cold, and when you come out, your body is warm. If you fall asleep in ice water you die. I was 5 mns in ice-water challenge; the Queen too. You should never do this alone or you can die. You need someone with you.

Modern civilization wants comfort but you become weak and die. Through PPPM training you become stronger. Through hydro therapy you become much better. Cold shower is not just good for condition, but is good for health.

When True Parents see their sons and daughters living in an active way, even elders, they are happy. You need PPPM for all ages. You need to **make yourself deliberately uncomfortable**. By doing this as training you keep a young mind. Through cold showers you become younger and your system improves. Grand -fathers and mothers you can do that too, right? You might not be able to do the same as young people but you can do cold showers.

### **120-bow condition:**

How good is that for your body! Your leg muscles will be better. Do not complain about aches and pain. You need to know how to resolve your pain, your back pain etc... You have not done any training! You have to keep on training your body. That's why 120- bow condition is good for you spiritually and for your body. You can pray as you bow. Bowing will allow the blood to circulate. 10,000 steps are also good for the elderly, but you should also do 120-bow training. 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup> day, the legs hurt, but you start getting used to it. Your body will get stronger, and you will become younger.

As you bow you ask for: 1- End of communism, 2- Victory of True Parents, 3- Victory of CIG!

Some people become proud as they do the 120- bow condition. Only do it for the glory of God and True Parents. Nothing else is important. A healthy body is important but you do it for the glory of God, the end of communism, and for CIG, not for health. You should not be comparing yourself to others. 120-bow devotion is only to **give glory to God**, and for the **destruction of Satan's blood**. Also you become healthy in body and spirit, you will experience peacefulness.

Do it together and support each other. Do not compare, but think "I want to train and be like that." If somebody has a better body shape, it should be your motivation to get better. People are lazy. Criticizing other people is not part of the CIG culture.

### **Safety:**

*(A big slab of meat is being hanged outside and a few people, one being the Queen, are asked to stab the meat with a knife)*

*(Demonstrations: being attacked and defending yourself with BJJ plus knives or guns)*

PPPM is a mindset. You need to be aware of your surroundings. You are there to protect villages and towns; through PPPM our mentality changes. If you go to your car, and wait for your husband or children, and you look at your phone, you don't know how irresponsible this is! As soon as you get into the car, lock the door to protect your children. That is police mentality. Most people don't think of it, but PPPM live like that. These small techniques will protect your family. BJJ and PPPM is the foundation through which you learn life training.

If you stab someone with a knife, it can go very deep. When you hit the blood vessels the blood flies out. Nice people need to understand training, because thugs and burglars can get you. You need PPPM because you have been tricked by fake Hollywood and you don't know about safety, but you need to know.

*(The King asked a 67-year old Japanese grandpa trained in the Special Forces, to stab the meat with his own dagger. He has received a lot of training, and he cut a very deep dash. The King also asked a lady who looks weak; she did it too.) (3hours since the King started)*

People can protect themselves with knives; even a skinny woman can stab straight in. You need to protect yourselves from knives. There are ruffians in shopping centers or restaurants.

### **Different sorts of training:**

A person who cuts a chicken head does not need a knife; you can just cut off the head. If you have not killed an animal before, raise your hand. Most of you have not. If you do, you can feel gratitude when you eat. The satanic world is teaching us with fake media. How arrogant we have become! When you kill a pig, you should be grateful to God. That should be an automatic reaction. In school you received a slave education and you became very weak.

Father was living in a village in North Korea, so he had to do this; women had to do that as well. The men do not realize they need to be kings and shepherds; they need to be very strong. You should be leading from the front.

Look at the queen. She does not order people around. She trains for a time of emergency; she trains in the wilderness, but she also trains through Father's words. She can't swim; her mother is a good swimmer, but she can't swim. Give a round of applause for the Queen! *(Applause)*

In Hawaii, True Father sent me to do scuba-diving. When I was swimming, I saw sharks; it looks like they were sleeping. On land, you have your weight on your feet; in the water it is different. At night you don't see the directions, so you need to watch the bubbles; the deeper, the darker. You see the vastness. In the sea I could see a whole variety of fish. Then I saw a shark swimming; they change color, so you don't see them. He was even shooting around. How

amazing it is! Korean dramas are women porno! We have become entertainment slaves, so we don't realize how amazing nature is.

### **Probiotics:**

Go to nature! Quit video games! If you take vitamin C, D, and zinc, COVID will not stick on you. Kimchi has a lot of vitamin C; fermented food has great bacteria and increases the immune system. Have pro-biotic food each day; it protects your immune system. With kimchi you have probiotics each day. Now in the US people make kimchi. People who have scurvy do not have enough vitamin C.

### **Pigs & bears:**

Pigs multiply very quickly. Even though they bathe in the mud, they are not dirty; their skin is clean.

In Alaska they have grizzly bears. Human do not know how to behave in the presence of bears. Mother bear will get angry, as she defends her cubs. Black bears kill the greater amount of people, even in PA. You should not eat bear meat because they have worms. When Kook Jin Nim fought a bear, he skinned it nicely and cooked it well, so we would not get worms. You can't make sashimi from bear meat. If worms get to your brain, they will dig around it and you can die.

### **Nature:**

Ordinary citizens do not realize how much protein is in eggs- for example in caviar. God said human beings should have dominion over creation. Anyone who has never tried to eat a worm raise your hand! You will need to do that here as training, especially young people! You should get closer to nature. Instead of reacting against insects, you should think of them as food. Plants take nutrients from nature around.

Knowing nature can be life or death emergency, if you are lost in nature. Most people will die 2.2kms away from where they have parked their car. Most of us have a dominant leg, and we will go in circle a few times in the direction of our dominant leg. So we need a compass. (*The king shows us his compass*) If you shout, "Please save me," your situation will become worse. (*The king shows us his whistle and whistles with it*) You can whistle "SOS" through the Morse code. Then you can wait an entire day and still be OK. You can also make a fire from a spark.

In CIG we need to shoot with the Rod of Iron, but we must protect nature. Through the 2<sup>nd</sup> Amendment right, citizens can protect their land, and they can do PPPM with their children.

### **Some points:**

--- (For a while there were technical problems and translation was not clear. Here are some points)

-Jo and Hunter Biden were sexually assaulting children, and got millions of dollars from China.

- The 2<sup>nd</sup> generation Academy did a lot of work.

-Most of you from Korea and Japan never shot a gun.

- The Vulcan cannon can shoot 6,000 rounds a minute- 100 rounds a second! Isn't that amazing! Any machine looks like nothing compared to it. We need to be grateful to True Father.

-We can carry the Constitution of CIG in our heart and mind. Father who is the King of Kings and the Lord of Lords gave it to us. He gave us a country of freedom and responsibility.

-All people using mail-in voting will be leftists; conservatives will vote in person.

--- **No translation:** *The King spoke of Google, Facebook, ATT, the Rothschilds, Epstein, Ghislaine Maxwell, the CIA, Israel's Mossad, the Nazis, and the Gestapo. He talked also about President Kennedy, the Mossad, and the CIA together. Then about Biden, bikini girls, free sex and Mark Twain.*

### **Government education**

It's easy to replace God by government. Your parents take you to church with good intentions, but at school they teach you communist things, and you end up not believing in God. "Through peace we will change the world! My parents weren't smart enough. My professors wrote books and papers." These teachers say, "Your parents are stupid! You are the next generation; you will create the next utopia." Socialism is communism and is Satanism. They support abortion; they are against marriage and they encourage free sex. They bring young people into a cult, and they will kill anyone who is against central government.

Christians support freedom and responsibility. Young people will spend the next 20 years of their lives paying their college debts. Money landing institutions make so much profit from that. Universities get paid; Harvard receives funds from China and is pro-CCP. The academic elites are bought by the Chinese communist party. It is seen as the world center for inter-religious studies and is funded by Communist China and Islamist Saudi Arabia. They give false information on Christianity.

In CIG centralized education is illegal. The best education possible can be acquired through competing with other schools. There will be no government tests created by a national board of education. They have no relevance; they do not help anyone to develop themselves, to create businesses and serve people in the best way possible. State education creates complete fools.

When students are in state school they do not get practical education. Why don't these schools teach how to create and maintain assets? Why when you are 22, don't you know how to own and cultivate land, and be responsible for it? Why don't they teach about buying gold, silver, having business assets? Why don't they teach about looking for a home and how to keep PPPM?

Instead of spending 25 years paying college debts to that education system, young people should buy a house. Paying debts means being slave to the system. Why don't they teach practical things and how to create assets? Citizens are being fooled by satanic style -based families.

There is no royal family that can teach how to create and save assets; no citizen receives this education. Instead they teach gender studies, which is irrelevant to society. They do not want citizens to become rich; they want them to have debts. This is making citizens of CIG fail.

From a young age, people should have investment mindset: how to be a business owner, and about the value of a big family. Instead they teach that babies are a burden. How is it possible that mothers see children as burdens, and not as assets? Even animals love their offspring. People are worse than animals; they see children as liabilities. They count the cost of raising a child in the state system. This is absolute nonsense! The state system sponsors women to have kids. Nothing is more special than children. They are not a liability!

They try to make us into robots. Through internet we are losing our freedom; we download all information from them. They are not creating utopia for the world.

Humans are the center of God's creation. In CIG and God's kingship there is freedom and responsibility, to love God and to love your neighbor. We also have natural relationship with nature, with birds etc.... We have sovereignty. We are not comparable to robots; we have dominion over technology. We love God and our neighbor out of our sense of responsibility.

Kids will be trained to love their neighbor, and to do all kinds of things like scuba diving etc... They will not be in front of a computer playing games. That's hell! There is no freedom there. We will study Father's words and we will help one other's businesses.

You guys are coming to True Parents' Memorial and hearing things like that! Father's teaching is about creating a strong society. By meeting citizens of CIG you can see heavenly culture and tradition, old and young together. We are also investing in each other in marriage. All this gives

you a sense of value in being parents. Why do they damp older people, their grandparents, into old folks home?

### **Alpha male culture**

I am 41, and I became a grandfather. There is no more precious culture than that! Seeing your grandchildren is unbelievable! There is only 40 years difference between my grandchild and me. He will try martial arts. His first loyalty will be to his parents and his grandparents. First under water training will be for Shin Pal. Abodji is Christ! True Father is a strong man.

By age 10, they should start physical training; especially sons should be strong. The father should train their sons from the age of 10. They should do training to develop their sons. If children learn to respect their father, they will become good people. If fathers do not educate their children, they will go a wrong path. They will think they could learn nothing from their parents. Men should be about fighting. A father should be the first person teaching how to defend yourself and fight. We need to understand the alpha male culture. Men have aggression.

Women don't understand that. If men constructively learn to deal with aggression, they become good people. If women do that, they become beta males. Why? Because women do not understand this world! They need to learn from males how to overcome the world's evil. Women do not teach them to do dangerous things. They can't teach them to have successful marriages and be good fathers. Males who can't deal with the world of aggression will be isolated. They will think, "I am not a male! My father did not love me." When they get married they can't play a successful role. They will inherit the personality of their mother and they can't develop true love. Such couple will fail.

### **The father as head of household, priest & king**

In the Bible it says that man is the head of the household. He should have dominion over his aggression and develop into a righteous person. Aggression itself is not bad. The direction it takes makes it good or bad. You need to have a good personality to care for your wife. As a male do not be scary! Beta males who meet alphas understand how weak they are and that they can only control weak men.

The father is the shepherd and the mother is the educator. 80 % of 2<sup>nd</sup> gen kids leave the church because their father was not king and priest. They did everything like HDH, but how long did that last? Lots of parents raised up their kids that way; they made them into robots. That was not a good education. If they had questions, you did not give them answers. They needed to learn how to create relationships. They should get that from their parents. You need to witness

to your children, slowly matching their level. You cared for people when they were going through tough times, but you did not listen to your children, or answer their questions, so they left. You are like a pastor, a shepherd. When your children have questions, they need to receive answers and receive education.

Some children may come back, but there is no guarantee; they are influenced by society. You did not bring them up this way. If they asked questions, you said, "What's wrong with you?"

So the father is the king and priest. Your family is a small church. The wife should never complain against her husband.

### **Wives, respect and support your husband!**

Just because you might be a good speaker does not mean you are a good pastor. Some pastors had 5 or 6 divorces. The husband is the pastor. Why does he have to deal with the disrespect of women? Every man needs a team, somebody who supports him. Women, if you can't respect your husband he is going to fail. He will divorce you. He might not be the most charismatic pastor, but you need to support him.

Don't judge his sermons, or his services; compare them with last year's. Don't find something negative to say. If he becomes better, be grateful for it. Do you need a husband that can't pray? The wife keeps praying and after a few years he still can't pray and they argue. Pray for him. Ask him, "You are the chief priest, please pray for me. This evening I will meet the teachers of our kids." Don't show disrespect. His background does not matter. Be grateful for the husband God gave you.

Team players trust each other. Wife, show respect to your husband! "God, thank you!" Stop criticizing him; you are killing him spiritually. People do not think about this sort of things. Wives whine to their husband.

Create an atmosphere for the Holy Spirit to work through you. God will send the Holy Spirit to help your husband. You think about your image; you don't think about your relationship with God. Do not criticize your husband! You are not God. **You are a person cannot save other. It only happens through God.** Stop thinking you can save people!

Witness to your children so they can love the same God as you! PPM is true love. Spend time with your children; make heartistic relationships with them. They need to see their parents as teacher and coach, and they will respect you. You cannot force anything in. It does not work.

Being a teenager is the most dangerous time. Have conversation with them; don't let them just go to their room. Women trust your husband; carry on in your roles. From a very young age, it is important to establish that relationship with your children. Through that relationship you

will be able to lead them in the right direction. Some people have not built relationships; even though they live in the same house, they are total strangers.

If your husband can't pray well, try to support him; he is your pastor. Do not complain or you are committing spiritual suicide and playing in Satan's hands. If you have a victim mentality, you start comparing your spouse with what you see on TV; that is spiritual suicide.

You need to practice supporting your husband, encouraging him. If you make fun of him or complain, he will never be the priest; your children will see your relationship and will never appreciate the blessing, because they only saw you complain. Then you are playing in the devil's house; Satan will destroy your family.

Pray for your husband. Encourage and respect him. That's the kind of wife you need to be. What kind of man appreciates a woman who always puts him down, and complains to her friends? No man loves such a woman! Appreciate your husband. Always support him. A man always will appreciate such a woman. This is very important!

You become very similar to your 5 closest people. If you are close to complaining wives, you become like them. You need to support your husband who is your pastor. You both are lacking in your character! How are your children perceiving your crying and complaining about your husband? You are not thinking of the consequences. You are bringing your family to destruction. Wives like to get together and complain against their husband.

**A church that is persecuting its pastor will implode.** If there are problems you need to pray to God. Do not look for help from people around you, but from God. Women are emotional and always think of emotional solutions. That's not a good approach. Ask your husband if there is something to pray about. You need to support him by praying for him; there is no other way. If you complain and your children see that, it is not a good approach. You think they will like that?

Men get strength from the respect and support of their wife. If some woman said bad things and the husband did not respond, they think he was not hurt. But there are many ways to express oneself. Silence is also a problem; husbands pick up the vibes and the children too. Don't complain if your husband is not romantic with you. Think of your attitude; do not disappoint him every day.

You need to take responsibility. This is a much different path. The Blessing is about responsibility. It's about husband and wife being together. Both need to improve and grow; both are imperfect.

If the wife feels sorry for herself, she will like to join some club, portray herself as good and as a victim, and her husband as bad. If you do that, you are destroying him, and ideologizing yourself. You should approach God, not your friends.

Nothing can be compared to what Father went through in Hungnam. It's not even a speck of dust compared to this. People convince themselves that they are doing the work of God. Such couple will pass down to their children that same relationship they have with God. You need to work together to develop your mind and body.

### **Blue-collar workers**

There are kids who stay inside and play video games all day. They are weak and are ruining their bodies that way. Women are educated to see themselves as high quality, and they start looking down on men who do manual labor. Such men who work with their bodies are stronger, and are much better at defending their family when predators come to attack.

The background of CIG is blue-collar workers who use their body. They have physical strength and they will become rich. These blue-collar workers are enemies of the communists. Men who use their physical strength will fight against Satan and communists. The more men we have like this, the more strength we have to fight against Satan and communism.

When you have a big government, the super-elite never suffer. These blue-collar workers create things that you will appreciate. These are people who succeed and become rich. In the future the government will introduce laws to reduce big monopolies. But now the middle class, the manual laborers suffer. They are real patriots; they use their bodies and will be good at fighting and pushing back evil.

Beta males that are unable to fight back are now promoted in our society; it portrays beta males as successful and good quality men. But they are weak, and don't make anything. How many of them will fight back? How many of them are capable to have stress and have the courage to stand up? All the people who grew up doing exercises, they find it easier to do manual labor.

A story: When a 2<sup>nd</sup> generation started working with big men, these men were laughing at him. They were installing septic tanks. He had done a lot of training so his job was easy for him. He was always happy, so they called him, "Happy." He plans to join the Air Force.

Communists always look down on people who do manual labor. But you need all infrastructure built first before you create God's Kingdom. That's first. In the olden days in the US, it was the manual laborers who were the most successful. These multi-nationals have ways to avoid paying taxes. Trump is being very smart; he decreased income tax for ordinary people. Manual laborers are the backbones of CIG. It is easy for them to be PPPM, and become soldiers. Society has brainwashed your daughters to look down on such men.

## **The CIG society**

In CIG there are no taxes; you keep your earnings and use them. You won't need both father and mother to work in order to sustain the family. Society has created such an environment where you need 2 incomes to survive; this way, children are separated from their parents.

In communist countries, party members have access to wealth. They are archangelic-type evil men, but women want to marry them, such men that sell their souls working for the government, and they reject honest men who fight for goodness.

In the society of CIG, the middle class will be the biggest. There will be a few super rich, but not many. If you look at Korea, Japan, the United States, how is their economy structured? It is a pyramid with the Rothschild group on top; 90% of the society works for them. In CIG the shape will be very different. The top will be very slim and with a fat middle class.

Tell the society, and the children of dads who build houses to look up to their dads who are PPPM, so they also want to live like their dads.

In CIG all city, state, and federal taxes collected will go to the middle class. These people who are manual laborers may not look like the gentlemen that women like, but they have a good heart. Communism, socialism looks down on laborer, and like alpha males. A manual laborer may start as a cement pourer, but with time will go up the ladder and eventually may start their own company.

It's easier to work in construction yards. Those who are managers started from the bottom; people that manage companies will look for certain qualities to promote people for senior positions. People who graduate from top universities are very arrogant. They start with high salary but no experience and no skills.

Some young women look down on quiet boys who do their work quietly; they think they are not very interesting. They find playboys attractive who go around with multiple partners. The values of employees are very important: how punctual, loyal, honest. What matters is how other men will see your son in society. You need to make sure they develop skills, and qualities that other men will appreciate. No matter how much they curse or how good they speak, make sure they are honest and do not shy away from difficult tasks.

What time is it? 6pm already! (We started at 10:30am) ! We didn't read a single verse from the Bible! This is just an appetizer; we spent way too much time on this appetizer! If you go to a place where the Holy Spirit is plentiful you lose time and space!

## **At war with Satan**

If there is a civil war in this country, it can become a world war. This country needs fewer liberals, and more Sanctuarians. People who love True Parents, Christ, are the ones who belong to this country. We want to chase out leftists. Only 5 days from now could be the start of a civil war. If that happens and you run away, America will fall, and Korea and Japan will fall. China will come on top of everyone who took anti-left stand. You will not escape. If you don't beat them by standing together with Trump the world has not hope.

Really this is a serious time! We need to give 100% in these 5- day OSDP and VOC lecture training. We are in the middle of a war with Satan. We need to be victorious to bring down pedophiles, social media, Facebook, Twitter; all are pedophiles. They must be exposed for their crimes. These leftists are creating troubles, burning cities. President Trump needs to punish them

All the Marxist university professors also need to be punished, and we need to get rid of them for good so they do not rise up again. These professors are allowed to educate our children, and now 80-90 % of students are leftists. That's why Trump is focusing on attacking the left. We need to make sure all these people who work with China are punished to the full extent. If we don't get rid of them quickly, they will want to have another revolution. Of course we need to show love to fellow men, but when these people do evil we must put them down. We cannot tolerate their actions.

What time is it? 6:16pm. Father used to speak 8 hours minimum. No problem!

From tomorrow we need to make sure we approach these last days well. Concentrate on training. Kook Jin Nim went to 2 rallies. He left at 6am, arrived at 8am. There were thousands of people already. We left at 8am and arrived at 10 and could not get in; they had TV screens. But the Holy Spirit and God worked with us. Before the police closed up everything we could get out. President Trump passed us. He looked to our side and said, "Thank you very much," with thumbs up. 2 days ago I met Eric Trump; one month ago I met Trump Jr.

## **Offer everything to Heaven**

This time we could not get inside but we could see President Trump leaving the rally. If we give 100% God will find ways to open opportunities for us. God will find a way to bring Trump to North East Pennsylvania. God, Father, and the Holy Spirit will make sure this happens in the future.

We are a very small group, but faithful; God will find a way to move the world by working through a small group with a lot of faith. Your training, indemnity, devotion and sacrifice are extremely important.

Next Sunday we will complete the pagoda and offer it to heaven. On your way back close your eyes as you pass by; don't look at it yet. It will be a surprise! The team is putting a lot of effort to complete it, from the first thing in the morning to late at night. Let's give a round of applause to the people who are completing this.

We need to offer everything up to Heaven, for the glory of God and True Parents, on the victorious foundation of the 3 Kingships and the victorious Cain and Abel.
