

Pastor HJ Sean Moon

God: “Do you love me, America?”

January 3, 2021

Pastor Sean

Good morning folks! This is Charles! Charles allowed us to use his beautiful property and his beautiful barn (*Applause*)

Charles:

Yeah! I wanted to welcome you all here, and I want to explain to you why it's such a great honor to have you here. It's for a couple of reasons:

One is that my great, great- grandmother was actually from Japan. I very much want the Koreans and the Japanese to understand this; please translate for them. She was from Nagasaki. It's a very unusual thing to have Japanese roots going that far back, because in those days Japan was practically a closed country, and it was very unusual how my American great-grandfather met this Japanese woman. It's almost actually like a Madame Butterfly story.

I have a great, great, love for Japan; I've been there twice; I traveled around it as much as I could. I've traveled a lot in China. I've never been to Korea, but I have a great affinity with people from Asia, and when my plane touched down in Japan the first time, I had this weird feeling that I'd somehow come home! Yeah! So, it's just really, really, great that you guys can be here in this property, in this barn.

I just want to explain a little bit about my family going back, because my ancestors came here from Germany in 1740, and they were one of the first settlers in this part of the world. This was their farm, starting with a little stone cabin in the back.

It means so much to me that you guys are fighting for our political rights, and I understand that some of you have actually come from Korea and Japan and spent your money and left your jobs and made sacrifices. That is so heartwarming, and I can't tell you how many American patriots have seen the videos of the demonstrations in Asia - in Japan, I think, they mostly are in support of what we're doing here - and what a huge effect this has had! This has had a great

morale boost to people all over the country! (*Applause*) So, your little group of people have had a really, really, really, big effect, and it's God's will that it happened that way!

I wanted to explain something else why this is actually really so terribly meaningful to me that you're fighting for our rights; because my four times great- grandfather was from Lancaster and he was a signer of the Declaration of Independence. [*Applause*] He was also the uncle of Betsy Ross. Another great- grandfather of mine at the same time was the mayor of Lancaster during the Revolutionary War, and he supported the Revolution. That was a dangerous thing to do in those days.

So, I just wanted to say that I speak for all my ancestors: the Japanese ones, the American ones and the German ones, and I have English ancestors too! You know they're all here with us, they're watching what we're doing, they're rooting for us, they're praying for us, and they're blessing you, and they're thanking you for doing what you're doing!

Thank you! Thank you very much! (*Thank you! Applause*)

Pastor Sean:

Thank you, Charles, for once again lending us his beautiful space on this Sunday! Let's give it up for our brother Charles [*Applause*] All right! Let's begin in prayer!

Pastor Sean's Opening Prayer:

"Father, we thank You for this day. We thank You for being able to gather here in brother Charles's place, with great history and all the ancestors of his tribe also here watching over us. We thank You for all the great saints that are also in the spirit world that are watching us, from the Founding Fathers, George Washington, Thomas Jefferson... All of them are also standing with us as we stand for America. Because America was not founded on a race or on a skin color; it was founded on principles of freedom that are given by You the Creator, our Father God.

So, we thank You for gathering all the patriots here from all around the world, from Japan, Korea, Hong Kong et cetera; all folks that have come to this place because You have called them here at the microcosm. We pray that today's events and the study of the Word will give us spiritual power, as we fight this battle, "*not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places.*" (*Ephesians 6:1*)- as your Word says.

Let us be strengthened in the Word today, so we may have the energy and the spirit and the full armor of God, as we go and battle the forces of evil, and do our part as good citizens and also good children of God made in Your image.

We thank You! We give You all the praise, glory and honor. We thank You for this day, and we honor You today with all the blessed central family kingship lines gathered here, and in your precious name we pray!
Amen!"

Sermon:

All right if you've got your Bibles today folks, let's go to John chapter 21 from 12. Now this is after the resurrection and Christ has appeared to his disciples. Let's read:

John 21:12-25

¹² Jesus said to them, "Come and have breakfast." Now none of the disciples dared ask him, "Who are you?" They knew it was the Lord. ¹³ Jesus came and took the bread and gave it to them, and so with the fish. ¹⁴ This was now the third time that Jesus was revealed to the disciples after he was raised from the dead.

Jesus and Peter

¹⁵ When they had finished breakfast, Jesus said to Simon Peter, "Simon, son of John, do you love me more than these?" He said to him, "Yes, Lord; you know that I love you." He said to him, "Feed my lambs." ¹⁶ He said to him a second time, "Simon, son of John, do you love me?" He said to him, "Yes, Lord; you know that I love you." He said to him, "Tend my sheep." ¹⁷ He said to him the third time, "Simon, son of John, do you love me?" Peter was grieved because he said to him the third time, "Do you love me?" and he said to him, "Lord, you know everything; you know that I love you." Jesus said to him, "Feed my sheep. ¹⁸ Truly, truly, I say to you, when you were young, you used to dress yourself and walk wherever you wanted, but when you are old, you will stretch out your hands, and another will dress you and carry you where you do not want to go." ¹⁹ (This he said to show by what kind of death he was to glorify God.) And after saying this he said to him, "Follow me."

Jesus and the Beloved Apostle

²⁰ Peter turned and saw the disciple whom Jesus loved following them, the one who also had leaned back against him during the supper and had said, "Lord, who is it that is going to betray you?" ²¹ When Peter saw him, he said to Jesus, "Lord, what about this man?" ²² Jesus said to him, "If it is my will that he

remain until I come, what is that to you? You follow me!" ²³ *So the saying spread abroad among the brothers^l that this disciple was not to die; yet Jesus did not say to him that he was not to die, but, "If it is my will that he remain until I come, what is that to you?"*

²⁴ *This is the disciple who is bearing witness about these things, and who has written these things, and we know that his testimony is true.*

²⁵ *Now there are also many other things that Jesus did. Were every one of them to be written, I suppose that the world itself could not contain the books that would be written.*

"Peter, do you love me?"

That's the end of John chapter 21, right before the Book of Acts. Now you notice here: who was it that had just betrayed Jesus before he died? (Judas) Of course Judas, yes; but also who else? (Peter) Remember? It was Peter that, when he was asked, "Hey! Don't you know Jesus?" Peter said, "No! No! I don't know that guy!"

So, before Christ died, Peter just sold him out; he just sold him out! Now Christ is back. Notice he asked Peter three times; three times he asked him the same question. He asked him the same question, "Peter, do you love me?" Isn't it interesting? He asked him three times the same thing. And he's like, "Yes, you know I love you!" Then he said, "Peter, do you love me," again; he does it again. "Yes, you know I love you!" "Peter, do you love me?"

This is interesting because Peter is like one of the seniors. Father referred to America as the "elder brother nation," didn't he?

We are in a grave time, at a time of great crisis, and just like God is asking Peter, "Peter, do you love me?" God as asking America, "Do you love me? Do you remember who made you? Do you remember who freed you?" Yes, God had to use hands and feet: the Founding Fathers and those who signed the Declaration of Independence like Charles's ancestors. God always has to use hands and feet in the world, right. As the Scripture says, *"We are the hands and feet of God."*

Only through Christ

But in the end the battle between good and evil, it's about love; it's about love! Who will you love? Will you love God or will you love Satan? There are really just two choices; we talked about that, right. The globalists, the liberals and the Marxists, they try to confuse young people while they brainwash them in schools; trying to tell them that there are many choices, there are many options. But it's really not so!

There are only two options: whether you love God or you love Satan. That's about it! Now there are many different styles or different ways to love Satan; there are many different roads that

lead to Satan. But as Christ said, *"There's only one way to the Father!"* And that is through him! It's known as the narrow path, not the wide path; the narrow path!

Sparta

So it's always that small group of people that has changed the world; it's never been the opposite! Even in the battle of King Leonidas in Sparta-which we've talked about many times. That's where they make the movie "300" about Sparta, and all of a sudden, you know, the guys are running around with leather skirts and their shirts off, and their abs showing! I'm sure they wore more than that during the fights, okay. But anyways, it's Hollywood dramatization!

The point is: during the Grecian period when it was collapsing, the people did not believe they had the ability to fight off the Persians. I'm not a historian; Kook J-Hyung knows about this war much better than I. I just saw some studies on it; you know on some good channels on YouTube like "Kings and generals." By the way if you don't know about "Kings and generals," you should check that out! That's an amazing channel! I think it has the Korean War, as well. It has all the modern wars and ancient wars. You should check that on YouTube; it's a very good study done by historians et cetera. www.youtube.com/c/KingsandGenerals/videos

But the point is: during that period of time the Grecians didn't believe they could beat the Persians; they were too mighty, too great! By that time the Grecian empire had overextended itself and it was collapsing. So it was weak; it was fractured. It was fractured, just like the Mongol empire. It was fractured!

So the Persians were coming in, and there was this showdown; there was this showdown at this place. I don't know if it was a cliff, but it was this very narrow area where there are mountains on each side, like a choke point, and the Persians were coming through. But none of the Greeks wanted to fight them because they're like, "We're going to die anyways; we'd better surrender!" It is a tendency, right?

This is what the Mongols did as well! They trained their young men from a young age riding horses and bow and shooting bow and arrows, and then they made them do hunting, but they did hunting in a military formation. So they made a big circle, and they would move the horses in towards the prey; this was practice for military strategy when those men grew up. The young boys would be practicing hunting, but they'd be using that formation. So they'd use a big formation, and then they'd bring it in, bring it in, bring it in, and then they would shoot their prey.

When they became the Mongol hordes and they were fighting with kings etc, they would now target a city. And what they would do is make a huge circle around it - there's a specific name for it. I can't remember, it's a Mongolian name. Then they would start moving in the city, taking out the suburbs first, those small villages outside of the city, and they would use the same

hunting formation they learned from a young age and move in as a big circle; just killing, killing off all the villages that were in the way. They would terrorize; they would rape, pillage, and plunder, and terrorize those people.

But they would let people survive, and they would let them run away, because where would they run? They would run towards the city. In the end they wanted to capture the city, right. So, they would terrorize the suburbs, make the people run to the city, then the people who ran from the suburbs to the city, they were saying, "Oh the Mongols are terrible! They're cutting our friends and they're eating our organs!"

The people themselves would terrorize the people in the city. Do you understand, folks? Then the city would say, "Holy *shmita!* These guys are terrible! These forces are too big; we're not going to win against them!" So then, the city would surrender. Isn't that interesting? They would use their own people against them to stimulate all this fear, let them run away into the cities to scare everybody else, and spread the propaganda, and then that city would surrender! Isn't that interesting, folks?

The Four Horsemen

Guess what? America now is being surrounded; right now. We are surrounded in that Mongolian pincer, dangerous communist forces around the world, from the four horsemen:

*The Chi-coms **the red horse**,

*The Rothschild international bank cartel and the false prophet the **white horse** of the Apocalypse,

*The **black horse**: the CIA, FBI, holding the scales of justice pretending as if they were doing justice, but really they're part of the cabal.

*And of course the **pale horse**, Islam, which is also allied with them.

Now remember: all these civilizations are tied together by what? Pedophilia! All of these are tied together by pedophilia! And we are in a pincer knot right now, surrounded by these forces.

COVID

They have a system of fear that is upon us right now called the "corona virus," where they're bypassing every single international Nuremberg Code; everything, you name it, every type of check and balances. Remember? The Nuremberg Code was after the Nazis. It basically said, "You have international human rights. Every nation will agree to it that you cannot use basically medical tyranny upon a people, and then you have to have informed consent of the person; you can't force stuff into them. Otherwise that would be considered international human rights violation, right. That's basically what the Nuremberg Code says. And all nations agreed to it.

Now with the COVID fraud and the scam, they have thrown the Nuremberg Code out the door, and they're doing forced vaccination across this world; right now it's happening! South Korea already started. In Japan I think it's going to start up probably soon. But South Korea has already started.

So, everybody has to be locked down with a virus that has 99.8 % survival rate, okay? 99.8 % survival rate! The whole world has been shut down! Now not only has it been shutdown, not only are they saying, "Okay, we made the vaccine, and even if you get two of the vaccines, you still have to wear a mask, because you may get it again." Then what's the purpose of getting the vaccine? I thought that's supposed to make us immune to it! And even if you had it, which **scientifically** then makes you immune, you have to get the vaccine again anyways, because if you don't get the vaccine you will not be able to fly on a plane! Fauci's talking about that this year, to do vaccine passports.

Communism as Political Satanism

This has nothing to do with science, has nothing to do with the evidence; has nothing to do with empirical findings. It has everything to do with political Satanism, folks.

Because whatever these groups call themselves, whether they are the bankers in bank suits, whether they be jihadis in robes, whether they be Chi-coms like Xi Jinping, organ harvesting Falun Gong Bible-believing Christians in China, or whether it be the FBI, CIA, traitorous factions, which have little government tags and badges; it doesn't matter what outfit they wear. They're serving the same Satan. That Satan seeks to do what? Make slaves of humanity.

Whereas, in the Garden of Eden in the beginning, God didn't say to humanity, "You will be slaves to the archangel." He said to his children Adam and Eve, humanity, "I give you; I bless you. You'll be fruitful, you'll multiply; you'll have dominion and subdue the earth. **You'll** have the dominion of the Kingdom of God, not the archangel. Even though they're more powerful than you, even though they're more intelligent!" They may have come out of Harvard, Yale, Princeton; it doesn't matter! **It is not they who have the blessing of God; it is humanity.**

And that's why True Father always taught us about communism as political Satanism; because it's led by Satan, it's orchestrated by Satan. It has a spiritual root just like Marx. Marx was not just a postmodern, atheist artist that liked to smoke cigars and drink Ruben. You know what I mean? No! This guy was a real Satanist. He wrote odes to Lucifer! In his poetry he's talking about how much he hates Christ. He was somebody that was filled with the **hatred** of Christ, and was filled with the spirit of Satan.

Darwin

That's of course why he produced the justification- or seemingly- a nonsensical justification for the concentration of power. He thanked Darwin for giving him the foundations of his philosophy saying that, "Darwin, in *The Origin of the Species* has developed for me the great foundations for my political theory," which wasn't political. It was a total domination system, buttressed by this atheistic hatred for Christ, founded on the principles of hating Christ.

King & Priest through Christ

Why? Because through Christ, a normal person, whom they think is a slave, becomes what? A king and a priest! Amen! And you all know it, "*And from Jesus Christ, who is the faithful witness, and the first begotten of the dead, and the prince of the kings of the earth. Unto him that loved us, and washed us from our sins in his own blood,⁶ And hath made us kings and priests unto God and his Father;*" (Revelation 1: 5-6) Amen! See, that's why they hate Christ! Because a normal man through Christ- we may have started sinners- but through Christ, we are now a king; we're now a priest. It doesn't mean we're perfect.

We have to keep growing and sacrificing in the Lord and becoming more like the Chief Shepherd.

We had to grow to become more like the Father.

We have to grow to become more like the High Priest who is Christ.

We have to grow and increase in our ministry, our family; right.

All the fathers, we are kings and priests of our homes. Not so we can rule like tyrants - that would be Satanism; that would be political Satanism- but so that we can rule like Christ with benevolence, magnanimity, patience, but justice, and also strength.

And the normal man, the normal person, the normal laborer, the normal blue-collar worker - who they all think are deplorable - it's those folks that make the buildings and the infrastructure and all the systems of the cities, the big cities. It shows the arrogance of the intelligentsia and the intellectual elites. It is that normal person that through Christ can become a king and a priest now!

In the satanic world, in satanic history, that has only been reserved for those whom Lucifer put, and the centralization of power has always led to satanic kingdoms; always! That's why God's Kingdom is a decentralized kingdom of kings and priests. Just because we're a king and priest of our home, it doesn't mean that we stop growing or it doesn't mean that as a father or mother we stop growing. We have to continue to grow in Christ; we have to continue to train with those who are better than us at ruling, at coaching, at teaching!

We have to keep training with people who are better than us in the priestly realm, in terms of ministry and ministering. We're called to minister to our children. This is one of the big failures of Christianity, isn't it and even of the Family Fed, etc. They have not been able to witness to their own children.

Satanic New Age

There's a big problem in Christianity. Post-modernism, secularism, individualism, pure individualism, which means basically hedonism, are taught through the schools; a hatred for God, a hatred for anything that has to do with morality, a relativistic philosophy! Brainwashed! Brainwashed! Brainwashed!

And of course they're taught that their parents don't know anything, their grandparents don't anything, and all those old religious values are useless, and they're the new age, "It's the new age, so we should throw all that off, and have pure anarchy, and it'd be great!"

Just like Chaz in Seattle, "Welcome to Chaz! The tourism industry is great there. If you want to see feces on the ground, go to check it out! You want to see vandalism and broken windows? And you know, if you want to spend a honeymoon there, you get a discount. Oh, I'm sorry you have to pay extra, because they'll rob you when you get there! You know, little fun stuff like that you'll have in Chaz!" It's crazy, folks! You understand? There's so much insanity!

But the point is: any of these systems based on Satanism will concentrate; why? Because of cosmic power! Why? Because, in the end, Satanism is about power!

See, when Christ saw Peter who betrayed him, and now he's in the process of forgiving and basically making him repent, he said, "What will you center your relationship on? If I had the power of all of Jerusalem and the world then would you follow me?" Well, a lot of people would follow him for that- for the power.

Government & Power

We can see that with the government. They may go in with good intentions, but then when they get in there - it's like 99% of Washington DC is totally power- hungry mongers - they become demons. Look at how much hope people put in the Supreme Court and Amy Coney Barrett, only to have them betray President Trump in a very critical hour, because they'd rather not have any disturbance in their lives!

They'd rather let the republic be sold out to China, and let the Chi-coms in and rule us with surveillance and censorship, with big tech and Zuckerberg, and Bill Gates - the new the modern day Hitler, the modern day person who wants to do human experimentation on people with unproven vaccines.

Folks, if the government can force chemicals into your body, that you don't want, you're already living in tyranny. You know what I'm saying?

I mean America's got to wake up! This stuff, it's been creeping behind the scenes. Now it's, "Go" time! Now it's on; now it's coming! It's here! What our family experienced in North Korea, what some of your families experienced in China et cetera, it's here, folks! It's coming!

And everybody saw just a couple days ago in Canada - that's north, that's the American continent - everybody saw that in Quebec - I posted that - the family had six people over; six family members over for New Year's! Six, folks! Six! They had six people over; they went over the five-person random mandate given by the Canadian government. So they had six people over, and some crazy neighbor snitched on them. Then the cops came, like globalist Marxist Hitlerian Gestapo cops; they yanked the man and the woman out of their house, and took them out to prison!

I have the video; everybody saw it? If you haven't seen it, go check it out. This is Hitler level; Stalin level, folks! This is how they make you disappear into a corona -virus vaccine camp - which means a re-education camp. Because you don't have any right! If you don't submit, if you don't surrender to their random rules, - and they're breaking up international law and code and human rights violation - if you don't surrender to that and just be happy about it, you will be taken off.

The Two Commandments

And what did Christ say? Remember when he's meeting with the young man, and the Pharisees asked Christ; they said, "Of the Ten Commandments, which is the greatest?" and he said, "*Love God with all your heart, mind, soul and strength, and love your neighbor as yourself!*" You see he gave two commandments. He condensed the ten into two:

- * One of them: "love God," a theological relationship, a love relationship.
- * One of them: "love your neighbor," not so much a theological relationship, but a love relationship in terms of society, and/or which rules society, politics.

Both with two realms of responsibility!

That's why the Peace Police Peace Militia of the Kingdom of God is a decentralized police, decentralized military. The motto of the Peace Police Peace Militia is what? "*Love God, love your neighbor!*"

Snitches

What do the corona and the crazy lockdown do?

It makes you hate your neighbor,

It makes you snitch on your neighbor,

It makes you distrust your neighbor,
 It makes you rat out your neighbor.
 It destroys the Ten Commandments;
 It makes everybody violate the Commandment that we're supposed to love and protect our neighbor.

Especially when he's gathering for Christmas with his family, or he's gathering for New Year's with grandpa and grandma over! Are you with me, folks? This is insanity! But we have snitches in America, as they do in North Korea. People will snitch on you if you have Korean dramas from the south, and you will get arrested for watching Korean dramas from the south, and now you will be made to disappear to some place and your parents won't know where you are. And you're lucky if you come back!

If you do, you'll probably come back crippled, because they'll have pumped you with so much chemical of this or that; given you a lobotomy. They have Chinese death camps where young healthy men go in; they got captured. They come out limping and hand totally handicapped. That is, if they release them! I don't know if you saw these videos.

Christianity against Christianity

These people have no ethical boundaries or rules, folks, and in a crazy sense, that's why they're able to use Christianity against Christianity. You know it's always the devil saying, "Well, you're not perfect; you are also filled with sin! You also stole, you also told a lie; you can't criticize us!" That's how they do it! They want to get the public to be part of this whole normalcy bias that they created, "The new normal is this; the new normal is that! The new normal is pedophilia." Reducing the age limit to 10 years old for age-consent laws, as the UN want! Transgenderism, bringing that in too! Little kids making adult decisions like hormone therapy treatment, destroying their entire immune system etc!

They want to make that normal! They want to make killing the babies in the womb normal. They want to make one-third of the women become murderers of their own children, because then they can tell you, "Hey! You have no right to tell me that! You have no right to tell us what to do! You are evil! Look what you did to your children!" You see what I'm saying, folks? Even though they made you do it, even though they guided you to do that!

That's the whole thing about Satan, right! He leads you to sin; then when you have sinned and followed him, and you try to say, "Wait a minute, that was wrong! Maybe this is not where I wanted to go!" Then he will use that against you; as if he had morality! He will use Christian morality against the Christians, but he will break all Christian morality!

By the law

That's exactly what the communists do all the time, folks! That's why that's political Satanism! They will guilt- shame the Christians, "Hey! Turn the other cheek! You heard what Jesus said? "Turn the other cheek!" "You can't resist us! We're coming, we're legitimate; we're doing it 'by the law,'"

They're trying to get the Senate like that. They stole the presidential election; it's not over yet, but they're trying. If Biden gets in and they steal the Senate with the same Dominion Voting System that stole the presidency, now they get in the Senate, they got the House, they got the presidency!

Now they can make any law they want, folks; anything! Now they've done it by the law! See, now when they come to confiscate your guns, now when they come to swat team you, see, they're doing it by the law! They're helping the safety and security of Americans! You see, you're the problem because you're patriotic! You're the problem because you want to operate by the Constitution! No! No! They now have taken that over legally! Are you with me folks?

So now, they use the legal machine to come after the patriots: one by one knocking them off; one by one taking out communities; one by one targeting and calling you "Ron Paul's supporters, domestic terrorists!" Ron Paul, he's the sweetest libertarian man that you'll meet. He's delivered like 200 babies; he's an obstetrician. He's the nicest guy, sweetest man, but they put Ron Paul supporters on the "potential domestic terrorists" lists, folks- under Obama! Why? Because he was not for the centralization of power! You see?

So, they will go after every Christian! Already, CBS is putting out articles saying, "Christian Nationalism and anti-vaccination ideas are hurting the security of the citizens of the US." You see? They're already starting it; because the Christians don't want unknown chemicals. We've seen on TV, people take them and say, "I'm fine; I'm fine!" and then they pass out five seconds later.

We don't want that because it's untested; it's bypassed every code that we put in place or that even the government has put in place. We see people fainting and we say, "No! No! I don't want to take that!" But then, "you're a Christian nationalist," and then "you're an anti-vaxxer; you are creating danger for society and preventing herd immunity!" That's what they say. Do you understand, folks? These people don't operate in the same realm, they're not operating in ethical ways, they're not operating legally; they're operating as a criminal cartel.

No rule they will not break!

They have no boundaries. There's no rule they will not break; they've broken every rule! Look,

they've broken every single rule! They've stolen the presidential election –almost! There's no rule they will not break!

Yet if you go five miles over the speed limit, now you're a bad person; you're endangering the community! If you don't wear your mask, your bandana – which does not stop anything, but puts you under tyranny and makes you look like you're wearing a hijab - if you don't wear that mask, you are the problem; you are the bad one!

Meanwhile they can break every single law! This is their paradise, folks! This is paradise for them! This is heaven for them! See, this is the kingdom of heaven for them, for Satan! And they want to see, “How much can we push before people say ‘no’?” And what they realize is that they can push, push, push, and 91% of people will acquiesce. This is proven; it's called the Milgram experiment. Who heard of the Milgram experiment?

The Milgram Experiment

The Milgram experiment is an experiment that showed what? What did it show? They had random people come in that they took off the street, or it was even in university settings. They had a man in a white jacket that looked like a doctor, speak very nicely, and talk like this, “Well, you know, we're doing something today; we'd like you to help us.” Now he's wearing a little white jacket, “We'd like you to help us. You know this experiment that we're doing, it's for science and we are promoting it.”

So the person was like, “Oh, okay! I'm helping science; I'm helping modern technology! Okay!” So they go into a room. Now the person has to turn a dial and he's told that it is electricity and he's electrocuting somebody in the other room; and that if he turns it all the way up, the person in the other room will die, okay! So the doctor says, “No! You're doing fine; don't worry!” They say, “Okay! Go ahead! Start turning the dial!” And the person will start turning the dial. These are normal people; they will start turning the dial. Over the loudspeaker, you will hear that person screaming (*Scream*) at the beginning, and then the doctor says, “Okay! Sir, yes! You can keep turning; please turn it to the next level, please!” And the guy says, “Okay, okay!” He turns up to the next level.

Then you hear it on the speaker (*louder scream*); the doctor is just sitting there, calm, “Okay! Yes; you may turn it up one more time. Go ahead! Go ahead and turn it up a notch, please!” And the person is, “Oh! Okay!” He's shocked quite a bit. “Oh, that's okay! That's totally normal!” He turns it up a notch (*screaming with more pain*), and so on and so forth, up to the final notch! “Final notch, all the way up, which means you're killing the person!” The person now knows he's going to kill that person. By the final notch the scream is very terrifying. But the guy will keep going!

They found that the majority of people- I think it was like 91% - will follow instructions, by a supposed authority figure like a doctor!

See, they've done these psychological studies, folks! They know that, as human beings, we're part of herds, we're part of tribes, and we're conditioned to believe that these government people are leading us and they're doing things for our benefit. "We elect them; they wouldn't do anything wrong. They wouldn't turn that against us! We elected them!" "Do you believe that the people that you elected in would turn their back on you?" You know how they always say this?

But what did it show? It showed that people will do it.

There are new studies out of Stanford where they repeat the Milgram experiment with PhD students in different settings. For example there's one setting where they see on a video camera where somebody's getting beaten up, and they have the ability to stop that or not. But the doctor will say, "No, no! Don't worry! Let's just keep it going!" Almost all of the PhD students almost all of them- these are called the smart kids- almost all of them will let him be beaten to death!

What does it show about human psychology, and understanding about human beings? That if we are conditioned to accept these government officials etc, school teachers etc, white-jacket doctors, they can do anything, folks!

Guilt shaming

When they do the forced vaccinations -which is already happening in South Korea, which is coming to America, which is already going to happen in Canada- people will acquiesce. And if you don't get the vaccine, well you're a bad person. You'll see conservatives saying, "Hey! What's wrong with you, Kyle? Why aren't you getting it? Don't you care about other people's safety?"

They'll do this guilt-shaming! They will do this! They do this for masks! You will have people at republican meetings, who are saying, "Why aren't you wearing a mask, man?" You're thinking, "Aren't you supposed to be conservative? Aren't you supposed to be questioning? Aren't you supposed to be a small- government person? Why aren't you questioning what big government says?"

They're going around like a mask- Nazi trying to intimidate you saying, "Where's your mask man? My grandma died from this!" Meanwhile, it was a car accident and they said it was COVID! It's just basic math, folks! We have an average death rate per year in the United States. If COVID really was killing everybody on the planet, we should have the average death rate -

it's called an average; that means it's not the highest not the lowest, it's the average - then on top of that we should have however many extra COVID deaths. Guess what? The death rate of this year is lower than 2018! It's lower! It's lower!

But they say, "COVID, it's killing everybody!" That means everybody who died with flu, everybody who died with co-morbidities, everyone who died with heart attack, cancer, had COVID. You see? We had fewer deaths in 2020 than the previous years. You understand, folks? You have fewer deaths! That's literally third grade math; third graders should be able to figure that out! But yet, you have the majority of people saying, "Oh yeah! Yeah! I heard that COVID is killing everybody!" This is total brainwashing, folks! Total over- the- top brainwashing! Chi-com- level brainwashing! North Korean level brainwashing! It's unreal! It's unreal!

Women & Socialism

But see, they know this about people! See, Americans we always thought we were immune to tyranny coming. This was the arrogance! Somehow Americans believed that tyranny could never come to America. This is such arrogance and Father was always smashing Americans, saying, "Stop thinking that! Especially, remember? He would go after the American women you know. American women, remember that? Because women are a huge voting bloc and what do they do? They vote for leftist policies two times more than men!

So Father, as any good preacher and shepherd should do, would always be chastising the women." Satan is coming after you, girls! He's going to try to tempt you to vote for socialism because you care about people. You love people more than men probably, or at least you know, in a more outwardly way. You want to care for the sick, you want to get rid of poverty; you want to do those things. Yes! It's true! Men do too, but I'm saying this really touches the heart of women immediately. And they will use those key words and buzzwords to lure women in, to vote for policies that give them power, in centralized governments.

It will only increase poverty, it will only increase class distinction; it will increase division between the classes etc. It will only stratify the country more; it will only bring communism faster. Welfare doesn't get rid of poverty; it increases it! The drug war doesn't get rid of it; it increases drug use! Anything that the government does increases the vice that they purportedly are fighting, because they are the vice! It's like trying to get cancer to fight aids, and they give you cancer to fight aids but now you got cancer, which then makes you more susceptible to aids, I guess, right? It's a problem! It's a problem, isn't it?

And that's why Christ asked Peter. He said, "Peter, do you love me? Do you love me? What do you love? What is it that you love?" Will America as Peter, or the elder son, will America say, "You know what, God? I love power!" If America says, I love power," then we're commies. That's what the commies say; they love power. They sold their soul to Satan to get power, to get

secret knowledge, to get satanic divine inspiration and power. That's what witchcraft and all that stuff is about right? They give you secret power to hex people and to exert your will over other people secretly.

But that's also what the CIA and FBI do! You see what I'm saying? In other words they're almost institutions of black magic and institutions of witchcraft, but they don't use "*zim zam zabalem!*" They use swat teams to kill you if they don't like you, and make you disappear, and drones to shoot you in the back in the middle of the night. Are you with me, folks? Pure, pure, evil! We now have a Mongol pincer formation, which is now coming in and just ravaging the suburbs, making everybody scared, giving us the spirit of fear.

The mask Nazis!

Look at how America is turning out! You can't walk into a dang gas station, *Sheetz* food stop, without people looking at you if you don't wear a mask, "Woah! You don't have a mask on!" We're walking to 7-eleven coming back from Georgia, right; we walk into 7-eleven, the mask Nazis came out of the woodwork talking about, "Hey! Why aren't you wearing a mask? There's a pandemic going on!" Mask Nazis coming out of the juice aisle, trying to exert their morality on you, saying, "I'm trying to save the country buying my V8 juice," and telling you, "Where's your mask?"

Nothing wrong about V8! Just have your vegetables, please folks! Americans are seriously malnourished in terms of minerals and nutrients coming from vegetables, by the way. There's nothing wrong with vegetables; God made vegetables!

But anyways, the point is: you're not morally high because you only eat vegetables okay; like these vegans and vegetarians! You're not morally pure because you eat only vegetables, and you're so compassionate you don't want to eat a chicken or something like that, right. But meanwhile, everything you support, like this creation of soybeans is killing off major ecosystems and killing off millions of animals. But you can feel morally high by telling everybody you eat soybeans and vegetables. Okay, fine; I got it; but we're not playing that game, okay.

Now, in a gas station, you're being terrorized by people trying to tell you, "Where's your mask?" You're not allowed to breathe fresh air. You're not allowed to make a livelihood; trying to make a livelihood in America is now illegal. If you own a small business, it is now illegal to try to make a livelihood in some states! Have you seen the new images out of California and L.A.? They had some protesters on the street. One guy, he's a young Caucasian gentleman with a beard, and he's standing on the street. The cops roll up in three different cop cars, and they're yelling at them, "Get out of the street!" And he's like, "Okay, dude; whatever!" He's not some hippie; he just looks like a normal guy. He didn't look like a bum; he's not drugged out or something. He's just like a normal guy standing on the street like, "Come on! This mass thing is

stupid!" You know what the cops did? The cops run out of the cruisers, the Suburban vans. They say, "Curfew! 10 o'clock!" Throw the man down; start handcuffing him!

This is L.A. folks! L.A.! This is supposed to be America! Hello! He violated a curfew; an American citizen walking on the streets at 10 o'clock! That was his crime! He didn't have his mask on! But guess what? All the cops that ran out of the Suburban had no mask on! You see; that's so funny!

Sheriff vs. European Model

Look! Look! Nobody's against law enforcement, and that's why America had the sheriff's model. The sheriff's model is where the citizens can elect the sheriff. That means we can hire him, and if he's a thug, we can fire the guy! That's why the American Founding Fathers hated the European model, which is what? The state police model, where the government appoints the chief, where the government appoints the leader and the citizens cannot get rid of him.

That was the European model; that's the tyrannical model. That's the model they have in China, that's the model they have in North Korea; that's the model they have in Venezuela! Every place that has tyranny has that model, folks! But our Founding Fathers didn't like that! They said, "No, no! Law enforcement has a lot of power, so we should be able to fire him if he does a bad job!" That's why they got rid of that model.

And now in L.A. and the major big leftist cities, it's all state police model, where you can't fire the chief, and usually the chief is a flaming democrat who's against guns, and the Second Amendment. They're actually anti-Second Amendment!

Back the Blue!

Meanwhile you have the republicans, worshiping, and saying, "Back the blue! Back the blue!" Okay, we get it! If it's a sheriff model, yes; but if it's a commie model, no! Now you see, in LA they have the commie model, and they're imprisoning Americans; now even in Oregon, you had conservatives burning the "back the blue" flag. That's conservatives now burning it, because they are, "Oh, *shmitah!*"

But how many months have we been talking about this, that this is going to happen, and that they're going to start putting Antifa as the police chiefs! What do you do then, folks? Are you going to keep saying, "Back the blue," and Antifa is leading it, like they're doing in California?

Republicans were walking their way right into a trap, because now the democrats get power, they put Antifa on the streets, and they say, "Well you always were the party of 'back the blue'; weren't you? So, support the police as they arrest you!" You see how that works?

It will never come to America!

This is pure totalitarianism that we are experiencing now in America!

“Oh! It will never come to America!” Oh! That’s why last year you saw empty food shelves, right? You saw food lines!

“Oh! It’s never coming to America!” That’s why you saw curfews last year, right?

“Oh, you know we have the Second Amendment! It’s never going to be able to take over here!” Really? Really?

Do you think all the folks in the Second Amendment community will fight at the same time? Don’t you know there are strategies that they will bring up to dismantle that slowly?

They will start SWAT- teaming key leaders; SWAT teaming people in the middle of the night. They will start separating groups; they will start isolating you, one at a time. How are you going to organize at three in the morning? I don’t care how many guns you got. We got many; but I don’t care how many you got. When there’s some group of eight guys barging in your house with lights flashing all over and flash bombs, you’re not going to be able to respond so well! And they’re going to take you out, one at a time, just like they did in Australia.

Yes, people do fight back; small portions of people that do fight back, but of course most of them get gunned down, and they will use that to create fear. And when most of the Second Amendment people are seeing people getting SWAT- teamed, and getting their guns confiscated, guess what? That’s a sad part of reality- most of them will say, “Oh! Crap! I got kids, man! I can’t put my kids to risk this!” And guess what they will do? Hand over that gun!

See, this is human psychology! Americans somehow believe that we are immune to basics of reality. Just like we believe that we will be immune to communism; they never would get on our shores. It is total delusion, folks! Total arrogance!

Prepare for the fight

So, what’s the point? The point is: we have to understand that we have this potential weakness. We have to understand in advance, before we get hit; before we get punched in the stomach so -to- speak, that a punch is coming to the stomach. Then you can prepare for it, brace for it. Then you can be stronger to withstand against it. But if you just think delusionally, “Oh yeah, When that fight comes we’re just going to kick their butt,” it’s like trying to walk into an MMA fight and you just study taekwondo or karate. You better be wrestling, you better be doing jujitsu, you better be Thai boxing, and doing some sort of real striking art before they punch you in the face. You better be preparing for the actual fight!

You cannot be doing calisthenics in the backyard and meditating and pretending like you’re going to do well in a cage! You cannot do that, folks! You can’t be practicing tai chi in delusion

land, and thinking, "I'm going to just give him the crane beak when he comes! Whoo!" You can't do that; it's not going to work!

But that's literally, literally, where America is lulled into sleep; false sense of confidence! Look what happened in Russia with Stalin? Those people were armed; the countryside was armed. They would slowly grind out the countryside. They would keep fortifications of the cities, then they would use the cities as brainwashing camps to radicalize the youth to keep fighting the resistance in the countryside, and they would grind you out.

And, by the way! We may have a lot of ammo and we may have a lot of guns in the countryside, but guess what? You don't have unlimited! The federal government has billions of rounds! Do you think your ten thousand rounds - or if you're a real prepper - your hundred thousand- round stash, do you think that's going to do well against billions? At some point you're going to run out. It's about a grinding game. They know this; they've done it in different parts of the world. They know that even if the people are armed, they can just keep grinding you out. And guess what?

Best case scenario

Let's say we're in best case scenario. Biden gets in; a civil war breaks out- whatever the case may be -and there is a fight. Let's say the patriots are winning.

Of course you can't just win from the countryside. You actually have to take your ISIS and you got to take your Baghdad, so- to- speak, right. You got to get rid of Baghdad, because they just keep radicalizing, keep making new radicalized people. You got to literally take Baghdad, otherwise ISIS just keeps fighting and fighting and fighting; it never ends!

So let's say in that case, patriots take all of the major cities; we control all the cities now. We've got all the Baghdads, so- to- speak; ISIS can't reproduce itself as fast. Let's say we've done that, okay! Let's say it's the best case scenario! You don't think Biden would make the call to the U.N. and say, "We need the Chi-com forces and the U.N. forces here with the blue hats, to come help us in this international crisis, where radical white supremacists country people, Americans, hillbillies, have taken over the cities, and now they're trying to enforce radical racism upon the country! We need help! Please, U.N, help us!" which is of course 80% of Chi-coms, in the army.

You don't think they'd do that folks? You don't think Biden would do that? You don't think he would invite Chi-com military onto our shores, when already they have invited Chi-com military to Canada 18 times in the last three years? That just came out, didn't it? "Oh! Chinese military would never be training here on the American continent!" They already were! While we were comfy eating hot pockets on our couch, watching TV and Netflix, the Chi-coms were training with Canada's Special Forces!

Tremendous arrogance

That's a problem, isn't it? "Oh, but that would never happen here, right! That would never happen here! Oh! We're immuned! We're America; that will never happen here!

That's what you said with the brainwashing camps - the schools;

That's what you said with the public libraries! It would never have a "drag queen hour!" You know, convicted pedophiles would not be making children jump on their lap, and as they ride on the ground and literally doing strip dances in front of children, that children would be riding on top!

You said that would never happen! It happened!

You said they would never lock down America; they couldn't do that! They just did!

You said there'd never be food lines! They just had them!

You said there'd never be empty shelves! You just had them!

They said they could never force you to wear masking bandanas! They just did!

Hello! This is tremendous arrogance! Tremendous bias! The idea that evil cannot come to you is the very fall of any great person, any great country, any great civilization.

God is the greatest check and balances

And that's why, as we lose our love relationship with God, we start thinking we are God and we are immune to evil, when it's only God's strength that makes us immune to evil! And we think that by severing that relationship somehow we'll be more free! But then we become slaves to the tyrants! Are you with me, folks?

That's why Galatians 5 says, *"For freedom Christ has set us free; stand firm therefore, and do not submit again to a yoke of slavery."*

But guess what people do when they sever that relationship with God and they have no more grounds upon which they can stand to resist evil? They become part of it! Because slowly, as you become a hedonistic society, you will become part of the evil.

Your morality will start degrading; first sexually, first by licentiousness and then slowly in every other field. Once you become licentious, once you become immoral, it bleeds out into every other facet of mentality and psychology and spirit, and then you become part of the evil; which then means you can't resist evil, because you think you're immune to it when you've become it! Oh Lord, have mercy!

See what I'm saying? That's why we need God! God is the greatest check and balances; on what? On evil; especially centralized evil, communism social political Satanism! God is the greatest check and balances! It's not us, it's not you and me; we are not the greatest check and

balances! Because the globalists and the communists tell us that you and me, we are just animals. We're just advanced bipeds; we're just australopithecines that have just advanced and have evolved quite a little bit more.

Well, if that's true, then we're just animals; which then makes it okay to do human experimentation on us, which makes it okay for them to hurt and control us and to harvest us as they do animals

It's only being children of God; it's only that love relationship and then people willing to not only believe in that, but willing to fight for that, which will stop tyranny! And that's why God gave us this word today.

Whom do you love, America?

In asking Peter, He's really asking America, "Whom do you love, America? Do you love power? Do you love your status? Do you love your freedom? Do you love your liberty? But who gave you that? Who gave you the liberty you enjoy? Who gave you the country you got delivered? Who gave you that? It's not just our Founding Fathers because they themselves attested that, "It is God that's leading them!" They didn't say, "Hey! You know what? It's the Washington clan and it's the Jefferson clan and it's the Hamilton clan, and it's the Adam's clan; they're the ones that are doing it." You know what they said? They said, "It's our Creator; it's our Creator who endowed us with inalienable rights!"

The philosophers that they quoted most were, guess who? Montesquieu, Blackstone, John Locke; all Christian theologians! Every single one! The Black Robe Regiment, the Black Robe Preachers, the preachers that got up there and said, "We have to fight against the British!" These preachers were preaching the Word of God, folks, and like Jonas Clark, they were critical to the Revolution. Why? Because they reminded people, "It's not about us, folks! It's about God, what God wants. And freedom is not going to come based on us; it's going to come by the grace of God!" (*Applause*)

That's what God is asking America. He's asking, "America, whom do you love? Do you love yourselves? Do you love your family, your children? Do you love the ability to do whatever you want; freedom? Which one? What do you love?" And it's not like those things are bad; of course they're good. God wants us to love our family, love our spouse; He wants us to be grateful for freedom. But none of that should take away from Who gave us those things!

Grateful to God

Every time we're grateful for our children, we should be grateful to God, because He gave them to us!

Every time we're grateful for our parents or our loved ones, we should be grateful to God because He's the One who gave them to us.

Every time we think about liberty and freedom, we should be grateful to God because He gave it to us.

Every time we say, "God bless America," and sing the national anthem, we should be thanking God, because He gave us a country to live in!

And if we lose that love relationship with God, we lose all humanity. We become apes and orangutans. We become people who have lost their connection with the root; the Creator, the root of freedom, the root of America, the root of our ability to say, "No!" to tyrants! God is asking this of us this day' He's asking us.

So folks, we are grateful for everybody who has come out to Lancaster- this is Lancaster. Let's give it up for Lancaster! (*Applause*) We got some Lancaster patriots in the house! I see some Lancaster patriots in the house! God bless y'all!

Be a good Christian

But again we're going to demonstrate and to use our voices to be the hands and feet of God. They've conditioned the churches to stay quiet, shut up, sit on your pew, go home; don't ruff any feathers, don't say anything; be a good Christian and acquiesce to evil.

See, it's funny how Satan gets to define what a good Christian is! How come Satan can tell the body of Christ, "Be a good Christian; sit down and shut up!" And people go along with it? How is that possible? Satan doesn't determine what a good Christian is. He tried it with Jesus, but he kept on revolting, and he kept on creating revolutions. He kept on stirring up that pot, he kept on whipping the money changers; he kept on making trouble, trouble, trouble!

That's why for 300 years it was illegal to believe in him! You would be killed! Are you with me, folks? The state doesn't get to determine who a good Christian is, because when they did, the Christians became part of evil. They became a part of the system to justify the empowerment of the most wicked, and they lead the flock to hell. That's not God's desire!

Hope for the best; prepare for the worst!

Now God can use bad situations which people get themselves into because we have free will, we have freedom which means we can choose being good or evil. Sometimes we choose the wrong thing as a nation, and that leads to bad stuff and yes, God can still use the bad stuff to do His will. But it doesn't mean there's not a lot of suffering, it doesn't mean there's not going to be lots of pain and tribulation; it doesn't mean that we are all going to make it through. You see?

So it's better if we can win this,

By exercising our right of free speech,
 By exercising our freedom of assembly,
 By exercising the legal routes,
 By exercising all things possible to win this in a rational fashion.
 Because otherwise when the patriots are pushed to the corner like the Founding Fathers, at some point you have to say, "No!" At some point you have to say, "No!"

We hope that that doesn't happen. We pray that we can have legal victory,
 Even though the Supreme Court is against us,
 Even though all the federal courts are against us,
 Even though all the low courts are against us,
 But still we pray.

And we pray that President Trump may have something up his sleeve on January 6th, and does something bold. But again we must not be foolish; it might *not* happen, and also Satan could take over America, and the Chi-coms could win, and Biden could be in, and he could start hunting patriots! All that could happen too!

So we pray for the best; we prepare for the worst. We pray that we can win this through the legal route, and we pray that Bryan Cutler, the neo-con spineless coward, will do his job and stop and de-certify the votes, but in matter of percentages, you probably could say it's big percentage versus small percentage; probably! I'm not going to say any numbers, but probably it's big versus small.

One stone against Goliath

But it has happened with five stones, and he just had to use one to knock out Goliath. But then he had to finish the job. Remember? After he knocked him out, he had to finish the job and then he had to cut his head off. That's what David had to do! He had to actually decapitate Goliath; take his sword and then decapitate Goliath.

We pray that President Trump could do some incredible miracle, and he could start arresting Pelosi, and arresting all the cheaters, and arresting all the people in voter fraud, etc. That would be great, that would be great! The probability is low, pretty low- just being honest - pretty low. That would be wonderful! It would be refreshing! It would be celebratory! It would be amazing! The probability is low.

Most likely they say it will be a grinding battle.
 Most likely the neo-cons will choose comfort over their country; will choose China over America, as they've been showing they will.
 Most likely even those in the Supreme Court will betray the people, as they already have.

Most likely they will try to usurp the throne of the U.S. presidency, which is the world presidency, and they will try to destroy Trump and every single Trump supporter
Most likely yes!

But again remember:

It was most likely that the Israelites would be wiped out by Canaan as well,

It was most likely they wouldn't win the war in Jericho,

It was most likely that they would continue to be slaves in Egypt. Okay!

So I'm just giving you a reminder that sometimes is most likely when God can work. You understand, folks?

What is most likely for the enemy, sometimes God can work through, because then you have to admit this is the hand of God; not us. God did this! *[Applause]* and it brings us to humility because we realize, "Wow! We cannot solve this alone!" And literally we have to be praying to God that He solves this.

President Trump, like President Washington, on bended knee

Literally President Trump, like George Washington, should be - I mean I'm not saying, "do it for show" - but he should be in the Oval Office, and he should be on bended knee like George Washington, praying to God as a group. At least some of his staff should take picture of that and put it up! For Christ's sake! What are they doing, sleeping in the White House - or something? Give us some pictures or images of the President speaking to God and praying to Him and having quiet time with Him.

The body of Christ needs that! Not because he's God or because he's Christ or anything! But because just like George Washington, when they saw him kneeling and praying in the snow and he was there for hours and there was snow melting on him, and there was snow that was melted around him, and they could see that he was praying for hours, because he had come to his last stand and he couldn't go any further, and he was about to be killed off and all the people that supported and follow him were all going to be genocided by the British, he had only one recourse, folks, and that is to pray to God fervently and melt the snow all around him in a radius of six feet!

I am standing on the field with Almighty God

The troops saw that and they said, "That's our general! There's Washington! That's the invincible man, and I see him crying on the field with melted snow around, crying out to God! What did that do? That lit a fire in those troops; that lit a brush fire in his troop! They said, "I'm not just serving this general whose name is Washington and whose first name is George. I'm not just serving George by fighting in this army and fighting against evil. I'm not just on the field with George.

I am on the field with Almighty God, the Conqueror of the evil and the wicked; the King who takes down nations and rules the earth! I am standing with **Him** on the battleground! George is just an instrument He's using, but **I am standing on the field with Almighty God!** And with God all things are possible and with God, the enemy will be brought low and will be a footstool unto his people!" (*Applause*)

I don't know what hashish those guys are smoking, man! President Trump should be sending out those images! How about President Trump doing a nightly prayer in front of the fireplace! You know how they did the fireplace chat? Do a prayer- chat! Do a fireplace prayer time with America! Why don't you just pray?

History favors the bold

It's crazy time, folks! Crazy time! That's why we're all here. We're all here standing in that gap, to pray for the country, pray for the world; to pray for our president. It's going to require tremendous boldness. What does it say? "History favors the bold!" Look how bold the commies are! They're burning down cities; they're burning down America! They're so bold: they go and stop traffic in the middle of the streets, yank truck drivers out of their trucks. They're acting so crazy; yes, they're crazy!

But they're acting bold! Look how bold these leftists are, stealing the election in front of our eyes, folks! That is so bold! And history favors bold, unfortunately. In order for Trump to fight this, we ought to be praying for him, that he has supernatural boldness, because as the Commander-in-Chief -remember, he's still Commander-in-Chief even though they steal it and they declare him the loser on the 6th of January. I'm sorry he's still Commander-in-Chief - he can still take bold action -which the leftists hate anyways-but he can still take bold action. I think everybody knows what that means, but I won't specify. I just say, "Bold action." He could still take bold action as the Commander in Chief, and he could lock them up.

Would he get harassed and hated for that? Would he be called "dictator" for that? Yes! Of course, but they already call him "dictator" for getting into the White House! They call him "a Russian asset." Meanwhile Biden is literally working for the Chinese communist party!

So what do you have? You have two choices now. America's at a point where there's no grey anymore, no grey! Everybody's being exposed! All the neo-cons: who is real, who is fake! Everybody's being exposed! Mitch McConnell being part of the Chi-coms and the neo-cons; totally exposed! Everybody has become exposed; the sheep and the goats totally being exposed! It's the time of the noontime sun! No more shadows; no more shadows!

Whatever happens on January 6, folks, President Trump has to take bold action. He cannot concede to lies and deception, and a total fraud and stealing of the election! If he does, he would

have put the final stake, the iron stake, in the heart of Lady Liberty, and would have killed her. She's on her deathbed right now; the leftists are lacerating her from head to toe.

Thank God, President Trump has not conceived! Thank God he's being brave! Apparently his favorite book is "*the Art of War*" (by Sun Tzu). One of the teachings is to appear weak when you're strong, and appear strong when you are weak. So, who knows? Maybe he's acting like, "Oh! I don't know what's going on. Everybody, let's get together, and on January 6 we'll have hot dogs together at the White House! We'll just have a big party; very big, huge, huge!" But maybe he's preparing a decisive action.

We are God's hands & feet

Whatever happens, folks, we have to know that it's in God's hands. But again this is interesting. People say, "It's in God's hands!" But who are His hands and feet? It's us! Isn't that interesting? People say, "It's in God's hands," but what does the Bible say about His hands? It's you and me! That doesn't mean we do it totally, but we have to be in a line with God's Will.

Again we have to be activated; we can't just be sitting on church pews in the closet! Jesus said pray in the closet because he was chastising the Pharisees who prayed in the outside fields, doing the rituals, pretending like they're praying; meanwhile they're hypocrites. He was criticizing that, and saying, "Don't do that type of prayer! Instead it's better to pray in your closet directly to Me, instead of doing those types of crazy prayers!"

But no, we're not doing those kinds of crazy prayers! We're fighting for America: we're fighting for the entire world! And that's going to require prayer that's not only in the closet, but that's going to require hands and feet on the ground resisting evil, and resisting Satan, and resisting communism, and resisting this entire Marxist system! (*Applause*)

That's what I mean! It's in God's hands, and His hands and feet are us. It's people who are working in God's Will, who are willing to sacrifice, willing to put their life on the line.

Every single one of us will be targeted as Trumpers, or people who are activating against evil. Every single one of us is putting our neck on the line to some varying degree! Every single patriot is already on a government list!

So, if you're on there anyways, you might as well stand up against evil; you might as well resist it, because one way or another, one way or another, there is a showdown. The showdown is coming, folks! We're walking towards the showdown.

So, let's pray for President Trump as January 6th comes up! Let's pray for all the patriots that came out today, and let's try to do our part in Pennsylvania. But again, it's a big picture here.

Let's pray for the safety of everybody on January 6th as we head down there and patriots from all over the nation and the world will come. I mean, folks, let's give it up for our K and J-teams, our Korean and Japanese teams who came from other countries, gave up their jobs in other countries to come here and fight for our country! (*Applause*) How many Americans are going to give up their job to full-time fight?

You are not going to have a country!

See, this is what they do! By the way the commies, they're not stupid; they're not stupid! They want us to be like, "Oh! Oh! You know, I can't take off work, man! I can't take off! I'm going to get fired from my job! On the 6th, you know, I can't go down!"

You're not going to have a country, man! You're not going to have work! You understand? You're going to be in a breadline in a couple years if you let this go! Your future kids are not going to have a future; your grandchildren will only know communism! That's what you want to give them?

This is it, folks! This is the showdown! Will Americans say, "Oh! You know, I got to get to work!" Why don't we look from God's perspective? Maybe our work is to resist the evil as it is right about to take over; maybe the more critical work that will actually save our children and feed them for the next generations and generations of grandchildren- if you're talking about feeding your family! Maybe, resisting this evil will help feed your family for the rest of your life and their lives etc. But if you don't do this now and you just think short term, "Oh! I got to do this and that," you won't have a country. You will become Venezuela; you'll become North Korea, and your children will live in total abject poverty thanks to you! Sorry, that's how it happens!

So, it's going to take some big changes for people to realize, "Wow! This is serious!" America has the normalcy bias. We think it's always going to be here, when it's not true. It's not true! It's not true! It's not true! If you believe that, you will go faster.

Commies beware!

We thank all the folks who came from across the world, and as we go to Washington on the 6th, we pray that Trump may take a bold, decisive action. We can't rely on Pence; we can't rely on any of the neo-cons. They talk a big talk; they don't walk any of it. The Supreme Court? "Yes! We're going to do justice; we're going to follow the Constitution!" You don't follow any of that! And they proved it.

So, it's going to take Trump; God put him in that place. He is the type of personality he is, for a purpose; he's the type of leader that he is for a purpose. God has a reason why He put that

bombastic man in that position- who has a tremendous strategic mind and tremendous experience.

Again, we may be crossing that Rubicon where it's now not just legal battles, but now Trump has to take real decisive action. He has to be really brave and he has to listen to General Flynn and these kinds of folks that are around him, that really are standing up for him, and they know, and they have the networks to support him.

So, let's pray for boldness that the president will have!

No more cowering to the Satanist!

No more cowering to the pedophiles!

No more cowering to the Marxists!

No more cowering to the commies! Commies beware! Commies beware!

Just remember that: Commies beware! Commies beware! Save America, okay! Commies beware!

Pastor Sean's Closing Prayer:

Father God,

We thank You for this day that You gave us the Word!

We thank You for stimulating our hearts, our minds, our spirit.

We thank You for reminding us who we are.

We thank You for this time of great crisis and tribulation.

God! Even though it's not enjoyable; it's painful! It's anxiety-ridden; it's so stressful. We can't go to sleep at night, but,

Maybe that's the seriousness You need to give Your people for us to wake up and realize that we have to stand up against this evil!

Maybe that's the catalyst that we need to remember how serious this is; that the wolves are in front of the barn, and they're breaking in!

Maybe it's exactly the pill that America needs now, as Lady Liberty is being killed in front of our eyes!

Maybe it's the last thing, the only hope that will stimulate the honorable men and women of America to say:

“No! We will not allow this anymore!

No! We will not let the Satanists get to power!

No! We will not let the pedophiles normalize pedophilia and take our children!

No! We will stand up against this!”

Maybe this crisis is what we need, God! It's in Your hands, and we know we are Your hands and feet!

So, we ask You, dear God, to:

Use us in a mighty way!

Use us for Your boldness!

Use us for Your Will! For You taught us to pray, "*Thy Kingdom come; Thy Will be done*" not my kingdom come, my will be done but, "*Thy Kingdom come; Thy will be done, on earth- on earth, on earth- as it is in heaven!*"

So God, use us as Your hands and feet, so that Your Kingdom and Your Will can be enacted **on this earth** as it is in heaven!

We stand at a critical showdown, crisis, crossroads, in our world history. Not only American history; the world's history is now at a crossroad! Will we take the path to political Satanism which is centralized government and the worship of the state, Chi-coms and the Satanists that rule the Bilderberg groups and all those evil groups the jihadists etc...?

Or will we get back to loving You again, like Christ asked Peter, "Whom do you love? **Do you love me?** Do you love me?" Just like you asked Peter that, you are asking America that now! You are asking the world that now!

And at least, God, from this small barnyard in a field in Lancaster, Pennsylvania, the answer is, "**Yes! We love You, God! We love you! We love you, God!**"

We know that our freedom, our liberty, and our life, it's because of You!

We know the country that we live in and get to be free in, it's because of You!

At least, from this small barn in the hills of Pennsylvania, we love You, God! And we want to shout that with a heavenly megaphone over this earth.

Let Thy love cover America!

Let Thy brush fire be lit in every Christ -confessing soul and heart!

Let us remember **who we are, and whose we are**, this day, God!

Because we know we are fighting serious evil, serious Satanists, serious organized dangerous assassins and dangerous criminals, beyond any local mafia; terrible regimes of tremendous military might that we are facing as just normal people, as just teachers and preachers and farm owners and tractor drivers, etc... It seems impossible Lord! We can't do it on our own!

We also pray for our President who is in the White House purportedly, with 90% of a staff that have left him.

We ask You to tell President Trump right now through the Holy Ghost, that he is not alone and he is not forsaken. And we ask You to fill him with a supernatural boldness and a supernatural love of humanity and this country, a supernatural power as if he were here today in this barn with us!

We ask that he may have boldness on the 6th of January, when we all gather to support him and pray for him,
 And yes, the evil forces may try to attack us,
 And yes, the evil forces may try to do false flags,
 And yes the evil forces may try to take us out,

But in any war the evil forces are trying to take us out! There is always a threat; there is always a danger, but it takes the bold who are righteous and in Your Will as Matthew 6 says, *"Seek ye first His kingdom and His righteousness, and all these things shall be added unto you!"*

Let America remember that, this day, God!
 Let us remember to see Your kingdom and Your righteousness, as we face this seemingly impenetrable fortress of evil!
 Because we can't do it alone!

Oh! God! We thank You for gathering the patriots in this place today! We know we're just a small mark in history and in this small little barnyard, and gathering later at a different field. And we want to admit to You, God, that sometimes we feel, "Why are we doing this? It makes no difference. There's no point in fighting; we're going to get taken over anyway! There's no point! I'd rather just go along with life, and just live as long as I can."

God! We repent for letting those thoughts take control and reign over us. Because.
 *Those were the very same thoughts that tried to dissuade Moses from leading his people out of Egypt, and,
 *Those were the very same thoughts that tried to dissuade Joshua and Caleb from giving the good report and eventually taking Canaan;
 *Those were the very same thoughts and the very same devil that tried to intrude in the eyes of the believers, after Christ was killed, and all hope was lost!

But in the midst of that tremendous despair, and in the misery of seemingly total and utter defeat, God, You made a way! When death was staring all the Christians in the face, and they were being thrown into the mouths of lions, God, You found a way, and when all the odds were against us, through Christ, the kingdom of Satan has been torn down; the veil has been torn!

God, we ask You to be with us because our lives are now knit together in:

This fabric of faith and
 This fabric of patriotism
 This fabric of courage
 This fabric of bravery, even though internally we know we are filled with hesitation and
 trepidation and fear and cowardice.

But, God, as Paul said, "*In our weakness You make us strong!*"

Let us rely on You in this moment of great testing and tribulation!
 Let us remember that You have a purpose for us through this test!
 Let us remember that You have a way to bring rivers out of the desert, and flowing waterfalls
 from the mountains that are parched!

God, we ask You this day to let us remember whom we love. Do we just love being able to do
 whatever we want in America? Are we real? Are we just hedonists? Do we really just love the
 pleasure of our lives that we can live here in this superpower nation, in this first- world
 country? Or do we really love You? Do we really give thanks to all these things, knowing that
 it's You who have given them?

God, let us remember that first love as we fight this fight! Because in the end,
 We can't fight for power
 We can't fight for knowledge
 We can't fight for position for a long time; we will become jaded and we will lose that battle,
 because in the end that's not the greatest thing.

The greatest thing is love and the greatest thing that You've given humanity is Your love and
 You sacrificed and You died and You shed your blood, so that we can participate and share that
 love with You, God, the Creator of the universe, to be completely one with You as a child of
 God and a king and a priest!

So, God, let us be filled with Your love today! That does not pacify us and make us weak.
 Instead let it do the opposite! Let that love fill us with Your holy fire, as John the Baptist said,
 "*After me comes a man who will baptize you with the Spirit and with fire!*"

Let us have the power of the Holy Ghost and the fire of God upon us, and let each one of the
 people that we meet be lit on fire spiritually for you God, and for protecting the freedom that
 You've given this country, so that we can protect it for humanity!

We thank you God, for this day!

We thank You for all the brothers and sisters gathered here from all places of the earth to stand with us.

We thank You for all the folks of Lancaster and all the places around, that have gathered.

We thank You! We ask for protection upon today and the events of today!

We thank You and ask You in advance for the turning of the heart of these neo-cons, and Bryan Cutler, so he can do the right thing and de-certify.

But even though that doesn't happen, we pray that when we go down to DC on the 6th, that we will remain strong and we will not be dissuaded, and we will not live in doubt; for You said *"For God has not given us a spirit of fear, but of power and of love and of a sound mind."* (2 Timothy 1:7)

Let us have those things armed with the Holy Spirit, armed with the armor of God, as we go to DC on the 6th! And as we go to Harrisburg tomorrow morning, to stand with Doug Mastriano on the steps of the capitol in Harrisburg, let us realize that this is what it's all about! Let us realize that this is the fight that You are calling Christians, and those who are in Christ, to fight!

Let us realize that it's not just about declaring and believing internally, but to manifest that, to do Your Will and be Your hands and feet on the earth! Not that we boast of our righteousness or works because we know works cannot lead us to salvation, but we know that doing Your Will can make You happy and that's what matters!

Because You're our Father and we love You and we want to make You happy, Father!

So thank You! Thank You for leading us here today, and thank You for giving us this beautiful place. Even though it's humble and even though it's in the middle of the boondocks, this is the spirit of the Founding Fathers; all them standing with us right here in spirit. We can feel the presence of George Washington, Thomas Jefferson, having all those folks standing with us. We even have descendants here; their children's children's children are here in this very place! We know the entire angelic realm and the Holy Host are with us here, even though we may be humble in this humble place, just like the whole army of angels were with Jesus and the twelve disciples - even less than us here - because, *"Wherever two or three are gathered in my name, so too shall I be!"*

This is what your Word says, God, and we know we are here more than two or three, who are on fire for You, who are in love with You, and who will live for You and who will even sacrifice; every American patriot has the spirit that we will die for You as well!

That is our Founding Fathers' principle; that is our Founding Father's spirit that stood up against the most dangerous military and colonial power of the day. They knew they could be killed. But God, we do not live under the fear of death, because your Word said in 1 Corinthians

15, "*Death, where is thy sting? Grave, where is thy victory?*" You have overcome the grave, **you have overcome death, and so we do not fear death** and live under his oppression and slavery!

We live in the light of God and in the life of the rivers of flowing waters and
 We live with the lamb on the throne of God and
 We live with You marching with the Holy Ghost on these hallowed grounds.

Dear God,
 We thank You today!
 We praise You today
 We give You glory today

Thank You! Thank You dear God! Jesus! We give You the praise today, God!

God, we want to take time also to thank all the patriots and all the people sitting around us, right here, because who knows, we may not understand the significance of one another. We may just think we're just different normal neighbors, or whatever. But we may be sitting next to the Founding Fathers- like person; we may be sitting next to the beginning of the recapturing of America, the re-grasping of America.

We may be standing next to the Founding Fathers version 2, that come to save America!
 So let us also be grateful for one another that are gathered in this humble place today. God, we thank You for Your Word. We thank You for all the people in the fellowship here.

Again, we give You all the praise, glory and honor; in Your precious name we pray. Amen!
 Amen!

All right, let's all rise! Let's give God some praise! Let's sing "**Amazing Grace**" for Him! Amen!

*Amazing grace
 How sweet the sound
 That saved a wretch like me
 I once was lost, but now I'm found
 Was blind, but now I see*

*'Twas grace that taught my heart to fear
 And grace my fears relieved
 How precious did that grace appear
 The hour I first believed*

*My chains are gone
 I've been set free*

*My God, my Savior has ransomed me
And like a flood His mercy reigns
Unending love, amazing grace*

*The Lord has promised good to me
His word my hope secures
He will my shield and portion be
As long as life endures*

*My chains are gone
I've been set free
My God, my Savior has ransomed me
And like a flood His mercy reigns
Unending love, amazing grace*

*The earth shall soon dissolve like snow
The sun forbear to shine
But God, Who called me here below,
Will be forever mine.
Will be forever mine.*

You are forever mine.

Let's give God the praise and the glory! Hug your neighbor folks! Hug your neighbor!
[Applause]
