The Spirit of 1/6/21

Granbury, Texas- 1/17/2021

All right! Good morning, folks! (*Good morning!*) We're in Texas! Let's first thank God for this beautiful weather and gorgeous environment! (*Applause*) Let's start with a prayer!

Pastor Sean's Opening Prayer

Father we thank You for this beautiful day that You have given us, and we thank You for our ability to gather together in a free country that is still free. But Father, we know that it is critical that the patriots and those who are brave stand up spiritually against this wave of wickedness that may come. We must prepare our hearts and prepare our minds to be brave soldiers of God in Your heavenly army.

We know that we are surrounded by the Heavenly Hosts and all the angels and all those who are up in Heaven with You, and we know that this a critical time for all humanity. So we are praying that You would guide us through the Word today in our study, and also in our fellowship. They're all for your glory. We give You praise, glory and honor, and in Your precious name we pray! Amen!

Pastor Sean's Sermon:

All right, folks! Well, let's give it up for our J & K teams! [*Applause*] That's our Japanese and Korean teams! We honor them, because they have been fighting so hard for America, even though they're not American citizens and they can't vote here. But you folks showed a tremendous spirit of patriotism, and such love for America, that I think it stimulated so many people, and their heart was touched seeing how hard you folks from Japan and Korea were fighting for America! Many times you rallied three times a day, three times a day, doing your prayer protests. So we want to honor you, and we thank you for fighting for America at this critical time. Let's give it up one more time for our J & K teams! (*Applause*)

It is a critical time, so let's get to the Word! If you have your Bibles with you, let's go to Luke chapter 3 and let's start at verse 12. Now we're in Luke, and we are with John the Baptist. So let's see what's happening here!

Luke 3: 12-38

¹² Then tax collectors also came to be baptized, and said to him, "Teacher, what shall we do?" ¹³ And he said to them, "Collect no more than what is appointed for you." ¹⁴ Likewise the soldiers asked him, saying, "And what shall we do?" So he said to them, "Do not [Ⓛ]intimidate anyone or accuse falsely, and be content with your wages."

¹⁵ Now as the people were in expectation, and all reasoned in their hearts about John, whether he was the Christ or not, ¹⁶ John answered, saying to all, "I indeed baptize you with water; but One mightier than I is coming, whose sandal strap I am not worthy to loose. He will baptize you with the Holy Spirit and fire. ¹⁷ His winnowing fan is in His hand, and He will thoroughly clean out His threshing floor, and gather the wheat into His barn; but the chaff He will burn with unquenchable fire."

¹⁸ And with many other exhortations he preached good news to the people. ¹⁹ But Herod the tetrarch, being rebuked by him concerning Herodias, his [Ⓛ]brother Philip's wife, and for all the evils which Herod had done, ²⁰ also added this, above all, that he shut John up in prison.

John Baptizes Jesus

²¹ When all the people were baptized, it came to pass that Jesus also was baptized; and while He prayed, the heaven was opened. ²² And the Holy Spirit descended in bodily form like a dove upon Him, and a voice came from heaven which said, "You are My beloved Son; in You I am well pleased."

The Genealogy of Jesus Christ

²³ Now Jesus Himself began His ministry at about thirty years of age, being (as was supposed) the son of Joseph, the son of Heli, ²⁴ the son of Matthat, the son of Levi, the son of...

And then it goes through the whole lineage all the way to the end of the chapter, and we end with ³⁸ *the son of Enosh, the son of Seth, the son of Adam, the son of God.*

So that goes into Jesus' lineage. This is a very interesting chapter. Let's zoom in here on verse 16. That's the section where ¹⁶ *John answered, saying to all, "I indeed baptize you with water; but One mightier than I is coming, whose sandal strap I am not worthy to loose. He will baptize you with the Holy Spirit and fire.*

The Holy Spirit! *Pneuma* is spirit. *Hagion*: you may have heard of *Hagia Sophia*? The ancient Greek word for holy is *hagios*. And *pyr*. That's fire. Now, that's very interesting! The Bible talks about, " *where the spirit of God dwells, so too is liberty.*" (2 Corinthians 3:17) It's interesting because look at the word "holy" of the Holy Spirit, *hagios*: in the first century in the Greco-Roman world, a sanctuary or temple was called *hagios*.

The temple of God

Now you heard the scripture that says “we *are the temple of God*” . (1 Corinthians 3:16) Your body is the temple of God; it's a place where God dwells. Well, in the ancient Greek a *hagios*, it doesn't only mean a physical temple. Literally, it means something that is set apart, something that is separated, and completely different. Actually, the other translation said “otherness,” something that's completely set apart, otherness from the world.

The Holy Spirit from the Greek *pneuma*, what does it sound like? *Pneuma* comes from the word wind or breath; the breath, you cannot see it, it is invisible, but it actually gives you life. But for something with tremendous power we need the breath. Anybody knows, who does jujitsu; if you get choked out, you're going to go to sleep in about ten seconds. You need the breathing; you need your breath, okay. The breath gives you life.

Hagios, of course the “holy,” is a temple but you see it at the temple of the spirit, the otherness, the place set apart from the world, and it has the spirit of God in there. It differentiates from other spirits, our spirit, or spirits of people who have passed; whatever the case may be. God's Spirit is different; it is “other” than those, and it is the Holy Spirit. Now it's interesting how the Scripture ties the Holy Spirit with liberty, ties it with liberty, “*Where the Spirit of God dwells, so too is liberty!*”

Also fire in the *pyr*: remember the Tabernacle. In front of the Tabernacle, the offerings were given. The priest would have to give offerings and the *pyr*, the fire would be constantly burning. What would they offer? Sacrificial offerings like sheep etc, which were prepared for the slaughter; they would offer those things in the pyre, in the fire pit in front of the Tabernacle. So before you entered the holy place of God, you had that place of sacrifice; the place in which this fire would consume the sacrifice. When you think about it, the fire is breaking down this animal; it's breaking down this offering that the people are giving. The Fire of God, it's a powerful force emanating from God and it breaks down and burns away all the sacrificial offering, which was a symbol for what? A symbol for the sin of the nation! It was a symbol for sin!

So when we receive the Holy Spirit, not only do we receive true liberty - I'm not talking about liberty where you just do whatever you want - but liberty to move in the Will and the promise of God, to be His hands and feet in the world, and in the end to fight for and work towards God's gifts of liberty that are His initial gifts to humanity from the beginning. And the Fire of God burns away any of our sin, burns away any of our weaknesses.

From a republic to imperial America

Now, we are in a stage in this country, where we have seen incredible criminal illegal acts done before us. We've seen the tremendous landslide victory of President Trump, and then on every level, we've seen the stealing of a presidential election. This is not in some third-world country.

This is the superpower of the world; this is America. And before 80 plus million people, we have seen the left steal this election from the people, and we've seen the establishment in DC – including the RINOs, Mitch McConnell and all those people – completely betray their oath to the Constitution and the people, and not doing the will of the people, not protecting a duly elected president, but putting in literally, literally, in American history – and whatever you may think about it – but really the first emperor of America.

The age of the Republic of Rome, remember, was up to a certain period, and then the Caesars started taking over, because they were able to consolidate power so heavily into their hands. In America we've had a constitutional republic where you have been able to choose elected officials et cetera; they have been representing the government and the president has been representing the will of the people.

Now, if you take that away, you steal that from the people, and you put in what we call “Beijing-Biden, China-Biden” - like the China virus, and he wants more lockdowns. If you put somebody in that people have not agreed to; if that person can be put in by the super – class of the world, by the tech giants, by the different international cabals, if they're able to put in leaders, this is no longer a free country. We now moved from the stage of America as a republic, to Imperial America. That's what we moved to.

We may not feel that right now; we may not feel that. But if it continues on in this way, obviously the story will look just like they did in Rome. When Rome went from a republic to the first Caesar, when he took control of the Senate, he was basically a charismatic leader pulling all the power to himself, and it eventually became the age of the Caesars. But at that transition point most of the Roman people, they're busy on going to the circus, they're busy on paying their taxes, doing their work, doing the slave labor, or whatever the case may be; paying their taxes to Caesar. They are not aware that this transition is happening. That of course designated the beginning of the end of the Roman Empire, the end of democracy or the end of a semi – democracy or republic, and then the beginning of the Imperial Caesars' era or time.

1. 6. 21

So we are in a very, very, critical and tenuous time in our history, in America. And of course you saw the incredible gathering that happened on 1. 6. 21 – that is January 6. 21. - millions probably more than 1. 5 million people gathered for President Trump and just for freedom in general. Because in the end, it's not about Trump; everybody's spirit is yearning for freedom and liberty. We don't want to be controlled by the state like in all the other different countries around the world, or tyrannies across the world; we want to be able to have freedom. That's what's so precious about what we've had in America; we are really on the last strains of it, unless people realize the severity of the situation!

But, on 1. 6. 21 all the people gathered from America for President Trump in DC at an incredibly largely peaceful protest. Of course now it's coming out that Antifa and BLM were there instigating, and doing those kinds of things. But if you think about it, it was a super-patriotic event: USA flags everywhere, Trump flags everywhere. Everybody's so happy; the spirit is so high.

And if you think about it, on that day people were standing up for something spiritual. Trump is just a figure; he just represented that spirit which people were standing up for. That spirit was what?

It was standing up against the centralized power;

It was standing up for the first time against the corruption, the centralization of government the worship of the state.

We were standing up against those things and
standing up for the gift of freedom,
the gift of sovereignty,
protecting the unborn,
standing up for Christian values!

God always uses imperfect people for His will. President Trump is not perfect but he was representing something that stood against that which is much, much, much, more wicked and evil. A civilization and a philosophy and an ideological worldview that wants to bring radical, dangerous, dangerous, radical systems put in place! Funding millions and millions of babies to be killed in the womb; funding the destruction of the male and female family, saying that, "Father and mother is bad; grandma and grandpa is bad!" They're now banning that; in the House you can't use those words! You all know that, right? It's crazy! Bringing in tremendous legislation, putting this into our kids in the government schools, brainwashing them into homosexuality and fornication culture - it's an all-out anti-Christian culture- and of course in the end hating Christians, hating people who are in Christ.

Why? Because people in Christ are loving, they're kind; they're peaceful. But they'll stand up against evil; they will resist it as James chapter 4 says, "*Resist the devil and he will flee!*" Resist! We are commanded to resist Satan.

"Domestic terrorists"

The Marxists in the Congress know that, so they are of course targeting more and more, not only Trump supporters; now they're calling "domestic terrorists," 80 million people who went and supported the president, who won by the way in a landslide victory. Amen! He won! He totally won! We saw the massive numbers' shift. We saw that in Pennsylvania; he was up 300, 000 on election night, and the next day: boom! Flipped! We saw that it is statistically impossible. We have the top mathematicians that came out and testified on affidavit, saying

that, "No! This is statistically impossible; you can't have vertical jumps! It's physically impossible! This is cheating!"

We've seen all that. Yet now it is: "If you don't go along with this, you are a domestic terrorist! If you support Trump, if you wear that hat, you are a terrorist!" And then Shopify is even shutting down Trump's ability to sell merchandise. The president has been banned off twitter and Facebook. The tech giants now have more power than the president; they're unelected, and they're not accountable to anybody.

So it is a tremendously dangerous time; very, very dangerous time! Now of course, the conservatives are scared, and duly so, because they're all being called "terrorists", they're all being called, "domestic terrorists"; they're all being called "cultists" and "you're the Trump cult," and all this kind of stuff. So, right now, since the media is constantly beating and hammering - even Fox News - hammering, hammering, hammering on the conservatives, saying, "You people are bad! You supported Trump! You supported standing up against the Deep State; you supported having legal immigration; you supported trying to keep the family intact! What you support is evil, wicked! You people are bad; you're in a cult! You people don't let school system brainwash your kids and normalize pedophilia," and all these kinds of things! "You people are bad!" They are hammering, hammering, hammering! "All the Trumpers are so violent!"

They don't mention that in the last four years, we've seen cities be burned down to the ground! Billions and billions of dollars! In fact, just last summer, places in DC were burning to the ground, thanks to BLM and Antifa. Burning, burning to the ground! Now, the evidence is coming out of course that BLM and people were there and they were trying to get the Trumpers to do this, and of course we also saw the Capitol Police letting people in.

Remember when 1. 6. first happened, what they were saying was that, "These people are trying to come into Congress, and- they literally used the word 'assassinate'- capture and assassinate the congressmen and women!" That's what they said! CNN had a report; they're backing that off. Now the Department of Justice is saying, "It doesn't look like they were there to assassinate." You are talking about people walking to the Capitol, and they call that an "insurrection"! They're walking with, you know, a rainbow in their hand, drinking soda pops and walking through, like they're walking through a museum or something like that. These are the insurrectionists, the tactical geniuses that have taken over the Capitol! No!

Now some people did stupid stuff; definitely! They did things that were not smart; okay. Some people did things like sitting in Pelosi's chair and taking selfies of themselves; things like that. But for the majority, 99.999 % of the Trump supporters were reasonable. They were praying! If

you were there, you could see there were some songs. Everybody was just praying; everybody was singing "God bless America." People on the speakerphones and megaphones were playing, "And I'm proud to be an American!" It was just a patriotic event!

Now, the police did move back, and some people filled that space, naturally, and they were just waving flags. They weren't burning everything down! They were waving flags and standing there. They were taking a spiritual stand; patriots were taking a spiritual stand.

And even though it's widely condemned right now, it will change. I guarantee you it will change, because it's just like the Boston Tea Party. The Boston Tea Party was widely condemned. Do you know that George Washington even condemned the Boston Tea Party? Do you know that? It's on the History Channel; just look up, "George Washington condemns the Boston Tea Party," and you'll find it. The Founding Fathers condemned the Boston Tea Party. But 50 years later, they all admitted that was the beginning of America; it was the beginning!

Boston Tea Party condemned

Because, what happened at the Boston Tea Party? It wasn't a violent situation; it wasn't a situation where they were directly fighting. But it was a spiritual stance; they were taking a spiritual stance against the British bureaucracy. They were saying, "We're not going to take this anymore! We're not going to take this kind of tyranny! We've had it!"

Of course we had the Black Robe Regiment (*Showing his Black Robe Regiment hoodie*), the *Black Robe Regiment* preachers that were preaching for freedom in America who would take up their garbs after 1776, and they would fight on the field with their patriots. They would stand up with them. That's the Black Robe Regiment, you know people like Rev. Jones Clark, people like Rev Caldwell. These great pastors that didn't just teach acquiescence to the state worship of the state, which is common in socialism, political Satanism. They didn't teach that! They taught that we must stand up against evil, we must resist the devil. And that was brewing for over a decade; before 1776 happens it's already brewing. There's already a lot of strife, a lot of frustration that people were feeling against the British crown.

nationalblackroberegiment.com/history-of-the-black-robe-regiment/#

You understand? At the Boston Tea Party, they had a non-violent interaction. They had masks on -not coronavirus masks- but they dumped tea! They dumped it! Everybody condemned it! Everybody said, "These people, they are domestic terrorists! Even George Washington himself had to say, "I condemn that!" Do you understand? But that was the beginning of the end of the British control over America, because people said, "We're no longer just going to sit in silence! We're actually going to stand up against you!" It was a spiritual decision that people made in their hearts, in their spirits, in their relationship with God. It was a decision that every

American had to start making! It was a small group at first. It was a small group; the Boston Tea Party group was a small group!

They got you that brainwashed, folks! You are living in communism! America right now is at testing ground. If we acquiesce to that spirit, that place is over, with a false unelected bureaucracy that will rule!

Gun owners! Ron Paul supporters in 2012 were put on FBI watch list! Ron Paul supporters! Think about what they can do to Trump supporters! Very serious time! Chilling effect, cold, vicious, and really blood-thirsty vengefulness that they exhibit! Everyone is being banned off Facebook, even the President, going after his business. The lockdown will continue by the way; guaranteed by Beijing-Biden! Guaranteed! The lockdown will continue. Forced vaccine! Boy! We heard about that! Many people thought we were crazy talking about forced vaccine, "Forced vaccine is not coming to America! That's not happening!" Hello folks, that's already happening in South Korea; it's already happening in "democratic countries"! Forced vaccines, that's happening right now. How do you think that's not going to happen here?

You're walking around, even here in Texas; wherever you are, you can see how deeply the left have infiltrated every realm of government, every realm of education, every realm of culture! That's deep rooted now! How do you think it's not going to happen, as it's happening in Japan and South Korea which are democratic countries under alliance with the US? How is America not going to get what they're enforcing on Europe or Canada? How are we not going to get that? Of course it's coming!

But it's in that time of tribulation that as the Bible says here, "*He will take His winnowing fan; He will separate the wheat and the chaff.*" People's true color will come out. Are they real patriots? Do they really believe in the Constitution, or are they just saying so only to hide when it becomes like Europe? That's the big question. But we know how the tyrants behave, just like they did after the Boston Tea Party.

They started smashing the colors: "You arrogant colonists! You dangerous insurrectionists! We shall destroy you!" And they started passing laws; they started quartering soldiers in people's houses etc. and it was like a two-year process of just build up after the Boston Tea Party happened. It was widely condemned, but internally the patriots felt like, "Well, we stood up against them. We did something. We didn't just lie down and just took it. At least we did something!" And then over time they keep on smashing, and they were passing new rules. They were trying to ban ammo; they were trying to ban guns. It was 1774-5. They started to quarter soldiers, to put down the insurrectionists. And after about a two-year period the people's hearts started changing, after the initial moment of the Boston tea Party when

everybody was like, “Oh! I distance myself! I condemn; I condemn! I distance myself! I distance myself!”

They stole everything

But as the tyrants came harder and harder, which they always do, and you know Beijing-Biden, when he gets in, he's going to come harder; he's going to come harder. You see the bills that they are trying to pass in Florida right now: bans on all magazines above ten rounds, you need separate licenses for ammo, separate licenses for magazines; each magazine has to be registered. These people are crazy! But again they're coming hard; they will come hard. They have all branches of power, unrestricted power now. They have the judicial branch; they have the legislative branch, the Senate: they have the presidency. And they have the Supreme Court. They won't do anything to oppose them; they didn't do anything to stop a stolen election. So they really have them in their pockets too, don't they?

Which means what? Everybody from Mark Levin to Rush Limbaugh, everybody, and not even hardcore Trump supporters that are republican, on the airwaves, everybody was warning us of what? “It's going to be extremely dangerous if we lose the senatorial in Georgia, and they get control of all those branches of power! It's going to be dangerous! They're going to be able to pass every law!” They told us that and it's true.

Now, when the republicans had power – they had the second house and the presidency-why didn't they pass reciprocity? Why didn't they do those things? Why didn't they stop the funding of Planned Parenthood and the killing of babies, the baby-murdering factories? Why didn't they do that? Because they are part of the Deep State!

But you see on the left now, how vicious they are. They will try their hardest to come through, and of course yes, we're supposed to block it with the state legislature. The state legislature said, “We'll come save the day!” Whoo! Didn't we go through this just a couple of months ago? The State legislature didn't save the day, did they? All those republican state legislators, and in all of the states all the republicans, what did they do? They didn't block this. So again, we cannot be foolish.

Who survived Auschwitz?

Remember we talked about it last week: the people who survived Auschwitz and the concentration camps they're not irrationally optimistic; if you're irrationally optimistic you don't make it in the concentration camps according to the survivors. But if you have a sense of reality, “Okay! It's going to be bad, it's going to be bad, it's going to be bad, and I don't know when they're going to come for me, and I don't know when I'm going to be free from this place, but I'm just going to try to survive every day.” Those people are the people that survived.

Remember, the other people that didn't survive were saying, "Oh! They're coming! We're going to be liberated next week, Thursday! I heard the rumors spreading through! We're going to be out of here by next Tuesday! They promised! They promised! They're coming! We're going to be free next Tuesday! It's Sunday! Yes! Let's have a Holy Ghost service today! Tuesday we're free!" Tuesday comes, Wednesday comes; nobody's free. You're still in that death camp. Then another rumor comes around and says, "Oh! It's actually going to be two weeks from now, it's going to be two weeks on Friday! They'll come; they're coming to get us out!" Now, everybody is saying, "Oh yes! Two weeks on Friday we're going to get out of here!" Two weeks pass, Friday comes; you're still in that death camp! Those are the people that die because they are foolishly optimistic!

So we must not be like that in America! It's now going towards extremes: either hide the fact that you're a Trump supporter on the one hand, or, "No, no; no! He's going to do something on the last day!" Come on! Come on! Come on! It's like saying, "Next week Thursday, we're going to be free!" Come on people! We have to be ready to be punched, soccer punched in the guts (*in boxing training that's how you talk*) you've got to be ready to be smashed at the waist! You've got to be ready for the hits that will come!

Between the Boston Tea Party & 1776

Why? Because the left with absolute power will act vicious! They are vengeful; they have no morals. They don't have any restricting factors that hold them back. They're a cult of power, atheistic in value, godless in value; everything for power. They're not restricted like you and me, like a Christian or somebody who's trying to practice morality. They're not restricted in that fashion; once they have it, it must be consolidated, so it never can be taken away or challenged.

We're standing at that tipping point in American history right now; between the Boston Tea Party and 1776, that period. Of course they're going to behave in the same way. They're going to come down hard, they're going to try to go after the guns, they're going to try to go after ammo, which they are already trying to do.

There are already five new bills, federal bills. Colion Noir made the announcement; he's in Texas somewhere. He did a great breakdown of the five new bills that they're trying to pass in the House. Just like right before 1776, they're coming after the ammo. They're going to say, "Oh! We're not coming after your guns; just the ammo! Just the ammo!" But of course they are going after all our riffles. So we have the same pattern, folks; the same pattern is happening before our eyes.

People who do not know history are doomed to repeat it, and Americans should know about the Boston Tea Party. They should know about that critical transition point between the Boston Tea Party and then Lexington and Concord. Did you know the Boston Tea Party was 12. 16.

December 16th: 12. 16. What was the date when the Washington DC Boston Tea Party event happened? 1.6. 21! 1. 6. 21 and 12.16; that's the same numbers! 1.6. 21 and 12.16 are the same number but put backwards. I'm not an expert in numerology, but I'm just saying: it's a funny coincidence!

But you can see; this is a historic time that we're living in. Remember, God gives people time for testing because it is important; it is important.

President Trump

Look how President Trump has now split the RINOs inside the Congress, inside the Senate! Through fighting and not conceding, he's allowed the people to see who are the RINOs, and who are the real republicans that will stand up for the Constitution; who they are. They hide real well, they camouflage real well, but President Trump by fighting, has exposed them.

He's exposed fake news,

He's exposed the justice system as fake,

He's exposed the RINOs,

He's exposed big tech's humongous power; more power than the president.

He's exposed all of it, folks, all of that! And maybe God gave him that mission up to that point, maybe God needed him to do that, because if you had somebody else who was not as charismatic or not as bombastic, he would not have been able to do that!

But whether it be Trump or not the heart of yearning for liberty is within us through the Holy Spirit. And if we know God, and we know that we're not just an amphibian that has evolved into a biped, that we're not just some kind of advanced ape, we know that we have a relationship with the Creator, God Almighty, who's a God of love and has given humanity free will and freedom as a greatest gift! We know that, and we have that relationship, and no one can snuff that flame out that resides within. You can do all the gulags, all the death camps, all the concentration camps you want; you cannot snuff out that heart that the Spirit has given.

The wheat & the chaff

And just like now Congress has been split between the left and the RINOs versus the real constitutional protectors, also the whole republican movement will start getting separated between the sheep and the goats. Who will be those who will just cower when things get politically tough, "Oh shoot! Oh shoot! Now they are coming after us. Well, I never really supported Trump! I'll go along with the establishment!" That's what the Tories did right in the Revolutionary War. They'll get separated.

See, in the time of crisis all things become clear: the wheat and the chaff, the sheep & the goats, they really get separated. Who are the real heroes, who are the real patriots; this all gets

separated out. It all gets winnowed out. Like the winnowing fork; it's a big pitchfork that you pull through the hay. We just saw that scripture right now *¹⁷ His winnowing fan is in His hand, and He will thoroughly clean out His threshing floor, and gather the wheat into His barn; but the chaff He will burn with unquenchable fire.*" There's the winnowing fork that separates it, and throws the chaff into the unquenchable fire, because they will be condemned. In the end they can't be victorious over God's kingdom and God's gifts; they can't! They won't be; they won't win in the end!

"Pick up your cross!"

There will be times of suffering; there will be times of persecution! Of course; guaranteed! We're in it right now; right, we're in it now. And a lot of us can be discouraged, because we fought so hard and all these folks from other countries fought so hard, but again, remember; those conditions are not so that we can boast, as if we saved America. No! Those conditions were to give glory to God, to give joy to God! And who knows how God is using this!

All these things need to be exposed; even now within the big conservative movement, the sheep and the goats need to be exposed. Who's going to buckle under pressure, who's going to be strong, who's going to stand up for what we stood in 1776. Our Founding Fathers did too.

Only less than 3% are the ones that stood up against the British Continental Army and fought them. There were about 30 % that were supportive, and from businesses or whatever gave donations to the cause. But the other two thirds said, "Uh, uh! I'm not with them!"

When the people were going to kill Jesus, some followed Peter and said, "Hey, hey! We saw you with Jesus! Weren't you with Jesus?" "Oh! No! No, I don't know that man!"

This is not a new thing; this is not a new thing; this is old. "I don't know him! I never heard of him! Never heard his name!" I mean it's the first time I have seen Trump hats since January 6, and it's right here in our group! Everybody's been taking out their flags, scared! That's why we have these crazy Asians, crazy Asian people, from Japan and Korea! God bless you, you know!

Because history will tell, time will tell; watch! Once they start going harder, once they start doing a lockdown, once they start doing forced inoculation and putting chemical cocktails in your body without your consent; once they are doing all that great stuff, and taking your kids, separating them away from you, or your grand-kids, because you don't want to send them to school, oh you watch! They'll come hard!

Disarmament! Taking away the guns! Oh, watch! Watch! "Oh! The republican legislation will save us," Okay, okay, okay, all right! We'll see! They didn't do so well fighting for the world presidential power. I mean, this is the world seat right here! They didn't do so well here! We must be realistic, realistic!

This is what's so powerful about the Gospel and the word that Christ spoke! He spoke realistic. He said, "Get ready! *Pick up your cross and follow me! Are you ready to be scorned, mocked and persecuted for my name sake?*" He didn't say, "You're going to be loved, you're going to be praised." He told you that you were going to be persecuted.

Condemnations

You don't think that the people who were supporting the Founding Fathers, they weren't condemned? You don't think they had aunts and uncles that said, "Why are you supporting them? Britain is so much better!" You don't think there was pressure back then? Are you crazy? They were pressuring them like crazy; they were pressuring all those guys, George Washington, Paul Revere, the one with the lamp, hiding in Reverend Jonas Clark's church on the day where they had a meeting in the church. The place of meeting was the church; that's why they are called the Black Robe Regiment. It was so bad that the British called it "the Presbyterian Revolt!" They called it "the Presbyterian Revolt!" When they referred to the American Revolution, they didn't call it "the colonists' revolt." They called it basically the church revolt, "It's these crazy Christians who are going against us!"

Isn't it similar to what's happening? Oh yes, folks! So people must be ready; everyone must be ready! What happened on 1. 6. 21 was amazing; it was an amazing spiritual stance. They want you to condemn it immediately. Whatever we are saying, they want to condemn immediately!

You know what we condemn?

We condemn stealing our presidential elections,

We condemn taking away the votes, stealing in front of everybody's eyes, doing that international crime in front of every eye; that's condemnable

Putting an emperor in a republic, that's condemnable! That should be condemned!

Burning down cities for four years; calling Trump supporters "Nazis," that should be condemned!

No! No! Everybody forgot about that already! Everybody forgot about that! See how putting pressure works?

No! We have many things we should condemn about the left: how the RINOs Nazis on the left have colluded against free speech, culminating in an incredible steal that is unprecedented in our history, unprecedented! And now there is a change from a republic to an imperial system. Where will we be with that kind of history? Nowhere safe, right? We can't run away anywhere!

But we are down there of course praying for the country, and of course here in Texas there is a strong conservative presence, and we're praying that the conservatives in Texas remain strong, and the other states that are strong remain strong and don't get bullied by the left and its Nazism.

Strong spiritual stance

That's why it's important for us to understand that history. Even George Washington condemned the Boston Tea Party! Later he retracted it because he knew, "Hey! We had to stand up against this!" Could that not be teaching us? Because we are seeing that right now! 1. 6. was an amazing spiritual stance against evil! It was Abel side saying, "No more! No more! No more! We're not going to let you take over our lives, take our grandchildren and govern our destinies! It was a spiritual stance more than anything, and that spiritual stance resulted in actually standing in that place and taking dominion of that place spiritually, and even on the Capitol grounds etc, on the grass and everything; surrounding it, exercising our First Amendment rights, but really surrounding it in an epic, epic situation!

This of course turned out to be bad for the one lady who was killed by the secret service and a lot of troubles for the people who got lured into going into the building by the county police, or whatever it may be! But generally speaking, it was a tremendous spiritual stance; tremendous stance! It was a message to the entire international Marxists, the big tech, Zuckerberg, all the international groups now aiming at America to destroy her. It was a message, "No, No! It won't be just ten people, or it won't be just a small militia. It will be millions of people that will be standing against you!" And this is important! This is very important spiritually to show that. Why?

Because these occultists, these people at the top of power and these Satanists at the top of power, they are into symbology. They've always been; from Horus in the Egyptian world, to the ancient Assyrians, the Babylonians, they have always been into symbology, and the power structure loves symbology. Because internally they're weak and internally they know they can't rise to power through honest means. So they have to do it through occult means, through secret means; through learning the dark arts and giving their soul over to Satan, so they can get to the top. Right? And symbology for them is critical; symbology is critical! That's why they create all these structures, like the Horus, the obelisks or these kinds of things. Symbology is big, big, big for them!

What happened on 1. 6. 21? There was an enormous symbological event; enormous! There were millions of people that said, "No!" to the Satanists and their system. That image they cannot remove from their minds; that's why they're condemning so hard. That's why they're accusing us of violence and condemning so hard! That's why they're saying, "This was terrible, the worst, darkest day in history!"

Oh! Okay! When your cities are burning down literally, burning down because of BLM and Antifa, that's not a dark day? Okay!

When a little white child gets shot in the face for being white, that's not a dark day? When you call 80 million plus Trumpers, Nazis for four years, getting randomly punched in the face

walking down the street, or getting attacking and shot in the back like our friend Joey Gibson's friend got shot just wearing a Trump hat, no no that's not a dark day!!!!

A dark day is when people are exercising their First Amendment rights, standing in front of the Capitol and saying, "No!" That's a dark day, right? Uh, uh! You see how that works? That's a dark day!

That's what we call the GTD, the "great and terrible day" - great for God, terrible for Satan!

Because symbolizing, they saw a huge image. They never can remove it from their minds; they cannot take it out. That's why they're going to be panicked; they're scared. And that's why they're going to attack and hit hard; just like cowards always do! When they get panicked, they're scared, they want to try to go harder; but in going hard what do they do? They lose control. Their emotions start taking over and they make tons of mistakes.

That's exactly what the British did! They started going overboard and as they started going overboard, the Boston Tea Party which was widely condemned started becoming heroic, because now people started feeling the angst and the pressure and the control that was coming on them, and they said, "Hey! Hey! Hey! It's not good, man! It's not good!" You could see that building up.

They hate God

We're living in that same period of time, folks, right now; right now. The stakes are higher because obviously if America falls the whole world falls to China. The demonic atheistic, organ-harvesting satanic regime will take over, being the proxy army of the UN and the international Marxist organizations. They will be vicious and brutal; our grandchildren will have to live under that! Do you understand? The stakes are very high; very, very high!

But understand, even though they're trying to shame you now, and even though they're trying to make you feel guilty for supporting Trump right now, understand why they're doing that: because they are scared! They're scared! Because what happened on 1. 6 . shook them to the core; it shook them! You saw the most powerful people in this land cowering under stairwells. You saw them come out and say, "This is a temple!" They called it "a temple!" That building, they call it a temple, "The temple of our democracy." They're using religious language to describe that place, which is not supposed to be religious. You understand? Because it's their religion! The worship of the state and they as the demigods is their religion, folks! The same with the Assyrians! The same with the Babylonians! The same with the Carthaginians! The same with the Egyptians! The state becomes god.

And that's why they hate Christ! They hate those who follow him because we don't worship the state, we don't worship those buildings. We worship God who lives and dwells within us, "*Hagio Pneuma Kai Pyr*" the Bible speaks about the Holy Ghost as fire! It has power; real power.

And that's because we are humans. Not these crazy androids and trans-human things that they're trying to make merge with machines and have smartphones in your brain. That's not a smartphone, folks! You become dumb doing that stuff; you can get hacked!

God's hands & feet

No! No! We become real humans made in the image of God. Our will is His will, giving ourselves over His will!

The Bible says we are the hands and feet of God. But you have people who say, "Oh! It's all in God's hands!" But hello! Who are His hands? The hands and feet of God are supposed to be His believers! You see this too with the body of Christ, "Oh! It's in God's hands! That's why I'll just be waiting here and eat popcorn; watching what goes on!" No! No! You're not participating in His hands now!" We are the hands and feet, and if you say, "It's in God's hands," that means it's in the hands of the people that follow Him. Not fully; I'm not saying fully. But partially, yes! People have a portion of responsibility.

Watch as the left goes tyrannical, as they start the disarmament process, as they start passing the laws, as more mass mandates come, and the killing of the middle class continues, and we're going to be pushed into economic slavery, forced vaccines and all that craziness which literally is only in dystopian movies, but now it's coming; you watch people. Their frustration will start rising again, and all the people who condemned 1. 6. they'll be watching those pictures saying, "Man! Those guys did something: they did something!" and the Spirit of God will start speaking, and they will realize that we are in trying time, and it requires bravery; it requires courage and discernment to be able to cut through the bullying and the constant lambasting.

Now all conservatives will be called cultists. We've been called that for years; we're well trained! Yeah! It doesn't stop us at all! Now normal conservatives are called cultists! Now they know how we have felt for years, but we were fighting the communists, hard, hard, hard!

I'm not laughing like I'm happy about that. The point is: it's going to be a dark time, but guess what? It's a time where it's like a fire. The Bible says, "*Iron sharpens iron.*" (*Proverbs 27:17*) Fire forges us; it makes us stronger. That time of tribulation is coming. It's like a fire; it's like heat treatment on the sword, creating that strength that is required.

Exposed

So we must not be foolish, "Oh! You know !!" President Trump's not God, folks! He's not the messiah! We never believed he was the messiah, right! He's just a man that God uses at this time, and he's done a tremendous job at the operations that God wanted him to do.

He's exposed the media,
He's exposed the justice system,

He's exposed the RINOs,
 He's exposed big tech,
 He's exposed all those things;
 He's exposed that we don't live in a free country, and if we don't stand up for it, we will become China.
 He's exposed those things and that's important; that's a critical, critical, job that he had to do.

But now again, it is in the hands of the people. The people have a portion of responsibility to defend their land and their country. So it's not only about like, "Oh! We could just vote for this candidate. He's going to do everything for us; he's going to be like a savior." No! No! God is calling the normal person now, not to be a savior but to stand with God the Savior, and stand up against evil. Amen!

So, don't believe the fake news media. If MSNBC and even Fox News were alive at the time of the Boston Tea Party, they would all say, "We all condemn the Boston Tea Party! Terrible! Terrible! Condemnable action was taken. Tea was thrown into the water!" They would be on it 24 hours a day, "Supporters of the Boston Tea Party....." They would be doing that all day long!

Spirit of 1776

Same thing we see now. As it gets worse, people will look back at 1. 6. with totally different emotions, totally different spirits. They will see that something happened; there was a shift in the atmosphere, a shift between the powers of good and evil. Some shift happened, change happened; something that was never done in American history!

Conservatives always say, "Oh! We're always law-abiding! We're just law-abiding! We're law-abiding!" But at the same time you say, "Well if the laws aren't constitutional, they are no laws at all!" But then you say, "We're always law-abiding!" No! No! Because at some point, as for our Founding Fathers, there are so many laws that are unconstitutional that you say, "Those are not laws!" But you can't speak out about it!

Something happened in the atmosphere. When we look back, watch! Watch as we go down this path of persecution! Watch! People's attitude will start changing about 1. 6. Something great happened on that day! I'm actually proud of all the brave spiritual soldiers that were there! I'm proud of every single one of them! Some of them fell into the trap, but hey, they stood up for a mission and purpose which was way greater than them; way greater than them! They stood up for this country, the Constitution! So it is the will of God for the people, His hands and feet, to stand up, even though it's been widely condemned; again like the Boston Tea Party, which was the beginning of America, folks.

Even Washington, fifty years later, he admitted, “The Boston Tea Party was the beginning of our country!” That’s how it works! That’s how it works! So, don’t buy into the propaganda, folks!

All the folks who were down there, we are not perfect, we are not heroes, or anything like that, but we felt gravely to stand up for something, and now we have to eat the condemnation. Yeah! We’ll have to eat it for a couple of years. Now they’ll be playing this on a loop, endlessly for months and months and months, trying to guilt-shame everybody, while they put on the lockdowns, while they do the forced vaccination, while they make you feel guilty for being American, while they make you guilty for saying “father and mother,” while they make you....! You understand all that craziness!

But you watch! The Spirit of God will start rising up in the hearts and minds of men once again, the brush fires will be set ablaze in the hearts and mind of men and women. They will realize that, “Oh! My gosh! If we continue down this path and get bullied by their rhetoric, bullied by their propaganda, bullied for even trying to stand up spiritually against them, we’re not going to have anything at all!”

And then

The spirit of 1776,

The spirit of the Founding Fathers,

The spirit of bravery and courage,

The spirit of submitting yourselves unto God but “*resist the devil and he will flee,*”

That spirit of James 4: 7 will start rising up in the people again!

Because this is the last bastion, folks! We have nowhere else to reside in this world. This is it! Nowhere to run to; nowhere to hide!

So, we salute every single one of our patriots here, those joining us online or watching later; we salute every single one of you. Don't let the media bully you into submission! It's when the fight is hardest, when you want to give up, and the other guy is hitting and punching, and you're going to get beat that you can't give up then because the stakes are too high.

Not only our families are on the line; our grandchildren are on the line, our country is on the line, freedom is on the line worldwide, folks! The states are huge, and we are in epic times. So we got to be epic people, folks; we got to be epic! We got to be epic people in epic times! Praise God!

Let's all pray!

Pastor Sean's Prayer:

God, we thank You for this day! We thank You for this word that You've given us.
 Thank you for the study of Luke 3, that we must be brave in this time of tribulation. Father, the word said *You baptize us in the Spirit, the Holy Spirit, and with fire*":
 the fire that burns that burns away our sin
 the fire that burns when we are in doubt
 the fire that burns when we are in fear
 the fire that burns anything, the lack of courage, or whatever it may be.

Because You said You have "*not given us a spirit of fear, but of power and of love and of a sound mind*"

You've given us power, God, and authority
 You've made us kings and priests as Your Scripture said.
 You've given us authority over the satanic world and over Satan and his hordes.
 So, we must not be intimidated by them. We must not come under their subjugation and their dominion. We must take our lawful position and spiritually place ourselves upon them.

As Your heirs, as Your children we must stand above them and say,
 "No!

We will not let you take the keys to the Kingdom!
 We will not let you take the keys to righteousness!
 We will not let you run rampant over us with evil, with licentiousness and wickedness, and a wicked civilization!

We will resist that and
 We will exhaust every legal mean
 We will exhaust every peaceful mean
 We will exhaust everything just like our Founding Framers did for this unique place that was founded because of our brave Founding Fathers. They were not perfect they had the sin of slavery that was inherited from the British, but still they did something incredible and they were the hands and feet of You, dear God!

So we are living in epic times! Yes, we can be all depressed and scared that tyranny is coming, but at the same time we can be brave, God; for
 You said in Your Word, "*Be strong and of good courage!*"
 You said, "*Be a good cheer for Christ has overcome the world.*"
 You have told us, "*Death where is thy sting? Grave where is thy victory*" for Christ has overcome!

And we must have that overcomer spirit this time! We must not be bullied and beat down and dug in the grave and thrown in; we must be able to stand up against this! First in the spirit, and always in preparedness of the body, and our families and our community!

So, God, we thank You that You are leading us at this time, a time when dark storm clouds are gathering on the horizon, but we know that the solid rock, the boat on which we are riding is driven by You, is being steered by You, is being captained by You!

And we have faith; we have faith as You said in Matthew 6: 33

“Seek ye first the kingdom and his righteousness and all things shall be added onto to you.”

God, that's what we seek! As Your hands and feet, we seek Your kingdom; we seek Your righteousness!

Let us be the brave armor of God that can protect this country!

Let us be the brave soldiers of God that can resist the devil!

Let us be those who are not just getting swayed in the wind, but those who are remaining strong on the foundation which is Christ!

So, we thank You God, because we can't do it on our own strength, we can't do it on our own weakness; but in our weaknesses as Paul says, You make us strong! We may not crave for our own glory, but for You; that Your greatness can all the more shine forever!

Use the Fire of the Holy Ghost

To take away the shame of the patriots,

To take away the doubt of the patriots,

To prepare them for a long haul and a painful haul, but,

One that in the end stands for righteousness,

One that stands for Your Kingdom,

One that stands for the principles of Your kingdom that are in the Constitution!

So, we thank You God! We thank You for gathering all the folks from around the world here in this one place. It's like a microcosm that is standing up for goodness and freedom and righteousness. And even though we may not be perfect, we thank You because You and Your perfect love have guided us to be epic people in this epic time!

We thank You! We give You all the praise and glory this day, and we want to have Your blessing upon all the folks that gathered here, and traveled long and far to come here to gather in this place!

And then once again, Father, we give You the praise, glory and honor with all the kings and queens gathered here, and all the precious people of God, all the children of God gathered here!
In Your precious name we pray,
Amen!
