

Pastor HJ Sean Moon

America, Remember who you are!

Sunday, 12/27/20

Nehemiah 9: Remember who you are!

All right, folks! We are in Nehemiah chapter 9 today. Let's get some context. Remember, this is during the period of the returning back from the Babylonian captivity. So we have Ezra, we have Nehemiah, we have Zerubbabel; we have different leaders that God is putting in place.

Now what did they do? Remember, the people when they were under Babylonian captivity, they were losing their understanding of God. They got eaten up so -to -speak by the secular pagan cultures that surrounded them, Of course God warns about this, and the whole chapter is almost like reminiscing. You know reminiscing is like when you look back on what happened during your life; it's kind of like that. But God is doing that for the people of Israel, and we'll see it as we walk through this.

But it's really, you could almost title this chapter "Remember who you are!" Remember who you are! And that's what's happening here. What an important thing for America to do! What an important thing to remember who you are! Americans, we have to remember who we are!

The Black Robe Regiment

You know this is why our Black Robe Regiment hoodie is out - I think it's already sold out but anyways we'll order more. This is in homage to the Black Robe Regiment. These are the real good "badass" preachers, okay; these are the real good preachers. These are the guys without whom the Revolutionary War would not have been successful.

The British called this group of the Black Robe Preachers, "the Black Robe Regiment"; they called them the "Presbyterian Regiment," or the "Black Robe Regiment." They were a group of basically what we would refer to as "evangelicals" or just "preachers," that would tell their congregation, "At the time that we are living in- the 1776 era- the British

You have the same divide in Christianity, always! You always have the ones that lean more into just pure **passivism**, "We have to just be passive, passive, passive!" You know I see some big preachers even on YouTube, the very ones that we highly respect, and they're saying that, "If somebody comes rob my house, I'm just going to trust in God and just let them do it. You know my wife and children are there." But maybe God put you there as a father, so that you can train

up your wife and children in order for them to know how to defend themselves against evil. You know what I'm saying?" It's not always that God put you there just to exemplify passivity! No! Maybe God put you there so that you could be a force multiplier for good. You could be a lion of Judah, a shepherd made in his image; you could be the one that empowers your wife, you could be the one that empowers your children to become shepherds and defenders of humanity!

But again there's always this divide! There's always this divide even in the body of Christ, because they are people; people, OK! And always in that body, there's this debate; there is this struggle.

Okay! Now in 1776 as well you have that! As well you have many preachers condemning the Black Robe Regiment! You have many pastors in America condemning them, saying, "They're not turning the other cheek!" Saying, "They're calling for basically too much preparedness. They're not educating their flock just to have what they refer to as "pure faith," but basically be completely helpless.

J-Team, K-Team, E-Team

We had this whole discussion last week when we were in Georgia with everybody, demonstrating and doing protests there for the senatorial races. God called our community down there and, my gosh, they were very happy weren't they? They were happy that we came down.

J- Team K- Team! Let's give it up for J- Team K-Team! Wow! God bless you guys: J- Team K- Team and E- Team! E -Team is here: Europe. We have some European delegation as well; there we go okay! Europe is also here! They're here fighting for America, folks. So God bless them!

You know, everybody who's awake understands that if America falls, the whole world will come under the auspices, the rulership, the ownership of the Chi-coms, the Chinese communist party, and related similar- style entities that desire that same type of spirit of Satan that will rule over the world. All the folks from around the world, we understand this.

But again even you see it now, what will the body of Christ do? Will we just sit and just pray in our pews? Will we just sit in our rooms and closet and just pray? If we do that, it is 100% guaranteed that the communists will come in and the communists will take over. Acquiescing to bullies and evil doesn't make them go away, folks! It only emboldens them and it only makes them more aggressive.

Communism led by Satan

It's just like the same thing that Father always talked about, "Communism is led by Satan!" He is the leader of communism. It's not just an ideology; it's not just a political viewpoint, "Oh! You can have your viewpoint; I can have my viewpoint." Well, the problem with that is that socialism, communism, what we refer to as "political Satanism," relies on force and coercion, and killing you if you do not want to go along! See? That's the difference! That's the big difference!

Many of us are from communist areas and have fled to America or have immigrated. Of course everybody knows that Father was freed from a death camp in North Korea; so we are North Korean Americans, and that's why we hate communism with "tremendous enthusiasm!" Let's put it that way!

Wicked beyond repair

If you love God and God is love then you must hate that which destroys God's love and God! For example, if you love marriage, you must hate adultery; if you love children, you must hate pedophilia! You see? The idea that God is love and so, you must love everything, you're saying, "Okay! I'll let Satan come into my bed! I'll love Satan! I'll let him take over!" That is a gross mutilation of God's love, because God stands up against unrighteousness, and God stands up against evil!

Most denominations of Christianity will agree that it is Christ, as the war captain of the Holy Host -the army of angels - that was standing with the people of Israel when they were encircling Jericho and the walls came tumbling down. Okay? He was the war captain, when he was with Moses and fighting pharaoh, and now had to overcome and go through the Red Sea!

--- (No sound for a few seconds)

... and will smash evil if He has to. In the Scripture there's a line. God will tolerate up to a certain point; but after that point, now the floodgates open up, and God's wrath will come! That's what happened with the people of Israel in the Bible, right.

Now it is interesting. God uses them sometimes to smash the Canaanites, sometimes the Amorites; sometimes the Hittites etc... But again not just for fun! They're not going there and getting rid of everybody, and destroying that civilization for fun or for pleasure or for licentious means, or to get the women, or for money. God calls them to destroy those civilizations because they are utterly wicked beyond repair.

And of course the historical record shows that they're engaged in sex trafficking, they're engaged in temple prostitution; which means basically the culture where the parents are selling

their daughters to be raped and pillaged, plundered to these temples of the goddess Artemis, Diana- Ashterah is also mentioned in the Bible- Baal worship, killing babies after post-birth abortion - but it's the same thing as abortion. So, when a civilization has gone to this point of no return, it's become normalized where you can kill your child, and you'll be celebrated.

Doesn't that sound similar? That doesn't sound like the right; that kind of sounds like the left, doesn't it? You know these crazy movie stars, making videos of themselves, trying to celebrate the fact that they murdered their child, had an abortion, "Oh! I'm so strong, so strong; celebrating! I feel so empowered!" But inside you know it's all a mask; it's all an illusion, because they've now realized that they have just murdered their own child.

I mean, the most innocent civilian and innocent person in the whole civilization is a child, especially in the womb! My gosh! He's committed absolutely zero sin; has done nothing wrong, right! He or she has done absolutely nothing wrong, and you're making it okay to murder? Now, you have to reach a certain height of evil as a civilization to allow that! Amen!

Protecting the principle of the universe

So, in the Bible when those things are a part of those civilizations, God stands against it, and He will use Israel as a hammer. Now conversely, He's not just using Israel to smash those nations. If Israel takes on those practices -which they did at different points in their history- if they take on the sex trafficking, if they take on the pedophilia, if they take on the post-birth abortions through the fires of Baal, God will use a heathen nation to kill them!

This is a God of equal opportunity, equal justice! He doesn't only smash the enemies of His children! If he was just a tribal God, He would only smash the enemies of his children, no matter how bad they become. But see, He's not only just protecting His family and His children; He's protecting the principle of the universe. So, even if His children become evil, the Bible says, He will wait; He'll be patient, He'll be patient, He'll be patient, He'll be of long suffering. He'll wait, He'll wait; He'll wait. But at some point when you cross that Rubicon, there's no turning back. He will smash you!

And God bless Him for that! Honestly speaking, God bless God for that! Because otherwise we would have a people of God that is completely satanic, and there would be no way for purging that from the body. So again, when we look at God's jurisprudence, even if His own children take on those evil people He will punish them; He will punish them.

New atheists

That is something very important, because you'll see the opponents of Christianity always saying, "Well your God, He's this vindictive, mean, cruel, bully and He just wants to destroy and kill and meme. He's a psychopath!" Some of the new atheists like Sam Harris or Dawkins

or Christopher Hitchens, those kinds of philosophers, they're very smart, they're very eloquent especially Hitchens, but philosophically very weak. They get destroyed by real Christian philosophers like William Lane Craig, like Alvin Plantinga et cetera.

But the point is: they always attack Christianity, "Oh! You are worshiping this cruel, psychopathic, megalomaniac of a deity of the ancient world of the Bedouin tribes of the Middle East!" See, what they're trying to do is they're trying to relativize the specialness of God in the Bible.

Old civilizations' deities

Because when you look at the historical record, whether you look at Carthaginians, whether you look at the Assyrians, whether you look at the Babylonians, whether you look at the Persians, any of the ancient cultures and their pantheon of gods which then leads to certain practices within those civilizations, you will see the same constant themes.

You will see the same constant themes:

*Temple prostitution, especially through the goddess cults, because those are the fertility cults; those are the sexual power cults. And then they basically are using the state power to allow for sex trafficking. So you will see the normalization of pedophilia.

* You will see the normalization of homosexuality. Did you know that? Homosexuality! The Greek and Roman traditions! Even Plato and some of the greatest Greek philosophers, they were saying that, "the best sexual relationship is with your philosophy students that are males!" These are to be the ones that are leading all of civilization. So, you talk about the embracing of homosexuality, transgenderism; you name it! These were normal practices!

We have historical records – this is in our book *Our Father Forsaken*- we have historical records of receipts by fathers who were selling their girls to the temple prostitution; selling them! There are ancient receipts in the archives - they're not like the ones we print today - but there are receipts of transactions of selling their children to these institutions! This is widespread!

Marriage between man & woman

The God of the bible is the first ancient deity that says, "No!" to homosexuality, and what does He do? He then preserves the institution of marriage; man and woman marriage, folks! Now why is that? People understand the sociological power of the institution of marriage that God gives. It's not only a spiritual covenant with God. It performs a tremendous sociological function which is essential for maintaining a successful society. What does marriage do when marriage is promoted and protected?

We have some marriage couples here today! No pressure; it's not about pressure. I'm not trying to give you all pressure, okay! It's just about the reality.

When we look at the institute of marriage, what does it do? Marriage of man and woman! All other relationships are forbidden to turn sexual. What does that mean? It desexualizes all other relationships! Do you understand, folks? What marriage does, from a sociological perspective, is that it desexualizes all other relationships, so that people can be more productive in whatever they're doing. If there's a business, if there's an army, a military- whatever it is, whatever it is- those relationships are de-sexualized; any violation would be frowned upon. And marriage is the place where sexuality can burgeon. Do you understand, folks?

Now when you don't have that barrier, and marriage is not promoted, marriage is not protected, homosexuality is encouraged, transgenderism is encouraged, the confusion of the sexes ...

You know in Asia, what they try to do is they try to get these skinny guys, super, super, skinny - they almost look like women in terms of body type; they have a face that looks like a girl - and they're dressing them up, promoting them as a girl; but it's a guy. So you have all these guys watching this on some music program or some interview or whatever, "Man! That girl is hot!" or whatever. Then they break it to you, "That is a man!" So now you've had a homosexual thought! You see how they do that to you?

They're trying to trick, you see, and then say, "No! You can't be against homosexuals! You had homosexual thoughts; you just thought that man was beautiful!" They do that in America as well - I know, obviously - but in Asia they do that a lot too. You go to Thailand! My gosh! I mean my kids were telling me when they went to Thailand; I mean they saw this bodybuilder in a mall! A bodybuilder with high heel red pumps, a five- inch stiletto heel, in a dress! Oh my goodness! Now that's pretty obvious; you can decipher that as a man, okay!

The point is: what do all these types of looseness of sexuality do? What does it do? It starts sexualizing all human interaction! Now, when all human interaction starts getting sexualized, what happens? We become less productive. We as a civilization, will adopt hedonism - which means the pursuit of pleasure; the pursuit of pleasure. We will adopt hedonism as our main philosophy, as a civilization and we will implode ourselves, because there's no strong economy that can exist with people who are just hedonists. Hedonists will do what? They will vote for communism and socialism; they will 100% vote for socialism and communism! They want to make other people pay for their lifestyle! Does that sound familiar? You may connect that to some political party here in the West!

When you look at Mao Zedong's social commie revolution in China, when you look at it in Russia, when they started introducing fascism there, etc, you see the precipitous destruction of marriage; you see the destruction of marriage. The state will actually go after marriage, "We

want to loose the people from the traditional bonds of slavery, one of which the religious institutions call marriage!" This is the propaganda they will put.

Sex sells

Because what do they want to do? They want to start getting the people addicted to pleasure, addicted to licentiousness, addicted to abominable things. Because if you as a civilization, have become abominable, how can you stand against a super- class that is also abominable? You're also abominable! You're also a criminal man; you're also doing evil things just like them. So, now they say, "Hey! Don't criticize us! You do it too!"

So all those revolutions... in China for example, Mao had an entire part of his government that would fund red- light districts and fund what they call "social clubs," in the city areas, so that the young people could be separated from traditional Chinese values.

They are much more similar actually towards marriage values of Judeo-Christianity; they're not the same, not exactly the same. They're not centered on God, on the Creator deity, so that's a big weakness obviously. But the point is: they're based on fidelity to your wife, and vice versa fidelity to your husband.

Now the Chinese government wants to break that down. The fastest way to do that is to do what? Sell? What do they always say with marketing? Sex sells! So the government is using that; they use that "Sex sells." Then they help fund the red- light districts; they fund these things. They start attacking traditional marriage as being slavery; in America they did it through feminism, into the major "mothers of feminism," that with vitriol attacked marriage, calling it "slavery," and "the imprisonment of women," and all that. They just attacked it.

But this is part of the socialist strategy. That happens in every socialist revolution, every single one. In America it was just done under the guise of feminism. In China it was done under the guise of liberating you from traditional Confucianism or the traditional culture of your parents.

Kids want to be rebellious anyway at some point, "We're the new generation!" They use that energy and then bring them in, and make them addicted to whether it's drugs, alcohol, whatever, any of the vices. Plus what? The biggest: free sex culture! It's the biggest drug, the biggest addiction; the most destructive if a society goes down that path.

Satan knows that, and he's always used that, always used that, to tear down and take down a semi-ethical civilization. When a civilization is ethical and it has moral values and it doesn't sexualize all relationships, well, now you can work with your co-worker without having any funny business; now you can work with your brother and you're not sexually attracted to him. You understand what I'm saying? But if everything is sexualized and that's normalized, then every relationship becomes potential deviance, potential romance, etc. It becomes destructive.

Universal basic income

And now people cannot keep a free country, and they definitely cannot keep a prosperous society; because it's much easier to say, "Hey! Let's just vote for the state! Give it power, and it's going to send us a check!"

Let me give you a little tip, folks! In North Korea, everybody gets universal basic income. You know that? Oh! Yeah! All North Koreans get universal basic income! It's five dollars a month! But still it is universal basic income!

They started at \$2,000 to get you in. They started, but, "Oh! We got to reduce it because of this or that reason. So we've got to reduce it to \$1200 this year," or "we're going to reduce the 600!" That's what the democrats want to throw back at the American public, "You know, sorry for destroying your business," on average you have to make about 40k to keep it up, "Sorry for doing that! Here's 600 bucks," - of your own money, by the way! Okay, you understand?

But last time the stimulus came, it was like what? On average was it \$1,200? But now it's cut in half already- in less than a year! You see how in North Korea, it can get down to 5 bucks a month, folks! And think about that! If you are a population that's disarmed and you're totally broke, you have no way to fight a war against tyranny; you have no way. You have no means; you're completely broke, because wars are expensive.

Expensive wars

We have folks here who have been to war, and war is expensive, is it not? You all know! I mean you spend lots of money, because you have to fund the ammunition and all the things that are necessary. You need to have funding. People forget the Founding Fathers were very rich men! George Washington had a current asset value - some scholars say - from about \$500 million to a billion dollars. He wasn't as rich as Trump but he was pretty rich. George Washington had money! The other Founding Fathers, they were part of the intellectual class; they were a split off the upper class. They were split, so you had like a big crack.

Let's say like a big crack goes down; splits the lower economic proportion of society, splits the middle proportional society, and splits the higher echelon of society. It splits it! Boom! So now, when you have that kind of split and you're fighting against this communist side, tyrannical side -whatever you want to call it - well now, you can have a large group of people that also can have the funding from the different billionaires that can help them fight this war - which is very important. Are you with me, folks?

Billionaire commies

But look at America now! The biggest billionaires in the world are all flaming, flaming red commies, right! You are talking about Zuckerberg, Dorsey; you're talking about Google. They

are making the actual systems for red China, folks! You understand? They're making the systems of surveillance for China! Bezos is the same! He's Amazon. They are the richest, wealthiest people, and their wealth is not like a couple of billions. It's hundreds of billions! Trump is poor compared to these guys!

So even though, let's say worst case scenario, a real fight breaks out, a civil war kind- of - fight breaks up, you can't expect just Trump to try to fund this fight. He's got what? \$ 3 - 4 billion or something like that? He has to have a group of billionaires and people that will break from the establishment, break from the hierarchy, and break from the Deep State and say, "Hey! To me what's more important than just this power is freedom and people to be free; that's much more important for me!"

But how many of the super- class will do that folks? You see what I'm saying? How many of the super- class will do that? They have on the flip side, Bezos, who, through the lockdowns, guess what? He's making loads of money! All the economic movement and activity and transaction have been guided away from small businesses and small fruit markets and small organic farms etc, and now is centralized towards government - approved Walmart! You're now shopping at government - approved food markets, folks! You are in socialist America now!

Nobody thought you would see empty shelves in America; you just saw it last year! Nobody thought people had the power or the gall! Remember? "No! They would never do that in America! They would never shut us down!" Remember? They promised two weeks! No! It's now eleven months and going on. We are now being forced to shop at government- approved grocery stores, folks!

Of course that is enriching the class that wants to disarm the public, that wants to ban free speech, that wants to ban freedom of religion, that wants to censor you, that wants to surveil you, that wants to give you forced inoculation of things that are untested! And doctors of the EU are suing the EU for these crazy vaccinations that are coming out. It's total, total, control folks! This is commie- takeover time!

Body of Christ

This is what's happening in America! And the body of Christ keeps sleeping, if it keeps like an ostrich, keeps the head under the ground, pretends and just wishes everything will go good, "Please, please, I hope everything just go good!" You don't think in North Korea they did that? North Korea had one of the most booming Christian communities. They called Korea the "Jerusalem of the East," because Christianity was burning through the land; it was the Holy Ghost! People were being saved and converted by the millions, folks!

I mean, you don't think those Christians were also seeing the communist encroaching coming? You don't think they were praying? You see what I'm saying, folks? What will the body of Christ in America do? Will it just pray and just wish this to go away? Or will it stand to resist it? Because the Bible says, "*Submit yourself unto God and resist, resist, resist, the devil and he will flee!*" You have to resist! You have to resist it! It didn't say, "Submit yourself to God! Sit in a pew and just pray there and wish for things to go away." It says, "*Submit yourself to God, resist the devil and he will flee!*" That's a totally different posture.

What will America do? Will we just hope it goes away, "Oh! You know what? If Biden gets in, ah, it's okay! Trump can run in 2024." You may not be alive in 2024! Okay? Because of the targeting that will happen; because of the unbelievable communists! This is the most radical commies that have ever been taking the throne, folks! This is the world throne here, and the most radical commie!

Chi-com military in Canada

Of course now breaking news came out! You all saw that. Rebel News broke that story connected to Justin Trudeau, a complete Chinese operative. They were given classified documentation from the Canadian military. Canada has invited the Chi-com military, a communist giant military, folks! A communist giant military of 100 millions! Just like the Bible says, "The horse of war, 100 million." You see it right there; they're sitting right in front of your face.

Canada which was an ally with the US - we fought in World War II together; hello we're supposed to be on the same side - and they have invited the Chi-com military the most dangerous communistic death camp military to Canada to train with the Canadian special forces, and all those related groups share intelligence, share all these data. Not once, not twice, not three times -which is bad enough and that's already an incredible scandal. 18 times! 18 times, folks, the Chi-coms have been in Canada training with their military!

No! No! You know you always heard people say, "Oh! The Chi-coms, they'll never step on the shore of this continent!" Well now you're 18 times wrong! They're already on this continent! And of course they got sleeper cells throughout the United States, sleeper cells everywhere! You literally have people that one day you may see, but then another day, they may take out their China military uniform. Do you understand? If they're activated; bam! They could just shift, and with a radical communist government in there!

Look at it! Look at how they are selling the civil war here! Dinesh D'Souza did a great breakdown of this and how our socialism is almost to the T the exact model they used in Venezuela. There are 20% white folks in Venezuela, okay; 80% Latino, 20% white.

What did they do in Venezuela? All of you white folks, you won't be surprised. They said, "The racist whites, the white supremacists, the bigots, etc... they're the ones that are stealing our money. They're the ones that are stealing our businesses! They're the ones who colonized us!" Do you understand? What does it sound like? Doesn't that sound exactly like BLM? Now, in America we have more than 20 % white folks so now they're just going to have to try to go on it harder. But the point is: they're using the same strategy of race conflict, to get people into tribalism and then not allow us to supersede and transcend to larger principles like freedom, sovereignty and liberty.

Religio-political Marxism

And look at Venezuela! They did reign victorious there, using the race war; creating a religio-political narrative. It's almost a religio - political narrative!

This is what people don't understand about Marxism! They say, "It's atheistic!" They say, "It's not a religion!" No! It is a tremendously powerful religion! They have a whole metaphysical worldview. They have a worldview that the entire problem with the universe is what? Greed! So, they're making very metaphysical statements here. Their starting point is almost sounding like a religion. The problem with humanity and why we have all these cycles of murder and killing and genocide and war etc... is because of human greed! That's their metaphysical picture; that's their cosmological picture!

Now there is an antidote for that problem of human sin; what in Christianity we call human sin, or human evil. In the Marxist view, you have that cosmological problem of human greed, which destroys everything; destroys everything from the environment to your cat, to gerbils, and you know red fly gnats, and whatever, okay. It destroys everything! Human greed destroys everything!

And they tie that in with capitalism, and hating capitalism; they tie that in with hating freedom, and tie that in with why you have to support a centralized state, and tie that in with why communism and Marxism is good, and, "trust the elites; they'll lead you the right way etc..." If you let them centralize government to themselves and disarm and give up all your guns, etcetera. This is the story.

But there is a savior in Marxism. Did you know this? They propose a savior. Who is the savior in Marxism? See, in Christianity there is the problem of human sin; there is the problem of using free will to choose evil. The antidote to that is: God sends a savior. In Christianity it is Jesus; it's Christ. Christ is the savior! And he saves humanity with willing people; people who decide, "Yes! I will follow You Lord!" Then he changes the world; he is able to tackle the problem of human evil.

But look at Marxism! Let's flip that; now we're talking about Marxism. Marxism has a cosmological picture and the human problem is greed- human greed. It destroys the economy, it destroys the environment, it destroys families; it destroys everything. Who is the savior in Marxism? It is not Jesus! It is not God! Who is the savior in Marxism? The savior is what they call "the proletariat." The proletariat is the savior! This is how they sell it.

"Join the proletariat! You will be the saviors of civilization! You are the ones that will virtuously destroy human greed, and all those greedy business owners, and all those greedy people who work hard and make money! You know we have to take what they've got because really it's the workers'; it's the proletariat's! It's theirs! Even though the business owner takes on about 95 to 99% of the risk involved in starting a business empire!

Antifa & BLM

The point is: the proletariat is to seize this power because it's rightfully theirs, and the proletariat is to tackle human greed. It's supposed to be a righteous army of Antifa and BLM latte- drinking kids from the suburbs who will save the world, right! So, what are they doing? It's really the height of idolatry; they're saying, "You are Christ! If you believe in Marxism, you are God! You are the savior! Just do what we tell you, and vote for this or that centralized government!"

They're saying to the proletariat, "You guys can be Jesus! You can be Christ! You'll be the son, and the state, the government will be the father. We'll work together; we'll work together. We'll have a trinity! We'll have the Holy Spirit there, which will overtake people. Really, it's the spirit of hell; the spirit of Satan.

So, Marxism is not a political ideology; it is a real religio-political system! Look at the fervor with which they brainwashed the young people that have gone to these liberal indoctrination camps. They come out and now they're fighting with daddy and grandpa; shouting at them. They went reading the Bible. Now they come back from college and their hair is purple, yellow, white, blue, red, rainbow colors! They got a Pride shirt on. They say, "You know Daddy, I'm gay! I came out of the closet! I'm empowered!" "Okay! What's up with that? My gosh! I paid for that! I paid for that!"

How many people got hoodwinked, destroyed; families torn up? Now they're living with two different civilizations constantly butting heads! These are mutually exclusive civilizations, folks that can't exist together. One is based on total domination, total force. This is the enemy that we're facing; this is the enemy that is encroaching. This is what President Trump is fighting on a global scale!

Think about how much, even on the local scale when Antifa and BLM show up or they try to do some terrorist activity, people get scared in that area! Not all people; because patriots, you

know the real men and women, will come out and face them. Usually they'll bring some fun stuff and face them. You know when like Antifa was jumping through here in Honesdale, good Christians came out, just to say "hi" to them, bringing some accoutrements, just in case you know, like rifles and body armors; just basic stuff like that, you know, normal stuff!

But the point is: think about it on a massive scale! Trump is not only facing the potential terrorism on a local level. He's facing that on a world level; because they could unleash the war on America- completely unite - if Biden gets in. Imagine we're two years deep into a Biden administration, "The white supremacists are growing in their numbers," and the CNN, NBC all that, BLM activists on every media platform; Antifa now as chief police just like we told you.

As we told you America was not based on a state police model, folks! It was not based on a state police model. It was based on sheriff's model, sheriff's model, sheriff's model, sheriff's model! You can fire your chief in the sheriff's model; you can't fire them in the European state- police model, and now the majority of the states have the European system.

Back the Blue?

So as all these conservatives are talking about, "Oh! We back the Blue!" We do back the Blue, but not if they're commies, right! And the point was: we said they're going to put Antifa as police chiefs and everybody will have to obey or they'll be fired or they'll be terrorized or they'll be threatened. And it's exactly what's happening. That's why they like centralized systems, folks; because they can bully, leverage and threaten you to comply.

So you look at what's happening! Look at what happened in New York, in Staten Island? They shut that man's bar down, right. Now as Christians, we recommend, "Don't drink! Just stay away from it! Stay away from libations!" I know Jesus drank wine sometimes - I get it. But stay away; you can get sucked into other stuff, especially when you're younger.

But the point is: who shut him down? Shouldn't all the state police there say, "I'm not going to obey that order? That's ridiculous! That man is trying to feed his family! I'm not going to shut him down! Man, you want to fire me? Go ahead, fire me!" Okay, there may be a couple that did that; maybe they got fired, or whatever. But there were those that obeyed the order; just like in Germany, just like in Russia, just like in China, because we're dealing with human beings.

Same issues of sin, same issues with the battle between good and evil within; same issues! Just because you're born in America, doesn't mean you're immune to that type of corruption. You're just a human being; you're not immune to that. Enough leverage, enough threats come your way? A lot of people will buckle!

Look what happened to that gym owner in New Jersey? That gym owner in New Jersey you know he has \$ 1.5 million fines now racked up against him in his gym, because he will not shut down! He's a vet; it's brave, awesome! That's the spirit of George Washington in that man! He's standing against them and says, "No! I got to feed my family! You can't make it illegal for me to make a livelihood." He's standing against it, and they've shut him down. They've shuttered his building; he kicked it down. They've cited him for this; they've cited him for that. The man is being completely targeted. There he is, right there!

You see folks? But what do they do? They use the centralized police, and what do they do? They will weed out the ones that say, "I don't like that; that's unconstitutional! I'm not going to follow this!" That's why the Founding Fathers did not like the European state police model! They were against that. That's why they said, "The people have to be able to hire and fire their law enforcement official, because we give them a lot of power."

Now you have a problem, because when Biden gets in two years deep, now you have BLM. And Kamala Harris is an actual BLM supporter; she's a Marxist supporter. She was on record in front of CNN and in front of the whole world saying, "Keep on protesting! I stand with the protestors!" You saw the video clips yourself. She is a BLM, which is an openly Marxist organization; its stated goal is to destroy the black family, folks. You can't make this up! They put it on their website; they want to destroy the hetero-normative family. What does that mean? They want to destroy the black family! You cannot make this up! It's so crazy! It's in your face; that's how bold and arrogant they are!

Americans, who are we?

Because they know nobody will do anything, nobody will stand, because Americans have been in a slumber for decades, been in a slumber; while they're working behind the scenes, getting us addicted to entertainment, and getting us addicted to porn, and getting us addicted to drugs and alcohol, getting us addicted to free sex culture, getting us to be hedonists. Now, we're more busy trying to find entertainment and bread and circus, like the Roman Empire bread and circus, bread and circus, instead of understanding what these criminals are doing.

So, it's an incredibly intense period now, because they're operating the same way as the Chi-coms are operating, and you now have the Chi-coms coming in.

It is critical that America remembers who we are; who you are. Who are we? Look back at the Revolution! It was not just a political movement! It wasn't just a political movement that was saying, "We don't like you British! We don't like your accent! We don't like your tea!" Well, it wasn't all that. They were British people! George Washington spoke with a British accent, I guess. Can you imagine that? I can't imagine that! Leading the troops, (*speaking with a British accent*) "Well, sirs, we must go into war; my name is George Washington!" This is a bit

surprising! I'd be surprised, "George, why are you speaking with that crazy accent, man?" Oh! Lord!

The Black Robe Regiment

The point is: it was not just a political fight! It was not a political fight! People like Reverend Jonas Clark, people like Campbell all these Black Robe Regiment preachers were out there on the pulpits talking openly about politics, openly warning that the British tyranny was coming and we must stand and resist it!

And then after the services they would take off their robes, pick up their gun, and they would go into battle with their congregations. That's some good "*bad ace*"; very good. Those are men who stand up for human liberty, the greatest gift God has given! Great men of God! Great men of God! That's why the Black Robe Regiment is so important! The Black Robe Regiment is a critical aspect of the fight, because it's talking about the spiritual nature of this battle. This is "*not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places.*"

We're fighting Satan! We're not only fighting other people; other people are animated by Satan. Satan has taken them over; they've sold their soul to Satan. They're now trying to bring that Satanism upon us. But it's not just the people! We're fighting an actual demonic realm, and so it requires spiritual power and energy to defeat it. It can't just be faced with mere human potential. It has to come back to who we are. Who are we? Are you just advanced bipeds and advanced apes, or are you children of God, the Creator of the universe; the architect of it all? Who are you, America? Who are you? It is an important question! [*Applause*] And it is a big fight, a big fight!

I gave you like a synopsis of **Nehemiah 9**. I promised I'd go into it; so let's go into it a little bit. Let's go into it a little bit! It was like a synopsis.

1 Now in the twenty and fourth day of this month the children of Israel were assembled with fasting.

Now remember? They just got back from Babylon. They're scattered; they don't know who God is. They're selling their children. In the book of Judges, you have one of the "prophets" or one of the "leaders of Israel"; he's giving his daughter over to the fires of Baal to kill her, and thinking that will make God happy! Oh my goodness! This is how crazy; this is how divorced they have become from God! He had become so divorced from the God of the Bible that he didn't know that! Oh! God is very angry if you kill your children and say it's offered to Him. He hates that! He hates it! But this is the time period that we're in!

² And the seed of Israel separated themselves from all strangers, and stood and confessed their sins, and the iniquities of their fathers

Look at this! Look at what he did! They had to separate the strangers from the other people who said, "No! We are going to keep this Babylonian culture!" Remember? Even in the time of Ezra, Nehemiah, that time that we are in right now, they made them also separate from the wives that they took from these different pagan lands, if they didn't accept the Lord. Why? Because there is a serious consequence!

Who comes to America?

For example if you have people just pouring into America, and they don't buy into what America is about; they think America's fundamentally evil and should be basically robbed through the state. If they believe that narrative, you can't just have those kinds of people flow in, even though they may be nice, because they will kill your country, folks! Is that true?

Through the legal process, you have people that come in, but who agree, "Oh! No! America is good! I want to be part of America! I don't believe the narrative that America is evil and that it started from evil and it's based on racism and it's systemically racist and it just kind of always will be, and it has to be destroyed. I don't believe that! I believe there's opportunity here! I believe there's already every race, religion, creed; people come here and they can flourish. I believe it's the land of opportunity. I believe this is the land of freedom. America is the land of freedom, more than any other place that I've lived in. And I believe in that; I believe in that!" You see what I'm saying?

What person do you want? We need the people who come to America who are grateful to be American. Amen! (*Amen!*) I mean it's just basic common sense stuff.

Is America good or evil?

But of course the left is not about common sense; it's about destroying. It's about creating this narrative, this meta-narrative that says, "No! America is fundamentally evil; 1776 is fundamentally evil. It was started on slavery to oppress black people and to enslave the world with colonization." This is the story they're trying to sell, folks! This is the story they're telling your grandchildren and your children in government schools now in America.

It's not only anti-American! It's, "America is evil! It came in here and it destroyed and stole the land from the natives!" No! They don't mention the fact that the natives were consistently warring with one another; consistently and with very brutal types of torture. The whole Lacrosse game was about decapitation, cutting your enemy's head off, playing with his head in a Lacrosse net; that's where the game Lacrosse comes from.

But Judeo Christian values even in warfare, say you can't do that. You just can't torture people; you can't do that, even though the government does that a lot for certain things; illegally. But you're not supposed to be doing that; it's frowned upon. It's not seen as good. They don't mention the fact that you had thousands of years of "native history," but it never produced liberty; it produced warring factions based on power.

But God gave the American Founding Fathers a special mission because, just like Vince talked about it last week, they weren't establishing a country just for white people. We read the Declaration of Independence last week with Vince Benedetto, www.youtube.com/watch?v=mC_EGYbZtFY&t=3292s and he was saying that even if you're not a citizen, if you buy into this value you are American. He said, "Even if you're not a citizen!" Because, "*We hold these truths to be self-evident that all men are created equal; all men are created equal!*" It was an idea that was transcending tribalism; not rooted in tribalism, not rooted in slavery.

Slavery was an inheritance of the British, which they desperately wanted to cut off; but then they wouldn't get the southern states to join and fight the British, and they would probably lose the war. So they had a compromise like that, and eventually got rid of it within 84 years across the globe; not only in America but across the globe. So what do we believe? America is good, was started in good - even though it's not perfect - was started in good or was started in evil?

Well, **Nehemiah 9!**

He's saying, "Now, if those people don't accept God, then they can't be part of this. You've got to get rid of the strangers that are there, because they will tear your families away." Look what happened to Solomon! Look what happened to David! All these wives brought in the paganism worship, brought in the idolatry, brought in the goddesses from their cultures, and they allowed that in Israel. What happened in Israel after that? It was destroyed from within; conflicting civilizations!

Let's keep reading!

³ And they stood up in their place, and read in the book of the law of the LORD their God one fourth part of the day; and another fourth part they confessed, and worshipped the LORD their God. ⁴ Then stood up upon the stairs, of the Levites, Jeshua, and Bani ,..... (a big list here)

⁶ Thou, even thou, art LORD alone; thou hast made heaven, the heaven of heavens, with all their host, the earth, and all things that are therein, the seas, and all that...

What are they doing? They're reminding their people, "Look! We are not just gathering here to have lunch together. We are gathering here to remember who we are and who made us, who

gave us the anointing as His people. This God, Yahweh, He alone is Lord! He's made the heavens with all the hosts, the earth and all things that are therein, the seas; He's made it all! This is our Father! I may not know you, but you're my brother because that's our Father! Let's remember who we are! We're not what Babylon told us we are! We're not what Egypt told us! Remember how we had to stay seventy years in Babylon? Remember how we had to stay 400 years in Egypt? They put the identity of Egypt and Babylon on us, but no, no, that's not who we are! That's not who we are! This is who we are: we are free peoples and anointed peoples!"

And of course, as the New Testament and the Gospel spread, that includes the body of Christ; not only just the Jewish nation, but the body of Christ becomes part of the living stones of the temple of God, as the Bible says.

⁷ Thou art the LORD the God, who didst choose Abram, and broughtest him forth out of Ur of the Chaldees, and gavest him the name of Abraham; ⁸ And foundest his heart faithful before thee, and madest a covenant with him to give the land of the Canaanites, the Hittites, the Amorites, etc, etc, and this goes on and on and on.

Now he's talking about **Moses** here in this section.

¹¹ And thou didst divide the sea before them, so that they went through the midst of the sea on the dry land; and their persecutors thou threwest into the deeps, as a stone into the mighty waters. ¹² Moreover thou leddest them in the day by a cloudy pillar; and in the night by a pillar of fire, to give them light in the way wherein they should go. ¹³ Thou camest down also upon mount Sinai, and spakest with them from heaven, and gavest them right judgments, and true laws, good statutes and commandments: ¹⁴ And madest known unto them thy holy sabbath, and commandedst them precepts, statutes, and laws, by the hand of Moses thy servant:

He's talking about **the bread, the manna from heaven**

¹⁵ And gavest them bread from heaven for their hunger, and broughtest forth water for them out of the rock for their thirst, and promisedst them that they should go in to possess the land which thou hadst sworn to give them. ¹⁶ But they and our fathers dealt proudly, and hardened their necks, and hearkened not to thy commandments, ¹⁷ And refused to obey, neither were mindful of thy wonders that thou didst among them; but hardened their necks, and in their rebellion appointed a captain to return to their bondage: but thou art a God ready to pardon, gracious and merciful, slow to anger, and of great kindness, and forsookest them not.

He's talking about their bondage in prison in Egypt. Now, look, look, the molten calf! Remember that? Yes they **worshipped the molten calf!**

*18 Yea, when they had made them a **molten calf**, and said, This is thy God that brought thee up out of Egypt, and had wrought great provocations*

18 Yea, when they had made them a molten calf, and said, This is thy God that brought thee up out of Egypt, and had wrought great provocations;

19 Yet thou in thy manifold mercies forsookest them not in the wilderness: the pillar of the cloud departed not from them by day, to lead them in the way; neither the pillar of fire by night, to shew them light, and the way wherein they should go. 20 Thou gavest also thy good spirit to instruct them, and withheldst not thy manna from their mouth, and gavest them water for their thirst.

Yes! 40 years in the wilderness! Here he goes!

*21 Yea, **forty years** didst thou sustain them **in the wilderness**, so that they lacked nothing; their clothes waxed not old, and their feet swelled not. 22 Moreover thou gavest them kingdoms and nations, and didst divide them into corners: so they possessed the land of Sihon, and the land of the king of Heshbon, and the land of Og king of Bashan. 23 Their children also multipliedst thou as the stars of heaven, and broughtest them into the land, concerning which thou hadst promised to their fathers, that they should go in to possess it. So the children went in and possessed the land.*

This is Canaan. After forty years in wilderness, they've conquered Canaan. Now **they're in Canaan**. What are they going to do after they took the land of Canaan?

24 So the children went in and possessed the land, and thou subduedst before them the inhabitants of the land, the Canaanites, and gavest them into their hands, with their kings, and the people of the land, that they might do with them as they would.

25 And they took strong cities, and a fat land, and possessed houses full of all goods, wells digged, vineyards, and oliveyards, and fruit trees in abundance: so they did eat, and were filled, and became fat, and delighted themselves in thy great goodness.

*26 Nevertheless **they were disobedient**, and rebelled against thee, and cast thy law behind their backs, and slew thy prophets which testified against them to turn them to thee, and they wrought great provocations.*

Wars to destroy evil

They went into Canaan. What did God tell them in terms of war? They're not supposed to take the fatted calves, they're not supposed to steal, because then war becomes for rape and plunder, which all the satanic armies and kingdoms do. The purpose of conquering is to incentivize rape and slaughter to young males, give them the bounties of war.

But the Judeo-Christian God is different. He's not interested in raising His people up like that. He doesn't want His people just to love war so they can rape women and plunder and get rich.

He only allows them to go into war when they must destroy evil, so they've got to be fighting for a meta- purpose.

Fighting for liberty

I'm just going to relate that back to America now. What was the purpose of the American Founding Fathers in doing the American Revolution? Did they say, "Hey, George! Hey, Tom! Hey, Sam! We're going to do a war; get those girls and get the money!" Was that what they were talking about? Were they fighting for pillage, rape and plunder? See, that's what I'm talking about! I'm talking about fighting for a meta-purpose. They're not fighting to plunder the British; they're not fighting to rape the women, right?

They were fighting for a different purpose, a celestial purpose, which was to preserve liberty! That's a totally different war, folks! See, that's the -God- of -the Bible type war. We understand it; we're Americans, so we understand that history. A lot of nations, like China, don't understand that, because for them, wars are for power; which tribe can secure the most power and dominate.

Islam! Power! The allowance of sex slavery in the laws of Islam! Four wives plus sex slaves totally legal; multiple wives; legalization of pedophilia, called" child marriages" but six-year-olds can be married!

Do you understand, folks? This is totally different! Any of those types of civilizations which war in that fashion, compare them to the Founding Fathers and George and Tom and Sam and Alex. They weren't gathering around, "Well, Alex, George, Tom shall we go destroy the British; rape and pillage and plunder for our pleasure?" No! They're not doing that; they're fighting for liberty!

You see now we take that back to the scriptures here. That's how the people of God were supposed to fight for Canaan! Does that make sense? That's the mentality they had to have- George's mentality, Thomas' and Alexander's! Did they have that type of spirit?

An evil army

No! They got lascivious; they got selfish with lust, "If we take Canaan we will become rich, billionaires; get all the girls!" See, now your army has become an evil army!

That's why God, in this incredible scripture, tells them to destroy another civilization which has become evil with sex trafficking, pedophilia, and all that. He says, "Utterly put them out!"

We have the commies Canaanites t-shirt done in the Chinese communist colors- red and yellow.

Deuteronomy 7 verse 2

"You shall utterly destroy them; make no covenant with them, and show them no mercy,"

And of course you shall not steal their stuff. Very important! Very important! The fight can't be for pillage and plundering. It has to be for a celestial divine cause. Then God will stand behind it.

America is an ideal

You relate that back to our founding; you relate that back to President Trump. Is President Trump fighting right now? Is he fighting so that so that he can say, "Well, I want to win this presidency so I can have riches and more women?" Is President Trump with this mindset? Is that his mindset?

In fact now he's tweeting saying that big tech censorship is the beginning of communism. He's calling it now what it is; he's starting to call them who they are; he's starting to call the commies, "commies." [Applause] He's not up there trying to say, "I want to get more power so I can have more licentious relationships and more money!" He's got already 3-4 billion dollars and Mar-a-Lago and Melania. He's got everything! He's not up there fighting for that! He's fighting for America!

What is America? America is not just a land! America is an idea! It is a principle that acknowledges God-given human rights! God-given! He's fighting for that! Now, does that sound more like George, Thomas, and Sam? Or does that sound more like, "We will destroy them, rape, pillage and plunder," - which all the satanic armies do? You see how it's different? It's different! He's fighting for the righteous cause. And that's why it's so critical; I understand.

January 6th

The day before yesterday, on Christmas Day, they blew up Nashville, some city block. Pretty crazy because they had a 15-minutes warning that said, "Get out of the area! Get out of the area!" It's been pretty weird, and apparently there may have been some Dominion Voting Systems that were going to be researched, that potentially may had to be blown up. But, who knows? Who knows? The facts will come out so- to- speak, even though the FBI was with James Comey. Oh, my gosh! Anyways! They've kind of proven that they're very corrupt.

But, anyways, the point is: Okay, there are rumors; people are saying, "January 6th is the perfect time for the terrorists to attack the patriots, the one million to two million!" We get it. Even without Trump making the call there was a million people at the Million Mega March. This time the President, Commander in Chief, your Commander-in-Chief -I will say it again: your Commander-in-Chief- is calling you down; okay! Twice; twice! [Applause] Just saying; just saying! If that means anything- it should mean a lot but if that means anything- your Commander-in -Chief is calling you down to DC on 1. 6; January 6th.

There are rumors that they may try to hit that; they may try to hit with a dirty bomb or something like that, to take out the president, scare the people etc. Potentially thousands could be killed. Okay, Antifa's probably putting out that information to scare the patriots from not going down and to cower and live in fear and say, "Okay, I'm going to live in fear. I'm going to acquiesce; just let the commies in. I just hope it's going to get better!" No, folks! Anybody who fought in wars, all the folks who went to war, in every battle they could potentially be blown up! It's just that we've become so complacent, so filled with fear, so brainwashed, that we've lost that spirit as a peoples.

So, yes! There's a threat! There's always a threat! President Trump is under threat, waking up every day and going to the White House! They have the most dangerous assassins that take down nations; traitors in our own government that want him dead, folks! You don't think he has to deal with a little bit of threat and a little bit of fear? Will we or not let that type of fear make us cower before that? We will not cower before that! We will not be intimidated by that kind of fear! (*Applause*) The patriots will show up! We will show up in support of our Commander-in-Chief! (*Applause*) Oh, yeah! It's an intense time, folks! An intense time!

Let's take the worst case scenario! Let's say: they do blow up the bombs and they kill a whole bunch of Trumpers who are just peacefully protesting! Let's say they do that! Well, now he has total, total, total, legitimate reason to utterly crush them!

But again, what kind of person will we be? What kind of American? Will we be the type of American that says, "Okay! My country is dying; Lady Liberty's throat is being slit in front of my own eyes, but, somebody else, go take care of it!" That's exactly what we complain about, about Washington! Then we would complain about that, and whatever we do is fine! No, it's not! Not now; not at this hour!

Epic & intense time!

It's an intense time, folks! Crazy time, yes, but you know what? Flip it around! Look at it in a different light! It's an epic time! It's an epic time to be alive! Yes, you could have been born in a time when there's just all peace and just flowers and hippies and all that- which is kind of hell on earth, I think. But anyways, the point is: God is bringing us through this epic time, testing our character, testing our will.

You know, when I was younger, and you probably all felt the same thing, you heard the atheist say, "Well, why did God make Satan, the serpent? Why would He do that to His children?" You know why He would do that? He would do it so that they have an opponent to face and they get tougher by fighting him. That's why! I never got that when I was young. I used to think, "Why? God is mean! Why does He make this Satan that can destroy his children?"

But then when I got into combat arts, I thought, "Oh man! This is important, critical! You need strong opponents to increase your level; you need it! You need guys that are strong and you need that push; you need to get beat up. You need that! That's how you get stronger; that's how your skills get better. And when you look at it through the eyes of the Father, through that lens, then you can see, "Wow, yeah! God, He did make a potential opponent for us, because we need to face evil! Free will! We have to fight evil; we have to choose to shun evil and go to the good, and it is a fight.

So, yes, yes, yes! Scary, scary; scary! 1.6, we may all get blown up! Okay! Okay! Got it! Heard it! But that's the same in any type of war and any type of civil war. All our Founding Fathers faced it; all our vets faced it. It's time for everybody to stand together with the President! Everybody! [Applause] You could say, "Yes, yes! It's terrible! It's scary! Flip it! Flip it! You can say, "Hey! This is epic! I'm not going to miss this for the world! I'm going to be in the ground zero of history! I'm going to stand with the patriots there, and I'm going to stand with the President!"

And we'll be sending a message to the entire world globalist- Marxists by saying that, "We will not acquiesce, we will not go down slowly in the night. We will face you, we will resist you, and we will defeat you in the name of Jesus. And we'll protect our country, and we'll protect the world!" (Applause) It's a big, "No!" What we're saying is: It's a big "No! You bad bully, no!" That's what we're saying!

So this is an intense time, folks! We got to be praying at this time!
Let's all pray!

Pastor Sean's Prayer:

"Father, we thank You for this day! We thank You for the word that You've given us. We thank You for reminding us in Nehemiah 9, how we must fight for a righteous cause. We must not fight for secular material things; we must fight for a righteous cause; just like our Founding Framers. They did not stand there in 1776, saying, "Hey, let's go pillage and plunder, and get the bounty of Britain!" No! No! They fought for liberty, human rights. They fought for Your inalienable rights that You've given to all peoples and especially here in America, the starting point from which that would spread to the rest of the world.

God, we thank You for allowing us to live in this great and terrible day, a day filled with great fear trepidation, even terror. But God, at the same time, if we flip that and see it from the eyes of the Holy Spirit that's within us, we can see that this is an epic time! A time where You are trying to train us, raise us up, and make us into better sons and daughters of God; make us into

protectors of our neighbor and our world, and allow us this training ground here together with millions, 74 million plus patriots that stood for President Trump!

God, use this time to animate our souls, to allow us to engage in this animating contest of liberty! Set the brush fires in the hearts and minds of us now, and light them, light them, light them, with your Holy Ghost power, God! Because it is You who are the Creator of the world and the heavens and the hosts and the earth and the seas, as we saw in our scripture today.

Let us never forget who we are, and whose we are! We are not slaves to the communists! We are not servants to the international Marxist organizations! We are not slaves to those who wish to enslave and destroy and eradicate America! We are the children of God, the Lord of lords, King of kings, the Alpha and the Omega, the First and the Last. We are Your children, dear God! Let us remember who we are! Let us never forget! For You said You would not forsake us; even in this hour that promise remains true!

So we stand with You; we salute You, God! And we pray that You would be with our President right now. Let him know that there are **patriots in this country who will stand for America and for our world!** Let him know that there are still **brave men and women** that will put their lives at risk to save this country that You have given to the world as a blessing, as a light on the hill, as a **beacon of hope**; even though we were not perfect.

So God, we also repent of our sins.

We repent of remaining apathetic when the left was murdering babies- 74 millions and counting.

We repent for letting licentiousness and sexualization of every relationship come into our country and our churches, and we rebuke that!

We get back to discipline;

We get back to our fidelity in marriage;

We get back to raising our children and training with them and raising them up to be greater shepherds in the image of the Lion of Judah!

So, we thank You, dear God, that You are raising our people right now, and we ask that You would be with us on January 6th, as it is quickly approaching; that You would be with this nation; that you would be with its President Donald Jr. Trump the Commander-in-Chief, and all the Holy Hosts and angel armies that will be gathered in that place with us, to stand for **liberty and freedom forever!** Your kingdom is what we pursue and Your righteousness is what we seek, dear God!

We give You the praise, the glory and the honor, with all those that are gathered here. In Your precious name we pray!

Amen! Amen and Aju!

www.youtube.com/watch?v=c3qXKS_ykO8&t=1009s
