

## Pastor HJ Sean Moon

### 2<sup>nd</sup> King at Liberty Rock, Texas

Feb 6, 2021

We are here in Texas joining our Newfoundland community. Hey! Everybody!  
Let's go to Luke chapter 8 today and verse 16.

#### Luke 8:16-21

*16*"No one after lighting a lamp covers it with a jar or puts it under a bed, but puts it on a stand, so that those who enter may see the light. *17*For nothing is hidden that will not be made manifest, nor is anything secret that will not be known and come to light. *18*Take care then how you hear, for to the one who has, more will be given, and from the one who has not, even what he thinks that he has will be taken away."

*19*Then his mother and his brothers came to him, but they could not reach him because of the crowd. *20*And he was told, "Your mother and your brothers are standing outside, desiring to see you." *21*But he answered them, "My mother and my brothers are those who hear the word of God and do it."

Everybody says, "*Do it!!*"

Let's go back to verse 16 and the lamp. Now this is interesting, because this metaphor of the lamp is not only used through Scripture, but also in the 9th century John of Damascus used the metaphor of the sun - similarly, emitting light- used the metaphor of the sun to explain the Father, Son, and the Holy Spirit.

So, we have the sun - that we cannot see today because it's a little overcast; we imagine we have the sun up there, boom! The sun is burning and the sun is its own entity; but from it comes this light. The light emanates from it; the energy, the solar radiation comes out from it. So you have the light that comes out from the sun, and then when we get touched by that light, we feel the warmth of that light. Everybody understands that?

So you have the sun and then you have the light from the sun. The sun would be like the Father and the light would be like the Son who actually comes and touches us, and then the warmth from that light would be the Holy Spirit. Isn't that interesting? That's an interesting metaphor!

But anyway the point is: Christ even said he is "*the light of the world*": he used the metaphors of light and dark.

### **The angel of light**

Now, many times this is made to be taken in an evil way; a lot of occult traditions and freemasonry and all this kind of stuff, they try to bring people to the light of Lucifer. Lucifer also comes from the word *lux*, the Latin root word which mean light. Lucifer also means "the angel of light"; but he has a false light. He tried to separate from God and produce his own light.

But from Christ comes the real light; the light that lights up our life! It gives it purpose, meaning; it gives us power to operate with the Holy Spirit. Amen!

It's interesting because a lot of the dangerous satanic cults try to lure kids in by saying, "Well, you're going to find the light! If you go through this free masonry, or you go through this occult thing, you're going to gain power and you're going to learn magic!"

Another way they'll try to suck you, young people, in, is to try to stimulate the magic. Because you saw the movie *Harry Potter* and Harry Potter is so powerful. He can wave a wand; tidal waves will come up and earthquakes will open the ground. So they're trying to feed you that false power; they're trying to give you that false power and say, "Hey! You know who will give that power to you? It's this light! This light will give you power!" The problem is: Once you try to get that power, you find out in the end that it's Satan. Satan is trying to lure young people and young kids into worshiping him, to give them temporary power which is not real power.

Because real power comes from the Holy Spirit, and real power comes with God living within us; having powerful life and mission and purpose, fulfilling the purpose of creation, and returning joy to God! That's power! Amen!

It's not power when you can do fancy things or make illusions; that's all trickery. The magicians do the big stunts on TV; they make these things disappear or they can read the numbers telepathically. That's what they're trying to do. But, of course it's all illusion; it's all illusions and it's tricky. That's what the Devil uses.

You have to be clear about this. You have to gain power, and you will have power in the light. You see we don't try to worship God to get power. Amen!

**The purpose of loving our Father is not power; the purpose of loving our Father is for a relationship of give and receive action in love!** That's the purpose. It's to have an awesome, tremendous relationship with our Creator. He is our Father and He loves us; we're made in His image. That's the power!

Because, see, then the Devil -worshippers and all the different occultist magicians they got nothing on us; they have no power. Even when Jesus cast out the demons they said, "*Oh! We know Jesus, we know Paul but we don't know this guy,*" because it was another guy that was trying to cast out demons in Jesus' name.

They don't have real power okay; they don't have real power. But they will lure young people in, because when you're younger, especially you, younger boys, you boys are still small and you see adult males are big; so you feel like, *"Oh! I want to become big like my daddy,"* or, *"I want to become big like him so I can have power!"* The Devil will always be trying to pull you in, just saying, *"Hey! I'll give you power; power!"*

And remember, the Devil won't be coming across with red skin and two horns and a humongous black ram's head horns, and he's like a 280- pound muscle man coming in, *"You must follow me!"* No! No! The Devil's not that stupid; he's clever. He's going to be a good- looking nice guy, who speaks really nice and he's really nice to kids! Right; that's the Devil! He's not going to be stupid like that, right; he's going to try to lure you in to trust him, and then try to get fake power through him. But really what will be happening is then, you end up becoming consumed by evil and worship of self; and then of course that leads to destruction.

So we have to be careful because there is a difference with the light of Christ, which leads us into a relationship with our Creator, and with love and understanding liberty and understanding gifts of freedom and protecting people. This is the power! But they don't want you to have that! They want you to focus on self-aggrandizing power, and then through that they have control over you. Because they'll make you use that self-aggrandizing power to do bad things; and that's how blackmail works.

That's how the Communist Socialist political Satanists always entrap people! It's by giving them power and then forcing them to get in, in order to get more power, forcing them to do bad, evil things. And then by doing bad, evil things then they say, *"Oh! We got this on camera, and now you will do what we tell you to do!"* Are you with me, folks?

### **The light of Christ**

The light of Christ is a different type of power; the light of Christ doesn't give us just temporary power. It gives us the relationship that we have with God; it gives us that power through that relationship. That relationship stimulates within us our true nature which is made in God's image; which is what? God is love and we have more love in our heart, and then we want to do what?

We want to protect people,

We want to bring people to Christ;

We want to bring people to salvation,

We want to bring people.

We want people to be awakened! Amen!

That's real power, because now you're influencing the world; now you're influencing other people's eternal souls and lives.

So in this chapter 8 Luke is using the metaphor of the light of the lamp, and he says, *"This lamp, we're not going to just hide under the bed; we're not going to just cover it so it can't be seen. The light has to be seen."*

but again it's not our light. The Devil always says, "*Oh! I will make you powerful, and from you will come the light!*" No, no! No, no! The Bible says any of our "*good words are like dirty rags.*" It's only when we have Christ in us that we have super, super power.

More than any He-Man, more than any Avenger, more than any modern or ancient superhero! It doesn't matter; it doesn't even come close. Because they're all fake; they're all fake gods, and they're all superheroes that are not connected with a relationship with God, the Father. Amen! But we are! That's why the person who is in Christ is greater than any superhero you see on the silver screen- that means at the movies. Anybody who is in Christ is already greater than Spider Man, Batman, He-Man, Superman, Captain America; of course we got Iron Man.

The point is: It doesn't matter!

The point is: Already you're on a higher level than them, if you have Christ, if you have God. Amen! And you're not living for your own self; you're living for His purpose. You're living to make Him be happy and have joy; and that gives you joy. You see, this is win-win. When we serve God then we become happy; we fulfill our life purpose as well, and we feel the joy from that. God also feels joy from that and we can reciprocate that; and that's power, power, double power, rotating power, reciprocating power! There's power!

But again the light has to be put on a stand, so that as you see in that scripture, anyone who enters in can see it; anyone who enters into that room can see it.

### **The light on top of the hill**

There's also another metaphor in Scripture that "*the believers should be the light on top of a hill.*" That's another metaphor that Christ used for believers, and many times that's also a metaphor that we use for America. America should be a light on top of the hill. That's a biblical reference, that's a biblical metaphor saying that America should live up to its Judeo-Christian purpose, fulfill its mission in God, fulfill its mission protecting liberty and the constitution; and all those things that were founded by the Founding Framers in the Judeo-Christian culture of "*loving God and loving your neighbor.*" Not oppress God and eat your neighbor!

These are very different things! Right! You young kids, if you were in public school you'd be brainwashed by what is called "cultural relativism" - cultural relativism. That's the philosophy that says that everything is kind of the same; all different pathways go up the same mountain! That's not true! Are you telling me that love your neighbor is the same as eat your neighbor? Is that the same? No! They are very, very, different; very different pathways, very, very, different pathways! One is totally evil and totally wicked i.e. eat your neighbor is evil, evil, evil. One is love your neighbor, protect your neighbor; that is benevolent, that is good. That is in the heart and image of the shepherd who is Christ, and who is Jesus, who is True Father who is one with God. Amen!

So we have to be able to decipher these differences and we have to be able to see that God wants us to become a light in the world; but again it's not our light because our light can be corrupted by Satan. Amen! But it's a light that's within us; then God can shine through us.

### **Find your God-given talents**

That's why God gives each and every one of us different talents, different ways in which to glorify Him, and you young people will have to find that out. That's one of your homework in your life. Remember Appa used to talk about that: one of your homework in your life is to find *"What is the talent that God gave me, where I could do better than anyone else?"* What can you be best at in the world? Your Appa always was teaching that, many years; he was teaching you that, boys and girls, all the time right. *"What's the number one thing you can do better than anyone else?"* Find that out! There's a talent God gave you that is different from your brothers' and different from your sisters'; it's different. Every single person has a different talent.

And there are levels too! Some people are given the blessing of being seven- foot- three inches tall! Now they can play in the NBA at a higher percentage than somebody who's 5-2; now you may want to play in the NBA, but if you're 5-2, chances are you're not going to be playing in the NBA! Is that true? It's not because God is unfair, or anything. People have different gifting. Maybe that five- two guy he wants to play in the NBA, but maybe God wants to use him in a different way. Amen!

In the same way, God gives you a particular talent; He gives a particular skill or whatever it may be. But you can't just use that skill for yourself; you have to use that skill to serve others. And now when you use that skill to serve others and bring joy to God, and you have that synergy where you're glorifying God, and at the same time you're serving others, at the same time you are exercising that skill and developing that skill God gave you, now you got power going on! Now Christ's light is shining through you!

And if you have the strength on top of that to testify to Christ, to testify to our Father with those talents, with those networks, with those friends that you make, with those customers that you make - whatever the case may be- then you have power! Now there's light pouring through you! Even though you may not see that light, there's light. God sees it; it's pouring through you. Are you with me, folks?

That's important! We have to find that! That's why God said you got to put it on a stand. You got to put it on a stand and it has to be shining; so that when people come into that room they can see it.

### **Socialism, Communism, political Satanism**

Now you look at the world at the macrocosmic level, there is a very dark world that is being corrupted by Socialism, Communist, political Satanism. What is that ideology based on? What's Socialism and Communism based upon? Some of you, young kids, if you know you can answer. What

is Socialism, Communism based upon? It's based on what? Immorality! Is it based on morality? Is Socialism, Communism based on morality?

No! It's based on immorality! Why? Because the fundamental principle of how the system works is that they have to rob the people who are producers, to bribe people who are not producing to then buy votes. You see? It's based on immorality. Its fundamental system and ethical framework if it has any -it doesn't really have ethics; it's unethical- is theft and deceit. It's tricking people, right, lying to them. Then, *"Vote for me! Oh! We'll give you this; we'll give you that, if you vote for me! We'll give you this; we'll give you that if you vote for me!"* Right! It's based on lies, deceit, trickery, illusions, theft; but way worse.

On top of all that it's also based on what? Coercion; based on force! That's why Socialism, Communism always tries to centralize government. Because then it gives it unlimited power- that means force; unlimited force to make people do whatever he wants them to do.

So if they want people to jump up ten times in the morning they can do that. If they want people to wait in a bread line and a milk line that's three hundred meters long, they can do that. Because they've concentrated all the power and force to themselves; they've disarmed the public, and they can make people do whatever they want. Basically, people become slaves.

And these people are not stupid; these people know what they're doing. Especially when you look at the international Intelligentsia who supports this kind of Socialism, Communism, and political Satanism, they are many times very much into human behavioral studies and human psychology. So they like the studies on psychology and behavioral psychology which shows how human beings behave.

They have the experiment where they have random people come in. As long as there's a doctor in a white jacket telling them to turn up the notch to electrocute a person in the other room- there's not really a person in the other room- they tell them, *"Oh! There's this person and you're just turning up the electricity and increasing the pain threshold, the pain that is induced by the electricity."* Okay! Now what's astounding is that an amazing proportion of people -in some cases it was more than 90 % of the people- would obey the doctor's orders to turn it up so high that the person would be shouting and screaming in horrifying, terrifying screeching, and then die. But the people would do it; they would turn up that notch as high as the doctor told them, as long as the doctor was an authority figure and he worked for some type of government agency!

Now they've done these studies, and that's why they know human beings will follow orders. That's the whole thing with the coronavirus! The whole thing with the corona thing is trying to push people; how far will they obey? We tell them: *"put a mask on now!"* Then next week we'll tell them: *"it doesn't work,"* and then next week we'll say: *"you'd better put it back on, and in fact now you've got to put two on before you ride a plane!"*

Then what's the limit on that? Is it two; is it five? Is it ten? Well, we know that a virus has .01 microns, which means none of that cotton will stop it anyway! You see? It's all about the condition they're trying to induce on the people, to make them do what? Does that empower people? Does that make them stronger individuals? Does it make them a more godly people? Does it make them better Peace Police, Peace Militia people who want to protect the neighbor?

No! It makes them more dependent, weaker, and more subservient; more obeying these random orders with no scientific basis, given by some government official. It makes them more like what? It makes them more like a king, or slaves. Slaves! Amen! So we know then, that is from Satan's side. Satan is using that to disempower, weaken the people; prepare them for his total domination, total control.

Now President Trump was the president that was standing against that, and we are all praying for President Trump because he's the duly elected president. Beijing Biden is a fake usurper and he's in there. He has a whole clown parade with all the people coming up and pretending that they're in the White House, and they need ten thousand military troops around them. Because they're so legitimate, they had 80 million ballots- which of course they did not have!

You're talking about the Dominion Voting System steal; you're talking about the vertical statistical jumps; all that craziness, okay! And everybody knows and even the Left knows that Beijing Biden didn't win. But they put him and they installed him.

### **America's righteous beginning**

So you have now in America the end of the age of the Constitutional Republic where we have elected officials, and now the age of Imperial America or the age of the Caesars, where unknown international leaders in these cabals can select and install somebody that will obey them. Did you know, at the time of Rome that was also the same thing? You know Pontius Pilate- remember the one who eventually sent Jesus to be killed - he was also installed by the different superiors of that area. King Herod was installed in his area. So these people, they always have been operating like this; Satan's systems have always operated the same way after the fall.

That's why at the fall there was so much hanging on the line. It was so important that Adam and Eve would exercise their free will; to what? Disobey God or obey God? They should have obeyed God. Not because they're slaves or not because they're robots, but because they love God; they love their Father! Because they see all the blessings He's given. Because they have an amygdala function and they have a brain and they have the ability to think, and to self-reflect. And they could have said, *"Wow! Look at all these things God gave us! Look at all these things! We have so many things to be grateful for!"*

But what happened? They wanted to focus on the negative. Satan wanted to come in and say, *"Oh! You can be like God! Oh! He's lying to you; He's not telling the truth! You could be like Him; you could be like*

*gods!"* He told it to Eve, and Eve fell with Satan. We know it's not an apple; it's an illicit relationship with Satan. She became his bride and then of course he defiled her.

That is of course the same way that a nation will fall! The Socialists, Communists, political Satanists will also come, just like Lucifer, and he will always seek what? The Eve figures in the land! That is the woman's vote. In politics you'll call it "the woman's vote."

Hitler also sought the Eve's vote to gain support; to trick them, to lure them in, and say, *"No! No! I'll give you power! Oh! What if your husband throws you away? What if he betrays you and she cheats on you with another woman? What if he does all this stuff? You see, I will be there for you; that's why you have to believe in me, get your welfare check for me; get your money from me. But you have to divorce your husband; first, you have to get rid of that man!"*

Because having a stable marriage and a stable family is bad according to Satan; because that is the rubric and foundation of society that is strong and creates good shepherds and good Alpha Males, and good Alpha Females.

No! Satan doesn't want that! He wants dysfunction, he wants instability, he wants husband and wife at odds with each other; he want children and parents at odds with one another. He wants all this chaos because then he can fight and conquer! Just like the British Empire in the colonial period! They have the system of domination and then of course oppression, disarmament etc. Eventually slavehood is the future that awaits those populations that are unfortunate to be under them.

That's what's happening now with America! They have the usurper in and he is trying to take over and destroy the foundations, the Judeo-Christian roots of this country; saying that America's founding was evil, instead of being:

A founding that was hopeful, and

A founding that was righteous, and

A founding that was honorable;

A founding that was for the liberation of all peoples!

Because even in the very beginning, they put in the clauses that they would get rid of slavery; but they had to keep slavery, because half of the country, the south, didn't want to participate, since they made money off of slaves in the different colonies. So they had to include that. But even Thomas Jefferson wrote in his letters, that he had the rubrics in there to get rid of slavery. Because they understood that was a sin and they had to get rid of it quickly, and they got rid of it within 84 -85 years -which was unprecedented.

But anyway, the point is: They had to fight a war, they had to win a war, and you can't win a war with half your people. So they had to get the people in, so they could fight Great Britain and they could win. So they said, *"Okay, we'll compromise with you, fine! We'll just keep that sin of slavery there, but we got to get this big beast of Britain off our back! Help us do that because we can't do it by having half of us; we definitely can't win against them. So you're going to have to help us out. Okay, fine, we'll keep that sin of slavery; it's okay!"* And they made that compromise.

But they fought the British for a righteous cause; eventually to make freedom and liberty, and to give that to every man, woman, and child who would call themselves American. America would be born upon these shores. And that is a righteous cause; that is a shepherd's cause!

They didn't do it to gain power!

They didn't do it to get political clout!

They didn't do it for money!

They didn't do it for rape, pillage, and plunder!

They didn't do it for those traditional ancient spoils of war!

They did it for the purpose of liberty! Amen!

They did it for liberty!

And that is a great spirit; that's a great heart! That is a spirit that comes from God. They did it to love God and they did it to love their neighbor.

Now the Left and the Communists are trying to say that America, even in the beginning, was evil; that in fact it wanted slavery and that it was based in racist white supremacy. And that's why all the minorities should hate all white people, and we should have more race divisions, and we should have more tribalism, and we should have more fighting between different skin colors!

No! No! No! You see, that's why they hate the Christian message; because in Christ, as Paul wrote, *"Neither Jew nor Greek, neither male nor female, neither slave nor free for all are one in Christ Jesus!"* Amen! Transcendence! That's what it means! With that relationship with Christ, then you transcend all the tribalism, all the pettiness, all the race wars, all the historical class division and class warfare, and pinning against each other; what the Leftists and the Socialists, Communists, political Satanists always do. It's their strategy.

But if humanity can unite around a figure who is Christ, who has ethics and teaches them how to become strong Alpha Males and Females and become great shepherds in his image, in the Chief Shepherd's image, to love God and protect civilization, to protect their neighbor; see, now they've got a powerful, powerful, powerful community that cannot be controlled, that cannot be oppressed. And if those people are Rod of Iron kings and queens, meaning that they're armed as well, and they're trained to protect one another; not in a centralized police, centralized military fashion, but in a decentralized police, decentralized military where everybody participates in everybody else's security, and everybody is training to become better, to protect one another, now you have a situation where they can't control. They can't put that civilization under slavery or the yoke of slavery!

What does Galatians chapter 5 say, *"It is for freedom that Christ has set us free; do not let yourself be subdued to a yoke of slavery!"* Amen! These are powerful words right there! Are you with me, folks?

So the light of Christ has to shine, and the light of Christ shines through us with power; but guess what? It doesn't shine through us just by ourselves; it shines through us through relationships, you see.

That's the most precious thing! The most precious things are not things; they're not accoutrements, they're not things that are material. Those are all facade; they are illusions.

The things that have power and that last eternally are what? Relationships!

#1: relationship with God

#2: relationship with our neighbors; fellowship with believers, fellowship with those who are in Christ, trying to save the lost etc

Those kinds of things give us meaning and power in our lives, and the Devil doesn't want any of that. Why? Because if we have that, we're going to build strong communities; we're going to build strong networks. Each family is going to have a strong father, a strong mother, and a strong relationship with their children and each family is going to be like a spiritual S.W.A.T. team which the Devil can't destroy.

It doesn't mean that's going to happen naturally. We have to put in the work; we've got to do it. What does the Scripture say? He said, *"He who is my mother and brother hear the Word of God,"* and what? *"Do it!"* He doesn't just hear it; he does it! Amen!

So that's important! That's why training is important! That's why, when we do our training together, our Peace Police, Peace Militia training, we help one another, and we serve one another by training and serving the community, etc. Then we also are doing the work of *"Love God, love your neighbor"* We're not just talking about it, just hearing about it; we're also doing it! We are also improving our level as well, so that we can be better protectors for our neighbors and for our community. Amen!

That's why training is very important; training is very important! The Bible talks about the training of the body as good, and also talks about the training of the spirit as critical because we not only train the body. Training the body is one dimension of training, and training the body makes you strong, and makes you be healthy, and then able to be a good capable defender of other people. They are all important things. But you can have all that and be a terrible shepherd, because you're not giving credit to the One, God, who gives you that heart, and that shepherd's mindset.

We want to be those who are training hard, and we are learning things and we are unlocking the epigenetics that God has given us, and developing the talents that God has given us, but at the same time we are giving glory to God who has given these things to us, given these gifts to us because we didn't build them from scratch. They were there, they were latent; they were potentialities. They were gifts that needed our five percent responsibility cooperation, so that they could develop and grow and burgeon and blossom.

Then at the same time, while we're developing, we're giving glory to God; we're giving glory to the Creator who gave us those seeds of potentiality, seeds of power; but again not to use for our own self, but to use for what? The motto of Peace Police, Peace Militia is what? *"Love God, love your neighbor!"* That's the difference, right.

### **Satan's operatives**

Look at what the corona thing creates? The corona thing is breaking down people loving God and loving our neighbor. They're trying to shut down churches, they're trying to make neighbors rat on one another; they're trying to make neighbors snitch on one another. That means that you report another person if they got six people instead of five- as was a Canadian mandate. A totally unconstitutional, totally incredible power-grab, totally unscientific etc! If you have five people, coronavirus doesn't exist, but if you have six people then you got to a super -spreading event! Come on! It's ridiculous! Totally ridiculous arbitrary rules!

This is how Stalin did it, how Hitler did it. They made arbitrary rules, arbitrary rules. They made the people get used to a lockdown for a week, and then they freed them up. Then they made them get used to it for a month; they locked them down for a month, and they freed them up for another one, saying, *"Oh! Okay, we give it back to you."* Then they locked them down for three months. You see what I'm saying? And then a year and then two years!

It took ten years with Stalin to make people so conditioned that they would do whatever the government said. They had no more amygdala function, they had no more critical thinking; they had no more ability to say, *"Hey, wait a minute! This is craziness! Stop making these arbitrary rules and treating us like gerbils and hamsters! We are made in the image of God. We're not little rodents that you can do human experimentation with, etc!"*

We are made in the name of God and through Christ – remember chapter one says - we become kings and priests. That's not how you treat kings or priests! Don't treat them like gerbils, hamsters and rodents for human experimentation! No! But these Socialists, Communists, political Satanists were really led by atheists and real Satanists!

Many of their political operatives claim to be Catholics or Christians etc, but of course inside they're doing Devil worship etc. Hillary is known for doing Devil worship plus going to church and saying, *"Praise Jesus!"* She's on record saying that she would do both just to hedge her bets; that means simply that she just wants to bet on everything. She'll worship Satan, worship Lucifer; worship Jesus. It doesn't matter, because then she hedges her bets, and maybe she'll get lucky at the end.

No! No! God said in Matthew 7, *"There will be those who say, "Lord, Lord!" and prophesy in my name and heal in my name; those who chase out demons in my name. But I will say to them, "Go; go forth from me! I do not know thee!"*

You have people like Hillary, who say, *"Oh! Lord Jesus, yes,"* when she's in the church; *"Jesus! Jesus!"* when she's in front of a black church and she says, *"I got my hot sauce!"* which is a tremendous racist insult to Black folk; as if all Black people have to carry hot sauce around! It's ridiculous! It's totally absurd! But she would say those kinds of things! Unbelievable! We call them super- predators; totally racist, crazy, psychopathic statements!

Then she's going to Haiti to do occult Haitian witchcraft; that's her hobby down there in Haiti, and then running millions of dollars through the Clinton Foundation, embezzling millions of dollars, and of course allegedly human trafficking.

So those in power are in tremendous licentiousness and evil and wickedness, the levels of which people cannot even fathom or understand; because we think that they're like the normal people that we see, and they would never do those things. Normal person would never even think of doing those things, because it's just so crazy and so over the top evil!

But that's the point; these people, they like concentrating power, so they can be above all these laws. They can go into the crazy evil things and feel like they're getting away with it, and feel like they're special in the sense that they can do whatever they want and have no repercussions and act with impunity; which means that there's no consequence or repercussion coming down their way. And they feel like they're gods.

### **Logical fallacy**

But that's not how God behaves! God doesn't just do everything, right! When we talk to young people we say, *"Young people, can God do everything? You say He's omnipotent; that means He can do everything, He's all powerful. So, can He do everything?"* huh?

Then there's the old conundrum: Can God make a rock so big that even He can't move it? Huh? Can He make a rock so big that even He can't move it? Well if He can make a rock so ginormous -because He's omnipotent; if He can make a rock so big that even He can't move it, what does that mean? That means He's not omnipotent; because now He can't move the rock. Do you see that?

So what do you say when your friends start making fun of you and say, *"Oh? You believe in God! That's stupid wives' tale! That's stupid ancient mythology that your parents brainwashed into your brain; your pastor brainwashed into your brain! And you guys are stupid because you just did homeschooling, and you didn't even learn about anything; you didn't really get educated; etc!"*

And they're trying to make fun of you, and they're trying to say, *"Oh! You guys, how can you believe in this kind of mythological God, like Zeus, and in the Bible with all these fake contradictions, and the Bible with the fake gospels- blah, blah, blah?"* Then they try to tell, *"Well, if God is so great, then let's have Him make a rock that's so big that even He can't move it!"* Ah!

It's a very low -level argument by the way; it's a very low - level riposte. But anyway, if you're not prepared for this, you're going to think, *"Oh my goodness! Can God make a rock so big that He can't even move it? I don't know; I don't know! If I say yes, that He made a rock that even He can't move, that means He's not omnipotent! But if I say no, then I'm saying that He can't make a rock so big!"* You know what I'm saying? So either way you feel like you lost!

But it's not true; it's not true! See, they tricked you, they tricked you; they put you into a fallacy. When kids try to bamboozle you that way, many times their parents or the government schools would have pumped them with the ideas that they're a monkey. They should believe in evolution and then they should believe that they're an orangutan and an advanced biped, and that basically they're just an animal and a beast, and they have no real cosmic value, etc. They've been brainwashed that way into that cult.

So they actually think they're enlightened and they're powerful and they're knowledgeable and they want to make fun of you. But you see that, and you can see that's crazy; because the consequence of that -if you believe you're an ape- is that you're a beast and you're an animal, and then more advanced species can dominate you and you have no recourse. But they don't want you to think that's smart! They want you to think that's crazy, that's stupid, "*Oh! You're not educated, you're not educated; you've not been going to the schools,*" etcetera.

So, what do you say when those kids try to hawk you and try to bamboozle you? They'll say, "*What's your answer? Can He make a rock big enough that even He can't move? What's your answer?*"

Now, what's the problem with that whole line of argument? They've done what's called a "logical fallacy." All of you young people say "logical fallacy." Okay! They made a logical fallacy. Why? Can God make a square circle? What is a square circle? What is the definition of a square? It's definitely not a circle, right! A square has equidistant sides, 45 -degree angles on each corner, and they're equidistant.

Now if you start bending that, and draw on the paper... With the kids here for the workshop, we give them a piece of paper and we say, "*Okay! Let's see if you can draw a square circle!*" And you, young kids, you can try it all year long, you can try for eternity; you will never be able to draw a square circle! Never! Some of them think they're clever, and they try to draw a square in a circle, and intertwining! You aren't clever! That's bumb! That's not clever at all; you're never going to be able to draw a square circle! That's not going to happen! Why? Because it's a logical fallacy! You cannot have a square that is also a circle; because the definition of a square is equidistant sides, 45 degree angles, and that is not a circle!

A circle is a consistent radius which then when rotating upon the central axis creates a perfect circle with the same equidistant radius. Now you can't do that with a square, because as soon as you move that radius from here to that corner, it's longer! Ah, ah! It doesn't work anymore! Are you with me, young people?

So, can God make a square circle? No! Because that is a logical fallacy! It's not that He can't do it; it's a logical fallacy! It's like saying, "*God is going to make a married bachelor.*" A married person is what? Somebody who's married to a spouse, right? What is a bachelor? Somebody who is unmarried! So, can somebody be unmarried and married at the same time? No! It's not possible! That is a logical fallacy, and God does not do logical fallacies! Because all the mathematics of the universe, all the mathematics

and the constant conditions, and all the dials and levers are all perfectly balanced together with incredible exponential improbability

Dembski wrote a whole book on this, on the probabilities of cards. He shows that the probability and the pattern or the consistency of which that probability arises, will then make it vanishingly small i.e. totally basically impossible that all the constant conditions are perfectly aligned, the mass of the atoms, the mass of the electrons are perfectly aligned, so that none of it implodes, none of it collapses, none of the entropy or none of the thermodynamics of the universe. All that is held in the balance with all these levers and dials that God has put in place, that do not have to be there because of the laws of nature; that means they don't have to be that way because of the laws of the universe. They can be any other numbers, they can be randomly different numbers; they haven't been set at those particular numbers.

The point is: God who creates the universe with mathematics, which is also a type of logic, does not and cannot do logical fallacies, cannot just create square circles, cannot just create married bachelors; cannot just create rocks so big that He can't move them. See, those are logical fallacies, and those have no bearing on the omnipotence of God. Because when Christians talk about the omnipotence of God, they're talking within the known universe, and not anything that is a logical fallacy. You see?

But again if you're not prepared and if you don't understand these things, then the kids actually think they're smart but they're not; because they've been brainwashed with very low-level atheism and agnosticism- very low-level, very, very, low-level! But they think they're smart, because the normal Christian kids have no grasp on even this type of low-level apologetics, so they are bamboozled when these kinds of ripostes or when these kinds of rebuttals come in.

So, even the question, "*Can God make a rock so big that He can't even move it?*" Logically, it's a ridiculous question; this itself is an absurdity! It's called a logical absurdity- what philosophers call it! Just like "a married bachelor" would be a logical absurdity; just like "a square circle" would be a logical absurdity!

### **Love God, love your neighbor**

So, God wants us to be able to develop our talents and understanding of Him etc. But again, it's not only that! It's because He wants us to relate with Him and also relate with the world; meaning that we don't just go out there and just be relativists! No! We change the world by showing God's ethical framework and value; we change the world by being a better lover of God, but also a protector of humanity. That's what "*loving your neighbor*" means. It means even though you don't like them, you may still have to protect them; you may still have to protect them.

That's the whole ethics of a security guard or a shepherd or a policeman or a military person; that even though you don't like that person and that person may have a different religion or a different value set, you will still protect them, because you are in the image of the Father. It doesn't mean you agree with them; it doesn't mean you'll agree with that religion or that belief system. You can still say,

*"That's terrible! That's wrong and I hate what you believe, but I'm going to protect you, especially if deadly harm is coming your way."*

That is the ethics of the Peace Police, Peace Militia training! That's why True Father always took us out to nature and trained us in martial arts at a young age, and trained us to shoot at a young age, and had us driving and riding motorcycles and stuff like that! Why? Because this builds our innate abilities of unlocking our epigenetics, which then make us more capable people, and make us more able to handle many different scenarios and situations which we may encounter while we are trying to serve God and also love our neighbor. Amen!

That's why here at Liberty Rock as well, in the future, we will have wonderful training areas and catfish fishing and hunting training and workshops, study of the Word. Why? Because, through this all God wants us to manifest and also uphold; and what? Like the light on top of a stand, to shine forth what? His civilization, His love! His civilization is a manifestation of God's love!

The reason why the Cheon Il Guk Constitution, the Kingdom of God Constitution is what it is, is because of God's love; because He gives us the gifts of liberty! The Constitution protects those gifts of liberty, and people in the Kingdom have the rights and duties of kings and priests: to *love God and love our neighbor*; to be strong in Christ but also strong for our neighbors. Amen!

That's why everybody is out here in the wonderful, beautiful surroundings and creation, and out there fishing and out there on the boats, and out there hunting wild boars, etc. All these things help us unlock those epigenetics, allow us to become more capable citizens of the Kingdom of God, and help us to become more loving towards creation; thankful through creation to God the Creator, and deepen our relationship with Him, because we not only live to enjoy this stuff, we live to serve Him and to glorify Him and to bring joy back to Him! Amen!

That is what of course Liberty Rock stands for. It's that value and protecting of liberty, but also it's the Rock of Christ set on the principles of *"love God, love your neighbor."* So when people come here and enjoy the beautiful nature and also the training etc, we hope that they can connect with that ethical system of values that come from God, and that even our US Constitution is based upon.

So we have to pray for President Trump,  
 We have to pray for our nation,  
 We have to pray for all the patriots that are in America;  
 We have to pray for our military, that they do not obey unconstitutional orders by usurpers and by illegal officers; that they do not obey those unconstitutional orders to disarm the people and to put people in FEMA camps or do forced inoculations. These are all unconstitutional; these are all infringements upon people's rights!

So, we have to pray that our military and police do not follow those orders and they stand strong and they stand tall at this critical time when usurpers have been installed over this country to destroy it,

and then of course give power to the Chi-coms and the Chinese Communist dangerous organ-harvesting death systems, and death political Satanists.

We have to be praying hard this time, and at the same time we have to be fellowshiping hard and strengthening our relationships, and being there to help one another become stronger, and of course to prepare for the preaching of the Gospel, and to prepare for the coming of the Kingdom of God! Amen!

All right folks, we're going to sign off from you all in Newfoundland. Everybody, let's all rise and let's give the glory unto God! Hallelujah! Amen! Let's all rise and sing *Amazing Grace*!

(Singing Song *Amazing Grace*!)

Let's give glory to God! Hallelujah!

### **Pastor Sean's Prayer:**

Father, we thank You for this day, that we can praise You in the beauty of Your creation at Liberty Rock here, at this beautiful Texan ground. We thank You for this time that we get to worship and to reflect on Your Word to be a light on a stand and not to hide it underneath the bed or under a cover. But let Your light shine through us, and burn up any of us that's in the way, and let Your light shine through!

Enlighten the world, God, because  
It is You that is the hope!  
It is You that is the salvation!  
It is You that is the power!

So, God, we ask that You would fill us with Your Holy Spirit and fill us with a more powerful relationship with You, so we can know that You are in our lives, that You are leading our lives, and You are leading the footsteps, as You say in Your Word that, "*Your Word is like a lamp onto our feet and a light unto our path!*"

So, God we thank You, and we want to praise You! Father, we want to give You glory today. We thank You for all the sacrifice, the blood, the sweat, the crosses, the crucifixion You had to take; all the suffering You had to take, so that we could be free. That we could be Your children, away and free from the clutches and claim of Satan, so that we could have Your blood and Your lineage and be Your true children. Not that we're perfect, but that You have given us the tremendous gift of allowing us to stand in that position as Your children.

Let us do our five percent, and make sure that we are loving You and loving our neighbor, becoming better shepherds, and better in the image of the Chief Shepherd who is Christ.

We thank You, Father, for all the things that You are doing, all Your blessing upon this world, and even though we are in the time of tribulation and difficulty with usurpers that are trying to usurp the world,

We know that Your Word is true.

We know that Your light is true,

We know that Your Kingdom is true,

and that You have reigned victorious over death!

As 1st Corinthians says, "*Death, where is thy sting? Grave, where is thy victory?*" You have already earned the victory, and we give You all the praise! We thank you!

We pray that You would lead us through this time! We pray for President Trump, we pray for all the patriots; we pray for all the people who will stand for goodness at this critical time, *and "resist the Devil,"* as the Word said "*and he will flee!*"

We give You the praise, glory and honor; with all the kingship lines gathered here today.

In Your precious name we pray. Amen! Aju!

All right, everybody! Let's give glory to God! Amen! (*Applause*) Hug your neighbor! Amen!
