

## Pastor HJ Sean Moon,

### The Commies are coming! But love God anyway!

January 10, 2021

All right, we're done with announcements! Praise God Almighty! All right, folks, let's go to the word first. We're in Psalm 116. God gave us such a powerful word today; such a beautiful, beautiful word of powerful encouragement! Let's read together!

#### Psalm 116

*1 I love the lord, because He hath heard*

*My voice and my supplications.*

*2 Because He hath inclined his ear unto me,*

*Therefore will I call upon Him as long as I live.*

Remember, this is the time when David is in great suffering, great tribulation; they're trying to kill him. He's a fugitive; he's running for his life in the cave of Ziklag etc, and he is a fugitive. He's on the run; he's bugging out in bushcrafting survival. David is really the bug out master! But he's out there. And look, even in that terrible situation where he's a "fugitive" from an evil force...

Let me put it this way: were our Founding Fathers "fugitives?" Yes! George Washington was a fugitive, okay; Thomas Jefferson was a fugitive. David was also a "fugitive. So, King David, look what he says in the midst of all that! He says, *"I love the Lord! I love Him! I love God!"* You see, he's got a good spirit. He's bugging out, he's in the cave; he has no place to go. He's not a Palestinian; he's running away. You know King Saul's people are trying to get him, the cops, the military - whatever it is. And he's hiding.

But, in his heart he's saying, *"I love God!"*

He's telling something very important. When something is so epic, we can be filled and overcome with fear and trepidation, "Oh my gosh, oh my gosh, oh my gosh!" But we can also flip that. We can flip those emotions because we can have dominion over our mind and body. That's the power God gave us. So, we can flip those emotions and say, *"Hey! I love God! Boy! This is an exciting life! This is exciting! It's pretty crazy, but it's exciting, okay!"* That's a big deal, okay! That's a big deal!

David decided here; he decided, *"You know what? I'm going to flip this; I'm just not going to let it eat me up!"* Because it's like a demon inside; it just keeps eating you up: the fears, the trepidation, the anxiety; that deep stir in the belly, the butterflies in the stomach. It's like, *"When is it all going to end? Oh my*

*gosh, the commies are coming!"* Which is true! But there are different ways we can face that as warriors in Christ. Amen!

### **Different ways to face it**

\*\*\*We could be **eaten up by that fear**.

Those butterflies can now turn into moths; those moths may turn into serpents. You see what I'm saying? Now those beasts will start growing inside of us and start eating us up from within. They can overtake our spirit, they can overtake our enthusiasm; they can even overtake our patriotism. Amen!

So David had to make a choice at this critical time, and it's a critical time. You play the game wrongly here, you play the wrong cards; you're going to die. The stakes are high! This is a very high-stakes game!

There are some times in history when it becomes so intense, and it becomes such a massively high-stakes game, that everybody involved - obviously you can't get away from it - has to deal with it in some way. Now some will choose to say, *"Oh my gosh, oh my gosh, I'm paralyzed! I can't get out of bed! Oh my gosh, oh my gosh!"* Every corner of that street they walk around, it's, *"Oh my gosh, oh my gosh! When are they coming to get me? When are they coming to get me?"*

\*\*\*Or we can be **planning for the punch** so -to -speak.

You know, before you do any training or something like that, you're preparing, right? In any martial arts' training, you know many times in Thai boxing, they make you get hit a lot, in the head or in the body. They strengthen your stomach and your core, or you have a couple guys kicking you and punching your stomach to get your abs ready to take a hit. That preparation really helps. Because then let's say, worst case scenario: all the patriots get locked up. The commies all come and they get us - which is not going to happen without a fight honestly speaking. But let's say: worst case scenario happens.

### **Concentration camps: who survived or did not**

Even if you look at the concentration camps and the people who survived them, there are people who wrote books on them.

\*\*\* I had to read Eli Wiesel in college, and I remember him saying something along the lines of: the **people who didn't make it**, they would say, *"Oh! We got news! We're going to be out by next Friday. Friday is the day! Friday they're coming; they're coming! Friday, we're going to be let out!"* Now Friday comes, and, *"Aw! Where are they? Where are they?"* Saturday morning's like, *"Where are they?"* It did not happen. And then it happens again, *"Oh! Okay. Next Wednesday! You know there's news! Next Wednesday, it's going to happen! We're going to get out; we're going to bust out of here!"* Next Thursday comes along and they say, *"Oh my gosh, what happened?"* *"Well, well, well, it's going to be next Monday! It's going to be Monday, Monday, Monday!"* And then Monday comes along and Tuesday comes along, *"Oh my gosh!"*

So, what happens? People just keep on getting on these emotional roller-coasters and they are getting eaten up by the wiles of the Devil inside.

\*\*\*Now the **people who survived**, they had a totally different mental perspective. They said, *"We're never getting out of here! We're never going to get out, and I really don't care when we get out. I'm going to try to find something to be grateful for today. I'm not going to say, 'They're coming on Wednesday, or they're coming on Friday. If they do, that's fine, and I'll walk out of here. But today I'm going to find something to be grateful for!"*

According to Holocaust survivors, those are the people who survived. They did the best psychologically, spiritually. They were able to endure that incredible stress load that of course people will encounter, will inevitably have, when there is a high-stakes time in history. The stress load of humanity goes up like that; it's a giant load. And it has to be dealt with, because if it's not dealt with, it will consume you. Amen!

Now David is in this whole situation too; there's a changing of kingdoms here. David is running for his life; Saul is trying to kill him, kill him.

### **It's not a two-party system**

I mean, generally any of the patriots can feel like, *"Oh! If these commies get in and they have all the branches!"* They stole the presidency, they stole the Senate; they have the House. And we know how vicious the Communist left is, how radical they are; you know how vicious they are. Beijing Biden is not even in, and they're already deplatforming Trump! They banned him on everything, shut down his Shopify; he can't even sell a MAGA hat now! You all know that, right? They shut down his Shopify because he's a terrorist! Donald Trump is a terrorist, folks! That's what they're saying!

That man can't sell a MAGA hat on his website, in America, folks! And remember, he's still the President of the United States of America! You understand? He's not even out! And they're already banning him: Twitter, Facebook! They're already taking away his ability to sell a MAGA cup or whatever! It's insanity! But you see how fast they move; vicious and fast!

The Republicans had control of the House, the Senate, and the presidency, and President Trump did a lot of things, but the RINOs didn't do anything! Boy! If they wanted to, they could have passed reciprocity in those four years. Then we could have reciprocity, which means just like with a driver's license, you can carry your concealed- carry weapon anywhere around the whole country. It's one country! Just like your driver's license! If they wanted to, they could have pushed it through.

But of course it shows you that they didn't want it, because they're the same party; because how can you pass a 5,643 page bill in a matter of an hour without being the same team? Huh, tell me how that happens? If you have two opposing teams, you're not going to pass a 5,643 page bill through into law in a matter of 60 minutes! It's not happening! People can't even agree on the color of Christmas ornaments in an hour, let alone ten million new laws, okay? Are you with me folks? Come on! You

have to be kidding me! You spend more time picking out the new colors of the rims on your car or the pillows on your bed, then spending - what is it? - three trillion dollars; whatever it was. It's crazy! This is not a two-party system; there's total consensus there!

### **Epic time in history**

But, to kind of step back from that, again in the times of high -stakes history, which we are in ... We are in an epic time of history, folks! I know it's very stressful, and there's a lot of danger, obviously, because we have very, very, rabid dangerous, powerful communists, that have infiltrated, and taken over this country. So, it is dangerous; obviously, it's very dangerous. It's not a video game; nobody here is LARPing (*Live Action Role-Playing*). I mean this is not a video game; you can die standing up to them. So it is a dangerous high- stakes game!

But in another sense, it's a very epic time in history. These times in history don't come every day; they don't come every day. I know that it would be better; it'd be nicer on our blood pressure, if we could just have a normal time. But again, God gives us times of testing to raise up His children. He gives us times of testing to build our character.

### **Why did God allow Satan?**

People ask, "*Why did He allow Satan to take one-third of the Holy Host, and take one-third of the angels, and make them into demons? Why did he allow that?*"

So the good people have an opponent to fight, and through fighting evil they will understand good and what they're standing for. By fighting evil they will also learn how to transcend the fear that evil has over people, namely the fear of death, the fear of tribulation, the fear of being tortured or whatever the case may be; whatever evil can muster up to give you fear.

By fighting and resisting that, we have to draw up from within, and we have to rely on God to give us strength, to transcend that fear. Because it is overwhelming; it can be powerful, it can be like a vortex that sucks you in, like a big whirlpools, a big drain. God gives us that time of **testing because He's a loving Father!**

Like, I put my kids through training. They do the combat arts: they have to do Brazilian jiu-jitsu, they do boxing, and they get punched in the head. It's like me and my daughter get punched in the head. They get strangled, they get arm barred, and they get injured too because you cannot, not get injured in these kinds of things.

But as a loving father, I see that and I know it's good for them. They don't want to fight the tougher people in the dojo, because in these kinds of arts you have to constantly spar, you have to constantly fight, as close as you can get it to a real fight. It's like a combat, right, so they don't want to do that because just sitting there waiting, you're filled with fear and anxiety and butterflies in your stomach until the coach calls you, "*All right! You come on over here; you go with her! Come on girl, go with her!*"

And they're like, "Oh! No! Not her! Oh my gosh, not that tough girl! Oh no! No!" They want to run away, but they have to face it; they have to face it, and just get into the moment and just focus and then fight.

And as their daddy seeing this, I know it's stressful for them, I know it's painful for them in a sense, but I know it's good for them. It will build their character, it will build their ability to think in chaos, it will build their skill set; it will build their abilities. No parent wants to see their child unnecessarily suffer, but a loving father will want his children to become stronger. And in the process of that, yes, you have to have opponents that push you, and really test you. For two years you just get beat up and brutalized the whole time; right, you just get beat up the whole time. But that process is good; it makes you stronger. It's not a bad thing; it's a normal thing. It's not a bad thing!

So, some people ask, "Why did God let Satan take one third of the Holy Ghost?" That's a lot of enemies! That's a lot of enemies! He let Satan take a third of His angel army to use them against Him.

But if everything's so easy, we don't appreciate; we won't become like God. We won't become like our Father; we won't resemble Him. We won't become like the Father; we won't have His spirit. At any sense of fear, trepidation, butterfly in the stomach, we may just collapse. We'll just concede; we will surrender.

### **Christ overcame death**

#### **- In the Garden of Gethsemane**

That is not the way Jehovah God is, or how Christ Jesus is. That's not how Christ is! He faced death. He overcame death, but he faced it straight in the eye. In the **Garden of Gethsemane** he wept. It was painful; there was stress involved. The Bible says he was sweating blood. So, even Christ in the Garden in Gethsemane encountered tremendous stress and pain. Now he had to face death. But as 1 Corinthians says, and as we have out there with the Grim Reaper shirt, "*Death where is thy sting? Grave where is thy victory?*" Because he faced it! He faced it; he transcended it. It no longer had power over him, because he said, "I'm at peace! I'm doing the will of the Father!" And Christ said, "*And do not fear those who kill the body but cannot kill the soul. But rather fear him who is able to destroy both soul and body in hell.*" (Matthew 10:28)

#### **- In Hungnam Death Camp**

It is that kind of incredible time that we are living in; it really is that kind of incredible time! Any of us who are from Communist countries that have emigrated here and ran away from those countries, like our family, like True Father who was in a North Korean death camp in 1950...

We found that Korean professor from Fort Lee, Professor Ahn, who is an expert on the Korean War. He has footage of the Hungnam Death Camp on the port. It's a humongous death camp! There it is! (*Showing a video of the camp*) Right there! I believe that was shot in 1950. Father was there from 1948 to 1950. That's how the death camp looked! They were basically using the prisoners for slave labor. Everybody knows that's what they do at any death camp, labor camp, and he had to shovel ammonium nitrate all day every day. Most prisoners of course died with lung problems etc, within a

year, but by the grace of God, he was able to survive those two years and eight months. By the grace of God! Every day, just forced labor! It's a death camp; it's a concentration camp. These are clips from around 1950.

So in that tremendous time of tribulation, we can be consumed with fear. But what did Father say in the Hungnam Death Camp? Remember that *The Blessing of Glory* was written in the Hungnam Death Camp, right! Father is praising God, "*Now the light of glory arises...*" He's praising God even in the midst of the death camp. He's transcending the death camp; he's transcending the threat of death that is constantly upon you. The Grim Reaper is behind every corner, and he is transcending it!

### **We condemn**

So there are times in history when God makes us face these things, and He makes us stand up against unimaginable odds. Did you know that the Boston Tea Party, they threw some Lipton (!) tea in the water, and then guess what happened? All the politicians were condemning the act. They said, "*We condemn it! We condemn it!*" Just like a couple of days ago, the Republicans come out, and they condemned their own Republicans harder than the Democrats did! You understand how crazy that is!

The Democrats, they had BLM burning down cities! Do you understand? Cities! Let's get some of that film because people forgot! Let's get some of that film about the burning. I mean, do you understand? Cities were burning down! They took over CHOP, formerly CHAZ; literally they took it over. You understand? And the Democrats are applauding, "*They're doing nothing wrong!*" I mean, if there's something to respect about Democrats, at least they stand up for their people! Hello, folks! Come on! Give me a break here!

Wednesday was an epic day! I got to say that was an epic day, epic day! And you know what we condemn?

We condemn the usurpation of America

We condemn the stealing of the presidential elections

We condemn the senatorial stealing

We condemn the Dominion voting system

We condemn the left protecting the BLM burning down cities

We condemn CHAZ CHOP

We condemn harassing and abusing half of the American population for four and a half years!

*(Applause)*

*(Showing BLM burning a city)*

Yeah, yeah, yeah, here we go! People kind of forgot about this. They were doing this. Remember this? When this happened, did you see Pelosi, did you see AOC, did you see Maxine Waters come out, "*We condemn this behavior immediately!*" They didn't do any of that! Even though they're on the wrong side of history but they stood up for their people! You understand?

It is such a below-the-belt kick when you have your own people who are there for you -they're there for you. They're putting away their jobs to stand there for you. And yes there were some crazy there, but it was 99.9999 % peaceful protesting, standing around and singing songs. That's literally how it was on the ground except for the part where the cops were moving back, and people were filing in, and they were shooting tear gas into the crowds, that were just standing there waving flags, and singing, *"God bless America."* I mean, it's crazy how they spin that!

And the first thing: the RINOs get to come out! They all have to come out. They make a line, and they're beating the Democrats in the line. They say, *"Stand behind me, Democrat!"* They want to go to the front of the line, *"Well, well, well, we condemn this with every possible ounce of fiber in our body!"*

We were exercising our constitutional right! That's the House of the people! These people are supposed to work for Americans; they're supposed to be working for you and me! They're supposed to hear the grievances after abusing people for four- and- a -half years, after letting cities be burned down and blaming it on us, after letting the stealing of elections, the stealing of the entire senatorial camp, you know all branches of power, threatening us, calling all of you white folks, *"White supremacists and bigots."* I mean they've been doing that how many years now? *"Nazis!"* Remember this? They've called you all *"Nazis"* for the last four years, Nazis! They call Trump supporters, *"Nazis!"* *"You're supposed to kill a Nazi!"* Remember that? Golly!

And it's not like you're just calling us names! That's one thing! But you stole an election in front of our eyes! We saw it! We saw it! We saw it; saw it! We were 800,000 in front of you in Pennsylvania, and you stole it! You totally stole it! Even a third grader with his crayon set can understand this! It doesn't flip that fast! You can't have vertical statistical jumps; that doesn't happen!

So we saw all this stuff! We've been abused and abused and abused! So people show up and they are expressing their grievances. And the first thing the Republican RINOs want to do: they want to run in line, beat the Democrats to the line, to condemn their own people who voted for them, who got them into office! Golly! You're talking about such a cowardly move! Seriously! *"Thanks for helping me, Bud!"* Boom! Right between the legs! I mean this is ridiculous!

The Democrats, they're on the wrong side of history; they're wrong. They are wrong and their ideology is evil, but at least they stick up for one another; they try to protect one another, for Christ's sake! Even a gangster tries to protect his people!

You had people that gave up their whole livelihood, gave up their entire work career to go fight for you, to try to protest for you, to pray for you, and you want to throw everybody under the bus! Now you're agreeing with the Democrats saying that, *"Everybody who gathered there is an extremist, a terrorist."* They are not standing up for the people, the RINOs! They are standing up for themselves and their own seat!

**You've never seen an insurrection like that!**

By the way, just to get you back to history, the Boston Tea Party they threw the tea in the water; that was before Lexington and Concord. Kook Jin-hyung was telling us about it this morning. Most of the politicians came out, "Well, we condemned this behavior! We condemn it to the highest possible degree!" And I guess they had British accents. (*Imitating British accent*)

And guess what? Within two years it just started building. Why? Because they said, "Okay, now we're going to pass the Intolerable Acts; we're going to try them for insurrection," which is exactly what's happening now. They're saying everybody that was there was part of an insurrection! Yes! I've never seen an insurrection with unarmed people standing, waving flags, singing *God bless America*. I've never seen an insurrection like that! I have never heard of an insurrection like that! Are you kidding me?

They didn't have pots and pans; they didn't have shovels or pitchforks! You understand? Give me a break! They had nylon flags in their hands - from China, from China! (*Laughing*) Nylon flags, hopefully some from America! Oh! Lord! Have mercy! They were singing *God bless America*! Did you see the people? They were not tearing things down! There were some BLM crazies trying to do stuff, but 99.9 % were peaceful. The cops moved away; they moved back. So the people were just standing there and they just started singing *God bless America*. We were singing the song, *And I'm proud to be an American*. Everybody sang that song; some people had that on the bullhorn speakers.

Yes! It was a terrible insurrection! It was so bad; Congress was so utterly decimated, that they could have the next session in about four hours!

Did you see what BLM did to the city streets? How many weeks it took, just to clean up the graffiti? If BLM and Antifa were in there, that whole place would be covered with graffiti; the whole building would probably be burning as it was in the summer! Remember in the summertime? I mean everything around the Washington Monument was burning, because they were setting fires and doing all the lunatic things.

None of that happened! The gates were opened. The guards and the Capitol Police were standing down. There's video footage of them opening doors, so people were just literally, "Okay, hey!" (*Walking slowly*) And the cops are standing there, nodding. You see the footage! It's, you know, Jane and Mrs. Anderson just, "Hey, okay, we're walking right down here! Okay, hey," taking the pictures. I mean if that's an insurrection, if the United States Secret Service is defeated by such tactical power, as people in blue jeans with the overalls, walking through saying, "Hey!," unarmed, then we are in serious trouble!

Come on, folks! That's ridiculous! You've never seen an insurrection like that! Come on! That is ridiculous! Totally ridiculous!

### **Protest for redress of grievances - under the bus**

And you see how the left hyped it up! And it's not just the left. This is what's crazy; it's not only the left that hyped this up; it was the RINOs! Look at them! The Mitch Mc Connells! They lie to your face; they lie to your face, "*Oh, I stand behind Donald Trump. I'm running for Congress this cycle. Vote for me!*" And then Trump is campaigning for them; they win and then they're the first ones out there that say, "*We condemned this to the highest degree!*" They should have been wearing the George Washington wigs with the whole red coat outfit! Somebody's got to make a meme out of that; please, please, do! All these people condemning, can you put like CGI Minecraft red coat clothing and a wig on them or something, and saying, "*I condemned this to the utmost degree!*" And the next one, "*I condemned this to the utmost degree!*" Oh! Golly!

You people won't do anything for us! You people won't express our voice! You people won't stand up for us! And you let us be hammered and hammered and hammered for four- and- a- half years, being called freaking "Nazis!" You understand? Freaking "Nazis!" We kill Nazis, folks! But do you understand? They've been calling us "Nazis," which means we should be killed!

So, you're just hammering and hammering and hammering and beating and beating and through the whole time the patriots are patient and they just eat it and eat it and eat it and eat it and eat it! But even if you have spaghetti three times a day every day, you're going to get sick of it, probably after a week. We ate it for four years! I'm talking about meatball spaghetti for breakfast, meatball spaghetti for lunch, meatball spaghetti for dinner! Meatball spaghetti for breakfast, meatball spaghetti for lunch, meatball spaghetti for dinner! Meatballs spaghetti for breakfast, meatball spaghetti for lunch, meatball... You understand okay? That's only three days! I'm talking about every day! Every time we turn on the TV! (*Sighing*)

Okay, and then people go up there to protest for redress of grievances, and you want to condemn the people with the actual Communists! You want to condemn the people who got you into office! You want to condemn the people who stood up for you! There's nothing lower than that folks; that is ridiculous! And now they're handing it over; they're handing it over! Not only did they do that; not only do they condemn the people that have been literally rag dolled for four years, and the only buffer between the rag dolling and the people was Trump; he was eating a lot of it too!

Then you throw us under the bus when we stand up for you, and we make a spiritual stance that we're not going to take this, and we're not going to see the country die and Lady Liberty be lacerated in front of us; that we're not going to do it, we're not going to stand for that! And we are just singing, gathering on the steps there, singing *God Bless America*, and letting our voice be heard!

And you want to throw all those people under the bus! "*Extremists, domestic terrorists!*" They will help the left make lists. That's how crazy they are!

But this is what happened at the Boston Tea Party! The Boston Tea Party threw the Lipton tea out. There was a huge ruckus: newspapers writing, "*Oh! Insurrection, insurrection! Sedition, sedition!*" Other politicians, even some of the Founding Fathers came up, "*Oh! Well, we don't agree with this! This is bad behavior, this is un-American behavior; un-American!*"

Why do you use that only for the patriots? How come you did not use it for Antifa and BLM, beating up people, killing dozens of people, shooting little children in the face just because they're white? How come you didn't say that's un-American? How come you didn't say, "*That's the darkest day of our history?*" No! It's patriots who are gathered around the Capitol singing *God bless America*, that's the darkest day of our history! These people are crazy, folks! They're totally crazy!

Then, not only do you do that! You throw us under the bus, you kick us in the balls a couple times, stomp on our head just for good measure, saying, "*But remember to vote for me next cycle,*" and then you give it over to the Chicoms! You give it over to the communist operatives! You're giving it over to Biden!

"*Well, the election was certified; there's no evidence!*" Yeah! Because at every level you didn't even let the evidence be presented in a court! We had to do election integrity meetings with the senators in hotels! Remember? Because the stupid courts wouldn't open! Do you folks remember this? (*Yes!*) They had to rent a hotel room to present evidence, because the courts would not let them present evidence. Do you remember this?

### **President Trump's accomplishments**

I mean, about President Trump, if you look at it; just look at it honestly. Let's take all the craziness that they're trying to whip up, to try to condemn all patriots. Just look at what Trump has done in four short years- four years. Again nobody worships him as God or Christ or nothing like that. He's a man appointed by God; he's not God. But he had a job that he had to do and God put him there. He walked away from billions and billions of dollars! He didn't need to do that; he didn't have to go through that grief on a daily basis, him being attacked on a constant and everyday basis!

None of us get paid for supporting Trump! Every single one of his supporters is supporting him because he made promises and he tried to fulfill them to the utmost of his ability. Did he do it all perfectly? No! Nobody can do it all perfect. But did he start moving on a lot of promises? Oh! Yes, he did! That's a big break from all the other politicians that we've seen in the last century; a big break!

Then look at what this man has done! God has used him to do what? Huge things!

\*\*\* Four years ago if you told people on the right - okay, I'm talking about Republicans - if you told Republicans, "*CNN is fake news,*" they would think you're crazy. You remember this? Four years ago Republicans were watching CNN! **He has completely exposed the media**; he has totally exposed it as **being fake**. Remember, before Trump, it was like only Alex Jones that was considered a tin-foil- hat -

wearing crazy man, or people like that, but not mainstream. Trump brought that to the mainstream! Trump brought that reality to the main stream!

**He basically red-pilled close to 100 million people**, folks! Do you understand how humongous that is? Prior to him, it was maybe a million people in America that were red-pilled; he brought that up to like 100 million! That is humongous! That is an incredible, incredible victory on that operation! Even if he just did that, that's huge! He woke up a hundred million people that can change the destiny of America! Oh my goodness! That's a humongous victory!

\*\*\* He got us **out of the wars**, etcetera

\*\*\* But what else did he do? **He exposed the judicial system** here! Remember even four years ago, if you talked to a Republican, they would say, *"Well, well, well, I have faith in the judicial system. I have faith that there is still justice in this land!"* If you talked to a Republican four years ago, almost everybody who was a "Republican" would say, *"Yes, I believe in the justice system. I think there's still justice in America!"* Remember this?

He exposed all this by fighting it! Now, he did it at the end of the four years. As he stood after November 3rd and all this craziness, that's really when everything started opening up big time, and when people really saw. Everybody was like, *"Yes! Texas is stepping in! Yes! Yes! Texas!"* and they'd say, *"Come on, cowboys! Girdle up! Come on! Get your chaps on! Let's go! Where are your hats? Let's go, boys!"* They were getting so excited, *"We're going to the Supreme Court! Let's go! Texas is leading the charge!"* Remember this?

And they wouldn't even hear the case!!!

Now remember, the lower courts, the state courts; remember that? They were trying to get the cases heard, heard, heard, heard; all the courts were rejecting, rejecting, and they had to rent hotel rooms to do public "hearings," because the courts wouldn't help them. They wouldn't even let it be officially heard in a courtroom, because then they would have to do something about it, right! So, from the lower-level courts, all the way up to state-level courts, all up to the Supreme Court! And remember everybody was like, *"Yes! We got three of the new justices: we got Kavanaugh, we got Gorsuch; we got Amy Coney Barrett! We got them all in! Yeah! We're going to get him in! Yeah! Oh! Yeah! Yes! The Texas lawsuit, if it gets to the Supreme Court, we're going to win! Trump is in four more years! Whoo!"*

And they said, "NO!"

So he totally exposed that the justice system is completely corrupted! It's completely corrupted! They can literally block things that obviously they don't want to hear! You're telling me, *"The President of the United States got his presidential election stolen; everybody saw it, and we can't even present evidence!"*

This is beyond a banana court! The Supreme Court might as well have a jungle cafeteria with tropical birds and then orangutans and the rainforest in the building, eating at their rainforest cafe! They may have that inside the Supreme Court; it's so crazy in there! *"Banana Court! Banana Republic! Yes, I'm on the Supreme Court. I'd like an order of buffalo spicy wings, please, with blue cheese and a little bit of ranch dressing on the side, and put some celery sticks on the side of that, please!"* Welcome to the rainforest cafe, banana court cafe! This is crazy, folks! Do you understand how crazy this is!

So, he completely exposed that our judicial system is also totally decimated, politicized, corrupted. That's a humongous thing! And he only did that in the last two months, because before that it was still hiding, it was still hiding; it was not yet revealed. But because he didn't concede and he kept fighting, that reality got opened up. That's huge victory! That's a humongous victory!

\* \*\*And then what else? Because he fought and didn't concede what else did he open up?

**He opened up voter fraud, election meddling.** That we can't trust the election systems here, especially **Dominion voting system** which is owned by China and two partners of Venezuela's Maduro.

So, he completely exploded that fact, that the voting system is totally corrupt! We are literally like in a third-world country, putting in the ballot, and it doesn't mean anything. You're stealing millions of people's votes, and we are supposed to be the number one! We are supposed to be the example for the world of what elections are supposed to be like! Are you with me, folks? This is humongous! It's like Stalin who said, *"It's not the people who vote that count; it's the people who count the votes!"*

And Dominion wins! Who's going to be inaugurated? Beijing- Biden? No! Dominion voting machines are inaugurated! Give me a break!

So he exploded this humongous fraud!

---**The media**, he totally exposed! He red-pilled a hundred million people! That is incredible!

---He uncovered the reality of the totally **fraudulent judicial system** that we have now. It has become rotten! The voting system is completely rotten!

---And of course **China**! China's in there! China!

---And then of course he exposed **the RINOs**!

By fighting this fight and not conceding, every sheep has to be divided from the goats. Every "Republican" who said, *"I support small government and I support small businesses and I support the nuclear family and I support protecting the unborn and I support your Second Amendment rights,"* you didn't do anything when you were handing over the nation and all the branches of power to the Communists! You didn't do anything about it. Instead you condemned the people, your own constituents, who voted for you to get into office! Give me a break, folks! That is insanity!

So look what President Trump has done! He has done an amazing work!

Now, was the whole thing a secret sting operation, and the Special Forces were in there, and they were getting Nancy Pelosi's laptop and then an Italian government was there, and now etc ... Okay! I don't know! I mean a high-level Italian judge has come out and said that they have affidavit of the man who said that he was told from Italy to change the votes, and of course there's now a Vatican blackout. So, anyways, we don't know.

But the point is: there are still ten days, and he's still the president. If we do have foreign interference he can still call for limited martial law - whatever you want to call it. He can still take action as the president, especially if there's now more and more mounting evidence. He was supposed to speak last night, wasn't he, and that got shut down.

Apparently they're saying from Monday there are going to be internet blackouts; we're not going to have internet, we are not going to have any ability to do Instagram and social media - all that kind of stuff- and it's going to be blackout.

Then they're saying he may use the emergency broadcast system to go directly to the people's phones and give them a message. We don't know; the likelihood is probably very low.

### **Do you love me?**

You know, even though we want to be hopeful folks, right, we can't be like those people in the concentration camp, who are like, *"It's coming Monday! It's coming; it's coming!"* You remember that? Remember, we said that those are the people who die.

So, you hope for the best but you also got to prepare for the worst; you have to prepare for the worst!

That's what David was doing. David was not living in idealism, in La La Land, even in the death zone, even when he's about to die, even when he's a fugitive, even when they're trying to hunt him down and kill him. The S.W.A.T. teams are coming for King David, okay, that's this episode right here. He's in that craziness and he's not just saying, *"Okay! I'm just going to walk up to them, and let them take me!"* No! No! He's still running. He's still doing things he has to do. He's still out there staying away, bugging out, preparing, etc... Right! He's still doing what he has to do, but at the same time as he's doing it, he's not letting himself be taken over by demonic imaginations.

He's keeping guard of his spirit; he's keeping guard of his internal state, and that's why he's saying, *"God, You are the One that can keep guard of me. I love you, God! I love the Lord! I love the Lord!"*

When Christ was resurrected from the grave and he came to Peter, he asked, *"Peter, do you love me?"* Remember this? He asked him three times:

*"Do you love me?" "Yes Lord! You know I do!"* (That's why I just betrayed you ten minutes ago, but that's okay, anyways) *I do, I do!"*

*"Peter, do you love me?" "Yes Lord! You know I do!"*

Because in the end it's about love; it's about love. Do you love humanity, or do you love power? Do you love God, or do you love just what the politicians want? Which one do you love? Which one will

you fight for? Because you're not going to be able to put up a lot of a big fight if you don't have any love in your heart for something bigger than you! Amen!

### **Fighting for righteousness**

The Founding Fathers didn't just say, *"Hey! I want to, I want to, I want to fight the British, so I can get all the British chicks; you know them British girls they are hot! I want to get them!"* No, no! They're not fighting for that reason! They're fighting for a larger purpose. *"We need to preserve liberty here; we can't be oppressed like this. Human beings are not supposed to suffocate like this. We have human rights; we have to stand up. We have to make an example that there's one place in the world where we will respect our natural rights given to us by God. There's got to be one place in the world that will allow that!"* (Applause)

You see? So, they fought for something bigger! Not like the demonic wars or the demonic kings of the past, that did what? They just fought for power. They just fought for rape, pillage and plunder. But the Judeo-Christian God, as we talked about many times looking at the Scripture, when He orders the people to fight, He forbids them to what? Pillage, rape and plunder! *"You can't take any of their goods. You have to burn their wheat; you have to kill their calves and the heifers."* They had to burn them up because otherwise, the people would be corrupted and they would fight wars for profit. They would fight wars just to get rape, pillage and plunder, and they would become animals; they would become evil.

God's people couldn't do that! They could only fight when the enemy became so evil that God said, *"Now the hammer will fall, and you will go in and you will utterly decimate them, but you will not take any of their things, and you will burn them."*

In that sense the people could only engage in the war when they were fighting for a righteous cause against evil and those civilizations like the Canaanites, the Hittites, the Amorites, the Carthaginians etcetera, that were practicing what?

\*They were all practicing child sacrifice to Baal: offering the children to Baal, the god of fire which is killing the children,

\*Temple prostitution: selling your baby girls into temple prostitution,

\*Sex trafficking: this was the common culture,

\*Pedophilia: totally normalized.

This was the common culture!

Then at some point, God says, *"Now the hammer will drop, and Israel you will be that hammer. But you will not take any of the things. Instead you will burn the temples down; you will even burn their wheat and their livestock. You will not be able to eat it."*

Why? Because He wants to make sure his army goes to fight for righteousness, and not for rape, pillage, plunder and profit. Because then it becomes evil, and then it will consume itself. Are you with me, folks?

Our Founding Fathers were the same! They were not fighting for rape, pillage and plunder; they were fighting for righteousness. They're trying to fight for freedom, not only for the grandchildren; I'm talking about for everybody who can live in America. And eventually that spirit of benevolence that spirit of magnanimity, that spirit of believing that our rights come from God started spreading to the rest of the world, so that places all over the world could start being touched and be blessed by that.

### **Do not be demoralized**

That's incredible! That's never been done in history! But yet they tell you that:

*"You should be ashamed of your history,  
You should be ashamed of your Founding Fathers,  
You should be ashamed of the Judeo-Christian root of America;  
You should be ashamed!"*

*"It's not progressive enough!  
We want transgender bathrooms in every place.  
We want to be able to date your children when they're 5 or 10 years old.  
We want to hyper-sexualize your kids in government schools.  
We want to force Hollywood values in your bedroom!"*

I mean this is crazy! These people are crazy; they're over-the-top insane! And when they have a little bit of resistance, it's, *"Oh! You racist! Oh! You white supremacist! Oh! You bigot! Oh! You this and that phobic! Oh! You this and that..."*

It's all about demoralizing you folks!  
It's all about sucking the spirit out of you!  
It's all about taking the fire that God has put in you, and snuffing it out.  
Because if you give up from within, you will give up! You will surrender, you will acquiesce; you will kneel down and say, *"Yes! I take it!"*

### **The Fire of the Holy Spirit**

That's why they fear people that have the fire of the Holy Spirit within them!  
What did John the Baptist say? *"I am not worthy to tie the sandals of the one who will come after me who will baptize you with fire and the Holy Ghost!"* You have a fire in you, and it won't be for you; it won't be just for you, you see! That fire won't be just for you! That fire will be to, *"love God and love your neighbor,"* to protect your neighbor.

Boy! We only did two verses! I can't believe it! We have a long day of study today! Let's just read through: it's not that long! This psalm, I think, is such a great blessing of a Word that we need right now. Let's read from 3

**Psalm 116: 3 KJV**

*3 The sorrows of death compassed me,*

Whooh! Who felt the sorrows of death? My goodness! Did you feel the sorrows of death, when all the folks from across the nation, we were heading back home from DC, and you turned on the TV, and every Republican - not Democrat - was saying you are a terrorist! I mean people were peacefully protesting *God bless America, land that I love (Singing & waving the flag)*. "Oh! We condemn these people with the utmost ...!" Are you crazy? We came there to support you!

*The sorrows of death encompassed me and the pains of hell gat hold upon me: I found trouble and sorrow.*

Whooh! I mean, be honest: who felt a little depressed after that? Getting beat up like that, after we went down just to pray for the president, and now you're getting beat up online, beat up by all the RINOs in Congress, "I condemn everybody that was there! They're terrorists, domestic extremists; we must uproot any vestige of Trumpism in America! We must exile Trump!" Mattis came out and said, "We must exile Trump! Exile Trump!" Are you kidding, folks! You're going to exile Donald Trump because he disagrees with you! I mean that's how these people are! See, it's not the leftist commies that are like that only; the RINOs are the same thing!

I felt more depressed watching these so-called Republicans, throwing every single Trumper and every single person standing for liberty under the bus! We stopped on the way up, and we are there eating noodles watching this on CBS. All the Republicans couldn't wait to get in line to say, "I condemn all the people that were here today!" Are you kidding me? That were waving flags? That were standing there singing songs?

I felt more saddened, more sorrow in my heart, more pain from those people! We all knew the Democrats were going to come and say, "Oh! That was terrible!" We knew that; that's not a surprise. And again we kind of expected it from the well-known RINOs, but there were some other guys that came out - Dan Crenshaw, Ron Paul! I mean, come on guys! We're supposed to like you! There's supposed to be at least some of you that will stand up for your own people, and not throw everybody under the bus when it becomes really inconvenient! Ridiculous! I felt the sorrows; I felt the sorrows of death!

Let's continue!

*3 The sorrows of death compassed me, and the pains of hell gat hold upon me: I found trouble and sorrow.*

*4 Then called I upon the name of the Lord: O Lord I beseech thee, deliver my soul.*

Hallelujah!

*5 Gracious is the Lord, and righteous; yea, our God is merciful.*

*6 The Lord preserveth the simple: I was brought low, and he helped me.*

*7 Return until thy rest, O my soul; for the Lord has dealt bountifully with thee.*

You see how the soul was stirred; the soul was in pain! How many people felt some soul pain on Thursday after being thrown under the bus by the neocons?

*8 For thou hast delivered my soul from death, mine eyes from tears, and my feet from falling.*

*9 I will walk before the Lord in the land of the living.*

I mean, when you are around folks like this! That was amazing! All those patriots there! We are walking in the land of the living! These people are living; they're alive! (*Applause*) They haven't sold their soul to hell and to Satan to be a slave! They're living peoples - and they're actually breathing too without a mask! Praise God!

### **Absolute power**

The Chicom virus! Well you know what they say? They say, "*The new virus version 21 is coming.*" There are two new strains apparently in Britain! Yes! Two new ones! Yes, yes! So Biden will 100% make us lock everything down again by the way; we have to lock it down. Kill the middle class; make it illegal for everybody to make a livelihood! Just simple things like that, you know! Because the new strains are coming!

And just like they're trying to pass that legislation in New York where they can forcefully capture you - forcefully capture you- and medicate you and vaccinate you. It's in the literature; it's in the actual legislation, folks! It's in it; if you read it, it's in it! Yes! "*Don't be disorderly! Don't be disorderly as we give you this chemical cocktail, and don't complain if you start twisting up (as a reaction to vaccine)! You know that's just for your health. Don't worry! Don't worry!*"

You can see how fast they are moving; they are moving so fast! Because this is their nature, folks! This is their nature, how they grab power or evil grab power by selling their soul, "*there's no honor in a den of thieves.*" But they're so arrogant; they're so hyper focused on that goal of absolute power, that they make a ton of mistakes.

### **Worst case scenario**

Let's say worst case now: even though they kill all the patriots in America, they genocide everybody- which they want to do- even though they genocide all the Americans and say, "*All Americans who are Republicans and supported Trump you were all extremists, and Trumpism was a racist ideology based in systemic white supremacy and the Ku Klux Klan (even though the Democratic party was the Ku Klux Klan but anyway don't mind that; anyways the point is) you Trumpers, you're all ...*"

And even though, let's say they get their way, because look at all the Communists, they will genocide you; they will. A lot of people didn't think Pol Pot could do it; a lot of people didn't think Mao Zedong could do it. They just thought, "*No, no, no, they won't do that! Come on! They're just talking like that!*" No, no! They do it; they actually do it! You know, Hitler he actually did it! Stalin! You know, they actually do it!

There's a difference! You're putting your morality on people that don't have your morality! You see, you're projecting the morality you have which is based on Judeo-Christian values on people who do

not have that morality, and their fundamental view is *"The ends justify the means, and we have to seize power."*

You can break that down biologically to a gene set, or you can break it down by spiritually selling your soul to Satan; whatever way you want to break it down, it's wicked. And they do it, they do it, folks; they do it! Do not underestimate the enemy; they do it! I mean our whole family in North Korea, the whole Moon family, was genocided. We have what? One uncle there, one! There are no more Moons in North Korea! You understand? They genocide you, and your family! They actually do it!

So I'm not trying to be a fear monger or something like that, people! No, no, no, no, no! Do you understand? Real Communists, they do it! And then, how do they sell it? They sell it by, *"Oh! These people are fundamentally evil and racist; they're stealing from you!"* That's what they did with Mao Zedong. *"So, the landowners are stealing from me!"* That's what they did!

In Venezuela what was the other tactic of implementing socialism? It was race-based, because in Venezuela you have about 20 % white folks and 80 % Latino.

So, they were saying,  
*"The white man, the white man,  
 The white man has stolen things from you,  
 The white man is systemic racist,  
 The white man has made businesses to oppress you,  
 The white man has put you in the prisons,  
 The white man..."*

You understand? Does that sound familiar to anybody? They may take a little different angle in their strategy depending on the population, but, we see it; they're using the same tactic.

But let's say, worst case scenario: they get everybody; they genocide all the Trumpers. Guess what? You know what? They can't hold on to power; they're going to end up killing themselves. That's what they do!

Look at when the Roman Republic fell, and now the Caesars came. What did these Caesars do? They ended up killing each other all the time, just one after another. I think in a span of three years, you had like eight different Caesars or something like that; something crazy like that. Because they're killing each other to get that power! They're just drunk with the promise of power, as if it's going to satisfy the gaping hole in their heart, which can never be satisfied by that kind of stuff!

### **The gaping hole**

It can only be satisfied with a relationship with God, your Creator, the One who actually loves you and the One who made you! That's the gaping hole. You can't fill that with drugs, you can't fill it with sex, you can't fill it with power; you can't fill it with any of that stuff. You can't fill it because the only thing that can fill it is the love that you can share with God when you know Him! That's going to fill your soul.

So, when the soul is hurting and the soul is in sorrow, here David is saying what? *"No, no! I got to get back to the root again! I got to fill my soul up again! God, I love You! God, I love You! You haven't forsaken me. I love You! Even though I'm having a hard time believing in You right now, I still love You. I'm going to tell myself, I'm going to convince myself that I love You, and You're not going to forsake me! And I'm tempted to not want to believe in any of the words You say, but I'm going to tell myself I love You and You love me! (Amen! Applause) I will surrender to what has already been confirmed dozens of times, when I almost died at the hands of Saul, dozens of times, and You saw me through every single one! I will not concede. Amen!*

### **President Trump has red-pilled millions**

God bless President Trump! By the way, the New York Times is reporting that President Trump says he regrets that kind of concession speech- he didn't really use the word *"I concede"* - but anyway it looked like a concession speech. The New York times reported that he said he regretted that, and he said, *"I will not resign!" (Applause)* That's what the New York Times is reporting. So, we'll have to see; we'll have to see.

It's easy to say, *"Okay, Trump is done, and we're going to toss him away!"* If Biden gets in, will Trump be able to become the head of the party and gather everybody again? That remains to be seen; maybe not. You know maybe somebody like Lieutenant Colonel Allen West or somebody like that will have to rise up in his stead, or a few leaders will have to rise up. You never know; we just don't know.

But whether God extends Trump to keep working or not, Trump has done a tremendous thing for the world! *(Applause)* He's exposed so much! He's red-pilled millions and millions and millions and millions of people, who were living in doubt; they were living with the blinders on. They didn't want to believe it, *"Just don't ruin my day! Don't ruin my world, man! I'm having a good day; don't tell me about that stuff!"* That's how they were living; that's how people were living!

If you said, *"Hey, hey! You know, you may want to learn how to shoot some guns, and you may want to have some food preparations, or something like that."* *"Man! You're crazy man! What? You're crazy! You're one of those conspiracy theorists or something!"*

Remember this? This is before corona, and when shopping malls were open and restaurants were open and flourishing, *"Oh! Come on, man! There he goes again with the tin -foil hat on!"*

You now talk about the **fake news media!** Everybody knows; everybody has seen it!

You talk about the **judicial branch being corrupt!** Everybody's seen it!

You talk about the **election fraud!** Everybody's seen it! It's incredible!

**Big Tech! Silicon Valley!** Everybody's seen it! It's all out!

We cannot un-see what we saw,

We cannot un-hear what we heard,

We cannot un-smell what we smelt! We saw it all! We saw the murder happen in front of our eyes! We cannot un-see it! Do you understand? 80 million people just won't go back to sleep! They all saw it; they all saw that reality!

### **Future with Biden**

So, serious things can happen! Two major things can happen if Biden comes in. Obviously, as you know, the left is power hungry, and angry, and vengeful, and revenge, and, *"we're going to make an example out of you, hee, hee, hee, ha, ha!"* Right! They're definitely going to come hard; they're going to come hard. So people have to be ready.

\*They're going to come real hard in terms of **hate speech laws**. This is already happening in Europe. You have hate speech laws; you get arrested. Some of our friends in Europe know that very well. You have the hate speech laws.

\*You're talking about the **lockdown laws**. Oh! They're coming!

\***Forced mask mandates!** *"Where's your Jihadi mask?"* You've got to wear the Jihadi mask, show submission of the state; otherwise you get fined. In Germany now it's 130 US dollars, in Korea 3,000 dollars if you don't wear a mask outside of your house! If you walk out into your lawn and you don't have your mask on, \$3,000 fine in Korea, folks! Yes, South Korea! It's supposed to be a "free country!" \$3,000 fine! \$3,000! 3,000! If you are in your front lawn without your little ISIS mask on! And that's not only happening in Asia! In Europe in one year, now you German folks -a lot of folks maybe you have German ancestry- in the place where your ancestors came from, they go out in the front lawn now and they can be fined 130 US dollars for not wearing their little ISIS mask!

You understand folks? This is coming! Of course it's coming!

\*So you can expect **hate speech laws**; people can get arrested for that.

\*You can expect **totalitarian lockdowns!** Oh! Yes! It's illegal for you to make money! Oh! Yes! It is! It is illegal for you to make money, but it's fine if Bezos and Walmart do it! You know they'll be fine! They rake it all in! You're just concentrating all the financial interaction right to Jeff Bezos! Yes, that's what they're going to do!

\*Oh! Yes, you can expect **gun confiscation laws** coming down! There's already how many now in Congress? What is it that brother said just yesterday at Teddy Daniel's event? I think he said there are already nine in Federal, on the table, and just in Harrisburg there are like 30. Yeah! 30! Right now! Right now! So they will come hard! They will come hard!

And **they have all branches of power!** They now have unrestricted power! Do you understand, folks? Unrestricted power! Unrestricted! You know the whole branch-of- government thing is supposed to restrict one another, make it hard for one party to just do what they want, and this team can block and that team can block. No, no, no! Now, that's all gone! Now, they have unrestricted, unrestricted -like Hitler literally, like Hitler - unrestricted, unrestricted power! Yes, he was elected! I mean this is unrestricted power, folks!

Anything! You didn't like that **transgender law**? You didn't like that law allowing your five-year-old child to make an adult decision of whether to do sex- reassignment therapy and hormone - replacement therapy at five years old, without parental consent? Or they can take your child away, of course. You didn't like that? They have no restriction now! They can pass that as law!

Do you understand what kind of power they now have if Biden gets in! And these people don't have the morals that you have. They don't! They don't! We just have to clear that up; they don't have it! They will do everything in their power to secure **absolute control** of the population!

**Forced inoculation**, which is already happening in South Korea: When they started the forced inoculation -those vaccines came from China- within a month 103 were dead; within a month, due to complications!

So, they will go hard! They will go very hard!

**It can go two ways:**

So, what could happen in that scenario? How can God continue to lead America to fight and survive? Especially after the RINOs are throwing everybody under the bus, saying of anybody who supported Trump, *"Oh! You're too extreme! You got to come back, pull it back and go back to RINO mode. You got to come back to the establishment mode!"* Come on!

It can go one of two ways, or maybe other ways, but largely it can be considered that there may be two ways:

**1- Patriots fighting S.W.A.T. teams**

One way it could go is: *"Well, okay, when they come, my house is going to be the 4th of July! When they come, it's going to be boom, boom, boom, boom, boom, boom, boom day!"* But, think about it! That's one patriot fighting multiple S.W.A.T. teams! Who do you think he is going to win that in the numbers' game? They have cross fires on you, they have teams on you, and you have your children; you have your wife in the house, your grandma - whatever the case may be. Right, that's a serious scenario! The whole *"don't tread on me"* scenario, it's not really a great scenario. A lot of people may acquiesce, and a lot of people won't. So, it's a terrible thing! There will be fights! There will be fights! Patriots will die; law enforcement will die. You know there are going to be fights! People are not just going to give up their rights. I mean, especially if they feel the spirit of their ancestors! They know that this whole country is founded on resisting that!

Okay, so that's one way! But again, the patriots live separately; we all live in separate areas. A lot of patriots in the community may have been lone wolves for many years. So what's the possibility there? Well, they just take out one at a time, one at a time. And they just keep hitting you in the media, just hammering you in the media, *"These are white supremacists, these are crazy people, these are extremists; these are the same people who storm the capital!"* Blah, blah, blah, blah, blah, blah! You understand? While

they're killing you; literally, while they're killing you, slowly, step by step! Obviously, that can be a possibility.

In the past they didn't have all the branches of power, so they didn't have the possibility of doing that. Now, I know some people say, *"Hey! It's not going to be as bad because they just won by a small margin; they just have a small majority."* But that's pretending that the RINOs are not going to help them consolidate power, which we've seen just over and over again. They threw Trump under the bus over and over and over again especially at the end. They all did the "I'm - a -good- guy" dance for three years and 11 months, and then in the last month, then their masks come off!

So, it could go that way. That way, it's a bloody fight, and eventually that's a fight where you know that they'll grind the patriots out. I mean, maybe we have millions of rounds collectively as patriots, but the Federal Government has billions of rounds; we are going to run out of rounds sometime.

They're going to keep the assault going on and on and on. Nancy Pelosi won't stop! She'll be up in the morning eating her breakfast of champions and her wine; every morning saying, *"How many? How many? How many did we get today? Give me the report!"* When her city has human feces all over the ground! But she doesn't care about that!

So, it could go that way. That's a very painful and very stressful course that God's people would have to walk.

## **2- Secession**

There's also another possibility which is very real, which is the talk of secession. There are secession movements growing very strongly across every state now; even in California there are secession movements that have been going on for quite a bit of time.

In Texas for example, there's a whole organization called "Texit". They named it after "Brexit," and it's called "Texit." *"We are not going to be part of a union of states that is trampling on the Constitution and on their own Constitution."* They might not need federal permission to leave; they might be able to leave at any time, so secession movements may happen. Lieutenant Colonel Allen West did allude to that. He's the GOP chair and he's a friend. He was on the King's Report and hopefully he's coming to the Festival. He was going to come last year but he was in the GOP race and got tied up. Anyway, the point is: a secessionist movement could start, and we know that parts of New York State want to separate from New York City etc. It will be harder to do in the leftist states; very hard especially with all the federal permissions you need to get.

But Texas could start something. So, that could happen in the future. You could literally see states that say, *"Hey! If your states are not going to abide by the Constitution, and are going to break your own constitutional laws, we can't do business with you!"* That was the whole issue with Texas suing. They're saying, *"Hey, hey! Look! These guys are breaking their own state laws, and that's affecting us! How are we going to do business with them? You guys are breaking your contracts on your side! Let this be brought to the*

*Supreme Court, and stop the shenanigans!"* That was the whole argument basically. So Texit and allied states may say, *"Okay, yeah! We want to be loyal to the Constitution."*

You know on one hand, it's not the grinding out "one- patriot -die- at- a- time" kind of model. Now you'd be in a situation where you would have Texas, and you would have a couple of other states maybe southern states, Bible belt states etc, that would join. Then maybe every man or woman would have to do mandatory two-year military service, and afterwards it would be a militia system, or whatever it may be. It would be more constitutional and they would abide by the Constitution.

But there's a problem with that too, because if America splits, that's exactly what the globalists and the Marxists want. China too wants America split, because what will happen with the commie states? The commie states will invite China through the UN and NATO to be their military.

But if you think about it, even in the *"Don't tread on me"* scenario where they grind us out one at a time, one family at a time, they come and get you one family at a time, well even if the patriots start fighting back and winning, they may also call China into the UN and say, *"Hey! Help us out! This grinding out is not working so well!"* And Xi Jinping has already told the Chinese military, *"Be ready for war! Now!"* So, either way, it's going to be rough if Biden gets in!

### **God's will be done**

I hope Trump has some miracle in his hat. But I'm not betting on it, honestly; if I was a betting man, I would not bet on it too much. But I hope, I hope, I hope, I pray, I pray; I hope, I pray. Maybe he has a miracle he could pull out at the last minute; a rabbit out of the hat, maybe. But look, you can't bet your life on that, and you can't bet your family's life on that, and you can't bet your friends' life on that! You got to prepare for the worst. Amen! The same with David! He had to prepare for the worst too.

Who knows how God will open it up at this time of great crisis! But the point is: we can't help the fact that this time of epic history that we are living through will be stressful. It will be! That's guaranteed, folks!

We just have to be ready for that stress load and,  
It's better to be ready than not ready, and  
It's better to be people of like-minded mind and spirit,  
It's better to think in advance and be future- thinking.

And we don't want to put all the eggs in the same basket with ten days remaining, that some miracle is going to happen and everybody's going to be arrested in DC! It gets very unlikely at some point, okay! We're going to be one day away from the inauguration, and the Q people - whoever's putting those stuff up - they're going to still be saying, *"Trump's going to do it tonight!"* Okay, you know! We got to prepare; we also have to prepare for the future. Amen!

So, in the midst of that, folks, I know it's crazy, I know it's stressful, we got to pray for one another, and we got to pray for President Trump. He still has ten days and I hope, I pray he has something. Again I'm not betting on it; I'm not betting my family's life on it, okay, or my kids' and my grandchild's. I'm not betting my family's life, no! But I pray that God's will be done, that President Trump can go out with a fight. You know, don't go out with the tail between your legs like a doggy! Don't go out like that! If you're going to go out, go out with a fight! Go out with a fight, dang on it! Declassify everything! Come on! Wikileaks did a big dump. But go out with a fight! Come on! They're going to destroy you anyway after you leave; they are coming after you. They won't even let you sell a red MAGA hat right now, and you're still the president! They are coming after you with everything when you leave. So, before you leave do everything you can do to make chaos and weaken them, because in the end we're going to have to deal with them; it's the people in the end that God will use!

So, let's pray for one another! Let's encourage one another, folks, because it's a crazy time; yes it is! But it's also an epic time!

And I salute every one of you! I'm thankful and grateful to be able to know all of you, and it is a blessing; this is a blessing! If we can make it through this and who knows, even if we can't; even if we can't, but our children can, our grandchildren can, my gosh!

It's worth it, folks!

It's worth it!

Liberty is worth it!

Freedom is worth it!

The Kingdom is worth it!

At least we get to give that present to the next generations to protect!

### **Pastor Sean's Prayer**

Father God, we thank You for this day that You've blessed us with! We thank You for the encouragement of Psalm 116, the powers in the cave of Ziklag when King David who was the underdog at that time, fugitive, running away from Saul's S.W.A.T. teams now coming after him, but still he decided to praise God and say, *"I love You! I love You, God! They're not going to take my love for You! Even if they throw me in prison, I'm going to be doing burpees, and with every burpee I'm going to say 'I love you God!'"* He decided that, *"I'm going to love God no matter what!"*

God, let us have that same spirit! Let us have the same spirit as King David in those caves, running away as a fugitive, just trying to stay alive so that he could follow Your mission and obey Your command! God, we know that You gave him victory, and he eventually became the King of Israel, and was greatly successful. But again with that success also came temptation, and eventually he died feeling that he had forsaken You. So we see that pattern.

Let us be like King David in the sense that we, in tribulation, will praise You and will love You and will say those words to our spirit. That, even when our spirit is trying to rebel, even when our spirit is

trying to just wallow in the pain because pain likes company, we will tell our spirit, *"No! You love God and He loves you,"* and we will be strong in that moment.

And then God, if You bring us through this time of tribulation- which may not be a few months, it may be years and may even be decades; many of us may live through it, and many of us may not make it through - but we know Your kingdom will come and Your kingdom and Your righteousness is already victorious and it is guaranteed! So we have hope, God. We have hope; we have strength.

Best case scenario: even if we are able to get through these tribulations quickly in a matter of seven years or so, which would be very short in terms of epic world - changing history, and we are victorious like David, let us not fall into the same traps as David at the end! Let us remember the caves of Ziklag, let us remember the hard times, and remember ourselves, and remember our spirit and our morality at the hard times, so when You bring us through to the victory, we don't become evil, but we remember and we remain grateful for what we came through.

Thank You, God, for this beautiful day! Thank You for these beautiful people! Thank You for one another. For God, it's a lonely walk, it's a lonely walk; a walk where we have to pick up the cross and follow You, and get mocked and scorned and be called all manner of names. But You are always with us, and you send people who love You that also are with us; they become our brothers and sisters.

So we are grateful; God, we are thankful for the time that we get to study Your Word and to support and encourage one another, and to thank one another. Because we are standing next to real patriots and heroes - even though we're not perfect - people who are willing to stand up for Your gifts of freedom and human liberty, people who have real love in their hearts, people have the spirit of the Holy Spirit and the fire of the Holy Spirit inside their heart, that is burning as a torch of liberty!

These are people that we must be grateful for, because even though we may just look like normal people, we are supernaturally connected to You. We have a supernatural mission and purpose in our lives, and we thank You how you knit and weave us all together in this incredible tapestry of history that You are now making and that we are a part of.

So, we thank You, God! We praise You, and we want to encourage You today, because Your children don't forget you, God! We love You! We will not forget You! It doesn't matter how bad it gets, we will continue to love You and to praise You, and to remember the caves of Ziklag.

And so, God, we ask that You would be with our President today. We know he's going through dark times. We know that he thinks everybody has betrayed him. We know he thinks that everybody's throwing him under the bus and has forgotten him, and is now cursing him saying, "We don't need you; screw Trump!" Please be with our President right now. We don't even know, he may be on bended knee praying right now at this moment, wherever he may be. But wherever he is, encourage him! Pour Your light upon him now, put a hedge of protection around him now! Let him have

strength in the last ten days, because many things can happen in ten days! And be with America at this time!

God we thank You! We give You all the praise, glory and honor! We worship You today! We lift You up and we love You. In Your precious name we pray. Amen, amen and Aju! All right, folks, let's all rise and give Him the praise! Amen!
